**Date:** Saturday, June 27, 2020 11:20:03 AM

---

*Dear Members of the Economic Affairs Interim Committee, my name is Rachel Rising and I am writing to ask you to keep dry needling in the scope of practice for the chiropractic profession.*

Chiropractic in itself provides a huge relief to patients, however, the addition of dry needling to our practice has greatly elevated our patients' response to care. They are feeling better sooner, and their relief lasts longer. They are able to return to their activities of daily living sooner and with less pain.

Removing dry needling from our scope would provide a huge disservice to our patient base. Their health and well-being is our top priority and dry needling is a great compliment to our practice.

Best regards,

Rachel Rising, DC
