To Whom it may concern,

Dear Members of the Economic Affairs Interim Committee, my name is Jeremy DeHerrera and I am writing to ask you to keep dry needling in the scope of practice for the chiropractic profession. I was taught at the University of Western States in 2010-2014 the effects and process of Dry Needling and since have implemented it my practice. I have been able to help a lot of people access care get results that would not have been the same without Dry Needling. Keeping Dry Needling in our scope of practice is very important for the advancement of the profession and getting patients the care that they need. I hope that you consider keeping it in our scope.

Thank you,

[Jeremy DeHerrera](#)
