Subject: Please distribute to EAIC Members for U and T guidelines public testimony on March 27, 2014.

Dear Pat,

Please distribute the following comments from the Billings Clinic at the public testimony appointed time after the Update info Utilization and Treatment Guidelines and Medical Status Forms. Thank you for your assistance. Kind regards,

Aimee Grmoljez, Lobbyist and Attorney for the Billings Clinic

The utilization guidelines have been helpful in getting patients more rapid care and bringing them to MMI much quicker. I am honored to have been again asked to provide input in this first round of updates to the Guidelines. The medical status forms still need work to make them easier to complete, easier to explain, and easier for the employers to interpret. I feel the current version is more difficult to pick out the pertinent information on restrictions than its predecessor and takes more time to fill out.

John
