

# COVID - 19

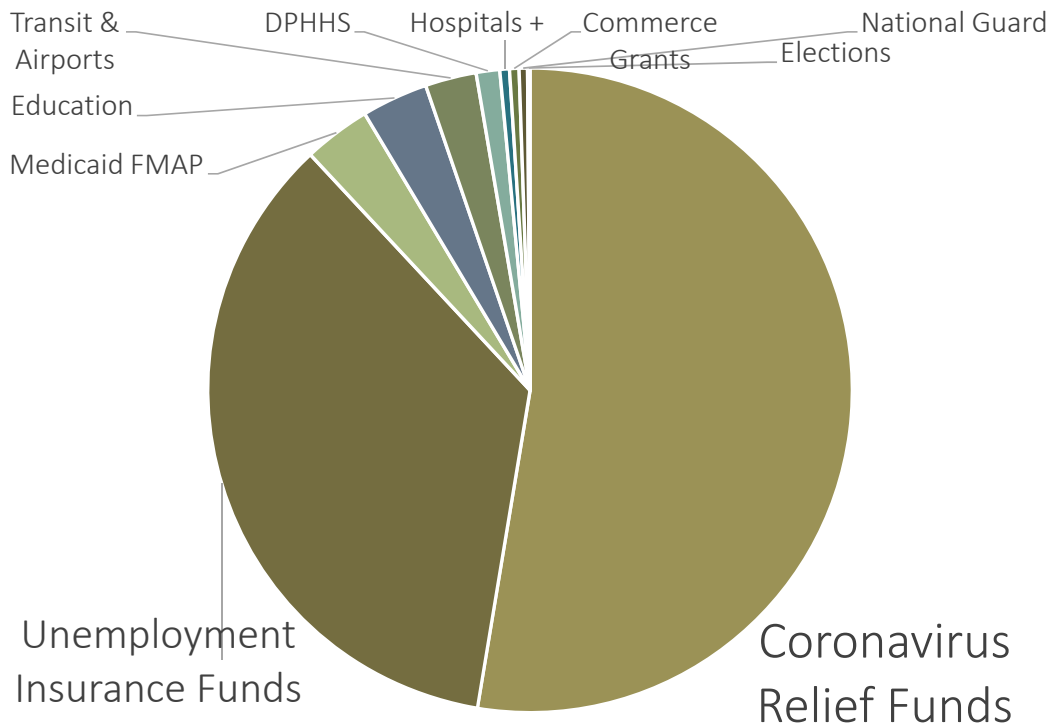

Financial Update

# Federal Legislation = \$2.4 Trillion

# Federal Legislation = \$2.4 Trillion

# Federal Funds to the State Montana Government

Federal Funding for Montana Approximately \$2.4 Billion

Coronavirus Relief Fund for Montana is \$1.25 Billion

Most values are approximate

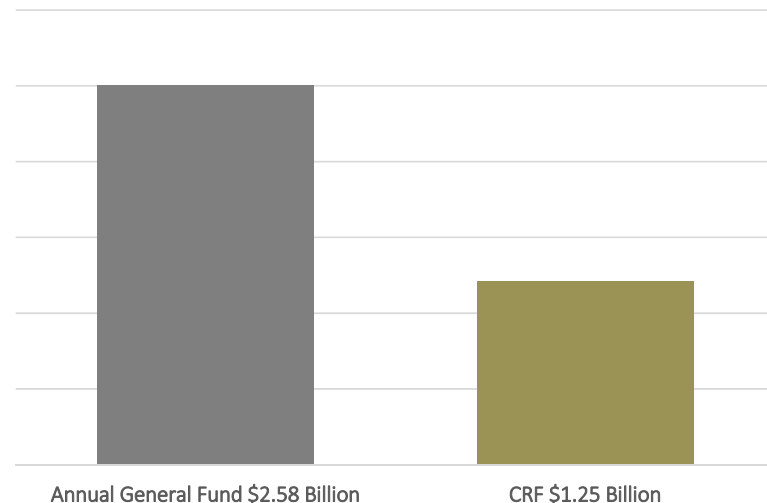

# Compare Annual General Fund to CRF

CRF is **48.4%** of FY 2020 general fund appropriations.

