

1 \*\*\*\* BILL NO. \*\*\*\*  
 2 INTRODUCED BY \*\*\*\*  
 3 BY REQUEST OF THE \*\*\*\*  
 4

5 A BILL FOR AN ACT ENTITLED: "AN ACT REQUIRING SUBSTANTIVE CHANGES AFFECTING HOME AND  
 6 COMMUNITY-BASED SERVICES AND ELIGIBILITY REQUIREMENTS TO BE MADE THROUGH THE  
 7 ADMINISTRATIVE RULEMAKING PROCESS; AMENDING SECTION 53-6-402, MCA; AND PROVIDING AN  
 8 EFFECTIVE DATE."

9  
 10 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:  
 11

12 **NEW SECTION. Section 1. Substantive changes to waiver provisions -- rulemaking**  
 13 **requirements -- definition.** (1) The department may not make a substantive change to the services offered  
 14 under an approved waiver or to the eligibility requirements or process for waiver participants unless the  
 15 department:

- 16 (a) adopts rules to implement the changes and;
- 17 (b) if necessary, submits a waiver amendment to the centers for medicare and medicaid services and  
 18 receives approval for the change.

- 19 (2) (a) For the purposes of this section, "substantive change" means a change that:
  - 20 (i) reduces, limits, or otherwise establishes caps on the amount or duration of a service; or
  - 21 (ii) limits a person's ability to access waiver services.
- 22 (b) The term includes but is not limited to changes requiring:
  - 23 (i) preauthorization before a service is provided;
  - 24 (ii) preauthorization before an individual is placed on the waiting list for services; or
  - 25 (iii) that services be used within a specific, shorter time period than previously allowed.

26  
 27 **Section 2.** Section 53-6-402, MCA, is amended to read:

28 **"53-6-402. Medicaid-funded home and community-based services -- waivers -- funding**

1 **limitations -- populations -- services -- providers -- long-term care preadmission screening -- powers**  
2 **and duties of department -- rulemaking authority.** (1) The department may obtain waivers of federal

3 medicaid law in accordance with section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, and  
4 administer programs of home and community-based services funded with medicaid money for categories of  
5 persons with disabilities or persons who are elderly.

6 (2) The department may seek and obtain any necessary authorization provided under federal law to  
7 implement home and community-based services for seriously emotionally disturbed children pursuant to a  
8 waiver of federal law as permitted by section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n(c).

9 The home and community-based services system shall strive to incorporate the following components:

- 10 (a) flexibility in design of the system to attempt to meet individual needs;
- 11 (b) local involvement in development and administration;
- 12 (c) encouragement of culturally sensitive and appropriately trained mental health providers;
- 13 (d) accountability of recipients and providers; and
- 14 (e) development of a system consistent with the state policy as provided in 52-2-301.

15 (3) The department may, subject to the terms and conditions of a federal waiver of law, administer  
16 programs of home and community-based services to serve persons with disabilities or persons who are elderly  
17 who meet the level of care requirements for one of the categories of long-term care services that may be  
18 funded with medicaid money. Persons with disabilities include persons with physical disabilities, chronic mental  
19 illness, developmental disabilities, brain injury, or other characteristics and needs recognized as appropriate  
20 populations by the U.S. department of health and human services. Programs may serve combinations of  
21 populations and subsets of populations that are appropriate subjects for a particular program of services.

22 (4) The provision of services to a specific population through a home and community-based services  
23 program must be less costly in total medicaid funding than serving that population through the categories of  
24 long-term care facility services that the specific population would be eligible to receive otherwise.

25 (5) The department may initiate and operate a home and community-based services program to more  
26 efficiently apply available state general fund money, other available state and local public and private money,  
27 and federal money to the development and maintenance of medicaid-funded programs of health care and  
28 related services and to structure those programs for more efficient and effective delivery to specific populations.

