Section 3. Section 17-7-130, MCA, is amended to read:

"17-7-130. Budget stabilization reserve fund -- rules for deposits and transfers -- purpose. (1) There is an account in the state special revenue fund established by 17-2-102 known as the budget stabilization reserve fund.

(2) The purpose of the budget stabilization reserve fund is to mitigate budget reductions when there is a revenue shortfall.

(3) Except as provided in subsection (4), by August 15 following the end of each fiscal year, an amount equal to the balance of unexpended and unencumbered general fund money appropriated in excess of 0.5% of the total general fund money appropriated for that fiscal year must be transferred by the state treasurer from the general fund to the budget stabilization reserve fund. General fund appropriations that continue from a fiscal year to the next fiscal year and any general fund appropriations made pursuant to 10-3-310 or 10-3-312 are excluded from the calculation.

(4) The provisions of subsection (3) do not apply in a fiscal year in which reductions required by 17-7-140 occur or if a transfer pursuant to subsection (3) would require reductions pursuant to 17-7-140.

(5) If the transfer provided for in subsection (3) increases the balance in the budget stabilization reserve fund to exceed 16% of all general fund appropriations in the second year of the biennium, the amount in excess is transferred to the capital developments long-range building program account established in 17-7-209.

(6) By August 1 of each year, the department of administration shall certify to the legislative fiscal analyst and the budget director the following:

(a) the unaudited, unassigned ending fund balance of the general fund for the most recently completed fiscal year; and

(b) the amount of unaudited general fund revenue and transfers into the general fund received in the prior fiscal year recorded when that fiscal year's statewide accounting, budgeting, and human resource system records are closed. General fund revenue and transfers into the general fund are those recorded in the statewide accounting, budgeting, and human resource system using generally accepted accounting principles.
in accordance with 17-1-102.

(4)(7) (a) The state treasurer shall calculate the operating reserve level of general fund balance defined in 17-7-102(11). The treasurer shall first apply the excess revenue to reach the operating reserve level general fund balance, if necessary.

(b) Once the general fund balance is at the reserve level, 75% of the remaining excess revenue is transferred to the budget stabilization reserve fund, as follows:

(i) to the budget stabilization reserve fund, until the amount in the fund is equal to 16% of all general fund appropriations in the second year of the biennium; then

(ii) to the account established in 17-7-209, until the amount in the fund in excess of the amount needed for appropriations from the capital developments long-range building program account in the capital projects fund type is equal to 12% of all general fund appropriations in the second year of the biennium.

(c) After the transfers in subsections (7)(b)(i) and (7)(b)(ii) have been made, if the balance of the budget stabilization reserve fund exceeds an amount equal to 16% of the general fund appropriations in the second year of the biennium and the balance of the account established in 17-7-209 in excess of the amount needed for appropriations from the capital developments long-range building program account in the capital projects fund type exceeds 12% of all general fund appropriations in the second year of the biennium, then:

(i) 75% of any funds in excess of that amount must be transferred to the account established in [section 8]; and

(ii) 25% of the funds in excess of that amount remain in the general fund.

(5) After a transfer is made pursuant to subsection (4), if the balance of the fund exceeds an amount equal to 4.5% of all general fund appropriations in the second year of the biennium, then 50% of any funds in excess of that amount must be transferred to the account established in 17-7-209 and 50% to the general fund by August 16 of each fiscal year.

(6)(8) For the purposes of this section, the following definitions apply:

(a) "Adjusted compound annual growth rate revenue" means general fund revenue for the fiscal year prior to the most recently completed fiscal year plus the growth amount.

(b) "Excess revenue" means the amount of general fund revenue, including transfers in, for the most recently completed fiscal year minus adjusted compound annual growth rate revenue.
(c) "Growth amount" means general fund revenue for the fiscal year prior to the most recently completed fiscal year multiplied by the growth rate.

(d) "Growth rate" means the annual compound growth rate of general fund revenue realized over the period 12 years prior to the most recently completed fiscal year, including the most recently completed fiscal year."

Section 4. Section 17-7-140, MCA, is amended to read:

"17-7-140. Reduction in spending. (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least:

(i) 4% of the general fund appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 3% of the general fund appropriations for the second fiscal year of the biennium in October of the year preceding a legislative session;

(iii) 2% of the general fund appropriations for the second fiscal year of the biennium in January of the year in which a legislative session is convened; and

(iv) 1% of the general fund appropriations for the second fiscal year of the biennium in March of the year in which a legislative session is convened.