In other words, the amount received from the federal government, statutorily appropriated to the Governor, is nearly half the level of annual general fund appropriations.

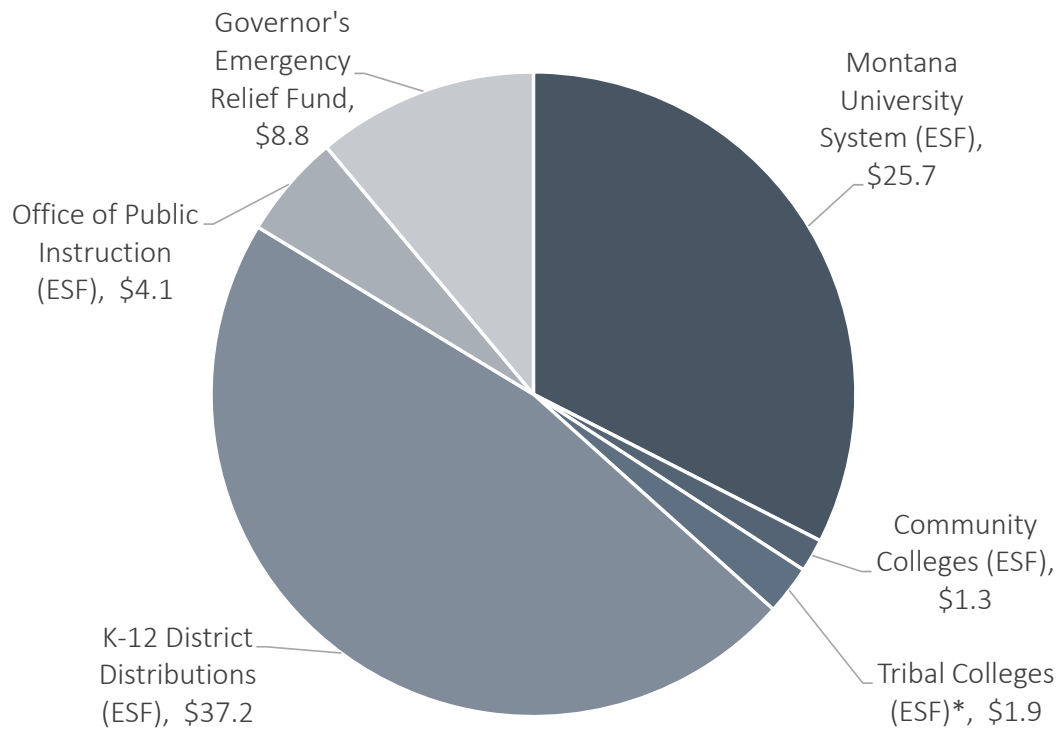

The Governor has flexibility to spend and may also offer short-term loans to the general fund for cash flow purposes.

Comparative Size of the Coronavirus Relief Funds

# Education- Federal fund allocations

Allocations to the State of Montana from the Education Stabilization Fund (ESF) and Governor's Emergency Relief Fund

