**** BILL NO. ****

INTRODUCED BY ****

BY REQUEST OF THE ****

A BILL FOR AN ACT ENTITLED: "AN ACT REVISING OVERSIGHT DUTIES OF STATEWIDE STREAM GAUGE NETWORK BY GOVERNOR'S DROUGHT AND WATER SUPPLY ADVISORY COMMITTEE; AMENDING SECTION 2-15-3308, MCA."

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

Section 1. Section 2-15-3308, MCA, is amended to read:

"2-15-3308. (Temporary) Drought and water supply advisory committee -- stream gauge oversight-work-group. (1) There is a drought and water supply advisory committee in the department of natural resources and conservation.

(2) The drought and water supply advisory committee is chaired by a representative of the governor and consists of representatives of the departments of natural resources and conservation; agriculture; commerce; fish, wildlife, and parks; military affairs; environmental quality; and livestock. The governor's representative must be appointed by the governor, and the representative of each department must be appointed by the head of that department. Additional, nonvoting members who represent federal and local government agencies and public and private interests affected by drought, flooding, or water supply may also be appointed by the governor.

(3) The drought and water supply advisory committee shall:

(a) with the approval of the governor, develop and implement a state plan that considers drought and flooding, mitigation, and response;

(b) review and report drought and water supply monitoring information to the public;

(c) coordinate timely drought and flooding impact assessments and maintain regular communication with the United States drought monitor, the national drought mitigation center, the division of disaster and emergency services, the national weather service, and other appropriate local, state, tribal, and federal

1 partners;

2 (d) identify areas of the state with a high probability of drought or flooding and target reporting and
3 assistance efforts to those areas in coordination with local, state, tribal, and federal agencies;

4 (e) upon request, assist in organizing local advisory committees for the areas identified under
5 subsection (3)(d);

6 (f) request state agency staff to provide technical assistance to local advisory committees;

7 (g) promote ideas and activities for groups and individuals to consider that may reduce vulnerability to
8 drought or flooding and improve seasonal forecasting of water supply; and

9 (h) ~~select members of the committee to serve on a stream gauge oversight work group~~ coordinate
10 oversight of the statewide stream gauge network identified by the department of natural resources and
11 conservation, including:

12 (i) an early notification process for the discontinuation of any network gauge;

13 (ii) ~~a semiannual~~ an annual review of the funding status and potential alterations to the statewide
14 stream gauge network; and

15 (iii) an annual report of its ~~findings~~ activities to the water policy interim committee in accordance with
16 section 5-11-210.

17 (4) The drought and water supply advisory committee shall meet, at a minimum, on or around
18 October 15 and March 15 of each year to assess moisture conditions and forecasts and, as appropriate, begin
19 preparations for drought or flood mitigation.

20 (5) By April 15 of each year, the drought and water supply advisory committee shall submit a report to
21 the governor's office that, to the extent possible, describes the potential for drought or flooding in the coming
22 year, describes the current water supply conditions of the state, taking into consideration winter precipitation,
23 and provides an assessment of the cumulative water supply status.

24 (6) By July 1 of each year, the drought and water supply advisory committee shall submit a report to
25 the governor's office evaluating the potential for drought for the remainder of the calendar year. If the report
26 identifies a potential for drought that is likely to cause adverse impacts to human health and safety,
27 environmental quality, or both, the committee shall notify the division of disaster and emergency services and
28 county commissioners, tribal governments, conservation districts, and local watershed groups in the geographic

1 location potentially impacted by drought and the types of impacts likely to occur.

2 ~~(7) (a) The stream gauge oversight work group shall meet at least semiannually to review:~~

3 ~~(i) locations, uses, and funding arrangements for the stream gauge network of the U.S. geological~~
4 ~~survey; and~~

5 ~~(ii) priorities, needs, and expectations of those funding the maintenance and operations of these~~
6 ~~stream gauges and those using data measured by these stream gauges.~~

7 ~~(b) The work group shall create annually a stream gauge infrastructure work plan, which may include:~~

8 ~~(i) a comprehensive overview of the existing stream gauge network;~~

9 ~~(ii) a review of options for funding the maintenance and operations of the stream gauge network,~~

10 ~~including use of private funds, consolidated agreements, or multipayer payments;~~

11 ~~(iii) a proposal for stream gauge priorities;~~

12 ~~(iv) cost-effective and reasonable alternatives to stream gauges, including gauges that are not part of~~