(b) An agency may not be required to reduce general fund spending for any program, as defined in each general appropriations act, by more than 10% during a biennium. A governor may not reduce total agency spending in the biennium by more than 4% of the second year general fund appropriations for the agency. Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund spending reductions required for the weighted average of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the appropriation item may not be reduced by more than 10%.
(c) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The report must be submitted in an electronic format. The office of budget and program planning shall review each agency's analysis, and the budget director shall submit to the governor a copy of the office of budget and program planning's recommendations for reductions in spending. The budget director shall provide a copy of the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations. The recommendations must be provided in an electronic format. The recommendations must be provided to the legislature in accordance with 5-11-210. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

(2) Reductions in spending for the following may not be directed by the governor:

(a) payment of interest and principal on state debt;

(b) the legislative branch;

(c) the judicial branch;

(d) the school BASE funding program, including special education;

(e) salaries of elected officials during their terms of office; and

(f) the Montana school for the deaf and blind.
(3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund balance for the biennium is less than:

(i) 4% of the general fund appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 1.875% in October of the year preceding a legislative session;

(iii) 1.25% in January of the year in which a legislative session is convened; and

(iv) 0.625% in March of the year in which a legislative session is convened.

(b) In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated supplemental appropriations for school equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount statutorily appropriated in 10-3-312, and anticipated reversions.

(4) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227, the budget director shall notify the revenue interim committee in accordance with 5-11-210 of the estimated amount. Within 20 days of notification, the revenue interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue interim committee prior to certifying a projected general fund budget deficit to the governor.

(5) If the budget director certifies a projected general fund budget deficit, the governor may authorize transfers to the general fund from certain accounts as set forth in subsections (6) and (7).

(6) The governor may authorize transfers from the budget stabilization reserve fund provided for in 17-7-130. The governor may authorize $2 of transfers from the fund for each $1 of reductions in spending but may not authorize a transfer that would cause the balance of the budget stabilization reserve fund to be less than 6% of all general fund appropriations in the second year of the biennium.

(7) If the budget stabilization reserve fund provided for in 17-7-130 is fully expended and the governor determines more spending reductions are needed to address the projected general fund budget deficit, the governor may authorize transfers to the general fund from the fire suppression account established in 76-13-150. The amount of funds available for a transfer from this account is up to the sum of the fund
balance of the account, plus expected current year revenue, minus the sum of 1% of the general fund appropriations for the second fiscal year of the biennium, plus estimated expenditures from the account for the fiscal year. The governor may authorize $1 of transfers from the fire suppression account established in 76-13-450 for each $1 of reductions in spending."

Section 5. Section 17-7-209, MCA, is amended to read:

"17-7-209. Capital developments long-range building program account. (1) (a) There is a capital developments long-range building program account in the capital projects fund type to fund capital developments and to retire general obligation bonds paid by the general fund.

(i) may be used to pay down the debt service on principal, interest, premiums, and any costs or fees associated with redeeming or defeasing outstanding general obligation bonds paid by the general fund for capital projects previously authorized by the legislature if allowed without penalty by the terms of the bond issuance and issued pursuant to state law; and

(ii) must be used to delay, forego, or reduce the amount of an issuance of general obligation bonds paid by the general fund and authorized by the legislature pursuant to state law only if the balance in the capital developments long-range building program account established in 17-7-209 is $100 million or more after reducing the account balance by:

(A) the amount needed for appropriations from the account; and

(B) the amount of funds used to forego or reduce the issuance of general obligation bonds paid by the general fund.

(2) Interest earnings, project carryover funds, administrative fees, and miscellaneous revenue must be retained in the account.

(3) The legislature may transfer unencumbered funds from the account only to supplement funding local infrastructure. For the purposes of subsection (1)(b)(i), funds are statutorily appropriated pursuant to 17-7-502(4) from this account.

(4) The state treasurer may temporarily borrow from the fund to address cash balance deficiencies in
the general fund. A loan made to the general fund does not bear interest and must be recorded in the state
accounting records. The fund may not be so impaired by a loan that all legal obligations against the fund cannot
be met."

Section 6. Montana local disaster resiliency fund. (1) There is statutorily appropriated pursuant to

Section 19. Coordination instruction. If both House Bill No. 587 and [this act] are passed and approved, then [section 3 of this act], amending 17-7-130, is void and 17-7-130 must be amended as follows:

"17-7-130. Budget stabilization reserve fund -- rules for deposits and transfers -- purpose. (1) There is an account in the state special revenue fund established by 17-2-102 known as the budget stabilization reserve fund.

