		<p>The appearances here do not comply with the required criteria, this appears to be solely based on competitive districts. It was my understanding 'competitive' was not required but was discretionary. If Democrats are only considering competitive districts why are there no proposed competitive districts in Missoula?</p> <p>Democrats are intentionally gerrymandering Montana by the district maps to win seats, as was done did ten years ago.</p> <p>I urge the committee to Please consider revised proposals from Missoula County Republicans for house districts that better meets the commissions criteria. They maintain seats for current incumbents, reduce spreading house districts across multiple counties, maintains a minority/majority seat proposed by commission Democrats, consolidate city limits in fewer house districts (to minimize splitting), and better group communities of interest.</p> <p>This consideration would best comply with the criteria requirements, and would offer the most fair options for both parties for Montana's future.</p> <p>Thank you.</p>

Opinion	William F Amrine	District 100 doesn't meet the guidelines as Each district shall consist of compact territory. (Article 5, Section 14 of the Montana Constitution). The Commission shall consider the district's functional compactness in terms of travel and transportation, communication, and geography.	billamrine@gmail.com	Saint Ignatius	MT
Dislike	Kelly Elizabeth Petersen	District 100 is the most gerrymandered district in western montana. This does not remotely reflect the intent of the constitution and I do not remotely feel I am being represented.	jlake@ronan.net	Ronan	Montana
Dislike	William F Amrine	District 100 lacks compliance with the stated criteria of the commission. Travel is unreasonable, transportation is arduous, communication from the northern legislators is unheard of and the geography actually splits the district. An obvious overreach and gerrymandering for partisan results.	billamrine@gmail.com	Saint Ignatius	MT
Dislike	Susan Lake	I continue to be disappointed in the dissection of Lake County. My district runs from St Ignatius to Browning. We have never seen the representative for our district as he resides in Browning. There is nothing representing community in this redistricting plan.	jlake@ronan.net	Ronan	Montana
Like	Noreen Breeding	In the past decade Gallatin County population has grown so quickly and so high that supposedly rural areas outside city limits are not readily distinguishable from urban areas. For this reason district boundaries that include areas inside and outside city limits make a lot of sense and are most representative of their populations.	rog7nor@gmail.com	Bozeman	MT
