Section 3. Section 7-15-4286, MCA, is amended to read:

“7-15-4286. Procedure to determine and disburse tax increment. (1) Mill rates of taxing bodies for taxes levied after the effective date of the tax increment provision must be calculated on the basis of the sum of the taxable value, as shown by the last equalized assessment roll, of all taxable property located outside the urban renewal area or targeted economic development district and the base taxable value of all taxable property located within the area or district. The mill rate determined must be levied against the sum of the actual taxable value of all taxable property located within as well as outside the area or district.

(2) (a) Except as provided in subsection (2)(b), the tax increment, if any, received in each year from the levy of the combined mill rates of all the affected taxing bodies against the incremental taxable value within the area or district must be paid into a special fund held by the treasurer of the local government and used as provided in 7-15-4282 through 7-15-4294.

(b) The combined mill rates used to calculate the tax increment may not include mill rates for:

(i) the university system mills levied pursuant to 15-10-108 and 20-25-439; and

(ii) a new mill levy approved by voters as provided in 15-10-425 after the adoption of a tax increment provision.

(c) The balance of the taxes collected in each year must be paid to each of the taxing bodies as otherwise provided by law.”

Section 4. Section 15-1-121, MCA, is amended to read:

“15-1-121. Entitlement share payment -- purpose -- appropriation. (1) As described in 15-1-120(3), each local government is entitled to an annual amount that is the replacement for revenue received by local governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later enactments, were consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other revenue in the state treasury with each local government’s share. The reimbursement under this section is provided by direct payment from the state treasury rather than the ad hoc system that offset certain state payments with local government collections due the state and reimbursements made by percentage splits, with a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending a portion to other local governments.

(2) The sources of dedicated revenue that were relinquished by local governments in exchange for an entitlement share of the state general fund were:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999;

(b) vehicle, boat, and aircraft taxes and fees pursuant to:

(i) Title 23, chapter 2, part 5;

(ii) Title 23, chapter 2, part 6;

(iii) Title 23, chapter 2, part 8;

(iv) 61-3-317;

(v) 61-3-321;

(vi) Title 61, chapter 3, part 5, except for 61-3-509(3), as that subsection read prior to the amendment of 61-3-509 in 2001;

(vii) Title 61, chapter 3, part 7;
(viii) 5% of the fees collected under 61-10-122;
(ix) 61-10-130;
(x) 61-10-148; and
(xi) 67-3-205;
(c) gaming revenue pursuant to Title 23, chapter 5, part 6, except for the permit fee in 23-5-612(2)(a);
(d) district court fees pursuant to:
   (i) 25-1-201, except those fees in 25-1-201(1)(d), (1)(g), and (1)(j);
   (ii) 25-1-202;
   (iii) 25-9-506; and
   (iv) 27-9-103;
(e) certificate of title fees for manufactured homes pursuant to 15-1-116;
(f) financial institution taxes collected pursuant to the former provisions of Title 15, chapter 31, part 7;
(g) all beer, liquor, and wine taxes pursuant to:
   (i) 16-1-404;
   (ii) 16-1-406; and
   (iii) 16-1-411;
(h) late filing fees pursuant to 61-3-220;
(i) title and registration fees pursuant to 61-3-203;
(j) veterans’ cemetery license plate fees pursuant to 61-3-459;
(k) county personalized license plate fees pursuant to 61-3-406;
(l) special mobile equipment fees pursuant to 61-3-431;
(m) single movement permit fees pursuant to 61-4-310;
(n) state aeronautics fees pursuant to 67-3-101; and
(o) department of natural resources and conservation payments in lieu of taxes pursuant to former Title 77, chapter 1, part 5.

(3) Except as provided in subsection (7)(b), the total amount received by each local government in the prior fiscal year as an entitlement share payment under this section is the base component for the subsequent fiscal year distribution, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (7), is each local government’s base component. The sum of all local governments’ base components is the fiscal year entitlement share pool.

(4) (a) Except as provided in subsections (4)(b)(iv) and (7)(b), the base entitlement share pool must be increased annually by an entitlement share growth rate as provided for in this subsection (4). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year.

(b) By October 1 of each year, the department shall calculate the growth rate of the entitlement share pool for the next fiscal year in the following manner:
   (i) The department shall calculate the entitlement share growth rate based on the ratio of two factors of state revenue sources for the first, second, and third most recently completed fiscal years as recorded on the statewide budgeting and accounting, budgeting, and human resource system. The first factor is the sum of the revenue for the first and second previous completed fiscal years received from the sources referred to in subsections (2)(b), (2)(c), and (2)(g) divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.75. The second factor is the sum of the revenue for the first and second previous completed fiscal years received from individual income tax as provided in Title 15, chapter 30, and corporate income tax as provided in Title 15, chapter 31,
divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.25.

(ii) Except as provided in subsections (4)(b)(iii) and (4)(b)(iv), the entitlement share growth rate is the lesser of:

(A) the sum of the first factor plus the second factor; or
(B) 1.03 for counties, 1.0325 for consolidated local governments, and 1.035 for cities and towns.

(iii) In no instance can the entitlement growth factor be less than 1. Subject to subsection (4)(b)(iv), the entitlement share growth rate is applied to the most recently completed fiscal year entitlement payment to determine the subsequent fiscal year payment.

(iv) The entitlement share growth rate, as described in this subsection (4), is:

(A) for fiscal year 2018, 1.005;
(B) for fiscal year 2019, 1.0187;
(C) for fiscal year 2020 and thereafter, determined as provided in subsection (4)(b)(ii). The rate must be applied to the entitlement payment for the previous fiscal year as if the payment had been calculated using entitlement share growth rates for fiscal years 2018 and 2019 as provided in subsection (4)(b)(ii).

(5) As used in this section, “local government” means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (8). The county or consolidated local government is responsible for making an allocation from the county’s or consolidated local government’s share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district’s loss of revenue sources for which reimbursement is provided in this section. The allocation for each special district that existed in 2002 must be based on the relative proportion of the loss of revenue in 2002.

(6) (a) The entitlement share pools calculated in this section, the amounts determined under 15-1-123(2) for local governments, the funding provided for in subsection (8) of this section, and the amounts determined under 15-1-123(3) for tax increment financing districts are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local governments.

(b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. The growth factor in the entitlement share must be calculated separately for:

(A) counties;
(B) consolidated local governments; and
(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county’s percentage of the prior fiscal year entitlement share pool for all counties; and
(B) 50% of the growth amount must be allocated based upon the percentage that each county’s population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:
(A) 50% of the growth amount must be allocated based upon each consolidated local government’s percentage of the prior fiscal year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government’s population bears to the state’s total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city’s or town’s percentage of the prior fiscal year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city’s or town’s population bears to the state’s total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool before the growth amount or adjustments made under subsection (7) are applied is to be distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

7 (a) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section, the department shall determine the reimbursement amount as provided in the enactment and add the appropriate amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool. The ratio of each local government’s distribution from the entitlement share pool must be recomputed to determine each local government’s ratio to be used in the subsequent year’s distribution determination under subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A).

(b) For fiscal year 2018 and thereafter, the growth rate provided for in subsection (4) does not apply to the portion of the entitlement share pool attributable to the reimbursement provided for in 15-1-123(2). The department shall calculate the portion of the entitlement share pool attributable to the reimbursement in 15-1-123(2), including the application of the growth rate in previous fiscal years, for counties, consolidated local governments, and cities and, for fiscal year 2018 and thereafter, apply the growth rate for that portion of the entitlement share pool as provided in 15-1-123(2).

(c) The growth amount resulting from the application of the growth rate in 15-1-123(2) must be allocated as provided in subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A) of this section.

8 (a) Except for a tax increment financing district entitled to a reimbursement under 15-1-123(3), if a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any funding. If a tax increment financing district referred to in subsection (8)(b) terminates, then the funding for the district provided for in subsection (8)(b) terminates.

(b) One-half of the payments provided for in this subsection (8)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (8)(a), the entitlement share for tax increment financing districts is as follows:
The estimated fiscal year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from tax increment financing districts.

When there has been an underpayment of a local government’s share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government’s entitlement share, the local government shall remit the overpaid amount to the department.

A local government may appeal the department’s estimation of the base component, the entitlement share growth rate, or a local government’s allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(a) Except as provided in 2-7-517, a payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1.

(b) A payment required pursuant to this section must be withheld if a local government:

(i) fails to meet a deadline established in 2-7-503(1), 7-6-611(2), 7-6-4024(3), or 7-6-4036(1); and

(ii) fails to remit any amounts collected on behalf of the state as required by 15-1-504 or any other amounts owed to the state or another taxing jurisdiction, as otherwise required by law, within 45 days of the end of a month.

(c) A payment required pursuant to this section may be withheld if, for more than 90 days, a local government fails to:

(i) file a financial report required by 15-1-504;

(ii) remit any amounts collected on behalf of the state as required by 15-1-504; or

(iii) remit any other amounts owed to the state or another taxing jurisdiction.”

Section 5. Section 15-1-123, MCA, is amended to read:

“15-1-123. Reimbursement for class eight rate reduction and exemption — distribution — appropriations. (1) For the tax rate reductions in 15-6-138(3), the increased exemption amount in 15-6-138(4), the effective tax rate reductions on property under 15-6-145 because of the rate reductions required by the amendments of 15-6-138 in section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013, and the effective tax rate reductions on property under 15-6-145 because of the increased exemption amount required by the amendment of 15-6-138 in section 2, Chapter 396, Laws of 2013, the department shall reimburse each local government, as defined in 15-1-121(5), each tax increment financing district, and the 6-mill university levy for the purposes of the difference between property tax collections under 15-6-138 as amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013, and under 15-6-145 and the property tax revenue that would have been collected under 15-6-138 and 15-6-145 if 15-6-138 had not been amended by section 2, Chapter 411, Laws of 2011, and section 2, Chapter 396, Laws of 2013. The difference is the
annual reimbursable amount for each local government, each tax increment financing district, and the 6-mill levy for the support of the Montana university system under 15-10-108 15-10-109.

(2) The department shall distribute the reimbursements calculated in subsection (1) to local governments with the entitlement share payments under 15-1-121(7). For fiscal year 2018 and thereafter, the growth rate applied to the reimbursement is one-half of the average rate of inflation for the prior 3 years.

(3) The amount determined under subsection (1) for each tax increment financing district must be added to the reimbursement amount for the tax increment financing district as provided in 15-1-121(8)(b) if the tax increment financing district is still in existence. If a tax increment financing district that is entitled to a reimbursement under this section is not listed under 15-1-121(8)(b), the reimbursement must be made to that tax increment financing district at the same time as other districts.

(4) (a) The amount determined under subsection (1) for the 6-mill university levy must be added to current collections and reimbursements for the support of the Montana university system as provided in 15-10-108 15-10-109.

(b) The department of administration shall transfer the amount determined under this subsection (4) from the general fund to the state special revenue fund for the support of the Montana university system as provided in 15-10-108 15-10-109.

Section 6. Section 15-1-402, MCA, is amended to read:

“15-1-402. Payment of property taxes or fees under protest. (1) (a) The person upon whom a property tax or fee is being imposed under this title may, before the property tax or fee becomes delinquent, pay under written protest that portion of the property tax or fee protested.

(b) The protested payment must:

(i) be made to the officer designated and authorized to collect it;

(ii) specify the grounds of protest; and

(iii) not exceed the difference between the payment for the immediately preceding tax year and the amount owing in the tax year protested unless a different amount results from the specified grounds of protest, which may include but are not limited to changes in assessment due to reappraisal under 15-7-111.

(c) If the protested property tax or fee is on property that is subject to central assessment pursuant to 15-23-101, the person shall report to the department the grounds of the protest and the amount of the protested payment for each county in which a protested payment was made.

(2) A person appealing a property tax or fee pursuant to Title 15, chapter 2 or 15, including a person appealing a property tax or fee on property that is annually assessed by the department or subject to central assessment pursuant to 15-23-101(1) or (2), shall pay the tax or fee under protest when due in order to receive a refund. If the tax or fee is not paid under protest when due, the appeal or mediation may continue but a tax or fee may not be refunded as a result of the appeal or mediation.

(3) If a protested property tax or fee is payable in installments, a subsequent installment portion considered unlawful by the state tax appeal board need not be paid and an action or suit need not be commenced to recover the subsequent installment. The determination of the action or suit commenced to recover the first installment portion paid under protest determines the right of the party paying the subsequent installment to have it or any part of it refunded to the party or the right of the taxing authority to collect a subsequent installment not
paid by the taxpayer plus interest from the date the subsequent installment was due.

(4) (a) Except as provided in subsection (4)(b), all property taxes and fees paid under protest to a county or municipality must be deposited by the treasurer of the county or municipality to the credit of a special fund to be designated as a protest fund and must be retained in the protest fund until the final determination of any action or suit to recover the taxes and fees unless they are released at the request of the county, municipality, or other local taxing jurisdiction pursuant to subsection (5). This section does not prohibit the investment of the money of this fund in the state unified investment program or in any manner provided in Title 7, chapter 6. The provision creating the special protest fund does not apply to any payments made under protest directly to the state.

(b) (i) Property taxes that are levied by the state against property that is centrally assessed pursuant to 15-23-101 and any protested taxes on industrial property that is annually assessed by the department in a school district that has elected to waive its right to protested taxes in a specific year pursuant to 15-1-409 must be remitted by the county treasurer to the department for deposit as provided in subsections (4)(b)(ii) through (4)(b)(iv).

(ii) The department shall deposit 50% of that portion of the funds levied for the university system pursuant to 15-10-108 in the state special revenue fund to the credit of the university system, and the other 50% of the funds levied pursuant to 15-10-108 must be deposited in a centrally assessed property tax state special revenue fund.

(iii) Fifty percent of the funds remaining after the deposit of university system funds must be deposited in the state general fund, and the other 50% must be deposited in a centrally assessed property tax state special revenue fund.

(iv) Fifty percent of the funds from a school district that has waived its right to protested taxes must be deposited in the state general fund, and the other 50% must be deposited in a school district property tax protest state special revenue fund.

(5) (a) Except as provided in subsections (5)(b) and (5)(c), the governing body of a taxing jurisdiction affected by the payment of taxes under protest in the second and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled, except the amount paid by the taxpayer in the first year of the protest. The decision in a previous year of a taxing jurisdiction to leave protested taxes in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled, except the first-year protest amount.

