Taxes

**Comment:**

I pay property taxes, and a tax on my military pension(I helped protect this country like others yet Montana feels it needs to tax me on my fixed pension for my service to this country). My wife pays property tax and income tax. Then yellowstone county adds on and optional tax on our vehicles. Now my comment is when has the committee looked at all the taxes and fees the average Montana property owner pays? Add it all up. What is the total percentage this state takes, and then add on Federal taxes on top. Have you also looked at other states without income tax that have sales tax, and property tax? Montana for being a state that says it allows people to be free it sure has alot of taxes and fees. Thank you.
