

Montana Substance Abuse Treatment Statistics

The Department of Public Health and Human Services compiles data on the number of people receiving state-supported substance abuse treatment. The department's data indicates the primary and secondary drugs of choice for people receiving treatment.

The information in the following tables provides more detail about the Montanans who have listed prescription drugs as either their primary or secondary drug of choice. This document will be discussed in more depth during the Senate Joint Resolution 20 panel presentation on prevention and mitigation.
