Heart to Heart
HOME CARE

DEMENTIA Live®
Proven. Powerful. Essential

A focus on quality care options for elders must include resources for people living with dementia. There is an urgent need to equip care partners with effective, practical tools. Dementia Live is an innovative, foundational training tool that serves as an essential component of person-centered care initiatives.

What is Dementia Live?

Dementia Live® is an experience that immerses participants into what life might be like living with cognitive impairment and sensory change. Utilizing specialized gear that simulates dementia specific changes that include altered eyesight, hearing and tactile sensation, this safe experience is a powerful and effective tool to strengthen care partner understanding of and empathy for residents. Gaining a first-hand understanding of anxiety, isolation, frustration, confusion, and more, Dementia Live uniquely walks participants from the “AHA” moment to empowering care partners with tools to improve communication, care processes, relationship building and the environment.

“ Being part of this program taught me how to be more empathetic with people who have mental health ailments and medical as well.”

TESTIMONIALS

“Wow! Dementia Live put so many things into perspective for me and made everything make sense.”

“Whole heartedly believe that everyone who cares for those with Alzheimer’s & Dementia’s should go through this! It’s such an eye opener & game changer.”

How It Works

Step One: Participants brief with a certified coach before entering the simulation

Step 2: Participants put on Dementia Live gear for simulation.

Step 3: 7 minutes of simulation

Step 4: Take off all Dementia Live gear

Step 5: Debrief
