

1 (c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average
2 rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers,
3 using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of
4 labor.

5 (2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any
6 additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit,
7 including newly taxable property.

8 (3) (a) For purposes of this section, newly taxable property includes:

- 9 (i) annexation of real property and improvements into a taxing unit;
- 10 (ii) construction, expansion, or remodeling of improvements;
- 11 (iii) transfer of property into a taxing unit;
- 12 (iv) subdivision of real property; and
- 13 (v) transfer of property from tax-exempt to taxable status.

14 (b) Newly taxable property does not include an increase in value that arises because of an
15 increase in the incremental value within a tax increment financing district.

16 (4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the
17 release of taxable value from the incremental taxable value of a tax increment financing district because of:

- 18 (i) a change in the boundary of a tax increment financing district;
- 19 (ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or
- 20 (iii) the termination of a tax increment financing district.

21 (b) If a tax increment financing district terminates prior to the certification of taxable values as
22 required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax
23 increment financing district terminates. If a tax increment financing district terminates after the certification of
24 taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the
25 following tax year.

26 (c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was
27 constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current
28 year market value of that property less the previous year market value of that property.

1 (d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale
2 of real property that results in the property being taxable as class four property under 15-6-134 or as
3 nonqualified agricultural land as described in 15-6-133(1)(c).

4 (5) Subject to subsection (8), subsection (1)(a) does not apply to:

5 (a) school district levies established in Title 20; or

6 (b) a mill levy imposed for a newly created regional resource authority.

7 (6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes
8 received under 15-6-131 and 15-6-132.

9 (7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

10 (a) may increase the number of mills to account for a decrease in reimbursements; and

11 (b) may not increase the number of mills to account for a loss of tax base because of legislative
12 action that is reimbursed under the provisions of 15-1-121(7).

13 (8) The department shall calculate, on a statewide basis, the number of mills to be imposed for
14 purposes of 15-10-109, 20-9-331, 20-9-333, 20-9-360, and 20-25-439. However, the number of mills calculated
15 by the department may not exceed the mill levy limits established in those sections. The mill calculation must
16 be established in tenths of mills. If the mill levy calculation does not result in an even tenth of a mill, then the
17 calculation must be rounded up to the nearest tenth of a mill.

18 (9) (a) The provisions of subsection (1) do not prevent or restrict:

19 (i) a judgment levy under 2-9-316, 7-6-4015, or 7-7-2202;

20 (ii) a levy to repay taxes paid under protest as provided in 15-1-402;

21 (iii) an emergency levy authorized under 10-3-405, 20-9-168, or 20-15-326;

22 (iv) a levy for the support of a study commission under 7-3-184;

23 (v) a levy for the support of a newly established regional resource authority;

24 (vi) the portion that is the amount in excess of the base contribution of a governmental entity's
25 property tax levy for contributions for group benefits excluded under 2-9-212 or 2-18-703;

26 (vii) a levy for reimbursing a county for costs incurred in transferring property records to an
27 adjoining county under 7-2-2807 upon relocation of a county boundary;

28 (viii) a levy used to fund the sheriffs' retirement system under ~~19-7-404(3)(b)~~ 19-7-404(2)(b); or

1 (ix) a governmental entity from levying mills for the support of an airport authority in existence prior
2 to May 7, 2019, regardless of the amount of the levy imposed for the support of the airport authority in the past.
3 The levy under this subsection (9)(a)(ix) is limited to the amount in the resolution creating the authority.

4 (b) A levy authorized under subsection (9)(a) may not be included in the amount of property taxes
5 actually assessed in a subsequent year.

6 (10) A governmental entity may levy mills for the support of airports as authorized in 67-10-402, 67-
7 11-301, or 67-11-302 even though the governmental entity has not imposed a levy for the airport or the airport
8 authority in either of the previous 2 years and the airport or airport authority has not been appropriated
9 operating funds by a county or municipality during that time.

10 (11) The department may adopt rules to implement this section. The rules may include a method for
11 calculating the percentage of change in valuation for purposes of determining the elimination of property, new
12 improvements, or newly taxable value in a governmental unit."

13 **Section 3.** Section 19-2-405, MCA, is amended to read:

14 **"19-2-405. Employment of actuary -- annual investigation and valuation.** (1) The board shall
 15 retain a competent actuary who is an enrolled member of the American academy of actuaries and who is
 16 familiar with public systems of pensions. The actuary is the technical adviser of the board on matters regarding
 17 the operation of the retirement systems.

18 (2) The board shall require the actuary to make and report on an annual actuarial investigation into
 19 the suitability of the actuarial tables used by the retirement systems and an actuarial valuation of the assets and
 20 liabilities of each defined benefit plan that is a part of the retirement systems.

21 (3) The normal cost contribution rate, which is funded by required employee contributions and a
 22 portion of the required employer contributions to each defined benefit retirement plan, must be calculated as the
 23 level percentage of members' salaries that will actuarially fund benefits payable under a retirement plan as
 24 those benefits accrue in the future.

