25 the location of the urban area have been approved by the department of transportation and must be used to
26 determine city and county populations and road mileages in the following manner:

2 considering the total population in the county minus the population of any other incorporated city or town in the
3 county.

4 (ii) The city and county populations must be calculated by multiplying the total county population,
5 as determined by the latest official decennial census or the latest interim year population estimates from the

16 (a) 50% in the ratio that the rural road mileage in each county or consolidated city-county,
17 exclusive of the national highway system and primary system, bears to the total rural road mileage in the state,
18 exclusive of the national highway system and primary system:

19 (b) 25% in the ratio that the total number of acres of property enrolled in the block management
20 program established in 87-1-265 of each county or consolidated city-county bears to the total number of acres
21 enrolled in the block management program established in 87-1-265 in the state:

22 (c) 25% in the ratio that the total state and federal land area of each county or consolidated city-
23 county bears to the total state and federal land area of the state.

24 ~~(4)(5)~~ All funds allocated by this section to counties, cities, towns, and consolidated city-county
25 governments must be used for the construction, reconstruction, maintenance, and repair of rural roads or city or
26 town streets and alleys or for the share that the city, town, county, or consolidated city-county government
27 might otherwise expend for proportionate matching of federal funds allocated for the construction of roads or
28 streets that are part of the primary or secondary highway system or urban extensions to those systems. The

1 governing body of a town or third-class city, as defined in 7-1-4111, may each year expend no more than 25%
 2 of the funds allocated to that town or third-class city for the purchase of capital equipment and supplies to be
 3 used for the maintenance and repair of town or third-class city streets and alleys. The governing body of a town
 4 or third-class city may place all or a part of the 25% in a restricted asset account within the gas tax
 5 apportionment fund that is carried forward until there is a need for the expenditure.

6 ~~(5)~~(6) All funds allocated by this section to counties, cities, towns, and consolidated city-county
 7 governments must be disbursed to the lowest responsible bidder according to applicable bidding procedures
 8 followed in all cases in which the contract for construction, reconstruction, maintenance, or repair is in excess of
 9 the amounts provided in 7-5-2301 and 7-5-4302.

10 ~~(6)~~(7) For the purposes of this section in which distribution of funds is made on a basis related to
 11 population, the population must be determined annually for counties and biennially for cities according to the
 12 latest official decennial census or the latest interim year population estimates from the Montana department of
 13 commerce as supplied by the United States bureau of the census.

14 ~~(7)~~(8) For the purposes of this section in which determination of mileage is necessary for distribution
 15 of funds, it is the responsibility of the cities, towns, counties, and consolidated city-county governments to
