Public Elk Hunting Access Agreement Program Summary 2012-2021

Year	Type of Permit and/or License Issued to Landowner	Type of Opportunity for Public Hunters (Either Sex/Antlerless)	Method Used to Select Public Hunters	Acres Available to the Public	Number of Days Public Hunters Were Given Access
2021-1	Two (2) HD 411-20 either-sex permits.	A total of six (6) HD 411-20 successful either-sex elk permit holders (2- selected by landowner; 4 randomly chosen by FWP from successful list) could hunt either-sex elk; additional access for antlerless elk by either-sex permit holders, general license holders or antlerless license holders during general rifle season.	Landowner wanted to choose the first two "Judith Gap" addresses on the HD 411-20 either-sex permit list for their landowner selected hunters. FWP then used the successful applicant list names in the third through sixth position (3-6) on the successful permit list for the randomly selected hunters. The four names were a nonresident party of four.	14,447	The six (6) public hunters with the HD 411-20 either-sex elk permits were selected by the LO or FWP and could hunt any day they call and requested permission to hunt either-sex elk. From 3-5 additional public hunters per-day could hunt for antlerless elk on enrolled land during general rifle season. No restrictions on the number of days landowner, or designees can hunt the property.
2021-2	One (1) HD 411-20 either-sex permit.	A total of three (3) HD 411-20 successful either-sex permit holders (1- selected by landowner; 2 randomly selected from successful list) could hunt either-sex elk; additional access for antlerless elk by either-sex permit holders, general license holders or antlerless license holders during general season.	Landowner selected the hunter for HD 411-20 either-sex permit, then FWP used the first two names (1-2) on the HD 411-20 successful permit list for this agreement.	5,400	The three (3) public hunters with the HD 411-20 either-sex elk permits were selected by the LO or FWP and could hunt any day they call and requested permission to hunt either-sex elk. From 1-3 additional public hunters per-day could hunt for antlerless elk on enrolled land during general rifle season. No restrictions on the number of days landowner, or designees can hunt the property.
2021-3	One (1) 900-20 archery-only either-sex permit.	One (1) 900-20 either-sex archery-only permit holder (MT resident) from a select list; Two (2) 007-00 antlerless elk permit holders valid during general rifle season only.	Landowner chose the one (1) 900-20 either-sex archery hunter from a select list; FWP selected the first two (1-2) 007-00 permit holders from the successful applicant list.	9,771 (HD 702)	The three (3) hunters with the 900-20 (archery-only) either-sex or the 007-00 antlerless permit (general rifle season only) needed to schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters had no more than 5 days to hunt each. No restrictions on number of days for landowner.

MONTANA FISH, WILDLIFE & PARKS

Public Elk Hunting Access Agreement Program Summary 2012-2021

Year	Type of Permit and/or License Issued to Landowner	Type of Opportunity for Public Hunters (Either Sex/Antlerless)	Method Used to Select Public Hunters	Acres Available to the Public	Number of Days Public Hunters Were Given Access
2021-4	One (1) either-sex elk license & one (1) either-sex HD 411-20 permit.	A total of three (3) HD 411-20 successful either-sex permit holders (1- selected by landowner; 2 randomly selected from successful list) could hunt either-sex elk during general season.	Landowner selected the hunter for HD 411-20 either-sex permit, then FWP used the two next names (7-8) on the HD 411-20 successful permit list for this agreement.	4,313	The three (3) hunters with the HD 411-20 permits needed to schedule at least 10 days in advance. Hunters had no more than 5 days to hunt each. No restrictions on number of days for landowner.
2021-5	Four (4) HD 690-20 either-sex permits & up to four (4) licenses.	Total of 20 hunters in addition to public hunting opportunity provided through Block Management. Four (4) HD 690-20 either-sex permit holders; and Sixteen (16) 690-01 antlerless elk license holders to hunt during general rifle season and late shoulder season.	The landowner selected the four (4) 690-20 either-sex permit holders and FWP selected the sixteen (16) public hunters from the respective successful applicant lists.	67,000	The 20 hunters with the respective 690-20 permit or 690-01 license must schedule at least 10 days in advance with the ranch hunting manager and can hunt the general rifle season through the late shoulder season with valid licenses. The ranch may restrict the number of days to 5 per hunter.
2021-6	One (1) either-sex elk license and 410-21 (archery) permit.	One (1) 410-21 either-sex (archery) permit holder (MT resident) from a select list; Two (2) 004-00 or 417-02 antlerless elk permit holders valid during general rifle season only.	Landowner chose the one (1) 410-21 either-sex archery hunter from a select list; FWP selected the first two permit holders from the successful applicant list.	24,000	The three (3) hunters with the either-sex (archery-only) or the antlerless permit (general rifle season only) needed to schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters had no more than 5 days to hunt each. No restrictions on number of days for landowner.
2021-7	Four (4) HD 411-20 either-sex permits & four (4) either-sex licenses.	Total of 12 hunters; Four (4) HD 411-20 either-sex permit holders; and Eight (8) 411-00 antlerless elk license holders to hunt during general rifle season and late shoulder season.	Landowner chose four (4) 411-21 either-sex hunters from a select list; FWP selected eight (8) 411-00 antlerless permit holders from the successful applicant list.	6,500	The twelve (12) hunters with the either-sex or antlerless permit must schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters have no more than 5 days to hunt each. No restrictions on number of days for landowner.

