- Comprehensive School and Community Treatment
- Day Treatment

Residential Services

- Therapeutic Group Home
- Psychiatric Residential Treatment Facility
- Acute Inpatient Hospital

Outpatient Therapy:

Psychotherapy and related services provided by a licensed mental health professional including individual, family, and group therapy.

Psychiatric Services and Medication Management:

Medication treatment and monitoring services typically include the prescription of psychoactive medications by a physician.

Some services can be offered concurrently with other services. Other services have restrictions or exemptions.

Please refer to the Children's Mental Health Bureau website and Medicaid Provider Manual for full description of services as well as requirements.

Community Based Psychiatric Rehabilitation and Support (CBPRS):

Adaptive skill building and integration services provided in person in home, school or community settings in order to help the youth maintain participation in those settings.

Targeted Youth Case Management (TCM):

Services furnished to assist youth and families in gaining access to needed medical, social, educational, and other services.

Home Support Services (HSS): In-home therapeutic and family support services for youth living in biological, adoptive or kinship families who require more intensive therapeutic interventions than are available through other outpatient services.

Comprehensive School and Community Treatment (CSCT):

A planned course of community mental health outpatient treatment that includes therapeutic interventions and supportive services provided in a public school-based environment.

Youth Day Treatment (Day Tx): A set of mental health services provided in a specialized classroom setting (not a regular classroom or school setting) and integrated with educational services provided through full collaboration with a school district.

Therapeutic Group Home (TGH):

A community-based treatment alternative provided in a structured group home environment, which includes therapeutic treatment services and social supports.

Psychiatric Residential Treatment Facility (PRTF):

A secure residential facility provides 24-hour staff and psychiatrist supervision, and may include individual therapy, group therapy, family therapy, behavior modification, skills development, education, and recreational services.

Acute Inpatient Hospital:

Psychiatric facilities devoted to the provision of inpatient psychiatric care for persons under the age of 21 for observation, evaluation, and/or treatment.
