Account Purpose

The account is dedicated to funding the regular operational expenses of the Public Service Commission (PSC) and any contingency appropriations due to an unanticipated caseload.

Revenues

This account receives taxes based on a percentage of the total gross operating revenue of all regulated companies for the previous fiscal year. The percentage is based on the level of appropriations provided for the operational costs of the PSC. The calculation of the tax revenue is made by the Department of Revenue, who may reduce the revenue to be collected for the current year by any funds remaining unspent at the close of the prior fiscal year. Historically, these taxes accounted for 89.8% of revenue for the account. The account also collects license and permit revenue from transportation companies.

Use of Fund

The fund is used exclusively by the PSC to fund operational expenses. Over the past six years, 81.5% of the normal account costs were expended on personal services. These entries are required by the Governmental Accounting Standards Board (GASB) and have been adopted by the state.

Budget	4,058,682	3,792,924	4,366,490	4,416,172	4,951,351	5,092,171	6,399,795
Expenditures	4,037,025	3,791,210	4,005,074	4,075,899	4,678,535	4,875,075	
% Expended	99.5%	100.0%	91.7%	92.3%	94.5%	95.7%	

The account balance of \$2.4 million does not consider outstanding appropriation authority. In FY 2024, the PSC has \$6.4 million in appropriation authority and expects the same amount of tax and fee revenues. However, the Department of revenue could reduce the amount of the tax revenue due to the unexpended/unobligated balance in the account.
