1. **What interventions are working and what are less successful or not working.**
   - Drug Courts
   - Pretrial retention
2. **Who is the average user/person in the criminal justice system? 23/male/white**
   - Allow us to know who we are targeting and what might be helpful
   - Typical offender that is in the DOC system. Average/Modal (demographic information about these offenders)
3. **How effective is sentencing?**
   a. Courts systems don't talk.
4. **Where are we duplicating data entry in more than one system.**
5. **Measurable outcomes on if programs are working, because we don't know how they are doing when they are out on the street. (Success for programs)**
6. **PSA Commission – Release condition data for people that are released, put on conditions.**
7. **Figure out which release conditions are working.**
8. **What is a reasonable condition based on the charge they are facing.**
   a. (Sheriffs and what programs should we be using?)
9. **Supreme Court – Trial Delay – what is an average length from arrest to disposition, across the board.**
   a. OPD – Could build staffing models based on this data.
10. **Recidivism – How many offenders and what they are charged with and what is the new offense before the first offense is even handled.**
    a. No communication of when someone is arrested in Flathead and also a user in Yellowstone County.(1,000 contacts and not even arrests) – Need CAD data
11. **Mental Health Services – Who has it and who doesn't. What counties are more successful and why.**
    a. Do they have services in place that another county does not.
12. **Mental Health Interventions when they are incarcerated.**
13. **General awareness of services available in counties.**
14. **Investment in the Criminal Justice System. The cost of the programing that is successful and investing there vs the programs that are not working in another county.**
    a. General comment based on other questions for specific programing.
15. **Have we seen a trend in increase in car theft?**
16. **What is the difference between a one time offender and a repeat offender? (Factors)**
17. **Identify the factors to make the CJ system more efficient.**
    a. This is part of the intent and purpose of why SB11 was passed.
18. **Provide the legislature with policy making accurate information.**
    a. This is part of the intent and purpose of why SB11 was passed.

Messaging needs to be consistent:

- Perfect equals failure
- Enterprise wide (Statewide, all systems)
- Complex and need to take one piece at a time
- Unfunded mandate
- Flexible and need to move as needed (Fluid)

Law Enforcement

- What is the use in the moment for local LEA?

Prioritize the goals to those that impact the locals and it will allow and created by in.