(b) The governing body of a taxing jurisdiction affected by the payment of taxes under protest on property that is centrally assessed pursuant to 15-23-101 or on industrial property that is assessed annually by the department in the first and subsequent years that a tax protest remains unresolved may demand that the treasurer of the county or municipality pay the requesting taxing jurisdiction all or a portion of the protest payments to which it is entitled. The decision in a previous year of a taxing jurisdiction to leave protested taxes of centrally assessed property in the protest fund does not preclude it from demanding in a subsequent year any or all of the payments to which it is entitled.

(c) The provisions of subsection (5)(b) do not apply to a school district that has elected to waive its right to its portion of protested taxes on centrally
Ch. 3 MONTANA SESSION LAWS 2019 10

assessed property and on industrial property that is assessed annually by the department for that specific year as provided in 15-1-409.

(6) (a) If action before the county tax appeal board, state tax appeal board, or district court is not commenced within the time specified or if the action is commenced and finally determined in favor of the department of revenue, county, municipality, or treasurer of the county or the municipality, the amount of the protested portions of the property tax or fee must be taken from the protest fund or the centrally assessed property tax state special revenue fund and deposited to the credit of the fund or funds to which the property tax belongs, less a pro rata deduction for the costs of administration of the protest fund and related expenses charged to the local government units.

(b) (i) If the action is finally determined adversely to the governmental entity levying the tax, then the treasurer of the municipality, county, or state entity levying the tax shall, upon receipt of a certified copy of the final judgment in the action and upon expiration of the time set forth for appeal of the final judgment, refund to the person in whose favor the judgment is rendered the amount of the protested portions of the property tax or fee that the person holding the judgment is entitled to recover, together with interest from the date of payment under protest. The department shall refund from the school district property tax protest state special revenue fund the protested portions of property taxes and interest to a taxpayer in a school district in which the school district has elected to waive its right to its portion of protested taxes for that specific year as provided in 15-1-409. If the amount available for the refund in the school district property tax protest state special revenue fund is insufficient to refund the property tax payments, the department shall pay the remainder of the refund from the state general fund.

(ii) The taxing jurisdiction shall pay interest at the rate of interest earned by the pooled investment fund provided for in 17-6-203 for the applicable period.

(c) If the amount retained in the protest fund is insufficient to pay all sums due the taxpayer, the treasurer shall apply the available amount first to tax repayment, then to interest owed, and lastly to costs.

(d) (i) If the protest action is decided adversely to a taxing jurisdiction and the amount retained in the protest fund is insufficient to refund the tax payments and costs to which the taxpayer is entitled and for which local government units are responsible, the treasurer shall bill and the taxing jurisdiction shall refund to the treasurer that portion of the taxpayer refund, including tax payments and costs, for which the taxing jurisdiction is proratably responsible. The treasurer is not responsible for the amount required to be refunded by the state treasurer as provided in subsection (6)(b).

(ii) For an adverse protest action against the state for centrally assessed property, the department shall refund from the centrally assessed property tax state special revenue fund the amount of protested taxes and from the state general fund the amount of interest as required in subsection (6)(b). The amount refunded for an adverse protested action from the centrally assessed property tax state special revenue fund may not exceed the amount of protested taxes or fees required to be deposited for that action pursuant to subsections (4)(b)(ii) and (4)(b)(iii) or, for taxes or fees protested prior to April 28, 2005, an equivalent amount of the money transferred to the fund pursuant to section 3, Chapter 536, Laws of 2005. If the amount available for the adverse protested action in the centrally assessed property tax state special revenue fund is insufficient to refund the tax payments to which the taxpayer is entitled and for which the state is responsible, the department shall pay the remainder of the
refund proportionally from the state general fund and from money deposited in the state special revenue fund levied pursuant to 15-10-108 15-10-109.

(e) In satisfying the requirements of subsection (6)(d), the taxing jurisdiction, including the state, is allowed not more than 1 year from the beginning of the fiscal year following a final resolution of the protest. The taxpayer is entitled to interest on the unpaid balance at the rate referred to in subsection (6)(b) from the date of payment under protest until the date of final resolution of the protest and at the combined rate of the federal reserve discount rate quoted from the federal reserve bank in New York, New York, on the date of final resolution, plus 4 percentage points, from the date of final resolution of the protest until refund is made.

(7) A taxing jurisdiction, except the state, may satisfy the requirements of this section by use of funds from one or more of the following sources:

(a) imposition of a property tax to be collected by a special tax protest refund levy;

(b) the general fund or any other funds legally available to the governing body; and

(c) proceeds from the sale of bonds issued by a county, city, or school district for the purpose of deriving revenue for the repayment of tax protests lost by the taxing jurisdiction. The governing body of a county, city, or school district is authorized to issue the bonds pursuant to procedures established by law. The bonds may be issued without being submitted to an election. Property taxes may be levied to amortize the bonds.

(8) If the department revises an assessment that results in a refund of taxes of $5 or less, a refund is not owed.”

Section 7. Section 15-10-420, MCA, is amended to read:

“15-10-420. Procedure for calculating levy. (1) (a) Subject to the provisions of this section, a governmental entity that is authorized to impose mills may impose a mill levy sufficient to generate the amount of property taxes actually assessed in the prior year plus one-half of the average rate of inflation for the prior 3 years. The maximum number of mills that a governmental entity may impose is established by calculating the number of mills required to generate the amount of property tax actually assessed in the governmental unit in the prior year based on the current year taxable value, less the current year’s newly taxable value, plus one-half of the average rate of inflation for the prior 3 years.

(b) A governmental entity that does not impose the maximum number of mills authorized under subsection (1)(a) may carry forward the authority to impose the number of mills equal to the difference between the actual number of mills imposed and the maximum number of mills authorized to be imposed. The mill authority carried forward may be imposed in a subsequent tax year.

(c) For the purposes of subsection (1)(a), the department shall calculate one-half of the average rate of inflation for the prior 3 years by using the consumer price index, U.S. city average, all urban consumers, using the 1982-84 base of 100, as published by the bureau of labor statistics of the United States department of labor.

(2) A governmental entity may apply the levy calculated pursuant to subsection (1)(a) plus any additional levies authorized by the voters, as provided in 15-10-425, to all property in the governmental unit, including newly taxable property.

(3) (a) For purposes of this section, newly taxable property includes:

(i) annexation of real property and improvements into a taxing unit;

(ii) construction, expansion, or remodeling of improvements;

(iii) transfer of property into a taxing unit;
(iv) subdivision of real property; and
(v) transfer of property from tax-exempt to taxable status.

(b) Newly taxable property does not include an increase in value that arises because of an increase in the incremental value within a tax increment financing district.

(4) (a) For the purposes of subsection (1), the taxable value of newly taxable property includes the release of taxable value from the incremental taxable value of a tax increment financing district because of:

(i) a change in the boundary of a tax increment financing district;
(ii) an increase in the base value of the tax increment financing district pursuant to 7-15-4287; or
(iii) the termination of a tax increment financing district.
(b) If a tax increment financing district terminates prior to the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the year in which the tax increment financing district terminates. If a tax increment financing district terminates after the certification of taxable values as required in 15-10-202, the increment value is reported as newly taxable property in the following tax year.

c) For the purpose of subsection (3)(a)(ii), the value of newly taxable class four property that was constructed, expanded, or remodeled property since the completion of the last reappraisal cycle is the current year market value of that property less the previous year market value of that property.

d) For the purpose of subsection (3)(a)(iv), the subdivision of real property includes the first sale of real property that results in the property being taxable as class four property under 15-6-134 or as nonqualified agricultural land as described in 15-6-133(1)(c).

(5) Subject to subsection (8), subsection (1)(a) does not apply to:

(a) school district levies established in Title 20; or
(b) a mill levy imposed for a newly created regional resource authority.

(6) For purposes of subsection (1)(a), taxes imposed do not include net or gross proceeds taxes received under 15-6-131 and 15-6-132.

(7) In determining the maximum number of mills in subsection (1)(a), the governmental entity:

(a) may increase the number of mills to account for a decrease in reimbursements; and
(b) may not increase the number of mills to account for a loss of tax base because of legislative action that is reimbursed under the provisions of 15-1-121(7).

(c) Subsequent to the initial approval of a waiver, the department may revoke the waiver if it determines that the partner, shareholder, member, or other owner no longer qualifies.

(9) Nothing in this section may be construed as modifying the provisions of Article IV(18) of 15-1-601 and 15-31-312 allowing a taxpayer to petition for and the department to require methods to fairly represent the extent of the taxpayer’s business activity in the state.

Section 14. Section 17-2-107, MCA, is amended to read:

(1) The department shall record receipts and disbursements for treasury funds and for accounting entities within treasury funds and shall maintain records in a manner that reflects the total cash and invested balance of each fund and each accounting entity. The department shall adopt the necessary procedures to ensure that interdepartmental or intradepartmental transfers of money or loans do not result in inflation of figures reflecting total governmental costs and revenue.

(2) (a) Except as provided in 77-1-108 and subject to 17-2-105, when the expenditure of an appropriation from a fund designated in 17-2-102(1) through (3) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded
in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(4) is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4) of this section, of money from the agency’s other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. A fund or subfund receiving a loan or from which a loan is made may not be so impaired that all proper demands on the fund or subfund cannot be met even if the loan is extended.

(ii) One accounting entity within each fund or subfund designated in 17-2-102(4) must be established for the sole purpose of recording loans between the funds or subfunds. This accounting entity is the only accounting entity within each fund or subfund that may receive a loan or from which a loan may be made.

(c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(4)(a)(iv) and (4)(b) through (4)(f) must bear interest at a rate equivalent to the previous fiscal year’s average rate of return on the board of investments’ short-term investment pool.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department or the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans. The report must be provided in an electronic format.

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(4) has a negative cash balance, the commissioner of higher education shall submit to the legislative fiscal analyst by September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity’s negative cash balance or solvency. The report must be provided in an electronic format.

(7) (a) An accounting entity in a fund designated in 17-2-102(1) through (3) may not have a negative cash balance at fiscal yearend. The department may, however, allow a fund type within each agency to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.
(b) (i) Except as provided in subsection (7)(b)(ii) of this section, a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(4).

(ii) If a fund or subfund inadvertently has a negative cash balance, the department may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting, budgeting, and human resource system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed-upon reimbursements from federal, private, or other governmental entity sources for disbursements made. If possible, the loans must be made from funds other than the general fund. The department may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions that may be determined by the department or by specific legislative authorization.

(9) A loan may not be authorized under this section to any fund or accounting entity that is owed federal or other third-party funds unless the requesting agency certifies to the agency approving the loan that it has and will continue to bill the federal government or other third party for the requesting agency’s share of costs incurred in the fund or accounting entity on the earliest date allowable under federal or other third-party regulations applicable to the program. The requesting agency shall recertify its timely billing status to the agency that approved the loan at least monthly during the term of the loan. If at any time the requesting agency fails to recertify the timely billing, the agency that approved the loan shall cancel the loan and return the money to its original source.”

(d) district expenditures related to the K-12 career and vocational/technical education programs; and

(e) student participation in workforce development activities, including but not limited to:
   (i) attainment of industry-recognized professional certifications; and
   (ii) work-based learning programs, such as internships and registered apprenticeships.

(2) The superintendent of public instruction shall adjust the weighted factors outlined in subsection (1) as necessary to ensure that the allocations do not exceed the amount appropriated.

(3) Except for other expenditures outlined in subsection (1)(d), funding must be based upon the calculation for secondary K-12 career and vocational/technical education programs of the high school district in the year preceding the year for which funding is requested. Funding for the expenditures referred to in subsection (1)(d) must be based on the calculation for the secondary K-12 career and vocational/technical education programs of the high school district for the 2 years preceding the year for which funding is requested. The funding must be computed for each separate secondary K-12 career and vocational/technical education program.

(4) For secondary career and vocational/technical education programs, the total funding must be distributed to eligible programs based on the four factors listed in subsections (1)(a) through (1)(d) subsection (1).

(5) The superintendent of public instruction shall annually distribute the funds allocated in this section by November 1. The expenditure of the money must be reported in the annual trustees’ report as required by 20-9-213.

(6) Any increase in the amount distributed to a school district from the biennial state appropriation for secondary K-12 career and vocational/technical education must be used for the expansion and enhancement of career and vocational/technical education programs and may not be used to reduce previous district spending on career and vocational/technical education programs.”

Section 18. Section 20-9-502, MCA, is amended to read:

“20-9-502. Purpose and authorization of building reserve fund — levy for school transition costs. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:
   (i) the purpose or purposes for which the new or addition to the building reserve will be used;
   (ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;
(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). Except as provided in subsection (3)(g), the trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified school major maintenance projects meeting the requirements of 20-9-525(2). The 10-mill limit under this section must be calculated using the district’s total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) may not exceed the district’s school major maintenance amount. For the purposes of this section, the term “school major maintenance amount” means the sum of $15,000 and the product of $100 multiplied by the district’s budgeted ANB for the prior fiscal year. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than June 1 for fiscal year 2017 only and no later than March 31 for fiscal years 2018 and subsequent fiscal years, a resolution:

(A) identifying the anticipated school major maintenance projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to 20-9-525(3), and the resulting estimated number of mills to be levied using the district’s taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.
(b) Proceeds from the levy may be expended only for the purposes under 20-9-525(2), and the expenditure of the money must be reported in the annual trustees’ report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this section during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3) in the district’s building reserve fund budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this section is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525(3).

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district’s local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(g) A district awarded a quality schools facility grant pursuant to former Title 90, chapter 6, part 8, during the biennium beginning July 1, 2017, may not impose the levy under this subsection (3) during the biennium beginning July 1, 2017.

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

(i) open a new school under the provisions of Title 20, chapter 6;
(ii) close a school;
(iii) replace a school building;
(iv) consolidate with or annex another district under the provisions of Title 20, chapter 6; or
(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district’s maximum general fund budget for the current year or $250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for consolidation or annexation:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and
(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) A subfund in the building reserve fund must be created for the funds transferred to the building reserve fund for school safety and security pursuant to 20-9-236.”

The reviewing authority may not request additional information for the purpose of extending the time allowed for a review and final decision on the proposed subdivision. If the department approves the subdivision, the department shall issue a certificate of subdivision approval indicating that it has approved the plans and specifications and that the subdivision is not subject to a sanitary restriction.

   (iv) sample fluids that the operator is required to sample; and
   (e) adopt standards for the design, construction, testing, and operation of class II injection wells.

(6) The board shall determine, for the purposes of using the oil and gas production damage mitigation account established in 82-11-161:
   (a) when the person responsible for an abandoned well, sump, or hole cannot be identified or located or, if the person is identified or located, when the person does not have sufficient financial resources to properly plug the well, sump, or hole; or
   (b) when a previously abandoned well, sump, or hole is the cause of potential environmental problems and no responsible party can be identified or located or, if a responsible party can be identified and located, when the person does not have sufficient financial resources to correct the problems.