1 (6) The department, in establishing programs of home and community-based services, shall  
2 administer the expenditures for each program within the available state spending authority that may be applied  
3 to that program. In establishing covered services for a home and community-based services program, the  
4 department shall establish those services in a manner to ensure that the resulting expenditures remain within  
5 the available funding for that program. To the extent permitted under federal law, the department may adopt  
6 financial participation requirements for enrollees in a home and community-based services program to foster  
7 appropriate utilization of services among enrollees and to maintain fiscal accountability of the program. The  
8 department may adopt financial participation requirements that may include but are not limited to copayments,  
9 payment of monthly or yearly enrollment fees, or deductibles. The financial participation requirements adopted  
10 by the department may vary among the various home and community-based services programs. The  
11 department, as necessary, may further limit enrollment in programs, reduce the per capita expenditures  
12 available to enrollees, and modify and reduce the types and amounts of services available through a home and  
13 community-based services program when the department determines that expenditures for a program are  
14 reasonably expected to exceed the available spending authority.

15 (7) The department may consider the following populations or subsets of populations for home and  
16 community-based services programs:

17 (a) persons with developmental disabilities who need, on an ongoing or frequent basis, habilitative  
18 and other specialized and supportive developmental disabilities services to meet their needs of daily living and  
19 to maintain the persons in community-integrated residential and day or work situations;

20 (b) persons with developmental disabilities who are 18 years of age and older and who are in need of  
21 habilitative and other specialized and supportive developmental disabilities services necessary to maintain the  
22 persons in personal residential situations and in integrated work opportunities;

23 (c) persons 18 years of age and older with developmental disabilities and chronic mental illness who  
24 are in need of mental health services in addition to habilitative and other developmental disabilities services  
25 necessary to meet their needs of daily living, to treat the their mental illness, and to maintain the persons in  
26 community-integrated residential and day or work situations;

27 (d) children under 21 years of age who are seriously emotionally disturbed and in need of mental  
28 health and other specialized and supportive services to treat their mental illness and to maintain the children

1 with their families or in other community-integrated residential situations;

2 (e) persons 18 years of age and older with brain injuries who are in need, on an ongoing or frequent  
3 basis, of habilitative and other specialized and supportive services to meet their needs of daily living and to  
4 maintain the persons in personal or other community-integrated residential situations;

5 (f) persons 18 years of age and older with physical disabilities who are in need, on an ongoing or  
6 frequent basis, of specialized health services and personal assistance and other supportive services necessary  
7 to meet their needs of daily living and to maintain the persons in personal or other community-integrated  
8 residential situations;

9 (g) persons with human immunodeficiency virus (HIV) infection who are in need of specialized health  
10 services and intensive pharmaceutical therapeutic regimens for abatement and control of the HIV infection and  
11 related symptoms in order to maintain the persons in personal residential situations;

12 (h) persons with chronic mental illness who suffer from serious chemical dependency and who are in  
13 need of intensive mental health and chemical dependency services to maintain the persons in personal or other  
14 community-integrated residential situations;

15 (i) persons 65 years of age and older who are in need, on an ongoing or frequent basis, of health  
16 services, personal assistance, and other supportive services necessary to meet their needs of daily living and  
17 to maintain the persons in personal or other community-integrated residential situations; or

18 (j) persons 18 years of age and older with chronic mental illness who are in need, on an ongoing or  
19 frequent basis, of specialized health services and other supportive services necessary to meet their needs of  
20 daily living and to maintain the persons in personal or other community-integrated residential situations.

21 (8) For each authorized program of home and community-based services, the department shall set  
22 limits on overall expenditures and enrollment and limit expenditures as necessary to conform with the  
23 requirements of section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, and the conditions placed  
24 upon approval of a program authorized through a waiver of federal law by the U.S. department of health and  
25 human services.

26 (9) A home and community-based services program may include any of the following categories of  
27 services as determined by the department to be appropriate for the population or populations to be served and  
28 as approved by the U.S. department of health and human services:

- 1 (a) case management services;
- 2 (b) homemaker services;
- 3 (c) home health aide services;
- 4 (d) personal care services;
- 5 (e) adult day health services;
- 6 (f) habilitation services;
- 7 (g) respite care services; and
- 8 (h) other cost-effective services appropriate for maintaining the health and well-being of persons and
- 9 to avoid institutionalization of persons.

