## **Report to the Education Interim Committee**

## Reemployment of TRS Retirees 19-20-732, MCA

September 3, 2020

Shawn Graham, Executive Director Teachers' Retirement System

The provisions of 19-20-732, MCA, allow a Teachers' Retirement System (TRS) retired member with 27.00 or more years of service to be reemployed as a teacher, specialist, or administrator on a full-time basis by a second-class or third-class school district without the loss or interruption of their TRS retirement benefits. A retired member hired under this provision is exempt from the one-third earning's and part-time employment limits under Montana Code Annotated (MCA) § 19-20-731 as well as the 150 calendar day break-in-service requirement under 19-20-734, MCA.

The intent of this provision is to help school districts fill a position when they cannot find a qualified applicant, and to do so in such a way as to not have an adverse impact on the funding of TRS. Therefore, before hiring a retired teacher, a school district must first certify to the TRS office that they advertised the position each school year but were unable to fill the position because the school district received no qualified applications or did not receive an acceptance of an offer of employment made to a non-retired teacher, specialist, or administrator. Advertisement of the position and certification of inability to fill the position must occur each school year prior to entering into a contract with a retired member, including re-contracting with the same retired member.

To be eligible for reemployment under § 19-20-732, MCA, a retired member must have retired under TRS with 27.00 or more years of creditable service. In addition, a TRS retired member must also have received at least two monthly retirement benefits. Because monthly benefits are processed on the last business day of each month, if a retiree terminated in June, with retirement benefits effective July 1, they would not be eligible to be reemployed under this provision until September 1, after they have received their July and August retirement benefits.

The maximum number of years a TRS retired member may be employed pursuant to §19-20-732, is three years during their lifetime. A year is defined to mean all or any part of a fiscal year (July 1 through June 30). Retired members reemployed under this provision will not receive any increase in their retirement benefits due to additional service time or salary received while working and drawing retirement benefits.

To fund any adverse impact 19-20-732, MCA, might have on TRS, school districts who rehire a retired member under this provision are required to contribute to TRS the sum of all employee and employer contributions rates (19.81% effective July 1, 2020) on the salaries paid to retired members working under this provision. **Note:** this rate is to be paid by the school district; reemployed retired members are not required to contribute to TRS.

19-20-732(1)(e), MCA, requires the Teachers' Retirement Board to report to the appropriate committee each Legislative session regarding the implementation and results of section 19-20-732. A complete history of the positions filled, the compensation paid and the school districts reemploying TRS retirees under the provisions of 19-20-732, MCA, since September 2009 is included on the following pages for your reference.