(7) The board may take measures to demonstrate to the general public the importance of the state’s oil and gas exploration and production industry, to encourage and promote the wise and efficient use of energy, to promote environmentally sound exploration and production methods and technologies, to develop the state’s oil and gas resources, and to support research and educational activities concerning the oil and natural gas exploration and production industry. (2) Subject to the administrative control of the department under 2-15-121, the board shall:
   (a) require measures to be taken to prevent contamination of or damage to surrounding land or underground strata caused by drilling operations and

(5) A local government unit that received all or a portion of the property tax prepayment under this section shall provide for tax crediting as specified in the impact plan. CHAPTER NO. 7

[HB 46]

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 46-18-1101, MCA, is amended to read:

“46-18-1101. Expungement of misdemeanor records — petition to district court — criteria for expungement — definitions. (1) (a) A person convicted of a misdemeanor offense or offenses who has completed the terms of the sentence for the misdemeanor offense or offenses may petition the district court for an order requiring the expungement of all records of the arrest, investigation, and detention, if any, and any court proceedings that may have been held in the case.

(b) The district court shall determine whether a victim is entitled to notification of the request for expungement as provided in Article II, section 36, subsection(1)(q), of the Montana constitution. If a victim is identified by the district court, the prosecution office responsible for the conviction for which expungement is being requested must attempt to notify the victim. If the victim appears, the victim must be given an opportunity to respond.

(b) The district court shall determine whether a victim of the offense can be identified. If a victim is identified by the district court, the prosecution office responsible for the conviction for which expungement is being requested must attempt to notify the victim of the offense and document the attempt. The notification must include that the victim has the right to respond to the expungement request. If the victim appears, the victim must be given an opportunity to respond.

(2) Unless the interests of public safety demand otherwise, the district court shall order the records expunged if:
(a) (i) the person has not been convicted of any other offense in this state, another state, or federal court for a period of 5 years since the person completed the terms of the original sentence for the offense, including payment of any financial obligations or successful completion of court-ordered treatment; or

(ii) the person has applied to a United States military academy, has applied to enlist in the armed forces or national guard, or is currently serving in the armed forces or national guard and is prohibited from enlisting or holding a certain position due to a prior conviction; and

(b) the person is not currently being detained for the commission of a new offense and has not been charged with the commission of a new offense, or does not have charges pending for the commission of a new offense, as verified by the prosecution office responsible for the conviction for which expungement is being requested.

The prosecution office that prosecuted the offense for which expungement is being requested must be notified of the request and be given an opportunity to respond and argue against the expungement. In making the determination of whether expungement should be granted, the district court must consider, in addition to any other factors, the age of the petitioner at the time the offense was committed, the length of time between the offense and the request, the rehabilitation of the petitioner, and the likelihood that the person will reoffend.

(4) If the order of expungement is granted, a copy of the order must be sent by the person whose records are to be expunged to the arresting law enforcement agency, the prosecutor’s office that prosecuted the offense, the clerk of the court in which the person was sentenced, and the department of justice, along with a form prepared by the department of justice that contains identifying information about the petitioner.

(5) For purposes of handling expunged records, the department of justice may adopt rules to implement the provisions of this section.

(6) A person’s records may be expunged pursuant to this section no more than one time during the person’s life. A person submitting a petition for expungement under this section must be fingerprinted for purposes of validating the person’s identity.

(7) The department of justice shall expunge any records under this section within existing department resources.

(8) For purposes of this section, the following definitions apply:

(a) “Expunge” or “expungement” means to permanently destroy, delete, or erase a record of an offense from the criminal history record information system maintained by the department of justice in a manner that is appropriate for the record’s physical or electronic form.

recovery production from pre-1999 wells and from post-1999 wells is taxed at the rate imposed on primary recovery production under subsections (5)(a)(ii)(A) and (5)(a)(ii)(B), respectively, for production occurring in that quarter, other than exempt stripper well production.

(d) (i) Stripper well exemption production is taxed as provided in subsection (5)(c)(i) only if the average price for a barrel of west Texas intermediate crude oil during a calendar quarter is less than $54. (e) For the purposes of subsections (6)(c) and (6)(d), the average price for each barrel must be computed by dividing the sum of the daily price for a barrel of west Texas intermediate crude oil for the calendar quarter by the number of days on which the price was reported in the quarter.

Be it enacted by the legislature of the state of montana:

section 1. Section 20-3-361, mca, is amended to read:

"20-3-361. Joint board of trustees organization and voting membership. (1) The board of trustees of two or more school districts may form a joint board of trustees for the purpose of coordinating any educational program or support service of the districts. A joint board of trustees may coordinate only those programs and services agreed to by the participating boards of trustees.

(2) When a joint board of trustees is formed, all of the members of the districts’ trustees must be members of the joint board of trustees and each member must have the right to participate in the meetings, but voting on matters considered by the joint board is limited by the provisions of this section.

(3) At the first meeting of the joint board of trustees, a presiding officer of the joint board of trustees must be selected from among the membership. A secretary of the joint board must be selected from the membership. The presiding officer, when selected as a voting member, may not be disqualified from voting because of the position. The secretary may not be a voting member except that the secretary shall cast the deciding vote when three successive ballots have resulted in a tie vote of the joint board of trustees.

(4) The voting membership of the joint board of trustees must be equalized among the trustee membership of the participating districts. After the selection of the presiding officer and the secretary, if necessary, the voting membership is:

(a) all of the membership of the board of trustees of the smallest class of district, according to 20-6-201 or 20-6-301, unless one of its members is selected as secretary, in which case that member may not be a voting member; and

(b) the members of the board of trustees of the other district or districts who are selected by the trustees as voting members of the joint board in a number equal to the number of voting members of the district as established under subsection (4)(a). The names of the voting membership selected by the trustees must be submitted in writing to the secretary of the board and are the only members of the district’s trustees eligible to vote on joint board matters unless the list is revised in writing by the trustees.

(5) Each voting member is entitled to cast one vote, individually, upon every matter submitted to the joint board for a vote.

(6) A joint board shall remain in existence for at least 1 school year and may not be dissolved until the end of a school year.

(7) A school district that elects to participate in a joint board formed under this section for special education purposes shall confirm in writing to the joint board by October 1 of the current school fiscal year the district’s intention to participate or to not participate in a joint board agreement for the next school fiscal year."

Section 2. Section 20-3-362, mca, is amended to read:

"20-3-362. Powers of joint board of trustees. (1) When a joint board of trustees is formed as provided by 20-3-361, it shall have the power to:

(b) jointly employ teachers and specialists under the provisions of 20-4-201;

(c) open a junior high school under the provisions of 20-6-505 if the trustees of a county high school and the trustees of an elementary district have formed a joint board of trustees;"
(d) prescribe and administer joint administrative policy;
(e) jointly provide any program or service authorized under 20-3-324, including any joint provision of special education services as provided in 20-7-457; and
(f) prorate all items of joint expense among the school districts, provided that a controversy over any decision by the joint board to prorate joint costs may, within 30 days, be appealed by the trustees of any district to the superintendent of public instruction for a final decision as to what constitutes a fair and just proration of the cost.

(2) The joint board of trustees shall not have the power to transact business that is not specifically related to the joint administration of the districts.”

Section 3. Section 20-7-457, MCA, is amended to read:
“20-7-457. Funding provisions for special education purposes of cooperatives or joint boards. (1) The superintendent of public instruction shall pay directly to a special education cooperative or to a joint board formed under 20-3-361 prior to July 1, 1992, for special education purposes the special education allowable cost payments determined pursuant to 20-9-321.

(2) A school district that elects to participate in a cooperative for special education purposes shall agree in the cooperative contract to participate for a period of at least 3 years.

(3) A school district that elects to participate in a joint board formed under 20-3-361 for special education purposes shall confirm in writing to the joint board by October 1 of the current school fiscal year the district’s intention to participate or to not participate in a joint board agreement for the next school fiscal year.

(4) A cooperative that has not met the requirements of 20-7-454 may not be funded under the provisions of this section except by approval of the superintendent of public instruction. The superintendent shall adopt rules for approval of full service education cooperatives.

(5) A full service education cooperative may establish a retirement fund, a miscellaneous programs fund, and a transportation fund, as provided for in 20-9-201, for the purposes of a full service education cooperative contract and the purposes allowed by law.

(6) The superintendent of public instruction, after consulting with regional representatives, shall define boundaries for cooperatives established for special education programs that incorporate the territory of all public school districts.

(7) Restructuring of cooperatives established for providing special education services must:
(a) be limited to a statewide total of no more than 23;
(b) include districts that are adjacent to each other and not overlapping into another cooperative’s territory; and
(c) provide that all districts located within a cooperative’s boundary may voluntarily become a cooperative member.”

Section 4. Section 20-9-321, MCA, is amended to read:
“20-9-321. Allowable cost payment for special education. (1) As used in this section, “ANB” means the current year ANB.

(2) The 3-year average ANB provided for in 20-9-311 does not apply to the calculation and distribution of state special education allowable cost payments provided for in this section.

(3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district, cooperative, or joint board for special education services formed
under 20-3-361 prior to July 1, 1992, or special education cooperative using the following factors:

(a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;
(b) a per-ANB amount for the special education instructional block grant;
(c) a per-ANB amount for the special education-related services block grant;
(d) an amount for cooperatives or joint boards meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and
(e) any other data required by the superintendent of public instruction to administer the provisions of this section.

(4) (a) The total special education allocation must be distributed according to the following formula:

(i) 52.5% through instructional block grants;
(ii) 17.5% through related services block grants;
(iii) 25% to reimbursement of local districts; and
(iv) 5% to special education cooperatives and joint boards for administration and travel.

(b) Special education allowable cost payments outlined in subsection (4)(a) must be granted to each school district and cooperative with a special education program as follows:

(i) The instructional block grant limit prescribed in subsection (4)(a)(i) must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(ii) The special education-related services block grant limit prescribed in subsection (4)(a)(ii) must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education-related services amount, or to a cooperative or joint board that meets the requirements of 20-7-457. The special education-related services block grant amount for districts that are members of approved cooperatives or a joint board must be awarded to the cooperatives or joint board.

(iii) If a district’s allowable costs of special education exceed the total of the special education instructional and special education-related services block grant plus the required district match required by subsection (6), the district is eligible to receive at least a 40% reimbursement of the additional costs. To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district’s block grants plus the required district match.

(iv) Of the amount distributed under subsection (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative or joint board and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

(5) The superintendent of public instruction shall adopt rules necessary to implement this section.

(6) A district shall provide a 25% local contribution for special education, matching every $3 of state special education instructional and special education-related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education-related services grant amount to the special education cooperative.
(7) The superintendent of public instruction shall determine the actual district match based on the trustees’ reports. Any unmatched portion reverts to the state and must be subtracted from the district’s ensuing year’s special education allowable cost payment.

(8) A district that demonstrates severe economic hardship because of exceptional special education costs may apply to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.”

(1) There is a school major maintenance aid account in the state special revenue fund provided for in 17-2-102.

(2) [Subject to legislative fund transfer.] the purpose of the account is to provide, contingent on appropriation from the legislature, funding for school major maintenance aid as provided in subsection (3) for school facility projects that support a basic system of free quality public elementary and secondary schools under 20-9-309 and that involve:

(a) first, making any repairs categorized as “safety”, “damage/wear out”, or “codes and standards” in the facilities condition inventory for buildings of the school district as referenced in the K-12 public schools facility condition and needs assessment final report prepared by the Montana department of administration pursuant to section 1, Chapter 1, Special Laws of December 2005; and

(b) after addressing the repairs in subsection (2)(a), any of the following:

(i) updating the facility condition inventory as recommended in the final report referenced in subsection (2)(a) with the scope and methods of the review to be determined by the trustees, employing experts as the trustees determine necessary. The first update must be completed by July 1, 2019, and each district shall certify the completion to the office of public instruction no later than October 31, 2019. Subsequent updates must be certified to the office of public instruction no less than once every 5 years following the first certification.

(ii) undertaking projects designed to produce operational efficiencies such as utility savings, reduced future maintenance costs, improved utilization of staff, and enhanced learning environments for students, including but not limited to projects addressing:

(A) roofing systems;
(B) heating, air-conditioning and ventilation systems;
(C) energy-efficient window and door systems and insulation;
(D) plumbing systems;
(E) electrical systems and lighting systems;
(F) information technology infrastructure, including internet connectivity both within and to the school facility; and

(G) other critical repairs to an existing school facility or facilities.

(3) (a) In any year in which the legislature has appropriated funds for distribution from the school major maintenance aid account, the superintendent of public instruction shall administer the distribution of school major maintenance aid from the school major maintenance aid account for deposit in the subfund of the building reserve fund provided for in 20-9-502(3)(e). Subject to proration under subsection (5) of this section, aid must be annually distributed no later than the last working day of May to a school district imposing a levy pursuant to 20-9-502(3) in the current school fiscal year, with the amount of state support per dollar of local effort of the applicable elementary and high school program of each district determined as follows:

(i) using the taxable valuation most recently certified determined by the department of revenue under 15-10-202 20‑9‑369:

(A) divide the total statewide taxable valuation by the statewide total of school major maintenance amounts and multiply the result by 171%;

(B) multiply the result determined under subsection (3)(a)(i)(A) by the district’s school major maintenance amount;

(C) subtract the district’s taxable valuation from the amount determined under subsection (3)(a)(i)(B); and

(D) divide the amount determined under subsection (3)(a)(i)(C) by 1,000;

(ii) determine the greater of the amount determined in subsection (3)(a)(ii) or 18% of the district’s mill value;

(iii) multiply the result determined under subsection (3)(a)(ii) by the district’s school major maintenance amount, then divide the product by the sum of the result determined under subsection (3)(a)(ii) and the district’s school major maintenance amount mill value; and

(iv) divide the result determined under subsection (3)(a)(iii) by the difference resulting from subtracting the result determined under subsection (3)(a)(iii) from the district’s school major maintenance amount.

(b) For a district with an adopted general fund budget in the prior year greater than or equal to 97% of the district’s general fund maximum budget in the prior year, the amount determined in subsection (3)(a)(iii)(a)(iv) rounded to the nearest cent is the amount of school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district’s school major maintenance amount.