10 (10) Subject to the approval of the U.S. department of health and human services, the department may  
11 establish appropriate programs of home and community-based services under this section in conjunction with  
12 programs that have limited pools of providers or with managed care arrangements, as implemented through 53-  
13 6-116 and as authorized under section 1915 of Title XIX of the Social Security Act, 42 U.S.C. 1396n, or in  
14 conjunction with a health insurance flexibility and accountability demonstration initiative or other demonstration  
15 project as authorized under section 1115 of Title XI of the Social Security Act, 42 U.S.C. 1315.

16 (11) (a) The department may conduct long-term care preadmission screenings in accordance with  
17 section 1919 of Title XIX of the Social Security Act, 42 U.S.C. 1396r.

18 (b) Long-term care preadmission screenings are required for all persons seeking admission to a long-  
19 term care facility.

20 (c) A person determined through a long-term care preadmission screening to have an intellectual  
21 disability or a mental illness may not reside in a long-term care facility unless the person meets the long-term  
22 care level-of-care determination applicable to the type of facility and is determined to have a primary need for  
23 the care provided through the facility.

24 (d) The long-term care preadmission screenings must include a determination of whether the person  
25 needs specialized intellectual disability or mental health treatment while residing in the facility.

26 (12) The department may adopt rules necessary to implement the long-term care preadmission  
27 screening process as required by section 1919 of Title XIX of the Social Security Act, 42 U.S.C. 1396r. The  
28 rules must provide criteria, procedures, schedules, delegations of responsibilities, and other requirements

1 necessary to implement long-term care preadmission screenings.

2 (13) (a) The department shall adopt rules necessary for the implementation of each program of home  
3 and community-based services, including rules for substantive changes to approved waiver provisions as  
4 required under [section 1]. The rules may include but are not limited to the following:

- 5 (i) the populations or subsets of populations, as provided in subsection (7), to be served in each  
6 program;
- 7 (ii) limits on enrollment;
- 8 (iii) limits on per capita expenditures;
- 9 (iv) requirements and limitations for service costs and expenditures;
- 10 (v) eligibility categories criteria, requirements, and related measures;
- 11 (vi) designation and description of the types and features of the particular services provided for under  
12 subsection (9);
- 13 (vii) provider requirements and reimbursement;
- 14 (viii) financial participation requirements for enrollees as provided in subsection (6);
- 15 (ix) utilization measures;
- 16 (x) measures to ensure the appropriateness and quality of services to be delivered; and
- 17 (xi) other appropriate provisions necessary to the administration of the program and the delivery of  
18 services in accordance with 42 U.S.C. 1396n and any conditions placed upon approval of a program by the  
19 U.S. department of health and human services.

20 (b) Unless required by federal law or regulation, the department may not adopt rules that exclude a  
21 child from home and community-based services or require prior authorization for a child to access home and  
22 community-based services if the child would be eligible for or able to access the home and community-based  
23 services without prior authorization if the child was not in foster care.

24 (14) The department shall establish by rule the procedures for moving a person from a waiting list for  
25 services provided through a medicaid home and community-based services waiver into the waiver services,  
26 including the process and priorities to be used in making determinations related to the waiting list. The  
27 department may not modify the policies established in rule by adopting supplemental policies or procedures not  
28 subject to the administrative rulemaking process.

1 (15) The department shall adopt rules for the provision of the fraud prevention training required under  
2 53-6-405, including but not limited to establishing the elements that must be contained in fraud prevention  
3 education materials and the models that may be used for the training.

4 (16) The department shall adopt rules to carry out the cost reporting provisions of 53-6-406, including  
5 but not limited to the costs that a provider is required to report to the department, the format of the report, and  
6 the deadline for filing the report."

7  
8 **NEW SECTION. Section 3. Codification instruction.** [Section 1] is intended to be codified as an  
9 integral part of Title 53, chapter 6, part 4, and the provisions of Title 53, chapter 6, part 4, apply to [section 1].

10

11 **NEW SECTION. Section 4. Effective date.** [This act] is effective July 1, 2021.
