*HB 2 Funding*

General fund comprises about 14.7% of total HB 2 funding in the 2023 biennium. General fund supports a portion of most programs in the Department of Military Affairs and the entire cost of the National Guard scholarships.

State special revenue makes up about 2.1% of the HB 2 funding in the 2023 biennium. The funding is used predominately in the Disaster and Emergency Services and Veterans' Affairs Divisions. The Veterans' Affairs Division receives a large portion of the state special revenues with funding generated through vehicle registration fees, specialty license plates, and donations.

Dominating the funding is federal special revenues at 83.2% of the HB 2 funding in the 2023 biennium. Federal government initiatives, programs, and objectives guide the funding requirements for the Department of Military Affairs.

*Statutory Appropriations*

The Montana Military Family Relief Fund (MMFRF) receives statutory appropriations to provide monetary grants to families of Montana National Guard and Reserve component members who on or after April 28, 2007 are on active duty for federal service in a contingency operation. MMFRF grants are intended to help Montana families defray the costs of food, housing, utilities, medical services, and other expenses that become difficult to afford when the wage-earner has temporarily left civilian employment to be placed on active military duty. Costs for the program in FY 2020 were about \$140,000. The program was originally funded by a transfer of \$1.0 million in general fund. Ongoing revenues include interest and donations of about \$40,000 a year. The fund balance at the end of FY 2020 was \$456,673.

The Veterans' Affairs Division has a statutory appropriation for the operation of the Montana Veterans' Cemetery Program. The state special revenue funds associated with this appropriation are generated from license registration fees, cemetery plot allowances, and donations. The statutory appropriations for the Veterans' Cemetery Program make up the majority of the state special revenue funds reflected in the preceding table.

The Governor is also provided a number of statutory appropriations in the event of a declared emergency or disaster. The most notable of these is the authority to authorize up to \$16.0 million from the general fund for disaster relief. These expenditures are authorized through executive orders and not reflected in the table above.

**Program Description**

The Montana National Guard Youth Challenge Program is a volunteer program for youth ages 16 to 18 who have stopped attending secondary school before graduating. Challenge is a 17-month, voluntary, two-phase military modeled training program targeting unemployed, drug-free, and crime-free high school dropouts. The program provides an opportunity for high school "at risk" youth to enhance their life skills and increase their educational levels and employment potential. Phase I of the program is a 22-week residential stay on the campus of the University of Montana Western in Dillon focusing on physical training, classroom instruction, personal development, and life skills. Phase II is a year-long mentoring relationship with a specially trained member of the community where the youth resides to provide a positive role model and to assist the student in gaining employment or enrolling in post-secondary schooling.

**Program Description**

The Army National Guard (ARNG), until federalized, is a state military organization that provides trained and equipped military units for use in the event of a state or national emergency. The federal/state cooperative agreement provides funding for facilities management, environmental, and communications support to the organization by: 1) providing professional and skilled personnel for the administration, planning, and execution of statewide repair and maintenance functions on facilities and training areas; 2) planning, programming, and contracting for construction; 3) ensuring all activities and facilities comply with environmental regulations; and 4) providing statewide communication services, security contracts, and leases for buildings and land used by the Army National Guard. The program is mandated by the U.S. and Montana Constitutions and Title 10, Chapters 1-3, MCA.

The funding ratio between general fund and federal funds depends on the nature of the activity, the uses or location of the facility being funded, and the goals of the operation. While the descriptions below discuss state funds for the Army National Guard Program, state fund support is provided by the general fund. Different funding scenarios include:

- When a facility is owned by the state and located on state land, maintenance and utility costs are split 50/50 with the federal government
- When a facility is state owned, but located on federal land, the maintenance and utility costs are funded 75.0% with federal funds and 25.0% with state funds
- When a facility is classified as a logistics facility, the funding is 100.0% federal for the entire facility
- When a facility is owned federally and located on federal lands and when a facility serves training missions, funding is 100.0% federal, except when the building is used as an armory
- When an armory is constructed with federal funds and located on federal land, maintenance and utility costs are funded 75.0% federal funds and 25.0% state funds. When armories are rented to groups, the state special revenue funds generated from the rental fees are used to augment general fund support of the facilities

DP 1201 - Natural Resource Manager FTE -

The legislature authorized 1.00 FTE and associated personal services spending authority for a Natural Resources Manager for the Environmental Office to maintain compliance with the Sikes Act and manage natural resources on Montana Army National Guard training lands at Fort Harrison and Limestone Hills with federal funds.

