INTERIM COMMITTEE REVIEW OF AGENCY BILLS

- The Office of Program Planning and the Governor's office review and approve legislative proposals for executive branch agencies.
- Interim Committees receive brief descriptions of proposed legislation approved for preintroduction for the 2023 session. The committee may ask questions and request more information. Interim committee review descriptions of proposed legislation between July and September 15, 2022.
- Preintroduction allows legislative staff to draft agency bills prior to session. This gives drafters a head-start and provides more time for requests from individual legislators. Preintroduced bills may be scheduled for hearing early in the session while other bills are being drafted.
- Authorization to draft an agency bill is not an endorsement. If an interim committee does not approve an agency proposal, a holdover senator or an unopposed legislator may request the bill for the agency and still meet the preintroduction deadline. After the election, any legislator may request the proposal.
- The preferred method for the committee is to authorize the drafting of the whole package of agency proposals in a single motion. However, proposals may be segregated.
- After consultation with the agency, an interim committee may consider consolidating related bill draft requests.
- Agency bill drafts authorized by an interim committee are submitted to the LSD and identified by OBPP with the appropriate LC bill draft request number for processing no later than November 15, 2022; and preintroduced by 5 p.m. on December 15, 2022 (Joint Rule 40-40(5)(a)). Agency requested bills that are not preintroduced are cancelled. A legislator may request the bill on behalf of the agency, subject to limitations placed on legislators and without the "By Request of" an agency header.
- Except for bill drafts for requests by newly elected officials, an agency bill draft requested by an interim committee received by LSD for processing after November 15 loses its priority (Joint Rule 40-40(2)(b)). The bill is placed on hold, loses priority, and may not meet the preintroduction deadline.
- A preintroduced bill is assigned a bill number, contains a line under the sponsor's name indicating that the bill is "By Request of" the agency; and is printed before the Legislature convenes January 2, 2023.

Authorization to draft an agency bill is not an endorsement.