(c) For a district with an adopted general fund budget in the prior year less than 97% of the district’s maximum budget in the prior year, multiply the amount determined in subsection (3)(a)(iii)(a)(iv) by the ratio of the district’s adopted general fund budget in the prior year to the district’s maximum general fund budget in the prior year. The result, rounded to the nearest cent, is the amount of state school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district’s school major maintenance amount.

(4) Using the taxable valuation most recently certified determined by the department of revenue under 15-10-202 20‑9‑369, the superintendent shall provide school districts with a preliminary estimated amount of state school major maintenance aid per dollar of local effort for the ensuing school year no later than March 1 and a final amount for the current school year no later than July 31.

(5) If the appropriation from or the available funds in the school major maintenance aid account in any school fiscal year are less than the amount for which school districts would otherwise qualify, the superintendent of public
instruction shall proportionally prorate the aid distributed to ensure that the distributions do not exceed the appropriated or available funds.

(6) If in any fiscal year the amount of revenue in the school major maintenance aid account is sufficient to fund school major maintenance aid without a proration reduction pursuant to subsection (5) and if in that same fiscal year the amount of revenue available in the school facility and technology account established in 20-9-516 will result in a proration reduction in debt service assistance pursuant to 20-9-346(2)(b) for that fiscal year, the state treasurer shall transfer any excess funds in the school major maintenance aid account to the school facility and technology account, not to exceed the amount required to avoid a proration reduction.

(7) For the purposes of this section, the following definitions apply:

(a) “Local effort” means an amount of money raised by levying no more than 10 mills pursuant to 20-9-502(3) and, provided that 10 mills have been levied, any additional amount of money deposited or transferred by trustees to the subfund pursuant to 20-9-502(3).

(b) “School major maintenance amount” means the sum of $15,000 and the product of $100 multiplied by the district’s budgeted ANB for the prior fiscal year. (Bracketed language in subsection (2) terminates June 30, 2019—sec. 28, Ch. 6, Sp. L. November 2017.)”

Section 2. Section 35, Chapter 429, Laws of 2017, is amended to read:

(8) The superintendent of public instruction shall emphasize the creation of and distribution of individual diagnostic data for each student in a manner that is timely and protects the privacy rights of students and families as they relate to education so that school districts may use the data to support timely academic intervention as needed and to otherwise improve the academic achievement of the students of each school district.

(9) (a) In addition to the data privacy protections in subsection (1)(b) and except as provided in subsection (9)(b), the superintendent of public instruction may provide personally identifiable information gathered, maintained, and distributed pursuant to subsection (7) and any other personally identifiable

Section 1. Section 87-1-266, MCA, is amended to read:

“87‑1‑266. Hunter management program — benefits for providing hunting access — nonresident landowner limitation — restriction on landowner liability. (1) As provided in 87-1-265, the department may establish a voluntary hunter management program to provide tangible benefits to private landowners enrolled in the block management program who grant access to their land for public hunting. The decision to enroll a landowner in the hunter management program is the responsibility of the department. Benefits may be granted as provided in this section and by rule.

(2) As a benefit for enrolling property in the hunter management program, a resident landowner who becomes a cooperator in the program and who agrees to provide public hunting access may receive one Class AAA combination sports license and the necessary prerequisites, without charge, if the landowner is the owner of record. The license may be used for the full hunting or fishing season in any district where it is valid. The license may not be transferred by gift or sale.

(3) As a benefit for enrolling property in the hunter management program, a nonresident landowner who becomes a cooperator in the program and who agrees to provide public hunting access may receive one Class B-10 nonresident big game combination license and the necessary prerequisites, without charge, if the landowner is the owner of record. The license may be used for the full hunting or fishing season in any district where it is valid. The license may not be transferred by gift or sale. The grant of a license under this subsection also qualifies the licensee to apply for a permit through the normal drawing process. The grant of a license under this subsection does not affect the limits established under 87-2-505.

(4) (a) Instead of receiving the benefits provided in subsection (2) or (3), a landowner of record who becomes a cooperator in the hunter management program and who agrees to provide public hunting access may designate an immediate family member to receive a Class AAA combination sports license and the necessary prerequisites, without charge, if the family member is a resident or a Class B-10 nonresident big game combination license and the necessary prerequisites, without charge, if the family member is a nonresident. An employee rather than a family member may be designated to receive a license.

(b) For purposes of this subsection (4), an immediate family member means a parent, grandparent, child, or grandchild of the cooperator by blood or marriage, a spouse, a legally adopted child, a sibling of the cooperator or spouse, or a niece or nephew.

(c) For purposes of this subsection (4), the term “employee” means a person who works full time and year-round for the landowner as part of an active farm or ranch operation.
(d) An immediate family member or employee who is designated to receive a license pursuant to this subsection (4) must be eligible for licensure under current Montana law and may not transfer the license by gift or sale.

(e) The grant of a Class B-10 nonresident big game combination license to an immediate family member or employee pursuant to this subsection (4) does not affect the limits established in 87-2-505.

(5) Any landowner who is enrolled in the block management program may receive the benefits provided under the hunter management program, as outlined in this section, and the benefits provided under the hunting access enhancement program, as outlined in 87-1-267.

(6) The restriction on liability of a landowner, agent, or tenant that is provided under 70-16-302(1) applies to a landowner who participates in the hunter management program.

(7) For the purposes of this section, the term “necessary prerequisites” includes:

(a) the base hunting license established in 87-2-116;

(b) the aquatic invasive species prevention pass established in 87-2-130;

and

(c) the wildlife conservation license established in 87-2-201.”

Citizens of the United States who are either residents of foreign countries or residents of the possessions, territories, or protectorates of the United States and who do not have an association similar to the association created by this part must be considered residents of the state of domicile of the insurer that issued the policies or contracts.

Section 2. Section 33-10-205, MCA, is amended to read:

“33-10-205. Powers and duties of association. (1) If a member insurer is an impaired insurer, the association, in its discretion and subject to any conditions imposed by the association that do not impair the contractual obligations of the impaired insurer and that are approved by the commissioner, may:

(a) guarantee, assume, reissue, reinsure, or cause to be guaranteed, assumed, reissued, or reinsured any or all of the policies or contracts of the impaired insurer; and

(b) provide any money, pledges, loans, notes, guarantees, or other means to effectuate this section and ensure payment of the contractual obligations of the impaired insurer pending action under this section.

(2) If a member insurer is an insolvent insurer, the association, in its discretion, shall do one or more of the following:

(a) (i) guarantee, assume, reissue, or reinsure the policies or contracts of the insolvent insurer, cause the policies or contracts to be guaranteed, assumed, reissued, or reinsured, or ensure payment of the contractual obligations of the insolvent insurer; and

(ii) provide money, pledges, loans, notes, guarantees, or other means reasonably necessary to discharge the association's duties;
(b) provide coverage and benefits with respect to a covered policy or contract for life or health insurance or annuities by:

(i) ensuring, for payment of identical premiums, payment of identical benefits, except for terms of conversion and renewability, that would have been payable under the policies or contracts of the insolvent insurer for claims incurred:

(A) for group policies or contracts by not later than the earlier of the next renewal date, as specified in the policy or contract, or 45 days; or

(B) for nongroup policies, contracts, or annuities by the earlier of the next renewal date, if any, as specified in the policy or contract, or 1 year;

(ii) ensuring payment under subsection (2)(b)(i) not less than 30 days from the date on which the association becomes obligated with respect to the policies or contracts;

(iii) making diligent efforts to provide all known insureds and annuitants for nongroup policies and contracts or group policy owners with respect to group policies 30 days’ notice of termination; and

(iv) (A) making available substitute coverage on an individual basis, with respect to nongroup life and health insurance policies and annuities covered by the association, to each known insured or annuitant or owner if other than the insured or annuitant and to an individual formerly insured or formerly an annuitant under a group policy if that individual is not eligible for replacement group coverage. This subsection (2)(b)(iv)(A) must be applied in accordance with the provisions of subsection (2)(b)(iv)(B), as applicable, if the insureds or annuitants had a right under law or if the terminated policy or annuity contained provisions to convert coverage to individual coverage or to continue an individual policy or annuity in force until a specified age or a specified time, during which the insurer had no right to unilaterally make changes in any provision of the policy or annuity or had a right only to make changes in premium by class.

(B) providing the substitute coverage required under subsection (2)(b)(iv)(A) either by issuing an alternative policy as provided in subsection (2)(b)(iv)(C) or reissuing the terminated coverage, as provided in subsection (2)(b)(iv)(D). Any reissued or alternative policy must be offered without requiring evidence of insurability and may not require a waiting period or exclusion that would not have applied under the terminated policy. The association may reinsure any reissued or alternative policy.

(C) submitting alternative policies or contracts adopted by the association to the commissioner or the receivership court for approval. The association may adopt alternative policies of various types for future issuance without regard to any particular impairment or insolvency. Alternative policies must contain at least the minimum statutory provisions required in this state and provide benefits that are not unreasonable in relation to the premium charged. The association shall set the premium in accordance with a table of rates adopted by the association. The premium must be actuarially justified and reflect the amount of insurance to be provided and the age and class of risk of each insured. The premium may not reflect any changes in the health of the insured after the original policy was last underwritten. Alternative policies issued by the association must provide coverage of a type similar to that of the policy issued by the impaired or insolvent insurer, as determined by the association.

(D) setting a premium at a premium different from that charged under the terminated policy if the association elects to reissue terminated coverage. The association shall set the premium in accordance with the amount of insurance provided and the age and class of risk. The premium must be actuarially justified and...
justified and is subject to approval by the commissioner. A premium may also be set by a court of competent jurisdiction.

(c) cease any of its obligations with respect to coverage under any policy or contract of the impaired or insolvent insurer or under any reissued or alternative policy on the date the coverage or policy is replaced by another similar policy by the policyowner, the insured, or the association; or

(d) ensure the payment or crediting of a rate of interest consistent with 33-10-224(2)(b)(iii) when proceeding under this section with respect to a policy or contract carrying guaranteed minimum interest rates.

(3) Except for claims incurred or any net cash surrender value that may be due in accordance with the provisions of this part, the association’s obligation under the policy or contract terminates within 31 days after the date required under the terms of any guaranteed, assumed, alternative, or reissued policy or contract or substitute coverage for nonpayment of premiums.

(4) Premiums due for coverage after entry of an order of liquidation of an insolvent insurer belong to and are payable at the direction of the association. The association is liable only for unearned premiums due to policyowners or contract owners arising after the entry of the order of liquidation.

(5) If the association fails to act within a reasonable period of time, the commissioner has the powers and duties of the association under this part with respect to a domestic, foreign, or alien insolvent insurer.

(6) (a) In carrying out its duties under subsections (1) through (4), the association may, subject to approval by a court of competent jurisdiction, impose:

(i) permanent policy or contract liens in connection with a guarantee, assumption, or reinsurance agreement if the association finds that:

(A) the amounts that can be assessed under this part are less than the amounts needed to ensure full and prompt performance of the association’s duties under this part; or

(B) the economic or financial conditions as they affect member insurers are sufficiently adverse to render the imposition of permanent policy or contract liens to be in the public interest; or

(ii) temporary moratoriums or liens on payments of cash values and policy loans or any other right to withdraw funds held in conjunction with policies or contracts. This subsection (6)(a)(ii) also allows temporary moratoriums or liens on any contractual provisions for deferral of cash or policy loan value.

(b) If the receivership court imposes a temporary moratorium or moratorium charge on payment of cash values or policy loans or on any other right to withdraw funds held in conjunction with policies or contracts, out of the assets of the impaired or insolvent insurer, the association may defer the payment of cash values, policy loans, or other rights for the period of the moratorium or moratorium charge imposed by the receivership court. This subsection (6)(b) does not apply to claims covered by the association to be paid in accordance with a hardship procedure established by the liquidator or rehabilitator and approved by the receivership court.

(7) The association is not liable under this part for any covered policy of a foreign or alien insurer whose domiciliary jurisdiction or state of entry provides protection by statute or regulation for residents of this state if that protection is substantially similar to that provided by this part for residents of other states.

(8) In carrying out its duties under this section, the association may, subject to the approval of the receivership court commissioner, issue substitute coverage for a policy or contract that provides an interest rate, crediting rate, or similar factor determined by use of an index or other external reference
stated in the policy or contract employed for calculating returns or changes in value. The alternative policy or contract issued under this subsection (8):

(a) must provide in lieu of the index or other external reference in the original policy or contract:

(i) a fixed interest rate;
(ii) payment of dividends within minimum guarantees; or
(iii) a different method for calculating interest or changes in value;

(b) may not contain a requirement for evidence of insurability, a waiting period, or other exclusion that would not have applied under the replaced policy or contract; and

(c) must be substantially similar to the replaced policy or contract in all other material terms.

(9) In addition to other rights provided by law, the association may:

(a) enter into contracts that are necessary or proper to carry out the provisions and purposes of this part;

(b) sue or be sued, including taking any legal actions necessary or proper to recover any unpaid assessments and to settle claims or potential claims against it;

(c) borrow money to effect the purposes of this part. Any notes or other evidence of indebtedness of the association not in default must be legal investments for domestic insurers and may be carried as admitted assets.

(d) employ or retain persons who are necessary to handle the financial transactions of the association and to perform other functions that become necessary or proper under this part;

(e) negotiate and contract with any liquidator, rehabilitator, supervisor, or ancillary receiver to carry out the powers and duties of the association;

(f) take legal action that may be necessary or appropriate to avoid or recover payment of improper claims;

(g) exercise, for the purposes of this part and to the extent approved by the commissioner, the powers of a domestic life or health insurer, but the association may not issue insurance policies or annuity contracts other than those issued to perform its obligations under this part;

(h) organize itself as a corporation or in any other legal form permitted by the laws of the state;

(i) request information from a person seeking coverage from the association in order to aid the association in determining its obligations under this part with respect to the person. The person shall promptly comply with the request.

(j) unless prohibited or otherwise limited by another section in this title and in accordance with the terms and conditions of the policy or contract, file for actuarially justified rate or premium increases for any policy or contract for which it provides coverage under this part; and

(k) take other necessary or appropriate action to discharge its duties and obligations under this part or to exercise its powers under this part.

(10) The association may render assistance and advice to the commissioner, upon request, concerning rehabilitation, liquidation, payment of claims, continuations of coverage, or the performance of other contractual obligations of any impaired or insolvent insurer.