25 (4) The unfunded liability contribution rate, which is entirely funded by a portion of the required
 26 employer contributions to the retirement plan, must be calculated as the level percentage of current and future
 27 defined benefit plan members' salaries that will amortize the unfunded actuarial liabilities of the retirement plan
 28 over a reasonable period of time, not to exceed 30 years, as determined by the board, ~~except as provided in~~

1 ~~19-5-404, 19-6-404, 19-7-404, and 19-8-504.~~

14 VIII, section 15, of the Montana constitution, each system must be funded on an actuarially sound basis. For
15 the purposes of this section, "actuarially sound basis" means that contributions to each retirement plan must be
16 sufficient to pay the full actuarial cost of the plan.

17 (2) (a) For a defined benefit plan, the full actuarial cost includes both the normal cost of providing
18 benefits as they accrue in the future and the cost of amortizing unfunded liabilities over a scheduled period of
19 no more than 30 years, ~~except that with respect to the judges' retirement system, the highway patrol officers'~~
20 ~~retirement system, the sheriffs' retirement system, and the game wardens' and peace officers' retirement~~

25 ~~July 1, 2023.~~

26 ~~(ii) If the June 30, 2023, actuarial valuation determines the system's amortization period is less~~
27 ~~than 25 years, then the closed amortization period used for the purposes of subsection (2)(c)(i) must be that~~
28 ~~amortization period.~~

1 ~~(d) — The contribution rate under subsection (2)(b)(ii) for the contemporary unfunded liability must be~~
2 ~~the amount required on a level percent basis to pay the annual contemporary unfunded liabilities attributable to~~
3 ~~the employer's employees over a layered amortization schedule so that each fiscal year's contemporary~~
4 ~~unfunded liability is amortized over a closed 10-year period, starting with the contemporary unfunded liability for~~
5 ~~the fiscal year ending June 30, 2024.~~

6 ~~(e) — The contribution rate under subsection (2)(b)(iii) for the normal cost of benefits as they accrue~~
7 ~~must be the amount required on a level percent basis to pay the normal cost of benefits as determined in the~~
8 ~~annual actuarial valuation as the benefits accrue for each of the employer's employees.~~

9 ~~(3) — For the purposes of this section, the following definitions apply:~~

10 ~~(a) — "Contemporary unfunded liability" means the plan's annual fiscal year actuarial gains and~~

12 ~~(b) — "Legacy unfunded liability" means the unfunded liability of the plan as of June 30, 2023~~

13 ~~(2) (a) Subject to subsection (3), the state shall contribute to the system an additional employer~~
14 ~~contribution equal to the percentage specified in subsection (2)(b) of the compensation paid to all of the~~
15 ~~employer's employees, except for those employees properly excluded from membership.~~

16 ~~(b) — The percentage of compensation to be contributed under subsection (2)(a) is 0.1% for fiscal~~
17 ~~year 2026 and increases by 0.1% each fiscal year through fiscal year 2035. For fiscal years beginning after~~
18 ~~June 30, 2035, the percentage of compensation to be contributed under subsection (2)(a) is 1.00%.~~

19 ~~(3) (a) The board shall review annually the additional employer contribution provided for under~~
20 ~~subsection (2) and recommend adjustments to the legislature as needed to maintain the amortization schedule~~
21 ~~set by the board for payment of the system's unfunded liabilities.~~

22 ~~(b) — The employer contribution required under subsection (2) terminates July 1 following the board's~~
23 ~~receipt of the system's actuarial valuation if the actuarial valuation determines that terminating the additional~~
24 ~~employer contribution pursuant to this subsection (3)(b) would not cause the amortization period to exceed 25~~
25 ~~years."~~

14 **"19-7-403. Member's contributions deducted.** (1) (a) Subject to subsection (1)(b), each member's
15 contribution is 10.495% of the member's compensation.

16 (b) The member's contribution required under this subsection (1) must be reduced to 9.245% on
17 July 1 following the board's receipt of the system's actuarial valuation if ~~the report shows that the funded ratio~~
18 ~~for the sheriffs' retirement system is at least 100%;~~

19 ~~(i) the actuarial valuation determines that the period required to amortize the system's unfunded~~
20 ~~liabilities, including adjustments that become effective after the valuation, is less than 25 years; and~~

21 ~~(ii) reducing the member contributions and terminating the additional employer contributions~~
22 ~~pursuant to 19-7-404(4)(b) would not cause the system's amortization period as of the most recent actuarial~~
23 ~~valuation to exceed 25 years.~~

24 (2) Each employer, pursuant to section 414(h)(2) of the federal Internal Revenue Code of 1954, as

17 ~~actuarially determined employer contribution is effective July 1 following the annual actuarial valuation~~
18 ~~completed in the prior calendar year with a maximum annual increase of no more than 0.5% in any year.~~

19 ~~(b) The actuarially determined employer contribution must be the sum of the following contribution~~

9 (4) (a) The board shall review annually the additional employer contributions provided for under
10 subsection (3) and recommend adjustments to the legislature as needed to maintain the amortization schedule
11 set by the board for payment of the system's unfunded liabilities.

12 (b) The employer contributions required under subsection (3) terminate on July 1 following the
13 board's receipt of the system's actuarial valuation if:

14 (i) the actuarial valuation determines that the period required to amortize the system's unfunded
15 liabilities, including adjustments made for any benefit enhancements that become effective after the valuation,
16 is less than 25 years; and

17 (ii) terminating the additional employer contributions and reducing the member contributions
18 pursuant to 19-7-403(1)(b) would not cause the amortization period to exceed 25 years."
