

# Agency Oversight

## *Working List of Topics for Agency Updates to the Committee*

Prepared by Rachel Weiss  
for the Law and Justice Interim Committee  
Last updated 3/15/18 for the March meeting

### Background<sup>1</sup>

The Law and Justice Interim Committee (LJIC) is required to monitor agencies assigned to it by law and to liaise with the Judicial Branch. This paper lists topics of interest to the LJIC members and upon which they want to receive updates from an agency or the Judicial Branch during the interim.

This list will be updated as the interim progresses and LJIC members add items or questions for future agendas. A topic may be listed more than once because it affects or involves more than one agency. A topic with a checkmark in front of it means the committee has heard at least one update from the agency on the topic. The date or dates of previous updates are listed after the topics in brackets.

<sup>1</sup> Items were originally listed as possible topics in the member and emerging issues section of the LJIC's draft work plan decision matrix that was discussed at the June 2017 organizational meeting. Items that were marked with three stars on that matrix could also be considered agency oversight. At the direction of the presiding officer, those items were removed from the member/emerging issues area and assigned to agency oversight. This change allows the LJIC more time for member/emerging issues and gives staff additional direction about what information the LJIC wants to learn from agency updates at future meetings.

*Board of Crime Control* – transition to DOC effective 1/1/2018

- Data presentation

*The Office of State Public Defender (OPD)*