(11) The association has standing to appear or intervene before any court or agency in this state with jurisdiction over an impaired or insolvent insurer concerning which the association is or may become obligated under this part or before any court with jurisdiction over any person or property against which the association may have rights through subrogation or otherwise. The association’s standing extends to all matters germane to the powers and duties of the association, including but not limited to proposals for reinsuring,
modifying, or guaranteeing the covered policies or contracts of the impaired or insolvent insurer and the determination of the covered policies or contracts. The association also has the right to appear or intervene before a court or agency in another state with jurisdiction over an impaired or insolvent insurer for which the association is or may become obligated or before a court with jurisdiction over any person or property against which the association may have rights through subrogation or otherwise.

(12) The association may join an organization of one or more other state associations of similar purposes to further the purposes and administer the powers and duties of the association.

(13) The board of directors of the association may exercise reasonable business judgment to determine the means by which the association is to provide the benefits of this part in an economical and efficient manner.

(14) When the association has arranged or offered to provide the benefits of this part to a covered person under a plan or arrangement that fulfills the association’s obligations under this part, the person is not entitled to benefits from the association in addition to or other than those provided under the plan or arrangement.

(15) Venue in a suit against the association arising under this part is in the first judicial district of this state. The association is not required to give an appeal bond in an appeal that relates to a cause of action arising under this part.

(16) The protection provided by this part does not apply when any guaranty protection is provided to residents of this state by the laws of the domiciliary state or jurisdiction of the impaired or insolvent insurer that is other than this state.”

Section 3. Section 33-10-210, MCA, is amended to read:

“33-10-210. Unfair trade practice -- notice to policyowners. (1) It is a prohibited unfair trade practice for any person to make use in any manner of the protection afforded by this part in the sale of insurance.

(2) The association shall prepare a summary document, complying with subsection (3) and describing the general purposes and current limitations of this part. The document must be submitted to the commissioner for approval. Sixty days after receiving approval, a member insurer may not deliver a policy or contract described in 33-10-224(2)(a) to a policyowner or contract owner unless the document is delivered to the policyowner or contract owner prior to or at the time of delivery of the policy or contract. The document must be available upon request by a policyowner. The distribution, delivery, contents, or interpretation of this document does not mean that either the policy or the contract or the owner of the policy or contract would be covered in the event of the impairment or insolvency of a member insurer. The description document must be revised by the association as amendments to this part may require. Failure to receive this document does not give the policyowner, contract owner, certificate holder, or insured any greater rights than those stated in this part.

(3) The document prepared under subsection (2) must contain a clear and conspicuous disclaimer on its face. The commissioner shall promulgate a rule establishing the form and content of the disclaimer. The disclaimer must:

(a) state the name and address of the life and health insurance guaranty association and insurance department;

(b) prominently warn the policyowner or contract owner that the life and health insurance guaranty association may not cover the policy or, if coverage is available, it will be subject to substantial limitations and exclusions and conditioned on continued residence in the state;
state that the insurer and its insurance producers are prohibited by law from using the existence of the life and health insurance guaranty association for the purpose of sales, solicitation, or inducement to purchase any form of insurance;

(d) emphasize that the policyowner or contract owner should not rely on coverage under the life and health insurance guaranty association when selecting an insurer;

(e) provide other information as directed by the commissioner.

(4) An insurer or an insurance producer may not deliver a policy or contract described in 33-10-224(2)(a) and excluded under 33-10-224(2)(b) from coverage under this part unless the insurer or insurance producer, prior to or at the time of delivery, gives the policyowner or contract owner a separate written notice that clearly and conspicuously discloses that the policy or contract is not covered by the life and health insurance guaranty association.

(5) The commissioner shall by rule specify the form and content of the notice required under subsection (4).

Section 4. Section 33-10-215, MCA, is amended to read:

“33-10-215. Duties and powers of commissioner. (1) In addition to the duties and powers enumerated elsewhere in this part, the commissioner shall:

(4)(a) notify the board of directors of the existence of an impaired or insolvent insurer not later than 3 days after a determination entry of an order of impairment or insolvency is made entered or the commissioner receives notice of impairment or insolvency;

(4)(b) upon request of the board of directors, provide the association with a statement of the premiums in the appropriate states for each member insurer;

(4)(c) when an impairment or insolvency is declared and the amount of the impairment or insolvency is determined, serve a demand upon the impaired or insolvent insurer to make good the impairment or insolvency within a reasonable time. Notice to the impaired or insolvent insurer constitutes notice to its shareholders, if any. The failure of the insurer to promptly comply with the demand does not excuse the association from the performance of its powers and duties under this part.

(4) in any liquidation or rehabilitation proceeding involving a domestic insurer be appointed as the liquidator or rehabilitator. If a foreign or alien member insurer is subject to a liquidation proceeding in its domiciliary jurisdiction or state of entry, the commissioner must be appointed conservator.

(5)(2) The commissioner may suspend or revoke, after notice and hearing, the certificate of authority to transact insurance in this state of any member insurer that fails to pay an assessment when due or fails to comply with the plan of operation. As an alternative, the commissioner may levy a fine on any member insurer that fails to pay an assessment when due. The fine may not exceed 5% of the unpaid assessment per month, except that the fine may not be less than $100 per month.

(5)(3) A final action of the board of directors may be appealed to the commissioner by a member insurer if the appeal is taken within 60 days of the member insurer’s receipt of notice of the final action being appealed. A final action or order of the commissioner is subject to judicial review in a court of competent jurisdiction in accordance with the laws of this state that apply to the actions or orders of the commissioner.

(5)(4) The liquidator, rehabilitator, or conservator of an impaired or insolvent insurer may notify all affected persons of the effect of this part.”

Section 5. Section 33-10-216, MCA, is amended to read:

“33-10-216. Plan of operation – delegation of powers provision. (1) (a) The association shall submit to the commissioner a plan of operation
and any amendments to the plan that are necessary or suitable to ensure the fair, reasonable, and equitable administration of the association. The plan of operation and any amendments to the plan become effective upon the commissioner’s written approval or 60 days after receipt by the commissioner’s office if the commissioner does not disapprove the submitted plan of operation and any amendments within those 60 days.

(b) If the association fails to submit suitable amendments to the plan, the commissioner shall, after notice and hearing, adopt and promulgate reasonable rules necessary or advisable to effectuate the provisions of this part. The rules remain in force until modified by the commissioner or superseded by a plan submitted by the association and approved by the commissioner.

(2) All member insurers shall comply with the plan of operation.

(3) The plan of operation must, in addition to requirements enumerated elsewhere in this part:

(a) establish procedures for handling the assets of the association;
(b) establish the amount and method of reimbursing members of the board of directors under 33-10-204;
(c) establish regular places and times for meetings of the board of directors;
(d) establish procedures for keeping records of all financial transactions of the association, its agents, and the board of directors;
(e) establish procedures to select the board of directors and submit notice of the selections to the commissioner;
(f) establish any additional procedures for assessments under 33-10-227;
(g) establish procedures for the removal of a director for cause, including in a case in which a member insurer director becomes an impaired or insolvent insurer;
(h) require the board of directors to establish a policy and procedures for addressing conflicts of interests;
(i) contain additional provisions necessary or proper for the execution of the powers and duties of the association.

(4) The plan of operation may provide that any or all powers and duties of the association, except those under 33-10-205(9)(c) and 33-10-227, may be delegated to a corporation, association, or other organization that performs or will perform functions similar to those of this association or its equivalent in two or more states. A corporation, association, or organization to which these powers and duties are delegated must be reimbursed for any payments made on behalf of the association and must be paid for performing any function of the association. A delegation of authority under this subsection may take effect only with the approval of both the board of directors and the commissioner and may be made only to a corporation, association, or organization that extends protection not substantially less favorable or less effective than that provided by this part.”

Section 6. Section 33-10-224, MCA, is amended to read:

“33-10-224. Coverage, limitations, and extent of liability. (1) (a) This part establishes coverage for the policies and contracts specified in subsection (2) to persons who, except as provided in subsections (1)(b) through (1)(e), are:

guaranty association law.
(b) The provisions of subsection (1)(a) do not apply to unallocated
annuity contracts specified in subsection (2). A person who is the owner of
an unallocated annuity contract receives coverage under this part, except as
provided in subsections (1)(d) and (1)(e), if:
(i) the contract is issued to or in connection with a specific benefit plan
whose plan sponsor has its principal place of business in this state; or
(ii) the unallocated annuity contract was issued to or in connection with a
government lottery if the owner is a resident.
(c) The provisions of subsection (1)(a) do not apply to structured settlement
annuities specified in subsection (2). A person who is a payee under a structured

the association of another state to the person; or
(iii) a person who acquires rights to receive payments through a structured
settlement factoring transaction as defined in 26 U.S.C. 5891(c)(3)(A), regardless
of whether the transaction occurred before or after 26 U.S.C. 5891(c)(3)(A)
became effective.
(e) This part is intended to provide coverage to a person who is a resident
of this state and, in special circumstances, to a nonresident. To avoid duplicate
coverage, a person may not receive coverage under this part if the person who
would otherwise receive coverage under this part receives coverage under the
laws of any other state. To determine the application of this subsection (1)(e) to
a situation in which a person could be covered by the association of more than
one state, whether as an owner, payee, beneficiary, or assignee, this part must
be construed in conjunction with other state laws to result in coverage by only
one association.
(2) (a) (i) Except as otherwise provided in this part, this part provides coverage to the persons specified in subsection (1) for:

(A) direct, nongroup life and health policies, direct, nongroup annuity contracts, and supplemental contracts to any of these;

(B) certificates under direct group policies and contracts and supplemental contracts to any of these; and

(C) unallocated annuity contracts issued by member insurers.

(ii) Annuity contracts and certificates under group annuity contracts include but are not limited to guaranteed investment contracts, deposit administration contracts, unallocated funding agreements, allocated funding agreements, structured settlement annuities, annuities issued in connection with government lotteries, and any immediate or deferred annuity contracts.

(b) This part does not provide coverage for any of the following:

(i) a portion of a policy or contract not guaranteed by the member insurer or under which the risk is borne by the policy or contract owner;

(ii) a policy or contract of reinsurance, unless assumption certificates have been issued pursuant to the reinsurance policy or contract;

(iii) except for the portion of the policy, including a rider, that provides long-term care or any other health insurance benefits, a portion of a policy or contract to the extent that the rate of interest on which the portion is based or the interest rate, crediting rate, or similar factor determined by use of an index or other external reference stated in the policy or contract employed in calculating returns or changes in value:

(A) when averaged over the period of 4 years prior to the date on which the member insurer becomes an impaired or insolvent insurer under this part exceeds the rate of interest determined by subtracting 2 percentage points from Moody's corporate bond yield average that is averaged for that same period or for a lesser period if the policy or contract was issued less than 4 years before the member insurer became an impaired or insolvent insurer under this part; and

(B) when the returns or changes in value exceed the rate of interest determined by subtracting 3 percentage points from the Moody's corporate bond yield average most recently available on or after the date on which the member insurer becomes an impaired or insolvent insurer under this part.

(iv) a portion of a policy or contract issued to a plan or program of an employer, association, or other person to provide life, health, or annuity benefits to its employees, members, or others to the extent that the plan or program is self-funded or uninsured, including but not limited to benefits payable by an employer, association, or other person under:

(A) a multiple employer welfare arrangement as defined in 29 U.S.C. 1002;

(B) a minimum premium group insurance plan;

(C) a stop-loss group insurance plan; or

(D) an administrative services-only contract;

(v) a portion of a policy or contract to the extent that it contains provisions for dividends, experience rating credits, or voting rights or for payment of any fees or allowances to any person, including the policyowner or contract owner, in connection with the service to or administration of the policy or contract;

(vi) a policy or contract issued in this state by a member insurer at any time when it was not licensed or did not have a certificate of authority to issue the policy or contract in this state;

(vii) any unallocated annuity contract issued to or in connection with a benefit plan that is protected under the federal pension benefit guaranty corporation, regardless of whether the federal pension benefit guaranty
corporation has yet become liable to make any payments with respect to the benefit plan;

(viii) a portion of any unallocated annuity contract that is not issued to or in connection with a specific employee, union, or association of natural persons’ benefit plan or a government lottery;

(ix) a portion of a policy or contract to the extent that federal or state law preempts or otherwise does not permit the assessments required by 33-10-227 with respect to the policy or contract;

(x) an obligation that does not arise under the express written terms of the policy or contract issued by the insurer to the contract owner or policyowner, including without limitation:
   (A) claims based on marketing materials;
   (B) claims based on side letters, riders, or other documents that were issued by the insurer without meeting applicable requirements for filing policy forms or for policy approval;
   (C) misrepresentation of or regarding policy benefits;
   (D) extracontractual claims; or
   (E) a claim for penalties or consequential or incidental damages;

(xi) a contractual agreement that establishes the member insurer’s obligation to provide a book value accounting guaranty for defined contribution benefit plan participants by reference to a portfolio of assets that is owned by the benefit plan or its trustee, which in each case may not be an affiliate of the member insurer;

(xii) a portion of a policy or contract to the extent that it provides for interest or other changes in value to be determined by the use of an index or other external reference stated in the policy or contract, but which have not been credited to the policy or contract, or as to which the policyowner’s or contract owner’s rights are subject to forfeiture as of the date the member insurer becomes an impaired or insolvent insurer under this part. If a policy’s or contract’s interest or changes in value are credited less frequently than annually, then for purposes of determining the values that have been credited and are not subject to forfeiture under this section, the interest or change in value determined by using the procedures defined in the policy or contract will be credited as if the contractual date of crediting interest or changing values was the date of the impairment or insolvency of the member insurer and the interest or changes in value are not subject to forfeiture.

(xiii) a policy or contract providing any hospital, medical, prescription drug, or other health care benefits pursuant to either 42 U.S.C. 1395w-21 through 1395w-152, commonly known as medicare parts C and D, or 42 U.S.C. 1396 to 1396w-5, commonly known as medicaid, or any regulations issued pursuant to those federal statutes; or

(xiv) structured settlement annuity benefits to which a payee or beneficiary has transferred his or her rights in a structured settlement factoring transaction as defined in 26 U.S.C. 5891(c)(3)(A), regardless of whether the transaction occurred before or after 26 U.S.C. 5891(c)(3)(A) became effective.

