Dear Ms. Sandru:

Thank you for your July 27, 2020, letter providing notice that a legislative poll will be conducted on the issue of the Department's proposed rules restricting the sale of flavored electronic smoking devices (MAR Notice No. 37-923).

The Department will provide written justification for the proposed rules to accompany the polling materials pursuant to section 2-4-403(3), MCA. As Laura Smith recently discussed with you, the Department agrees that an extension of the July 31, 2020, date is warranted to provide the opportunity to review and consider the polling question prior to the Department providing the written justification.

Sincerely,

  
Sheila Hogan, Director
