Written Statement: I know OPD has a huge workload. However, real life cases of the screw ups by OPD are not being dealt with just brushed under the rug. They gave me a contract attorney in 2010. All he did was tell me what he wasn't paid to do. And I have a letter from him saying he didn't do his job. He's a city court judge in Msla now, go figure. I have told the the County Attorney, Court, the Judge (now retired) and OPD about this letter and no one will from any those offices will answer me. Our constitution grants me the right to access my legal rights. Based on his letter, my constitutional rights were violated. What do I do now? Nothing, sit with a gross violation of the basic rights we depend on as citizens of Mt and the USA
