

**Judicial Branch Current Data Exchanges and Requests for Exchanges**

Provided by the Court Administrator, April 2022

**CURRENT DATA EXCHANGES**

- COLJ MVD Disposition Exchange
- MHP SmartCop Citation Imports
- Motor Carrier Services SmartCop Citation Imports
- FWP SmartCop Citation Imports
- Local government citation imports (Missoula Municipal, Polson City, Whitefish City, Kalispell Muni)
- Gold Source Statute Master - integration with E-Filing, Criminal History Records System, Motor Vehicle System, SmartCop (MHP, MCS, FWP) and other e-citation systems
- DC IJIS Exchanges – Court Orders, Notice of Charges Filed, Hearing Notices
  - This only ever went to pilot in Missoula and Lewis & Clark Counties. The exchanges were problematic for DOJ's Criminal History Division and we were requested to not expand them beyond the pilot. When we began the FullCourt Enterprise project, these exchanges needed a 100% rewrite because of the problems DOJ was experiencing. DOJ was also transitioning to a new system. At DOJ's request, and because the exchange wasn't rewritten for FCE, we stopped transmitting the L&C transactions in 2020.
- Public Defender Assessment Information – not a true data exchange but data extracted and provided 2x per month
- DOJ Drivers License Suspension & Reinstatement process – not a true data exchange but information extracted and provided to DOJ 2x / day

**DATA EXCHANGES PILOT IN 2022**

- COLJ MVD Drivers License Suspensions and Reinstatements – this exchange will replace the process directly above
