Make it count

Census Bureau site: [2020Census.gov](https://2020census.gov)

The self-response rate as of June 5, 2020 for Montana was 51.7%. This is largely because 20% of Montana households (over 120,000) did not receive an invitation to fill-out the 2020 Census.

Because the Census won't mail to a P.O. or Rural Route Address..
