Local Government Annual Summarized Financial Information

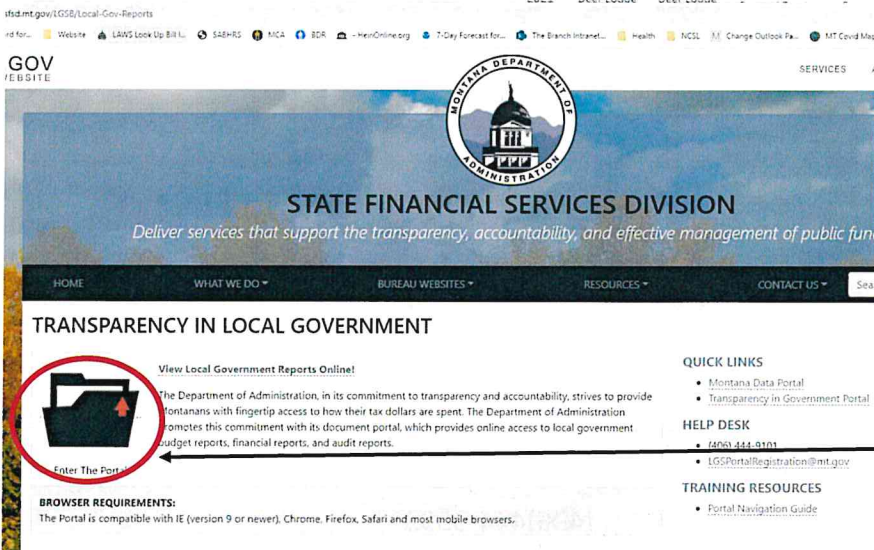

The State of Montana provides the following table of summarized local government financial data. The table is derived from information submitted to the state and summarizes assets, liabilities, equity, revenues, and expenses by fund for counties, cities, and towns (Entity) for fiscal years 2014 and forward. The table may include lapses in financial information if a local government did not submit financial information in the proper format. The table is updated monthly.

The state also provides the financial reports of local government at <http://lgsb.lfsd.mt.gov/LGSB/Local-Gov-Reports>. Please contact the entity with any questions about the information.
