State-by-State Property Tax at a Glance is a dynamic visualization tool that illustrates the great variety across states in the ways they use the property tax. Its interactive maps and charts along with its expert-authored narratives tell the unique story of the property tax in each of the 50 states and the District of Columbia. The Property Tax at a Glance glossary defines over 130 property tax terms providing common meanings as well as state-specific definitions. The resources section links users to state documents and independent research. The visualization tool and narratives map 19 variables for each state and DC. This tool expands the Lincoln Institute's property tax resources for policymakers, policy analysts, public finance students, journalists, and homeowners and draws from the Institute's longstanding database, *Significant Features of the Property Tax*.
