

WORK PLAN TOPICS & LEGISLATIVE IDEAS FROM COMMITTEE

TRANSPORTATION INTERIM COMMITTEE
KATY CALLON - MAY 2024

The following table outlines the topics included in the Transportation Interim Committee's work plan, as well as space for ideas for committee legislation. The intention is for the committee to provide direction to staff on which ideas, if any, the committee would like staff to create provisional drafts for the committee to review during the July 2024 meeting.

Work Plan Topics:

- HJ15/16 Bicycle Safety & Shared Use Paths
- Memorial Highway Criteria
- CDL Requirements
- Federal & Regional Passenger Rail Initiatives
- Electric Vehicle Fire Response & Safety
- Autonomous Vehicle Regulations
- Highway Safety

During the interim, there have been some ideas mentioned, including a resolution concerning first responders and cost tracking for responding to electric vehicle fires.

Note that TIC's remaining meetings for the interim are scheduled for July 10 and September 4. September 15 prior to a regular legislative session is the guideline for completing interim work.
