Members of the Revenue Interim Committee:

Well there is never a good time to discuss increasing taxes, this is an especially egregious time to discuss the same.

While I am in favor of in-depth discussions concerning a sales tax, those discussions should only be held in light of a sales tax replacing either income or property taxes in Montana. We must not consider 3 taxes on Montanans. Montanans are already taxed to significant degree, based on our low wage level and we can't afford to further burden our citizens.

Respectfully,

Rep. Brad Tschida
