

SPECIAL DISTRICTS: STATUTORY AUTHORITY

OVERVIEW

HB 49, approved in the 2007 legislative session, required the Education and Local Government Interim Committee (ELG) to establish a subcommittee to conduct a study of local government special purpose districts. The ELG subcommittee's work culminated in the development and passage of [SB57](#) in 2009, also known as the Uniform Act. The study examined whether uniform standards could be established for the creation, administration, and operation of all special districts. While the Uniform Act consolidated many districts, some districts require individual provisions unique to their creation and operation.

Generally, special districts are grouped into two categories:

- ◇ those included in the Uniform Act of 2009 (SB57) and governed by [Title 7, chapter 11, part 10, MCA](#); and
- ◇ those not included in the Uniform Act of 2009 and that retain their original statutory authority in various titles and chapters throughout the MCA.

This report is intended to explain the types of special districts available to local governments and clarify the statutory authority for certain types of districts.

UNIFORM ACT SPECIAL DISTRICTS

As defined in [7-11-1002, MCA](#), a "special district" is a unit of local government authorized by law to perform a single function or limited number of functions.

Collectively, special districts perform a wide variety of functions, and local governments require flexibility to allow a special district to perform at its desired capacity. Prior to 2009, each special district retained its own statutory authority for the creation, administration, alteration, and dissolution of the district. The customized nature of special district laws prior to 2009 provided clear guidance

for each district, but many of the statutes were repetitive, and the large breadth of statutes required to organize districts individually was cumbersome and difficult to manage. A single set of statutes governing the creation, alteration, dissolution, right of protest, operation, funding, and structure of certain special districts simplifies and streamlines the process.

The following table lists the districts that were specifically included in the Uniform Act and are now consolidated into [Title 7, chapter 11, part 10, MCA](#). Each district's statutory authority prior to 2009 is included and, unless otherwise noted, these districts are now governed by 7-11-1001 through 7-11-1035.

THE TRANSITION PROCESS AND ADDITIONAL CHANGES TO THE UNIFORM ACT

Starting on July 1, 2009, SB57 required that Title 7, chapter 11, part 10, MCA govern these districts, and most of the previous governing statutes were repealed, except for those noted in the table. SB57 provided a saving clause clarifying that the new legislation did not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before July 1, 2009.

SB57 originally included a transition section that provided a district in existence on July 1, 2009 must comply with the new provisions upon (1) the alteration of its boundaries or (2) a change in its amount or method of assessment. The transition language also allowed that a district must follow the new language in 7-11-1029 to dissolve.

Consequently, the transition language allowed existing districts to be governed under the earlier, now repealed, statutes (the statutes provided in the second column of the table above), unless the district chose to alter its boundaries or its amount or method of assessment.

However, the passage of [HB259](#) in 2019 repealed the transition language. HB259 allows for a special district in existence on July 1, 2009 to continue in existence and remain subject to the provisions of the statutes under which it was created. The bill was drafted to rectify concerns over a special district's legal status when a transition-triggering event occurred, such as the alteration of boundaries or the amount or method of assessment. Testimony heard during the passage of the bill highlighted that the perceived lack of legal clarity may jeopardize a district's ability to secure bonds or otherwise conduct its business.

HB259 allows for a special district in existence on July 1, 2009 to continue in existence and remain subject to the provisions of the statutes under which it was created.

Thus all "historic districts" in existence prior to July 1, 2009 now retain the ability to be governed by the statutes under which they were created.

DISTRICTS EXCLUDED FROM THE UNIFORM ACT

Some types of special districts were specifically left out of the Uniform Act, meaning that the original statutes continue to govern these districts. The table below lists the districts that are not included in Title 7, chapter 11, part 10, and have separate statutory authority.
