Protect our people

Your Comment:

Protect our legislators. Please require and ENFORCE a rule that requires ALL people to wear a masked while in government and public buildings. Protect our legislature and set a good example for all people In MT. COVID-19 is no joke. I am on week four of dealing with it. Luckily, I am alive and have not had severe effects. However, I did have an ER visit and follow up testing resulting in thousands of miles of medical bills. It caused me to miss 3 weeks of work and my children to miss 3 weeks of school. After a month, I am still experiencing debilitating symptoms at times that prevent me from carrying on daily activities of life. Protect our people. Mask up. Sincerely Tracy Hardy

Covid-19 rules

Your Comment:

Please be responsible leaders for our great state. Make masks mandatory, temperature testing every day to enter building, social distance at all time. Lead by example. Help this great state recover and not die by your example.

Covid 19 precautions

Your Comment:

Arguments that masks somehow poison the wearer are pure BS. If that were true the doctors and nurses would be the sick ones. Check out the difference in results in the state of Kansas where half the counties had mask regulation and the other half didn't. As Fox and Friends reported, masks work and so does social distancing. Allowing legislators and their staff to spread the virus all over Helena is ridiculous.

Wearing masks in the capital building

Your Comment:

I think it is very important that all Legislators follow the ordinance and wear masks in the Capital building for the safety of all. Perhaps that could be required more strenuously by not allowing anyone in the building who isn't wearing a mask like stores do.

The mask debate isn't a debate; it's an IQ test.

Your Comment:

It's simple: Science supports wearing masks to slow down the burden of covid cases on our medical staff and facilities. In debating science with wishy washy political rhetoric, personal feelings, and a public admission that "We don't think anyone will listen to us or follow our lead" it shows that you are definitely not having a positive impact on our community. It also shows that you are putting your own personal opinions and agendas above the health and safety of our community. It's a mask; it's not a burqa. You can take it off when you're outside. No one's going to glue it to your face. Please behave like big boys and girls and do the socially responsible thing. And stop wasting tax payer money to debate a non-issue. It makes you all appear to be incapable of doing your jobs so in that respect, your opinion that no one will listen to you or follow your lead is a self-fulfilling prophesy..

COVID precautions while the Session takes place

Your Comment:

Dear Representatives and Senators, I am writing to encourage you to please take each other, your families and neighbors, Capitol staff people, and Helenans in mind as you decide whether to meet in person, by an electronic approach or a combination of the two. From news reports it is clear not all of you believe mask wearing is needed or appropriate, and there is probably no further study or report you can be provided with that will change your minds. I strongly urge you to seriously consider meeting electronically from your home towns. Today across our state and country, very important business and complex discussions and decisions are taking place successfully. I believe you too have that ability. Please consider: Why not take the most safe and caring means to meet? Thank you.
