## Executive Request

The executive requests an increase of \$2.7 million in FY 2024 and \$2.8 million, in FY 2025 above FY 2023 base appropriations, as well as an additional 24.46 FTE to staff the expanded Montana Heritage Center. Personal services is two-thirds of the increase which includes the expanded staffing request and SWPL 1. The Heritage Center FTE will be funded with state special revenue from accommodations tax. Please see the comment below.

LFD COMMENT The Historical Society has recieved a 2.6% distribution from the lodging facility use tax since FY 2012 for historic interpretation which has been used to fund portion of the budget in the research center, museum program, and operating programs. This distribution is continuing. However the Historical Society will be recieving an additional distribution of 6% of lodging sales tax for staffing, and operations and maintenance (O&M) for the Heritage Center starting January 1, 2025. The executive is requesting an additional 24.46 FTE, a staffing increase of 45.0%, beginning in FY 2024, and a fund switch that will replace general fund with accomodation revenue for (O&M). The table below shows current and future projected distributions, and revenue projections for accomodation taxes appropriated to the agency. As the approriation begins halfway through the fiscal year, FY 2025 has a partial year distribution, and FY 2026-2027 will have the full 6.0%. At these levels the fund is expected to have adequate appropriations into the 2027 biennium, by which time costs for the Heritage Center will be more established.

Operating costs make up the remaining third of the increase, totaling \$902,623 in FY 2024 and \$1.0 million in FY 2025. Increased operating costs are largely fixed costs adjusted for operations of the expanded Heritage Center and funded with state special accommodations tax.

A new proposal for a fund switch would replace \$823,930 of general fund in FY 2025 with state special funds from accommodation taxes for operation and maintenance (O&M) for the agency. This is discussed in further detail in the funding section below.

All other first level expenditures are budgeted at the same level as the base year, FY 2023.

## 5.0% Plan

Statute requires that agencies submit plans to reduce general fund and certain state special revenue funds by 5.0%. A summary of the entire 2025 biennium 5.0% plan, submitted by the agency, is included in the agency profile web page.

## Right to Know Requests

The MHS did not have any right to know requests during the biennium.

### Agency Goals and Objectives

Statute requires that agencies submit a statement of the agency mission and a statement of goals and objectives for each program of the agency. The goals and objectives are required to be concise, specific, quantifiable, and measurable. Goals and objectives, submitted by the agency, are included in the agency profile webpage.

### Agency Personal Services

In order to explain the factors influencing personal services changes, the proposed statewide personal services present law adjustment (DP 1) has been broken down into three categories, as follows:

- Legislatively approved changes This category includes adjustments explicitly approved by the legislature, such as expected changes to annualize personal services costs included in the FY 2023 statewide pay plan adjustments, changes to benefit rates, increases in pay approved by the legislature, longevity adjustments required by statute, and changes in rates for workers' compensation and unemployment insurance
- Management decisions This category includes agency management decisions that adjust personal services related to changes in pay. This includes changes such as hiring full time equivalent (FTE) at a lower rate to replace senior staff and broadband pay adjustments for recruitment and retention
- Budget modifications This category includes other modifications to the FY 2023 personal services base budget such as management decisions to transfer personal services funding between programs within an agency or transfers to move personal funding to or from other expenditure category (e.g. moving funding from operating expenses to personal services)

The figure below shows the analysis of the executive budget for personal services for each program.

Personal services are \$3.8 million or 62.9% of total FY 2023 appropriations. The executive proposes a statewide present law increase of \$311,752 in FY 2024 and \$335,095 in FY 2025. The table above shows the total adjustments for each personal services category. The majority of the adjustment is attributable to management changes. Management changes that impacted DP 1 include promotion adjustments, market changes, and performance adjustments. The legislative increase is comprised of benefit increases, pay plan changes and longevity increases.

The executive is also proposing a 45.0% increase to the staffing for the agency, totaling an additional 24.46 FTE. The table below shows the FTE distribution and funding withing the agency for the biennium.

The Montana Historical Society has several state special revenue funds that are statutorily appropriated. These include:

- Montana Historical Society membership state special revenue fund
- · Original Governor's mansion state special revenue fund
- Sites and signs state special revenue fund
- Lewis and Clark license plates state special revenue fund

The statutory appropriations will be discussed in further detail at the program level.

## Program Discussion -

### FY 2022 Appropriation Compared to FY 2022 Actual Expenditures

The Administration Program is primarily funded in HB 2 with general fund, federal special revenue, and proprietary funds. The HB 2 modified budget of \$1.5 million was 96.4% expended at fiscal year-end 2022. The unexpended budget consisted of audit fees budgeted under operating costs. In FY 2022 there was a \$47,418 appropriation of operating costs for audit fees that remained unspent. The audit appropriation is biennial and can be used in both years of the biennium.