13 ~~the U.S. geological survey's stream gauge network, if applicable;~~

14 ~~(v) oversight of recommendations and activities related to any legislative study of stream gauges; and~~

15 ~~(vi) coordination of information regarding stream gauge funding recommendations and requests from~~
16 ~~state and federal agencies.~~

17 ~~(c) The work group shall report to the water policy interim committee established in 5-5-231.~~

18 ~~(8)(7)~~ Nothing in this section is intended to remove or interfere with the duties and responsibilities of

19 the governor or the division of disaster and emergency services for disaster coordination and emergency

20 response, as provided in Title 10, chapter 3, part 1. The duties and responsibilities of the drought and water

21 supply advisory committee supplement and are consistent with those of the division of disaster and emergency

22 services for drought or flood planning, preparation, coordination, and mitigation. (Terminates June 30, 2023--

23 sec. 7, Ch. 298, L. 2019.)

24 ~~2-15-3308. (Effective July 1, 2023) Drought and water supply advisory committee. (1) There is a~~

25 ~~drought and water supply advisory committee in the department of natural resources and conservation.~~

26 ~~(2) The drought and water supply advisory committee is chaired by a representative of the governor~~

27 ~~and consists of representatives of the departments of natural resources and conservation; agriculture;~~

28 ~~commerce; fish, wildlife, and parks; military affairs; environmental quality; and livestock. The governor's~~

1 ~~representative must be appointed by the governor, and the representative of each department must be~~
2 ~~appointed by the head of that department. Additional, nonvoting members who represent federal and local~~
3 ~~government agencies and public and private interests affected by drought, flooding, or water supply may also~~
4 ~~be appointed by the governor.~~

5 ~~(3) The drought and water supply advisory committee shall:~~

6 ~~(a) with the approval of the governor, develop and implement a state plan that considers drought and~~
7 ~~flooding, mitigation, and response;~~

8 ~~(b) review and report drought and water supply monitoring information to the public;~~

9 ~~(c) coordinate timely drought and flooding impact assessments and maintain regular communication~~
10 ~~with the United States drought monitor, the national drought mitigation center, the division of disaster and~~
11 ~~emergency services, the national weather service, and other appropriate local, state, tribal, and federal~~
12 ~~partners;~~

13 ~~(d) identify areas of the state with a high probability of drought or flooding and target reporting and~~
14 ~~assistance efforts to those areas in coordination with local, state, tribal, and federal agencies;~~

15 ~~(e) upon request, assist in organizing local advisory committees for the areas identified under~~
16 ~~subsection (3)(d);~~

17 ~~(f) request state agency staff to provide technical assistance to local advisory committees; and~~

18 ~~(g) promote ideas and activities for groups and individuals to consider that may reduce vulnerability to~~
19 ~~drought or flooding and improve seasonal forecasting of water supply.~~

20 ~~(4) The drought and water supply advisory committee shall meet, at a minimum, on or around~~
21 ~~October 15 and March 15 of each year to assess moisture conditions and forecasts and, as appropriate, begin~~
22 ~~preparations for drought or flood mitigation.~~

23 ~~(5) By April 15 of each year, the drought and water supply advisory committee shall submit a report to~~
24 ~~the governor's office that, to the extent possible, describes the potential for drought or flooding in the coming~~
25 ~~year, describes the current water supply conditions of the state, taking into consideration winter precipitation,~~
26 ~~and provides an assessment of the cumulative water supply status.~~

27 ~~(6) By July 1 of each year, the drought and water supply advisory committee shall submit a report to~~
28 ~~the governor's office evaluating the potential for drought for the remainder of the calendar year. If the report~~

1 identifies a potential for drought that is likely to cause adverse impacts to human health and safety,
2 environmental quality, or both, the committee shall notify the division of disaster and emergency services and
3 county commissioners, tribal governments, conservation districts, and local watershed groups in the geographic
4 location potentially impacted by drought and the types of impacts likely to occur.

5 (7) ~~Nothing in this section is intended to remove or interfere with the duties and responsibilities of the~~
6 ~~governor or the division of disaster and emergency services for disaster coordination and emergency response,~~
7 ~~as provided in Title 10, chapter 3, part 1. The duties and responsibilities of the drought and water supply~~
8 ~~advisory committee supplement and are consistent with those of the division of disaster and emergency~~
9 ~~services for drought or flood planning, preparation, coordination, and mitigation."~~