(2) The purpose of the budget stabilization reserve fund is to mitigate budget reductions when there is a revenue shortfall.

(3) Except as provided in subsection (4), by August 15 following the end of each fiscal year, an amount equal to the balance of unexpended and unencumbered general fund money appropriated in excess of 0.5% of the total general fund money appropriated for that fiscal year must be transferred by the state treasurer..."
from the general fund to the budget stabilization reserve fund. General fund appropriations that continue from a fiscal year to the next fiscal year and any general fund appropriations made pursuant to 10-3-310 or 10-3-312 are excluded from the calculation.

(4) The provisions of subsection (3) do not apply in a fiscal year in which reductions required by 17-7-140 occur or if a transfer pursuant to subsection (3) would require reductions pursuant to 17-7-140.

(5) If the transfer provided for in subsection (3) increases the balance in the budget stabilization reserve fund to exceed 16% of all general revenue appropriations in the second year of the biennium, the amount in excess is transferred to the capital developments long-range building program account established in 17-7-209.

(6) By August 1 of each year, the department of administration shall certify to the legislative fiscal analyst and the budget director the following:

(a) the unaudited, unassigned ending fund balance of the general fund for the most recently completed fiscal year; and

(b) the amount of unaudited general fund revenue and transfers into the general fund received in the prior fiscal year recorded when that fiscal year's statewide accounting, budgeting, and human resource system records are closed. General fund revenue and transfers into the general fund are those recorded in the statewide accounting, budgeting, and human resource system using generally accepted accounting principles in accordance with 17-1-102.

(4)(7) (a) The state treasurer shall calculate the operating reserve level of general fund balance defined in 17-7-102(11) 17-7-102(12). The treasurer shall first apply the excess revenue to reach the operating reserve level general fund balance, if necessary.

(b) Once the general fund balance is at the reserve level, 75% of the remaining excess revenue is transferred to the budget stabilization reserve fund, as follows:

(i) to the budget stabilization reserve fund, until the amount in the fund is equal to 16% of all general revenue appropriations in the second year of the biennium; then

(ii) to the account established in 17-7-209, until the amount in the fund in excess of the amount needed for appropriations from the capital developments long-range building program account in the capital projects fund type is equal to 12% of all general revenue appropriations in the second year of the biennium.
(c) After the transfers in (7)(b)(i) and (7)(b)(ii) have been made, if the balance of the budget stabilization reserve fund exceeds an amount equal to 16% of the general revenue appropriations in the second year of the biennium and the balance of the account established in 17-7-209 in excess of the amount needed for appropriations from the capital developments long-range building program account in the capital projects fund type exceeds 12% of all general revenue appropriations in the second year of the biennium, then:

(i) 75% of any funds in excess of that amount must be transferred to the account established in [section 8 of House Bill No. 424]; and

(ii) 25% of the funds in excess of that amount remain in the general fund.

(5) After a transfer is made pursuant to subsection (4), if the balance of the fund exceeds an amount equal to 4.5% of all general fund appropriations in the second year of the biennium, then 50% of any funds in excess of that amount must be transferred to the account established in 17-7-209 and 50% to the general fund by August 16 of each fiscal year.

(6)(8) For the purposes of this section, the following definitions apply:

(a) "Adjusted compound annual growth rate revenue" means general fund revenue for the fiscal year prior to the most recently completed fiscal year plus the growth amount.

(b) "Excess revenue" means the amount of general fund revenue, including transfers in, for the most recently completed fiscal year minus adjusted compound annual growth rate revenue.

(c) "Growth amount" means general fund revenue for the fiscal year prior to the most recently completed fiscal year multiplied by the growth rate.

(d) "Growth rate" means the annual compound growth rate of general fund revenue realized over the period 12 years prior to the most recently completed fiscal year, including the most recently completed fiscal year."

Section 20. Coordination instruction. If both House Bill No. 587 and [this act] are passed and approved, then [section 4 of this act], amending 17-7-140, is void and 17-7-140 must be amended as follows:

"17-7-140. Reduction in spending. (1) (a) As the chief budget officer of the state, the governor shall ensure that the expenditure of appropriations does not exceed available revenue. Except as provided in subsection (2), in the event of a projected general fund budget deficit, the governor, taking into account the
criteria provided in subsection (1)(c), shall direct agencies to reduce spending in an amount that ensures that the projected ending general fund balance for the biennium will be at least:

(i) 4% of the general fund revenue appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;

(ii) 3% of the general fund revenue appropriations for the second fiscal year of the biennium in October of the year preceding a legislative session;

(iii) 2% of the general fund revenue appropriations for the second fiscal year of the biennium in January of the year in which a legislative session is convened; and

(iv) 1% of the general fund revenue appropriations for the second fiscal year of the biennium in March of the year in which a legislative session is convened.

