

Commodities (Agriculture)

The chart below illustrates wheat and live cattle prices over time, indexed to equal 100 in calendar year (CY) 2000. Indexing all prices to the same value in the same year allows for a relative comparison of rising and falling prices. The growth of Montana wage disbursements is included for comparison purposes.

Selected Ag Prices, Indexed to 100 in CY 2000

Historical wheat prices are from USDA Market News as compiled by IndexMundi and historical live cattle prices are from investing.com.