(3) The benefits for which the association may become liable may not exceed the lesser of:

(a) the contractual obligations for which the insurer is liable or would have become liable if it were not an impaired or insolvent insurer; or

(b) (i) with respect to any one life, regardless of the number of policies or contracts:
   (A) $300,000 in life insurance death benefits, but not more than $100,000 in net cash surrender and net cash withdrawal values for life insurance;
   (B) in health insurance benefits:
(I) $500,000 for *health insurance coverage* basic hospital, medical, and surgical insurance or major medical insurance as defined in the covered policy or contract;

(II) $300,000 for disability income insurance;

(III) $300,000 for long-term care insurance;

(IV) $100,000, including any net cash surrender and net cash withdrawal values, for coverages not included in subsections (3)(b)(i)(B)(I) through (3)(b)(i)(B)(III);

(C) $250,000 in the present value of annuity benefits, including net cash surrender and net cash withdrawal values;

(ii) with respect to each individual participating in a governmental retirement plan established under section 401, 403(b), or 457 of the Internal Revenue Code and covered by an unallocated annuity contract or with respect to the beneficiaries of each individual, if deceased, in the aggregate, $250,000 in present value annuity benefits, including net cash surrender and net cash withdrawal values;

(iii) with respect to each payee of a structured settlement annuity or beneficiary of the payee if the payee is deceased, $250,000 in present value annuity benefits, in the aggregate, including net cash surrender and net cash withdrawal values, if any;

(iv) with respect to either one contract owner provided coverage under subsection (1)(b) or one plan sponsor whose plan owns directly or in trust one or more unallocated annuity contracts not included in subsection (3)(b)(ii), $5 million in benefits, irrespective of the number of contracts held by the contract owner or plan sponsor. If one or more unallocated annuity contracts are covered contracts under this part and are owned by a trust or other entity for the benefit of two or more plan sponsors, coverage must be afforded by the association if the largest interest in the trust or entity owning the contract or contracts is held by a plan sponsor whose principal place of business is in this state. In no event is the association obligated to cover more than $5 million in benefits with respect to all these unallocated contracts.

(4) In no event is the association obligated to cover more than:

(a) an aggregate of $300,000 in benefits with respect to any one life under subsections (3)(b)(i) through (3)(b)(iii), except with respect to benefits for *health insurance coverage* under subsection (3)(b)(i), in which case the aggregate liability of the association may not exceed $500,000 with respect to any one individual; and

(b) with respect to one owner of multiple nongroup policies of life insurance, whether the policyowner is an individual, firm, corporation, or other person and whether the persons insured are officers, managers, employees, or other persons, $5 million in benefits, regardless of the number of policies and contracts held by the owner.

(5) The limitations set forth in this section are limitations on the benefits for which the association is obligated before taking into account either its subrogation and assignment rights or the extent to which those benefits could be provided out of the assets of the impaired or insolvent insurer attributable to covered policies. The costs of the association’s obligations under this part may be met by the use of assets attributable to covered policies or reimbursed to the association pursuant to its subrogation and assignment rights.

(6) In performing its obligations to provide coverage under this part, the association is not required to guarantee, assume, reinsure, or perform or cause to be guaranteed, assumed, reinsured, or performed the contractual obligations of the impaired or insolvent insurer under a covered policy or contract that do
not materially affect the economic values or economic benefits of the covered policy or contract.

(7) For purposes of this part, benefits provided by a long-term care rider to a life insurance policy or annuity contract must be considered the same type of benefits as the basic life insurance policy or annuity contract to which it relates.”

Section 7. Section 33-10-227, MCA, is amended to read:

“33-10-227. Assessments -- abatement -- basis for ratesetting.

(1) For the purpose of providing the funds necessary to carry out the powers and duties of the association, the board of directors shall assess the member insurers, separately for each account, at the times and for the amounts as the board finds necessary.

(2) Assessments are due not less than 30 days after prior written notice to the member insurers. An unpaid assessment accrues interest at 10% a year on and after the due date. The association may also impose any charges on a late-paid assessment if the plan of operation provides for late-paid assessments.

(3) There are two classes of assessments:

(a) Class A assessments must be authorized and called for the purpose of meeting administrative and legal costs and other expenses. Class A assessments may be authorized and called whether or not related to a particular impaired or insolvent insurer.

(b) Class B assessments must be authorized and called to the extent necessary to carry out the powers and duties of the association under 33-10-205 with regard to an impaired or insolvent insurer.

(4) (a) The amount of any Class A assessment for each account must be determined by the board and may be authorized and called on a pro rata or non-pro rata basis. If pro rata, the board may provide that the amount be credited against future Class B assessments. The total of all non-pro rata assessments may not exceed $300 for each member insurer in any 1 calendar year.

(b) The amount of any Class B assessment, except for assessments related to long-term care insurance, must be allocated for assessment purposes among the accounts pursuant to an allocation formula that may be based on the premiums or reserves of the impaired or insolvent insurer or any other standard determined by the board in its sole discretion as being fair and reasonable under the circumstances.

(c) The amount of the Class B assessment for long-term care insurance written by the impaired or insolvent insurer must be allocated according to a methodology included in the plan of operation and approved by the commissioner. The methodology must provide for 50% of the assessment to be allocated to accident and health member insurers and 50% to life and annuity member insurers.

(b)(d) Class B assessments against member insurers for each account and subaccount must be in the proportion that the premiums received on business in this state by each assessed member insurer on policies or contracts covered by each account or subaccount bear to the premiums received on business in this state by all assessed member insurers. This ratio must be calculated from information that is available for the 3 most recent calendar years preceding the year in which the insurer became insolvent or, in the case of an assessment with respect to an impaired insurer, the 3 most recent calendar years for which information is available preceding the year in which the insurer became impaired.

(c)(e) Assessments for funds to meet the requirements of the association with respect to an impaired or insolvent insurer may not be authorized and called until necessary to implement the purposes of this part. Classification of
assessments under subsection (3) and computation of assessments under this subsection (4) must be made with a reasonable degree of accuracy, recognizing that exact determinations may not always be possible. The association shall notify each member insurer of its anticipated pro rata share of an authorized assessment not yet called within 180 days after the assessment is authorized.

(5) The association may abate or defer, in whole or in part, the assessment of a member insurer if, in the opinion of the board, payment of the assessment would endanger the ability of the member insurer to fulfill its contractual obligations. In the event an assessment against a member insurer is abated or deferred, in whole or in part, the amount by which the assessment is abated or deferred may be assessed against the other member insurers in a manner consistent with the basis for assessments set forth in this section. Once the conditions that caused a deferral have been removed or rectified, the member insurer shall pay all assessments that were deferred pursuant to a repayment plan approved by the association.

(6) (a) (i) Subject to the provisions of subsection (6)(a)(ii), the total of all assessments authorized by the association with respect to a member insurer for each subaccount of the life insurance and annuity account and for the health account may not in 1 calendar year exceed 2% of that member insurer’s average annual premiums received in this state on the policies and contracts covered by the subaccount or account during the 3 calendar years preceding the year in which the insurer became an impaired or insolvent insurer.

(ii) If two or more assessments are authorized in 1 calendar year with respect to insurers that become impaired or insolvent in different calendar years, the average annual premiums for purposes of the aggregate assessment percentage limitation referenced in subsection (6)(a)(i) must be equal and limited to the higher of the 3-year average annual premiums for the applicable account or subaccount as calculated pursuant to this section.

(iii) If the maximum assessment, together with the other assets of the association in an account, does not provide in 1 year in either account an amount sufficient to carry out the responsibilities of the association, the necessary additional funds must be assessed as soon as permitted by this part.

(b) The board may provide in the plan of operation a method of allocating funds among claims, whether relating to one or more impaired or insolvent insurers, for use when the board determines that the maximum assessment is insufficient to cover anticipated claims.

(c) If the maximum assessment for a subaccount of the life insurance and annuity account in 1 year does not provide an amount sufficient to carry out the responsibilities of the association, then pursuant to subsection (4)(b) (4)(d), the board shall assess the other subaccounts of the life insurance and annuity account for the necessary additional amount, subject to the maximum assessment stated in subsection (6)(a).

(7) The board may, by an equitable method as established in the plan of operation, refund to member insurers, in proportion to the contribution of each insurer to that account, the amount by which the assets of the account exceed the amount the board finds is necessary to carry out during the coming year the obligations of the association with regard to that account, including assets accruing from assignment, subrogation, and net realized gains and income from investments. A reasonable amount may be retained in any account to provide funds for the continuing expenses of the association and for future losses.

(8) It is proper for any member insurer, in determining its premium rates and policyowner dividends as to any kind of insurance within the scope of this
part, to consider the amount reasonably necessary to meet its assessment obligations under this part.

(9) The association shall issue to each insurer paying an assessment under this part a certificate of contribution, in a form prescribed by the commissioner, for the amount paid. All outstanding certificates must be of equal dignity and priority without reference to amounts or dates of issue. A certificate of contribution may be shown by the insurer in its financial statement as an asset in that form and for the amount, if any, and period of time that the commissioner may approve.

(10) (a) A member insurer that wishes to protest all or a part of an assessment shall pay when due the full amount of the assessment as set forth in the notice provided by the association. The payment must be available to meet association obligations during the pendency of the protest or any subsequent appeal. A written statement must accompany the payment and must indicate that the payment is made under protest and include a brief description of the grounds for the protest.

(b) Within 60 days after the payment of an assessment under protest by a member insurer, the association shall notify the member insurer in writing of its determination with respect to the protest unless the association notifies the member insurer that additional time is required to resolve the issue raised by the protest.

(c) Within 30 days after a final decision has been made, the association shall notify the protesting member insurer in writing of that final decision. Within 60 days of receipt of notice of the final decision, the protesting member insurer may appeal that final action to the commissioner.

(d) Instead of rendering a final decision with respect to a protest based on a question regarding the assessment base, the association may refer protests to the commissioner for a final decision, with or without a recommendation from the association.

(e) If the protest or appeal of the assessment is upheld, the amount paid in error or excess must be returned to the member insurer. Interest on a refund due to a protesting member insurer must be paid at the rate actually earned by the association.

(11) The association may request information of member insurers to aid in the exercise of its powers and duties under this section. Member insurers shall promptly comply with a request from the association.”

Section 8. Section 33-30-102, MCA, is amended to read:

“33-30-102. Application of chapter — construction of other related laws. (1) All health service corporations are subject to the provisions of this chapter. In addition to the provisions contained in this chapter, other chapters and provisions of this title apply to health service corporations as follows: 33-2-1212; 33-3-307; 33-3-308; 33-3-401; 33-3-431; 33-3-701 through 33-3-704; 33-17-101; Title 33, chapter 2, parts 13, 19, and 23; Title 33, chapter 3, parts 6; Title 33, chapter 17, parts 2 and 10 through 12; and Title 33, chapters 1, 10, 12, 15, 18, 19, 22, and 32, except 33-22-111.

(2) A law of this state other than the provisions of this chapter applicable to health service corporations must be construed in accordance with the fundamental nature of a health service corporation, and in the event of a conflict, the provisions of this chapter prevail.”

(1) The entire money and other considerations for the policy must be expressed in the policy.

(2) The time when the insurance takes effect and terminates must be expressed in the policy.

(3) The policy may insure only one person, except that a policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who is the policyholder, any two or more eligible members of that family, including husband, wife, dependent children or any children under a specified age that may not exceed 25 years, and any other person dependent upon the policyholder.

(4) The style, arrangement, and overall appearance of the policy may not give undue prominence to any portion of the text, and every printed portion of the text of the policy and of any endorsements or attached papers must be plainly printed in lightfaced type of a style in general use, the size of which must be uniform and not less than 10 point with a lowercase, unspaced alphabet length not less than 120 point.

(5) The “text” must include all printed matter except the name and address of the insurer, name or title of the policy, the brief description, if any, and captions and subcaptions.

However, the insurer may, at its option, substitute for one or more of the provisions corresponding provisions of different wording approved by the commissioner and not less favorable in any respect to the insured or the beneficiary. Each provision must be preceded by the applicable caption shown or, at the option of the insurer, by the appropriate individual or group captions or subcaptions as the commissioner may approve.

(2) If any provision is in whole or in part inapplicable to or inconsistent with the coverage provided by a particular form of policy, the insurer, with the approval of the commissioner, shall omit from the policy any inapplicable provision or part of a provision and shall modify any inconsistent provision or part of a provision in a manner as to make that makes the provision as contained in the policy consistent with the coverage provided by the policy.

(3) The provisions that are the subject of 33-22-204 through 33-22-215 and, 33-22-221 through 33-22-230, and 33-22-232 or any corresponding provisions which are used in accordance with the cited sections must be printed in the consecutive order of the provisions in the sections or, However, at the option of the insurer, any provision may appear as a unit in any part of the policy with other provisions to which it may be logically related, provided that if the resulting policy is not in whole or in part unintelligible, uncertain, ambiguous, abstruse, or likely to mislead a person to whom the policy is offered, delivered, or issued."

Section 5. Section 33-22-221, MCA, is amended to read:

However, the insurer may, at its option, use in lieu of any such a repetitious provision a corresponding provision of different wording approved by the commissioner which if the different wording is not less favorable in any respect to the insured or the beneficiary. Any such provision contained in the policy shall must be preceded individually by the appropriate caption or, at the option of the insurer, by such the appropriate individual or group captions or subcaptions as that the commissioner may approve."

the allowable capital loss is clearly attributable to one spouse, the loss must be shown on that spouse’s return; otherwise, the loss must be split equally on each return.

(7) In the case of passive and rental income losses, married taxpayers filing a joint federal return and who file separate Montana income tax returns are not required to recompute allowable passive losses according to the federal passive activity rules for married taxpayers filing separately under section 469 of the Internal Revenue Code, 26 U.S.C. 469. If the allowable passive loss is clearly attributable to one spouse, the loss must be shown on that spouse’s return; otherwise, the loss must be split equally on each return.

If the adjusted gross income before this exclusion exceeds $15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer’s eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding $15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, “permanently and totally disabled” means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

(11) (a) An individual who contributes to one or more accounts established under the Montana family education savings program or to a qualified tuition program established and maintained by another state as provided by section 529(b)(1)(A)(ii) of the Internal Revenue Code, 26 U.S.C. 529(b)(1)(A)(ii), may reduce adjusted gross income by the lesser of $3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of $3,000, for the spouses’ contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner is the taxpayer, the taxpayer’s spouse, or the taxpayer’s child or stepchild if the taxpayer’s child or stepchild is a
Montana resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.

(b) Contributions made pursuant to this subsection (11) are subject to the recapture tax provided in 15-62-208.

(12) (a) An individual who contributes to one or more accounts established under the Montana achieving a better life experience program or to a qualified program established and maintained by another state as provided by section 529A(e)(7) of the Internal Revenue Code, 26 U.S.C. 529A(e)(7), may reduce adjusted gross income by the lesser of $3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not to exceed $3,000, for the spouses’ contributions to the accounts. Spouses may jointly elect to treat one-half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection (12)(a) applies only with respect to contributions to an account for which the account owner is the taxpayer, the taxpayer’s spouse, or the taxpayer’s child or stepchild if the taxpayer’s child or stepchild is a Montana resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.