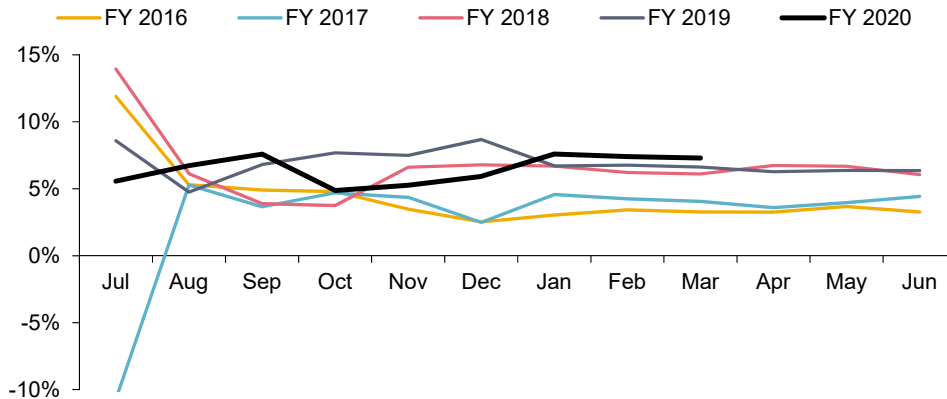

\* Tribal Colleges will likely receive additional funding from the Education Stabilization Fund and the Bureau of Indian Education. This will be updated as more information is received.

# Revenue and Economy

# Revenue Year to date: strong, well above HJ 2

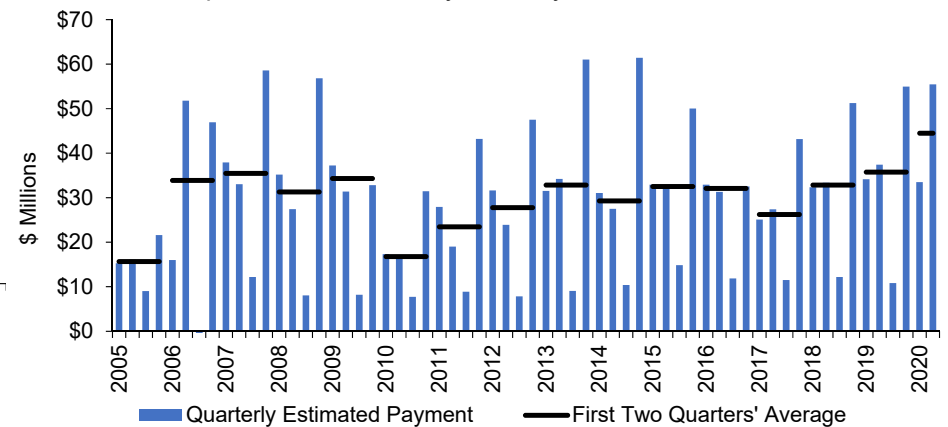

Withholding Year to date

**Cumulative year-over-year withholding growth may decrease throughout the remainder of the fiscal year due to increased unemployment.**

## Tracking the Economy

## State Expenditures (other than UI Benefits)

Slow to start, \$1.4 million expended by April 3, expect much more to come, especially from these agencies:

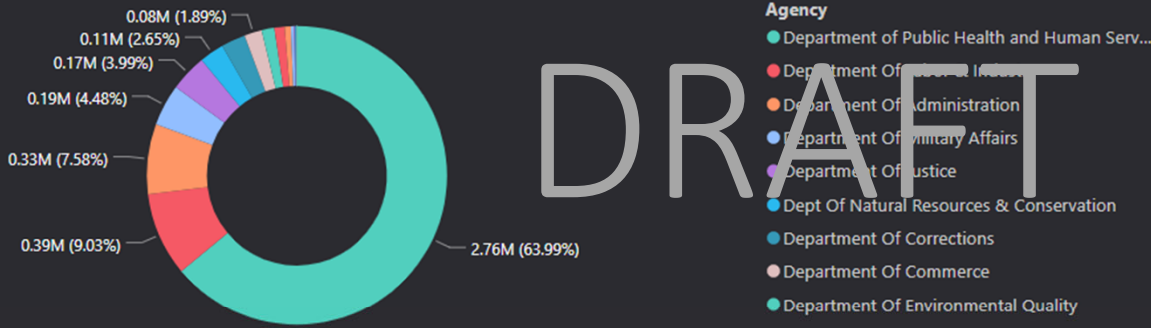

- DPHHS expect increases at all levels
- DMS for disaster and emergency services