(b) An agency may not be required to reduce general fund spending for any program, as defined in each general appropriations act, by more than 10% during a biennium. A governor may not reduce total agency spending in the biennium by more than 4% of the second year general fund revenue appropriations for the agency. Departments or agencies headed by elected officials or the board of regents may not be required to reduce general fund spending by a percentage greater than the percentage of general fund spending reductions required for the weighted average of all other executive branch agencies. The legislature may exempt from a reduction an appropriation item within a program or may direct that the appropriation item may not be reduced by more than 10%.

(c) The governor shall direct agencies to manage their budgets in order to reduce general fund expenditures. Prior to directing agencies to reduce spending as provided in subsection (1)(a), the governor shall direct each agency to analyze the nature of each program that receives a general fund appropriation to determine whether the program is mandatory or permissive and to analyze the impact of the proposed reduction in spending on the purpose of the program. An agency shall submit its analysis to the office of budget and program planning and shall at the same time provide a copy of the analysis to the legislative fiscal analyst. The report must be submitted in an electronic format. The office of budget and program planning shall review each agency’s analysis, and the budget director shall submit to the governor a copy of the office of budget and program planning’s recommendations for reductions in spending. The budget director shall provide a copy of the recommendations to the legislative fiscal analyst at the time that the recommendations are submitted to the
governor and shall provide the legislative fiscal analyst with any proposed changes to the recommendations. The recommendations must be provided in an electronic format. The recommendations must be provided to the legislature in accordance with 5-11-210. The legislative finance committee shall meet within 20 days of the date that the proposed changes to the recommendations for reductions in spending are provided to the legislative fiscal analyst. The legislative fiscal analyst shall provide a copy of the legislative fiscal analyst's review of the proposed reductions in spending to the budget director at least 5 days before the meeting of the legislative finance committee. The committee may make recommendations concerning the proposed reductions in spending. The governor shall consider each agency's analysis and the recommendations of the office of budget and program planning and the legislative finance committee in determining the agency's reduction in spending. Reductions in spending must be designed to have the least adverse impact on the provision of services determined to be most integral to the discharge of the agency's statutory responsibilities.

(2) Reductions in spending for the following may not be directed by the governor:

(a) payment of interest and principal on state debt;
(b) the legislative branch;
(c) the judicial branch;
(d) the school BASE funding program, including special education;
(e) salaries of elected officials during their terms of office; and
(f) the Montana school for the deaf and blind.

(3) (a) As used in this section, "projected general fund budget deficit" means an amount, certified by the budget director to the governor, by which the projected ending general fund balance for the biennium is less than:

(i) 4% of the general fund revenue appropriations for the second fiscal year of the biennium prior to October of the year preceding a legislative session;
(ii) 1.875% in October of the year preceding a legislative session;
(iii) 1.25% in January of the year in which a legislative session is convened; and
(iv) 0.625% in March of the year in which a legislative session is convened.
(b) In determining the amount of the projected general fund budget deficit, the budget director shall take into account revenue, established levels of appropriation, anticipated supplemental appropriations for
school equalization aid and the cost of the state's wildland fire suppression activities exceeding the amount statutorily appropriated in 10-3-312, and anticipated reversions.

(4) If the budget director determines that an amount of actual or projected receipts will result in an amount less than the amount projected to be received in the revenue estimate established pursuant to 5-5-227, the budget director shall notify the revenue interim committee in accordance with 5-11-210 of the estimated amount. Within 20 days of notification, the revenue interim committee shall provide the budget director with any recommendations concerning the amount. The budget director shall consider any recommendations of the revenue interim committee prior to certifying a projected general fund budget deficit to the governor.

(5) If the budget director certifies a projected general fund budget deficit, the governor may authorize transfers to the general fund from certain accounts as set forth in subsections 6 and (7).

(6) The governor may authorize transfers from the budget stabilization reserve fund provided for in 17-7-130. The governor may authorize $2 of transfers from the fund for each $1 of reductions in spending but may not authorize a transfer that would cause the balance of the budget stabilization reserve fund to be less than 6% of all general revenue appropriations in the second year of the biennium.