(b) Contributions made pursuant to this subsection (12) are subject to the recapture tax provided in 53-25-118.

(13) (a) A taxpayer may exclude the amount of the loan payment received pursuant to subsection (13)(a)(iv), not to exceed $5,000, from the taxpayer’s adjusted gross income if the taxpayer:

(b) For the purposes of subsection (13)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional.

(14) Notwithstanding the provisions of subsection (1), adjusted gross income does not include 40% of capital gains on the sale or exchange of capital assets before December 31, 1986, as capital gains are determined under subchapter P. of Chapter 1 of the Internal Revenue Code as it read on December 31, 1986.

(15) A refund received of federal income tax referred to in subsection (1)(b) must be allocated in the following order as applicable:

(a) to federal income tax in a prior tax year that was not deducted on the state tax return in that prior tax year;

(b) to federal income tax in a prior tax year that was deducted on the state tax return in that prior tax year but did not result in a reduction in state income tax liability in that prior tax year; and

(c) to federal income tax in a prior tax year that was deducted on the state tax return in that prior tax year and that reduced the taxpayer’s state income tax liability in that prior tax year.
(16) By November 1 of each year, the department shall multiply the amount of pension and annuity income contained in subsection (2)(c)(i) and the federal adjusted gross income amounts in subsection (2)(c)(ii) by the inflation factor for the following tax year, rounded to the nearest $10. The resulting amounts are effective for that following tax year and must be used as the basis for the exemption determined under subsection (2)(c). (Subsection (2)(f) terminates on occurrence of contingency--sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency--sec. 9, Ch. 262, L. 2001; subsection (2)(s) terminates December 31, 2023--sec. 33, Ch. 457, L. 2015; subsection (2)(t) terminates June 30, 2027--sec. 10, Ch. 374, L. 2017.)

Section 2. Section 53-25-104, MCA, is amended to read:

“53-25-104. Program administration -- rulemaking. (1) If the department creates the Montana achieving a better life experience program, it shall ensure that the program meets the requirements for an achieving a better life experience program under section 529A of the Internal Revenue Code, 26 U.S.C. 529A. (1) In addition to any elk permits offered for sale, the department may, for wildlife management purposes, issue an either-sex or antlerless elk permit, at no cost to a landowner
who provides free public elk hunting on the landowner’s property and who otherwise meets the conditions of this section. The department may issue elk permits to the public, at regular cost and in the number authorized in subsection (3), for hunting on the property of a landowner who opens property for public elk hunting for wildlife management purposes pursuant to this section, an either-sex or antlerless elk license, permit, or combination thereof as required in that hunting district for the landowner or the landowner’s designate to hunt on the landowner’s property.    (d) may not receive cash payments under 87-1-267; and
   (e) may not charge a fee or authorize a person to charge a fee for hunting access on the landowner’s property.

(3) Subject to the management provisions provided in 87-1-321 through 87-1-325, not more than 20% of permits issued pursuant to this section may be issued at no cost to a landowner, an immediate family member of a landowner, or an authorized full-time employee of a landowner. The remaining permits must be issued to the public on a first-come, first-served basis.

(4) For every four members of the public allowed to hunt under the contractual public elk hunting access agreement, the department may issue one license, permit, or combination thereof pursuant to subsection (1). The department may limit the total number of licenses and permits issued under this section.

(5) A license or permit issued pursuant to this section:
   (a) is nontransferable and may not be sold or bartered; and
   (b) may only be used for hunting conducted on property that is opened to public access pursuant to this section.

CHAPTER NO. 38

[HB 45]

AN ACT CLARIFYING CRITERIA FOR A WATER RIGHTS PERMIT
OR CHANGE RELYING ON A WAIVER OF ADVERSE EFFECTS; AND
AMENDING SECTION 85-2-311, MCA.

WHEREAS, the determination of legal availability is a critical analysis
when determining if there is sufficient water for new beneficial use; and
WHEREAS, the determination of legal availability is a test that is conducted
independent of the test to determine if a new use will cause adverse effect; and
WHEREAS, the analysis for determining legal availability is provided in
section 85-2-311(1)(a)(ii), MCA; and
WHEREAS, it is redundant to further state that the department must
conduct a legal availability analysis in section 85-2-311(9), MCA; and
WHEREAS, the Montana Legislature finds that removing the statement
that the department conduct a legal availability analysis pursuant to section
85-2-311(9), MCA, simplifies and clarifies the requirement for legal availability
analysis pursuant to section 85-2-311(1)(a)(ii), MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 85-2-311, MCA, is amended to read:

“85-2-311. Criteria for issuance of permit. (1) A permit may be issued
under this part prior to the adjudication of existing water rights in a source of
supply. In a permit proceeding under this part, there is no presumption that
an applicant for a permit cannot meet the statutory criteria of this section
prior to the adjudication of existing water rights pursuant to this chapter. In
making a determination under this section, the department may not alter the
terms and conditions of an existing water right or an issued certificate, permit,
or state water reservation. Except as provided in subsections (3) and (4), the
department shall issue a permit if the applicant proves by a preponderance of
evidence that the following criteria are met:

(a) (i) there is water physically available at the proposed point of diversion
in the amount that the applicant seeks to appropriate; and
(ii) water can reasonably be considered legally available during the period
in which the applicant seeks to appropriate, in the amount requested, based on
the records of the department and other evidence provided to the department.
Legal availability is determined using an analysis involving the following
factors:

(A) identification of physical water availability;

(B) identification of existing legal demands on the source of supply
throughout the area of potential impact by the proposed use; and

(C) analysis of the evidence on physical water availability and the existing
legal demands, including but not limited to a comparison of the physical water
supply at the proposed point of diversion with the existing legal demands on
the supply of water.
(b) the water rights of a prior appropriator under an existing water right, a certificate, a permit, or a state water reservation will not be adversely affected. In this subsection (1)(b), adverse effect must be determined based on a consideration of an applicant’s plan for the exercise of the permit that demonstrates that the applicant’s use of the water will be controlled so the water right of a prior appropriator will be satisfied. [The applicant is not required to prove a lack of adverse effect for any water right identified in a written consent to approval filed pursuant to subsection (9) in connection with a permit application.]

(c) the proposed means of diversion, construction, and operation of the appropriation works are adequate;

(d) the proposed use of water is a beneficial use;

(e) the applicant has a possessory interest or the written consent of the person with the possessory interest in the property where the water is to be put to beneficial use, or if the proposed use has a point of diversion, conveyance, or place of use on national forest system lands, the applicant has any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water under the permit;

(f) the water quality of a prior appropriator will not be adversely affected;

(g) the proposed use will be substantially in accordance with the classification of water set for the source of supply pursuant to 75-5-301(1); and

(h) the ability of a discharge permit holder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(2) The applicant is required to prove that the criteria in subsections (1)(f) through (1)(h) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (1)(f), (1)(g), or (1)(h), as applicable, may not be met. For the criteria set forth in subsection (1)(g), only the department of environmental quality or a local water quality district established under Title 7, chapter 13, part 45, may file a valid objection.

(3) The department may not issue a permit for an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the applicant proves by clear and convincing evidence that:

(a) the criteria in subsection (1) are met;

(b) the proposed appropriation is a reasonable use. A finding must be based on a consideration of the following:

(i) the existing demands on the state water supply, as well as projected demands, such as reservations of water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

(ii) the benefits to the applicant and the state;

(iii) the effects on the quantity and quality of water for existing beneficial uses in the source of supply;

(iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

(v) the effects on private property rights by any creation of or contribution to saline seep; and

(vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.
(4) (a) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state’s water requirements, including requirements for federal non-Indian and Indian reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state’s boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the criteria in this subsection (4) must be met before out-of-state use may occur.

(b) The department may not issue a permit for the appropriation of water for withdrawal and transportation for use outside the state unless the applicant proves by clear and convincing evidence that:

(i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (1) or (3) are met;

(ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

(c) In determining whether the applicant has proved by clear and convincing evidence that the requirements of subsections (4)(b)(ii) and (4)(b)(iii) are met, the department shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the application could feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant’s supply in the state where the applicant intends to use the water.

(d) When applying for a permit or a lease to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation, lease, and use of water.

(5) Subject to 85-2-360, to meet the preponderance of evidence standard in this section, the applicant, in addition to other evidence demonstrating that the criteria of subsection (1) have been met, shall submit hydrologic or other evidence, including but not limited to water supply data, field reports, and other information developed by the applicant, the department, the U.S. geological survey, or the U.S. natural resources conservation service and other specific field studies.

(6) An appropriation, diversion, impoundment, use, restraint, or attempted appropriation, diversion, impoundment, use, or restraint contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized appropriation, diversion, impoundment, use, or other restraint. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to appropriate, divert, impound, use, or otherwise restrain or control waters within the boundaries of this state except in accordance with this section.

(7) The department may adopt rules to implement the provisions of this section.

(8) For an application for ground water in a basin closed pursuant to 85-2-319, 85-2-321, 85-2-330, 85-2-336, 85-2-341, 85-2-343, or 85-2-344, the
applicant shall comply with the provisions of 85-2-360 in addition to the requirements of this section.

[(9) The department may not conduct an adverse effects analysis on a water right if the water right holder files a written consent to approval of an application for a permit. However, the department shall determine if water is legally available to satisfy the proposed use.] (Bracketed language in subsections (1)(b) and (9) terminates September 30, 2023--sec. 8, Ch. 243, L. 2017.)

“39-71-118. Employee, worker, volunteer, volunteer firefighter, and volunteer emergency medical technician defined – election of coverage. (1) As used in this chapter, the term “employee” or “worker” means:
(a) each person in this state, including a contractor other than an independent contractor, who is in the service of an employer, as defined by 39-71-117, under any appointment or contract of hire, expressed or implied, oral or written. The terms include aliens and minors, whether lawfully or unlawfully employed, and all of the elected and appointed paid public officers and officers and members of boards of directors of quasi-public or private corporations, except those officers identified in 39-71-401(2), while rendering actual service for the corporations for pay. Casual employees, as defined by 39-71-116, are included as employees if they are not otherwise covered by workers’ compensation and if an employer has elected to be bound by the provisions of the compensation law for these casual employments, as provided in 39-71-401(2). Household or domestic employment is excluded.
(b) any juvenile who is performing work under authorization of a district court judge in a delinquency prevention or rehabilitation program;

(d) an aircrew member or other person who is employed as a volunteer under 67-2-105;

For a person covered by the definition in this subsection (1)(e):
  (i) compensation benefits must be limited to medical expenses pursuant to 39-71-704 and an impairment award pursuant to 39-71-703 that is based upon the minimum wage established under Title 39, chapter 3, part 4, for a full-time employee at the time of the injury; and

The endorsement may cover only the entity’s public assistance participants and may be only for the duration of each participant’s training while receiving financial cash assistance or while participating in the food stamp program under a written agreement between the department of public health and human services and each public or private entity. The department of public health and human services may not provide workers’ compensation coverage for individuals who are covered for workers’ compensation purposes by another state or federal employment training program. For the purposes of this subsection, the term “agricultural” has the meaning provided in 15-1-101(1)(a).

(3) With the approval of the insurer, an employer may elect to include as an employee under the provisions of this chapter a volunteer as defined in subsection (2)(b) or a volunteer firefighter as defined in 7-33-4510.

(4) (a) If the employer is a partnership, limited liability partnership, sole proprietor, or a member-managed limited liability company, the employer may elect to include as an employee within the provisions of this chapter any member of the partnership or limited liability partnership, the owner of the sole proprietorship, or any member of the limited liability company devoting full time to the partnership, limited liability partnership, proprietorship, or limited liability company business.

(b) In the event of an election, the employer shall serve upon the employer’s insurer written notice naming the partners, sole proprietor, or members to be covered and stating the level of compensation coverage desired by electing the amount of wages to be reported, subject to the limitations in subsection (4)(d). A partner, sole proprietor, or member is not considered an employee within this chapter until notice has been given.

(c) A change in elected wages must be in writing and is effective at the start of the next quarter following notification.

(d) All weekly compensation benefits must be based on the amount of elected wages, subject to the minimum and maximum limitations of this subsection (4)(d). For premium ratemaking and for the determination of the weekly wage for weekly compensation benefits, the electing employer may elect an amount of not less than $900 a month and not more than 1 1/2 times the state’s average weekly wage.

(5) (a) If the employer is a quasi-public or a private corporation or a manager-managed limited liability company, the employer may elect to include as an employee within the provisions of this chapter any corporate officer or manager exempted under 39-71-401(2).

(b) In the event of an election, the employer shall serve upon the employer’s insurer written notice naming the corporate officer or manager to be covered and stating the level of compensation coverage desired by electing the amount of wages to be reported, subject to the limitations in subsection (5)(d). A corporate officer or manager is not considered an employee within this chapter until notice has been given.

(c) A change in elected wages must be in writing and is effective at the start of the next quarter following notification.

(d) For the purposes of an election under this subsection (5), all weekly compensation benefits must be based on the amount of elected wages, subject to the minimum and maximum limitations of this subsection (5)(d). For
premium ratemaking and for the determination of the weekly wage for weekly compensation benefits, the electing employer may elect an amount of not less than $200 a week and not more than 1 1/2 times the state’s average weekly wage.

(6) Except as provided in Title 39, chapter 8, an employee or worker in this state whose services are furnished by a person, association, contractor, firm, limited liability company, limited liability partnership, or corporation, other than a temporary service contractor, to an employer, as defined in 39-71-117, is presumed to be under the control and employment of the employer. This presumption may be rebutted as provided in 39-71-117(3).

(7) A student currently enrolled in an elementary, secondary, or postsecondary educational institution who is participating in work-based learning activities and who is paid wages by the educational institution or business partner is the employee of the entity that pays the student’s wages for all purposes under this chapter. A student who is not paid wages by the business partner or the educational institution is a volunteer and is subject to the provisions of this chapter.

(8) For purposes of this section, an “employee or worker in this state” means:

(a) a resident of Montana who is employed by an employer and whose employment duties are primarily carried out or controlled within this state;

(b) a nonresident of Montana whose principal employment duties are conducted within this state on a regular basis for an employer;

(c) a nonresident employee of an employer from another state engaged in the construction industry, as defined in 39-71-116, within this state; or

(d) a nonresident of Montana who does not meet the requirements of subsection (8)(b) and whose employer elects coverage with an insurer that allows an election for an employer whose:

(i) nonresident employees are hired in Montana;

(ii) nonresident employees’ wages are paid in Montana;

(iii) nonresident employees are supervised in Montana; and

(iv) business records are maintained in Montana.