DP 1202 - Environmental Compliance Specialist FTE -

The legislature authorized 1.00 FTE and associated personal services spending authority for an Environmental Compliance Specialist to perform regulatory driven tasks under the Resource Conservation and Recovery Act (Executive Order 13834: Efficient Federal Operations, and Toxic Substances Control Act).

DP 1203 - CFMO Grounds Maintenance FTE -

The legislature authorized 1.00 FTE and associated personal services spending authority for a grounds maintenance position with federal funds. The Construction and Facilities Management Office is responsible for the maintenance services, including regularly scheduled adjustments and inspections, preventative maintenance, landscaping, mowing, snowplowing, and similar municipal services on facilities used to support the mission of the Montana Army National Guard.

DP 1204 - O&M Branch FTE -

The legislature authorized 1.00 FTE and associated personal services spending authority for the Operations & Management Branch of the Construction and Facilities Management Office with federal funds. The addition of this FTE will increase the staffing level to 1.00 FTE per 150,000 square feet. The FTE eliminates the need to hire two temporary FTE during the summer months and staff are responsible for regular maintenance on 100.0% federally funded facilities, which includes an additional 31,000 square feet of facility space constructed at Fort Harrison and brought online in federal FY 2021.

DP 1205 - CFMO Division Modified to Permanent FTE -

The legislature authorized 1.00 FTE and associated personal services spending authority in the Construction and Facilities

Management Office (CFMO) with federal funds. The FTE will maintain state contracting documents, develop and implement CFMO contracting policies and procedures, evaluate and ensure contractor performance, and ensure compliance with state and federal regulations. The position will assist the CFMO with aligning the structure of the CFMO with the procedures and guidance issued by the National Guard Bureau.

DP 1206 - CFMO Spending Operation and Maintenance of Facilities -

The legislature increased operating expenses to operate and maintain eight new facilities. The operation and maintenance costs for the additional 72,249 square feet of facility space include utilities, janitorial services, ground maintenance and fire protection costs. Of the eight facilities, only the Malta Readiness Center has a state share, which is \$30,000 per year. The other seven facilities are 100.0% federally operated and maintained, therefore the remaining \$94,000 is federally reimbursed.

DP 5555 - Reduce GF Budget for State Share Holiday (OTO) -

The legislature eliminated the state share contribution to the state employee group benefit plan for two months. Reserves are used to pay benefits during the holiday. This change package removes the general fund portion of the savings generated by the suspension of the contributions. Savings from other funding sources, were applicable, are proposed to remain in agency personal services budgets.

DP 1 - Personal Services -

The legislature made adjustments to the present law personal services budget for expected changes, management decisions, and budget modifications.

DP 2 - Fixed Costs -

The legislature made adjustments to fixed costs assessed by other agencies within state government for the services they provide. Examples include: warrant writer, motor pool, etc. The rates charged for these services are approved in the section of the budget that provides the services.

DP 50 - SWPLA Fixed Cost Reductions -

The legislature adjusted fixed costs for warehouses, storage rooms, and information technology.

DP 1301 - ANG Firefighter Federal Authority Pay Increase -

The legislature increased federal special revenue for hourly pay scale increases for the 30 state firefighters employed at the 120th Airlift Wing, Montana Air National Guard (MANG) base in Great Falls. MANG firefighters are also Emergency Medical Technicians. The legislature adopted a 5.4% overall increase in the salary and benefits costs for the MANG fire department. This plan has been approved by the National Guard Bureau to bring MANG firefighter pay scales in line with Montana market pay rates.