### FY 2022 Appropriations Compared to FY 2023 Appropriations

Overall, the FY 2023 appropriation is approximately \$73,000 or 2.7% lower than the FY 2022 appropriation. This is due in large part to the audit fees that were budgeted in the first year of the biennium.

#### Executive Request

The Administration Program is requesting an increase of \$1.0 million in FY 2024 and \$1.1 million in FY 2025 above the FY 2023 base appropriations.

The proposed change is due in part to the statewide present law increase of \$2.5 million proposed by the executive. Of this increase \$1.4 million is general fund with most of the balance coming from state special accommodation taxes. These will be discussed in the Present Law Adjustments section below.

The executive has requested an additional 15.00 FTE to be funded with \$1.8 million in accommodation taxes for the biennium. The executive is proposing a fund switch to replace general fund with state special funds for O&M costs starting in FY 2025.

## Program Personal Services Narrative

Personal services are \$1.1 million or 71.6% of total FY 2023 appropriations. The executive proposes an increase of \$1.0 million in FY 2024 and \$1.1 million in FY 2025. Most of this increase is in a new proposal for an additional 15.00 FTE. The balance of the increase is due to pay adjustments for existing FTE and is included in DP 1.

The DP 1 table above shows the total adjustments for each personal services category.

Legislative changes comprise a portion of the of the increase in the statewide present law adjustment for personal services including the legislatively approved pay plan and longevity changes.

Management changes are primarily due to market adjustments.

## HB 2 Appropriations

The Administration Program is primarily funded in HB 2 with general fund. It receives a small amount of state special revenue from the sale of Lewis and Clark medallions and bronze replicas of the "We Proceeded On" bronze relief in the Senate chamber. This state special revenue funding is used for the care and maintenance of the original bronze relief.

The program also receives federal funds generated through indirect cost recoveries and proprietary funds from museum entrance fees, lobby rentals, and merchandise sales.

#### Statutory Appropriations

The Administration Program has one statutorily appropriated state special revenue fund. The Montana Historical Society membership fund receives revenue from the purchase of memberships to the Montana Historical Society. This funding must be used for the improvement, development, and operation of the MTHS.

### Program Discussion -

#### FY 2022 Appropriation Compared to FY 2022 Actual Expenditures

The Research Center is funded in HB 2 with general fund, state special revenue and proprietary funds. The HB 2 modified budget of \$1.4 million was 99.8% expended at fiscal year-end 2022.

#### FY 2022 Appropriations Compared to FY 2023 Appropriations

Overall, the FY 2023 appropriation is \$116,540 or 8.5% higher than the FY 2022 appropriation. The primary difference is in personal services.

The state share holiday comprises \$27,925 of the difference. In FY 2023 the legislature appropriated an additional \$34,773 for fixed costs compared with the year before as well.

#### Executive Request

The Research Center is requesting an increase of \$384,263 in FY 2024 and \$422,235 in FY 2025 above the FY 2023 base appropriation. Additionally, 3.00 FTE are requested for a digital projects specialist position, an archivist position and a photo/film specialist position.

Under this request the general fund appropriation would grow by 8.0% for the biennium and actually decrease from the base appropriation in FY 2025 when the accommodation tax distribution changes to support operations and maintenance of the center. The state special appropriation, funded by accommodation tax, will increase by 89.6% in FY 2024 and 111.5% in FY 2025 over the 2023 base appropriation.

Statewide present law adjustments for the biennium total \$398,531 for the biennium, of which 81.6% is the fixed cost adjustment. The fixed cost adjustment takes into account the increased square footage of the Heritage Center.

The table above shows the total adjustments for each personal services category. Legislative changes include a negative adjustment to longevity due to new hires. Management changes include market changes, performance adjustments, and promotion adjustments.

Personal services total \$926,924 or 62.0% of total FY 2023 appropriations. The executive proposes an increase of \$229,224 in FY 2024 and \$235,250 in FY 2025. With the exception DP 1, the increase is due to a new proposal for an additional 3.00 FTE. The new FTE will be funded with state special revenue collections from accommodations tax.

### **Program Discussion -**

### FY 2022 Appropriation Compared to FY 2022 Actual Expenditures

The Museum Program is funded in HB 2 with general fund, state special revenue, and proprietary funds. The HB 2 modified budget of \$1.2 million was 100.0% expended at fiscalyear-end 2022.

