

Subcommittee Considerations

- In the proposed HB 12 (2023) – Section 1, Line 14 – current appropriation is \$8,501,314. There is estimated (using HJ 2 projections) to be an ending fund balance of \$2,469,940 – all or some of that funding could be added to the appropriation to fund more of the projects
- Withdrawal of the 2023 biennium projects that withdrew or did not meet start-up conditions (see Section 3 of HB 12 (2021))
- Match requirements for next cycle of grants (Section 3 of HB 12 (2021))
- The projects are currently listed in ranked order & will be funded in that order in the bill
