Subject: FW: ftc decision-july19 Economic Affairs Interim Committee

Dear Ms. Murdo,

Please find attached the 2nd email that goes with my testimony before the Economic Affairs Committee on Tuesday, August the 23rd. This is the Federal Trade Commission's case against the North Carolina Board of Dental Examiners with respect to "teeth whitening". If you will scroll down to "July 19, 2011, Initial Decision and click on it – <http://www.ftc.gov/os/adjpro/d9343/110714aljordgrantmostrikeaffid.pdf> -- this will open up the entire documentation of the case at bar and how the FTC came to its position against the Board of Dentistry in north Carolina. What is so interesting in this decision is if you change the words "teeth whitening" to "denture", you would have essentially the same cause of action right here in Montana.

If you should have any questions about either of the emails I have sent you, please call me at 406. 257.5283 [office] or 406. 756. 8185 [home]. Thank you for your time and assistance in getting these important documents to the Committee and its members.

Brent Kandarian