DP 1302 - ANG Fire FLSA Salaries Federal Authority -

The legislature provided additional federal spending authority for firefighter salaries and benefits that exceed those of a traditional FTE, due to the 24/7 nature of the fire protection services at the Montana Air National Guard. Hours over 2,080 per FTE are not captured in the personal services snapshot used for initial budget preparation and must be funded through this mechanism.

*HB 2 Funding*

Funding for Disaster and Emergency Services is broken down into three functional areas:

- Administration and coordination
- Search and rescue
- Grant programs

Administrative and coordination functions are primarily funded with 50.0% general fund and 50.0% federal funds. Disaster coordination functions are typically funded 100.0% with federal funds. Search and rescue activities are funded through state special revenue funds derived from surcharges on conservation licenses and off-road vehicle licenses. Grant

activities typically utilize federal funds. The amount of this funding budgeted in HB 2 can vary greatly depending on the federal source and available amounts known at the time of budget submission.

*Statutory Funding*

Statutory appropriations available to the Disaster and Emergency Services Division include:

- Federal special revenue payments for disasters and fire suppression – 10-3-203, MCA
- General fund for local incidence response by the state – 10-3-310, MCA
- General fund for a Governor declared emergency or disaster – 10-3-312(1), MCA
- State special revenue for contingencies to address environmental problems – 75-1-1101, MCA

Statutory funding is provided in the event of a declared emergency or disaster. The expenditures are authorized through executive order.

FEMA has prioritized mitigation, increasing the funding available and allowing the state to apply for up to \$35.0 million in federal funding each building resilient infrastructure communities grant cycle. To reduce redundancy, costs, and man hours required for each county to maintain a plan, regional plans will be done to cover counties with similar hazards. Plans are good for five years. The legislature approved funding for mitigation plans supported by 75.0% federal and 25.0% general fund. State matching funds are required to be eligible for federal mitigation funds.

DP 2104 - Mitigation FTE -

The legislature authorized 2.00 FTE and associated personal services spending authority for emergency managers in the Disaster and Emergency Services Division. These positions are funded with 75.0% federal special revenue and 25.0% general fund. DES is responsible for ensuring the state is able to deal with disasters or emergencies in order to protect public health and safety, and to preserve lives and property of the people of Montana. DP 2199 - NRIS/GIS Fixed Costs -

The 2019 Legislature enacted HB 633 requiring the Legislative Finance Committee (LFC) to conduct a study of the funding of digital library services. The LFC recommended that the Office of Budget and Program Planning include an assessment for the natural resource information system (NRIS) and the geographic information system (GIS) as a fixed cost to state agencies beginning in the 2023 biennium. The assessment is made to those agencies that utilize the NRIS/GIS.

DP 5555 - Reduce GF Budget for State Share Holiday (OTO) -

The legislature eliminated the state share contribution to the state employee group benefit plan for two months. Reserves are used to pay benefits during the holiday. *HB 2 Funding*

General fund supports approximately 64.1% of the Veterans' Affairs Program functions, with state special revenues supporting the remainder.

State special revenue includes three accounts:

- Veterans' services account, enacted by the 2003 Legislature, allocates proceeds from the sale of veterans' specialty plates and a portion of all motor vehicle registration revenues that are deposited into the general fund each year. The 2013 Legislature increased the percentage of motor vehicle fees into this fund from 0.64% to 0.81%.
- Patriotic license plate fees account receives revenue from a \$15 surcharge on original licensing and renewal of patriotic license plates issued in Montana
- Purple heart and higher medal scholarship account was revised by the 2019 Legislature. The legislature transferred \$50,000 of general fund into the account and required that the state special revenue appropriation be included in the base budget for the 2023 biennium

*Statutory Appropriations*

The Veterans' Affairs Program has a statutory appropriation for the operation of the Montana Veterans' Cemetery Program. The state special revenue account is funded through a portion of motor vehicle registration fees, cemetery plot allowances, and donations.

The legislature reduced transfer appropriations to align scholarships with available state special revenue funding.

DP 3107 - Veterans' Cemetery support -