MONTANA FISH, WILDLIFE & PARKS

Public Elk Hunting Access Agreement Program Summary 2012-2021

Year	Type of Permit and/or License Issued to Landowner	Type of Opportunity for Public Hunters (Either Sex/Antlerless)	Method Used to Select Public Hunters	Acres Available to the Public	Number of Days Public Hunters Were Given Access
2021-8	One (1) general elk license & one (1) either-sex HD 690-20 permit.	One (1) HD 690-20 either-sex permit holder to hunt general rifle season; and Two (2) 690-01 antlerless elk permit holders to hunt during general rifle season and late shoulder season.	Landowner chose the one (1) 690-20 either-sex hunter from a select list; FWP selected two HD 690-01 permit holders from the successful applicant list.	60,000	The three (3) hunters with the either-sex or antlerless permits must schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters have no more than 5 days to hunt each. No restrictions on number of days for landowner.
2021-9	One (1) either-sex elk license & one (1) either-sex HD 700-21 (archery) permit.	One (1) HD 700-21 either-sex archery permit holder to hunt archery season; and Two (2) antlerless elk permit holders to hunt general rifle season. Landowner also allows hunting through Block Management.	Landowner chose the one (1) 700-21 either-sex archery hunter from a select list; since the landowner was enrolled in Block Management no method was used to select individual hunters.	250	The three (3) hunters with the either-sex or antlerless permits needed to schedule through the Block Management Program to obtain permission. The landowner's property is part of an aggregate BMA which received 331 hunter days. No restrictions on number of days for landowner.
2021-10	Two (2) either-sex elk licenses & two (2) 900-20 either-sex archery permits.	Total of six (6) hunters. Two (2) HD 411-20 either-sex permit holders to hunt general rifle season; and Four (4) 411-00 antlerless elk permit holders to hunt during general rifle season and late shoulder season.	Landowner chose the two (2) 4110-20 either-sex hunters from a select list; FWP selected four (4) HD 411-00 permit holders from the successful applicant list.	20,000	The six (6) hunters with the either-sex or antlerless permits must schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters have no more than 5 days to hunt each. No restrictions on number of days for landowner.
2021-11	One (1) general elk license & one (1) either-sex HD 690-20 permit.	One (1) HD 690-20 either-sex permit holder to hunt general rifle season; and Two (2) 690-01 antlerless elk permit holders to hunt during general rifle season and late shoulder season.	Landowner chose the one (1) 690-20 either-sex hunter from a select list; FWP selected two HD 690-01 permit holders from the successful applicant list.	5,000	The three (3) hunters with the either-sex or antlerless permits must to schedule at least 30 days in advance and agree to be accompanied by the Ranch Manager. Hunters have no more than 5 days to hunt each. No restrictions on number of days for landowner.