(7) If the budget stabilization reserve fund provided for in 17-7-130 is fully expended and the governor determines more spending reductions are needed to address the projected general fund budget deficit, the governor may authorize transfers to the general fund from the fire suppression account established in 76-13-150. The amount of funds available for a transfer from this account is up to the sum of the fund balance of the account, plus expected current year revenue, minus the sum of 1% of the general fund appropriations for the second fiscal year of the biennium, plus estimated expenditures from the account for the fiscal year. The governor may authorize $1 of transfers from the fire suppression account established in 76-13-150 for each $1 of reductions in spending."

Section 21. Coordination instruction. If House Bill No. 883, House Bill No. 587, and [this act] are all passed and approved, then the section of House Bill No. 883 amending 76-13-150 is void, and 76-13-150 must be amended as follows:

"76-13-150. Fire suppression account -- fund transfer. (1) There is a fire suppression account in the state special revenue fund to the credit of the department."
(2) The legislature may transfer money from other funds to the account, and the money in the account is subject to legislative fund transfers.

(3) Funds received for restitution by private parties must be deposited in the account.

(4) Money in the account may be used only for:

(a) fire suppression costs;

(b) fuel reduction and mitigation;

(c) forest restoration;

(d) grants for the purchase of fire suppression equipment for county cooperatives;

(e) forest management projects on federal land;

(f) support for collaborative groups that include at least one representative of an affected county commission that is engaged with a federal forest project and for local governments engaged in litigation related to federal forest projects; and

(g) road maintenance on federal lands; and

(h) fire preparedness.

(5) Interest earned on the balance of the account is retained in the account.

(6) Except as provided in subsections (7) and (8), by August 15 following the end of each fiscal year, an amount equal to the balance of unexpended and unencumbered general fund money appropriated in excess of 0.5% of the total general fund money appropriated for that fiscal year must be transferred by the state treasurer from the general fund to the fire suppression account. General fund appropriations that continue from a fiscal year to the next fiscal year and any general fund appropriations made pursuant to 10-3-310 or 10-3-312 are excluded from the calculation.

(7) In an even-numbered calendar year, after the transfers made pursuant to 17-7-130, if the preliminary general fund ending balance at fiscal yearend was greater than 8.3% of all general revenue appropriations in the second year of the biennium, then the state treasurer shall transfer from the general fund to fire suppression account funds sufficient to bring the fire suppression account fund balance to 6% of the general revenue appropriations in the second year of the biennium. The transfer may not cause the general fund ending fund balance to have a balance of less than 8.3% of all general revenue appropriations in the second year of the biennium.
(6) The provisions of subsection (6) (5) do not apply in a fiscal year in which reductions required by 17-7-140 occur or if a transfer pursuant to subsection (6) (5) would require reductions pursuant to 17-7-140.

(8) The fund balance in the account may not exceed 4% of all general fund appropriations in the second year of the biennium.

(9) By August 15 of each even-numbered fiscal year, if the balance in the account at the end of the most recently completed odd-numbered fiscal year exceeds $40 million, the excess, up to $5 million, must be used in the biennium. 3% of all general revenue appropriations in the second year of the biennium, then up to 1% of all general revenue appropriations in the second year of the biennium is statutorily appropriated from the fire suppression account for the purposes in subsections (4)(b) through (4)(g). Of that amount, no more than 5% may be used for the purposes of subsection (4)(f).

(8) For the biennium beginning July 1, 2023, up to 0.5% of all general revenue appropriations in the second year of the biennium is statutorily appropriated from the fire suppression account to the department for the item in subsection (4)(h).

(10) Money in the account is statutorily appropriated, as provided in 17-7-502, to the department for the purposes described in subsection (4)-(a).

(10) For purposes of this section "general revenue appropriations" has the meaning provided in 17-7-102.

Section 22. Coordination instruction. (1) If both [this act] and House Bill No. 226 are passed and approved, then the following sums are appropriated to the office of budget and program planning from the following sources in the fiscal year beginning July 1, 2023:

(b) $269,572 from state special revenue;
(c) $124,611 from federal special revenue;
(d) $117,071 in proprietary funds; and
(e) $119,796 from the general fund for the benefit of the Montana University System.

beginning July 1, 2024:

(a) $1,547,360 from the general fund;

(b) $1,392,791 from state special revenue;

(c) $643,826 from federal special revenue;

(d) $604,869 in proprietary funds; and

(e) $618,944 from the general fund for the benefit of the Montana University System.

Section 23. Effective date. [This act] is effective on passage and approval.

Section 24. Termination. (1) [Section 1] terminates June 30, 2025.

(2) [Sections 6 and 7(3)] terminate June 30, 2027.
