

## OVERSIZE LOADS

### LEGISLATOR NOTICE

The Legislative Services Division is required to offer a brief history on the subject matter of a bill draft request prior to drafting (5-4-105, MCA; [Chapter 309, Laws of 2017](#)). The history must include related legislation introduced over the last five sessions and hyperlinks to the bill, hearing information, and fiscal notes. The legislation links below open to the page showing the status and history of bills introduced on this topic in the past. The bill text and any related fiscal notes can be accessed through the link at the top of that page.

**Legislation can be complex and this history is not intended to be exhaustive. Please contact the drafter of the requested bill for more information.**

---

### Background Materials and Research

**Topic Summary:** Montana legislation related to oversize loads in the last 10 years ranges from redefining weight and size to better regulating fees for oversize loads on certain highways. In 2013, the Revenue and Transportation Interim Committee (RTIC) was tasked with [Senate Joint Resolution 26](#), which requested a study of the transporting of oversize loads through the state. Most recent legislation during the 2017 legislative session focused on increasing the allowable dimensions of certain automobile transporters to conform with federal law.

**Legislative Services Division Materials:** As defined in [sections 61-10-101 through 61-10-103](#), MCA, a vehicle, including a bus, unloaded or with load, may not have a total outside width in excess of 102 inches, may not exceed a height of 14 feet, and may not have an overall length, inclusive of front and rear bumpers, in excess of 55 feet. This width for buses is allowed only on paved highways 20 feet or more in width. In the 2013-2014 legislative interim, the (RTIC) conducted the SJR 26 Study on Transporting Oversize Loads. The final report and other materials related to the study can be found [here](#).
