agricultural production and 51% of the person's or entity's Montana annual gross income is derived from agricultural production.

(c) For the purposes of this subsection (1):

(i) "marketing" means the selling of agricultural products produced by the land and includes but is not limited to:

(A) rental or lease of the land as long as the land is actively used for grazing livestock or for other agricultural purposes; and

(B) rental payments made under the federal conservation reserve program or a successor to that program;

(ii) land that is devoted to residential use or that is used for agricultural buildings and is included in or is contiguous to land under the same ownership that is classified as agricultural land, other than nonqualified agricultural land described in 15-6-133(1)(c), must be classified as agricultural land, and the land must be valued as provided in 15-7-206.

subsection (2)(a) were it not for independent, intervening causes of production failure beyond the control of the producer or marketing delay for economic advantage, in which case proof of qualification in a prior year will suffice; or

(c) in a prior year, the parcels totaled 20 acres or more and qualified as agricultural land under this section, but the number of acres was reduced to less than 20 acres for a public use described in 70-30-102 by the federal government, the state, a county, or a municipality, and since that reduction in acres, the parcels have not been further divided.

(3) For grazing land to be eligible for classification as agricultural land under subsections (1)(b) and (2), the land must be capable of sustaining a minimum number of animal unit months of carrying capacity. The minimum number of animal unit months of carrying capacity must equate to \$1,500 in annual gross income as determined by the Montana state university-Bozeman department of agricultural economics and economics.

(4) The grazing on land by a horse or other animals kept as a hobby and not as a part of a bona fide agricultural enterprise is not considered a bona fide agricultural operation.

(5) The department may not classify land less than 160 acres as agricultural unless the owner has applied to have land classified as agricultural land. Land of 20 acres or more but less than 160 acres for which no application for agricultural classification has been made is valued as provided in 15-6-133(1)(c) and is taxed as provided in 15-6-133(3). If land has been valued, assessed, and taxed as agricultural land in any

year, it must continue to be valued, assessed, and taxed as agricultural until the department reclassifies the property. A reclassification does not mean revaluation pursuant to 15-7-111.

(6) For the purposes of this part, growing timber is not an agricultural use."
