Comment:

As a former legislator who served 3 terms on the EQC, I am looking forward to following your activities this interim. Though I believe having equal number of Republicans and Democrats on the EQC and other interim committees is preferable, I think the committee can still do its work in a fair and open manner for the good of the people of Montana. I look forward to the next months and thank you for serving on this committee. You will learn alot. Its purpose is relevant and important. Respectfully, Sue Dickenson
