<u>Description of fiscal impact:</u> HB 270 extends the sunset date to June 30, 2027, for transfers from the general fund to the Natural Resource Operations state special revenue account.

## FISCAL ANALYSIS

## **Assumptions:**

- 1. Existing statute authorizes the transfers through June 30, 2027. HB 270 extends the sunset through FY 2027.
- 2. Appropriations from the account fund the following state functions in state agencies:
  - i. DNRC: Grant accounting; internal controls; financial and legal review; tracking and records management; accrual and accounts payable for the Renewable Resource Grants (HB 6) and the Resource Development Grants (HB 7); and funding for operations of the Flathead Basin Commission and the non-point source pollution projects they are currently working on.
  - ii. MUS: Operational funding for the Montana Bureau of Mines and Geology
  - iii. DEQ: Operations and administrative costs of the Mining Bureau in the Air, Energy, and Mining Division.
- 3. Expenditures from the account are funded each biennium in HB 2.
- 4. Transfers are made each fiscal year from the general fund to the account based upon the appropriations in HB 2 less any unencumbered fund balance and less the revenue received from other sources. The anticipated deficit in the account requiring a general fund transfer is estimated to be \$1,000,000 in fiscal year

2027.

	FY 2024 <u>Difference</u>	FY 2025 Difference	FY 2026 Difference	FY 2027 Difference