## FY 2022 Appropriations Compared to FY 2023 Appropriations

Overall, the FY 2023 appropriation is \$4,616 or 0.4% lower than the FY 2022 appropriation. Of note is the change in debt service which is due to an accounting rule change for certain equipment leases.

## Executive Request

The executive requests an increase of \$395,948 in FY 2024 and \$388,397 in FY 2025 above the FY 2023 base appropriations. The majority of the increase is due to a request for 4.00 FTE and a corresponding increase in state special revenue funds.

Statewide present law adjustments total \$184,966, of which most is general fund. A fund switch is requested in FY 2025 to reduce general fund and change the source of O&M expenditures to state special funds.

The executive proposes an increase of \$339,211 in FY 2024 and \$343,760 in FY 2025. Most of this increase is in a new proposal for an additional 4.00 FTE. The balance of the increase is due to DP 1, which makes pay adjustments for existing FTE.

The DP 1 table above shows the total adjustments for each personal services category.

Legislative changes comprise a portion of the of the increase in the statewide present law adjustment for personal services including the legislatively approved pay plan and longevity changes.

Management changes are primarily due to market adjustments.

The Museum Program is primarily funded in HB 2 with general fund and the accommodation tax state special revenue fund. This program also has proprietary funding, which receives revenue from the sale of books, copies, and photographs, as well as the rental of traveling exhibits.

The Museum Program has several state special revenue funds that are statutorily appropriated. These include:

- The Original Governor's Mansion account, which is established in 22-3-117, MCA. It receives revenues from tours of the mansion and the funding must be used for the improvement, development, and operation of the Original Governor's Mansion
- The sites and signs account, which is established in 15-65-121(2)(a), MCA. This fund receives 1.0% of the lodging facility use tax for the installation or maintenance of roadside historical signs and historic sites
- The Lewis and Clark license plates account, which is established in 90-1-115, MCA. This fund receives 25.0% of the revenue from the sale of Lewis and Clark bicentennial license plates. Funding must be used to support projects related to Lewis and Clark

### Program Discussion -

#### FY 2022 Appropriation Compared to FY 2022 Actual Expenditures

The Publications Program is funded in HB 2 with general fund and proprietary funds. The HB 2 modified budget of \$462,851 was 100.0% expended as of the end of FY 2022.

### FY 2022 Appropriations Compared to FY 2023 Appropriations

Operating expenses were lower in FY 2022 than FY 2023 due to lower publishing costs. Personal services appropriations were not materially different.

#### Executive Request

The executive is requesting an increase of 17.6% in FY 2024 and 22.4% in FY 2025 above the FY 2023 base appropriations. This is due to statewide present law and new increases to fixed costs, personal services, and inflation deflation. General fund appropriations make up 11.1% of the increase, the majority of expenditures are funded with proprietary revenue. The increase is entirely due to the statewide present law adjustments for personal services, fixed costs, and inflation/deflation. These increases are discussed in detail below.

#### Program Personal Services Narrative

The Publications Program has a total of 5.00 FTE and is not requesting additional FTE.

#### **Program Discussion -**

#### FY 2022 Appropriation Compared to FY 2022 Actual Expenditures

The Historic Preservation Program is funded with general fund, federal special revenue, and proprietary funds. The HB 2 modified budget of \$905,277 was 97.9% expended as of the end of FY 2022.

#### FY 2022 Appropriations Compared to FY 2023 Appropriations

Overall, the FY 2023 appropriation is approximately \$8,334 or 0.1% higher than the FY 2022 appropriation. The difference is primarily in operating, which is \$16,814 greater in FY 2023, while personal services is \$8,480 lower. Personal services were lower in part due to the state share holiday.

#### Executive Request

The Historic Preservation Program is requesting an increase of 19.5% in FY 2022 and 23.1% in FY 2023 above the FY 2023 base appropriations. The increase is due to the statewide present law adjustments for personal services and fixed costs. Fixed costs are increasing materially due to increased square footage. Personal services are discussed in more detail in the next section.

#### **Program Personal Services Narrative**

The historic preservation program has 9.00 FTE and is not requesting additional FTE at this time.

Management decisions comprise the majority of the increase in the statewide present law adjustment for personal services. This increase is primarily due to market and performance adjustments.

The Historic Preservation Program is primarily funded with federal special revenue. This funding is from the National Parks Service for historic site preservation. The program also receives funding from a proprietary fund and a small portion from the general fund. The proprietary fund receives revenue from fees for historical preservation assistance and services and is used to enhance and maintain the agency's antiquities database.
