

County Interdisciplinary Child Safety Team

September 4, 2020

Montana Statute 52-2-211, MCA requires county superintendents provide OPI by September 1 a copy of a written agreement establishing the county interdisciplinary child information and school safety team. Annually, the OPI reports to the Education Interim Committee any county without a written agreement by the deadline.

For counties not in compliance, a request was made in late August 2020. As of September 1, 2020, six additional agreements have been received by OPI from counties previously not in compliance with the statute.

Thirty-four (34) counties are in compliance with the statute and twenty-two (22) counties are not in compliance.

County Missing Agreement	(09/04/2020)