(9) An insurer may require coverage for all nonresident employees of a Montana employer who do not meet the requirements of subsection (8)(b) or (8)(d) as a condition of approving the election under subsection (8)(d).

(10) (a) An ambulance service not otherwise covered by subsection (1)(g) or a paid or volunteer nontransporting medical unit, as defined in 50-6-302, in service to a town, city, or county may elect to include as an employee within the provisions of this chapter a volunteer emergency medical technician who serves public safety through the ambulance service not otherwise covered by subsection (1)(g) or the paid or volunteer nontransporting medical unit. The ambulance service or nontransporting medical unit may purchase workers’ compensation coverage from any entity authorized to provide workers’ compensation coverage under plan No. 1, 2, or 3 as provided in this chapter.

(b) If there is an election under subsection (10)(a), the employer shall report payroll for all volunteer emergency medical technicians for premium and weekly benefit purposes based on the number of volunteer hours of each emergency medical technician, but no more than 60 hours, times the state’s average weekly wage divided by 40 hours.

(c) An ambulance service not otherwise covered by subsection (1)(g) or a paid or volunteer nontransporting medical unit, as defined in 50-6-302, may make a separate election to provide benefits as described in this subsection (10) to a member who is either a self-employed sole proprietor or partner who has elected not to be covered under this chapter, but who is covered as a volunteer
emergency medical technician pursuant to subsection (10)(a). When injured in the course and scope of employment as a volunteer emergency medical technician, a member may instead of the benefits described in subsection (10)(b) be eligible for benefits at an assumed wage of the minimum wage established under Title 39, chapter 3, part 4, for 2,080 hours a year. If the separate election is made as provided in this subsection (10), payroll information for those self-employed sole proprietors or partners must be reported and premiums must be assessed on the assumed weekly wage.

(d) A volunteer emergency medical technician who receives workers’ compensation coverage under this section may not receive disability benefits under Title 19, chapter 17, if the individual is also eligible as a volunteer firefighter.

(1) The department may pursue approval from the U.S. department of health and human services for implementation in Montana of a health insurance flexibility and accountability demonstration initiative and other demonstration projects through section 1115 waivers.

(2) The department may implement a demonstration project upon approval of a section 1115 waiver by the U.S. department of health and human services. The department may:

(a) coordinate a demonstration project with a program approved through a section 1915 waiver; or

(b) terminate and subsume in a new section 1115 waiver an existing managed care or access program approved through a section 1915(b) waiver, an optional state plan medicaid service authorized under 53-6-101, an optional state plan eligibility group authorized under 53-6-131, or an existing program approved by a section 1115 waiver, inclusive of the demonstration program authorized by 53-4-202 and Title 53, chapter 4, part 6, that is administered by the department.

(3) The department may amend the existing section 1115 demonstration project authorized in 53-4-601 and 53-6-101 to expand the demonstration project to implement the purposes of this section.
The department may initiate and administer section 1115 waivers to more efficiently apply available state general fund money, other available state and local public and private funding, and federal money to the development and maintenance of medicaid-funded programs of health services and of other public assistance services and to structure those programs or services for more efficient and effective delivery to specific populations.

(a) In establishing programs or services in a demonstration project approved through a section 1115 waiver, the department shall administer the expenditures under each demonstration project within the state spending authority that is available for that demonstration project. The department may limit enrollments in each program within a demonstration project, reduce the per capita expenditures available to enrollees, and modify and reduce the types and amounts of services available through each program when the department determines that expenditures can be reasonably expected to exceed the available state spending authority.

(b) The department shall develop a contingency plan if there is a spending cap as a condition of the waiver and the spending cap is exceeded. The contingency plan must address the effects on new programs, services, or eligibility groups.

The department may coordinate the state children’s health insurance program authorized under Title 53, chapter 4, part 10, with a section 1115 waiver for the purpose of increasing the state funding match available under the waiver and expanding the number of participants in the state children’s health insurance program.

The department, subject to the terms and conditions of the section 1115 waiver:

(a) shall establish the eligibility groups based upon the funding principles stated in 53-6-101(2);

(b) may provide medicaid coverage for one or more optional medicaid eligibility groups;

(c) may provide medicaid coverage for one or more specific populations of persons who are not within the federally authorized medicaid eligibility groups but who are within the requirements of subsection (7);

(d) may establish the service coverage, eligibility requirements, financial participation requirements, and other features for the administration and delivery of services to each section 1115 waiver eligibility group;

(e) shall set limits on the number of participants for each section 1115 waiver eligibility group;

(f) shall set limits on the total expenditures under each demonstration project; and

(g) shall set the limits on the total expenditures on the services to be provided to each section 1115 waiver eligibility group.

The categories of persons that the department may consider for establishment as a section 1115 waiver eligibility group include but are not limited to:

(a) low-income parents of children who are eligible to participate in medicaid under 53-6-131 or in the state children’s health insurance program authorized under Title 53, chapter 4, part 10;

(b) children who because of limits on enrollment may not be covered through the state children’s health insurance program authorized under Title 53, chapter 4, part 10;

(c) children who are eligible to participate in the state children’s health insurance program authorized under Title 53, chapter 4, part 10; and
(d) other specific groups of persons who are participants in programs or services funded solely or primarily through state general funds or who the department determines are in need of specific types of health care and related services, such as prescription drugs, reproductive health care, and mental health services, and are without adequate financial means to procure health insurance coverage of those needs.

(9) Children participating in a section 1115 waiver eligibility group or children who would be eligible to participate in the state children’s health insurance program are subject to the eligibility criteria applicable under 53-4-1004, except as provided in subsection (10) of this section, for participation in the state children’s health insurance program and must receive benefits as provided through the state children’s health insurance program under 53-4-1005.

(10) (a) Except as provided in this subsection (10), the eligibility for the section 1115 waiver eligibility groups may not exceed 150% of the federal poverty level.

(b) The department may establish eligibility at greater than 150% but no more than 200% of the federal poverty level for any of the following groups established for purposes of a section 1115 waiver:

(i) participants in the state children’s health insurance program;

(ii) participants in a group that may be covered under the state children’s health insurance program;

(iii) participants in a family planning program;

(iv) participants in a group composed of persons previously served through a program funded with state general fund money and other nonmedicaid money; or

(v) participants in a group composed of persons with a significant need for particular services that are not readily available to that population through insurance products or because of personal financial limitations.

(c) In establishing the eligibility criteria based upon federal poverty levels, the department shall select levels to ensure that the resulting expenditures will remain within the available funding and will conform with the terms and conditions of approval by the U.S. department of health and human services.

(d) The department may adopt additional programmatic and financial eligibility criteria for a section 1115 waiver eligibility group in order to appropriately define the subject population, to limit use for fiscal and programmatic purposes, to prevent improper use, and to conform the administration of the program with the terms and conditions of the section 1115 waiver.

(e) Eligibility criteria applicable to a section 1115 waiver eligibility group need not conform to the criteria applicable to another section 1115 waiver eligibility group or to a medicaid eligibility group that is not encompassed within the demonstration project.

(11) (a) For each section 1115 waiver eligibility group, the department shall establish the program benefit or benefits to be available to the participants in the group.

(b) Program benefits may be in the form of:

(i) assistance in the payment of health insurance premiums for health care coverage through an employer or other existing group coverage available to the program enrollee;

(ii) assistance in the payment of health insurance premiums for health care coverage that meets a set of defined standards and limitations adopted by the department in consultation with the commissioner of insurance and obtained from participating private insurers or through self-insured pools;
(iii) premium purchase for insurance coverage on behalf of children who are 18 years of age or younger for the defined set of health care and related services adopted by the department for the state children's health insurance program authorized in Title 53, chapter 4, part 10; or

(iv) coverage of a defined set of health care and related services administered directly by the department on a fee-for-service basis.

(c) The department may limit the types of program benefits available to enrollees in a program. For programs in which the department provides for more than one type of program benefit, the department may require that enrollees, either as a whole or on an individual basis based on certain circumstances, use certain types of program benefits in lieu of using other types of program benefits.

(d) The department shall, as necessary to maintain expenditures for a program within the available funding for that program, set monetary limitations on the total benefit amounts available on a periodic basis for an enrollee through that program, whether that benefit is in the form of premium assistance, premium purchase, or a set of covered services.

(12) The benefits for a section 1115 waiver eligibility group may be in the form of a defined set of covered services consisting of one or more of the mandatory and optional medicaid state plan services specified in 53-6-101 or other health-care related services. The department may select the types of services that constitute a defined set of covered services for a section 1115 waiver eligibility group. The department may provide coverage of a service not specified in 53-6-101 if the department determines the service to be appropriate for the particular section 1115 waiver eligibility group. The department may define the nature, components, scope, amount, and duration of each covered service to be made available to a section 1115 waiver eligibility group. The nature, components, scope, amount, and duration of a covered service made available to a section 1115 waiver eligibility group need not conform to those aspects of that service as defined by the department for delivery as a covered service to another section 1115 waiver eligibility group or to a medicaid eligibility group that is not encompassed within a section 1115 waiver.

(13) The department may adopt financial participation requirements for enrollees in a section 1115 eligibility group to foster appropriate use among enrollees and to maintain the fiscal accountability of the program. The department may adopt financial participation requirements, including but not limited to copayments, payment of monthly or yearly enrollment fees, or deductibles. The requirements may vary among the section 1115 waiver eligibility groups. In adopting financial participation requirements for enrollees selecting coverage as provided in subsection (11)(b)(iv) (10)(b)(iv), the department may not adopt cost-sharing amounts that exceed the nominal deductible, coinsurance, copayment, or similar charges adopted by the department to apply to categorically or medically needy persons for a service pursuant to the state medicaid plan.

(14) (a) The department shall adopt rules as necessary for the implementation of a section 1115 waiver. Rules may include but are not limited to:

(i) designation of programs and activities for implementation of a section 1115 waiver;

(ii) features and benefit coverage of the programs;

(iii) the nature, components, scope, amount, and duration of each program service;

(iv) appropriate insurance products and coverage as benefits;

(v) required enrollee eligibility information;
vi) enrollee eligibility categories, criteria, requirements, and related measures;
(vii) limits upon enrollment;
(viii) requirements and limitations for service costs and expenditures;
(ix) measures to ensure the appropriateness and quality of services to be delivered;
(x) provider requirements and reimbursement;
(xi) financial participation requirements for enrollees;
(xii) use measures; and
(xiii) other appropriate provisions necessary for administration of a demonstration project and for implementation of the conditions placed upon approval of a section 1115 waiver by the U.S. department of health and human services.

(b) Unless required by federal law or regulation, the department may not adopt rules that exclude a child from medicaid services or require prior authorization for a child to access medicaid services if the child would be eligible for or able to access the services without prior authorization if the child was not in foster care.

(15) The department shall administer the programs and activities that are subject to a section 1115 waiver in accordance with the terms and conditions of approval by the U.S. department of health and human services. The department may modify aspects of established programs and activities administered by the department as may be necessary to implement a section 1115 waiver as provided in this section.

(16) The department may seek an initial duration and durational extensions for a section 1115 waiver as the department determines appropriate for demonstration and fiscal considerations.

(17) The department shall provide a report to the legislature, as provided in 5-11-210, on the conditions of approval and the status of implementation for each section 1115 waiver approved by the U.S. department of health and human services. For any proposed section 1115 waiver not approved by the U.S. department of health and human services, the department shall provide to the next legislative session a report on the basis for disapproval and an analysis of the fiscal costs and programmatic impacts of serving the persons within the proposed section 1115 waiver eligibility groups through eligibility under one of the optional medicaid eligibility categories established in federal law and authorized by 53-6-131.

(18) The department shall present a section 1115 waiver proposal to the appropriate medicaid advisory council, which must include consumer advocates, prior to the submission of the proposal to the federal government.

(19) The department shall present a section 1115 waiver proposal to the house appropriations committee or, during the interim, the children, families, health, and human services interim committee for review and comment at a public hearing prior to the submission of the proposal to the federal government for formal approval and shall also present the section 1115 waiver after final approval from the federal government.

(20) (a) The department shall provide for a public comment period on the proposed section 1115 waiver at least 60 days before the submission of the section 1115 waiver application to the federal government for formal approval.

(b) The department shall give notice of the proposal by announcing the pending submittal, stating its general purpose, and informing the public that information on the proposal is available on the department’s website.

(c) The department shall provide for public comment through electronic means or mail and shall provide for a public forum in at least one location at
which members of the public can submit views on the proposal. The department shall consider comments received and make any appropriate changes to the waiver request before submitting it to the federal government.

(d) The department shall post on its website the waiver concept paper, formal correspondence regarding a waiver proposal, and the final approved waiver, including documents received from the centers for medicare and medicaid services."

(2) A voluntary cleanup plan must include:

(a) an environmental assessment of the facility that includes the information required in 75-10-734;

(b) a remediation proposal that includes the information required in 75-10-734 and that meets the requirements of 75-10-721; and

(c) the written consent of current owners of the facility or property to both the implementation of the voluntary cleanup plan and access to the facility by the applicant and its agents and the department allow:

(i) access to the facility by the applicant and its agents and the department; and

(ii) implementation of the voluntary cleanup plan when a remediation proposal includes the information required in 75-10-734 and meets the requirements of 75-10-721.

(b) If the applicant does not reimburse the department for its remedial action costs in the time required under 75-10-722, the department may discontinue the review or approval process of the voluntary cleanup plan or void its approval of the voluntary cleanup plan. The department may also take action to recover its outstanding costs.

(4) The department may approve a voluntary cleanup plan that provides for phases of remediation or that addresses only a portion of the facility. To the extent that the original environmental assessment required under 75-10-734 addresses subsequent phases of remediation, the applicant may rely on that assessment when submitting voluntary cleanup plans for subsequent phases of remediation."

Section 2. Section 75-10-736, MCA, is amended to read: "75-10-736. Approval of voluntary cleanup plan -- time limits -- content of notice -- expiration of approval. (1) The department shall review for completeness, including adequacy and accuracy, in accordance with the requirements of 75-10-734, the environmental assessment component of a voluntary cleanup plan and shall provide a written completeness notice to the applicant within 30 days of receipt. The completeness notice must note all deficiencies identified in the information submitted.

(2) Once the department determines that the environmental assessment component of a voluntary cleanup plan is complete, the applicant may submit the remediation proposal component. The department shall review the remediation proposal for completeness, including adequacy and accuracy, in accordance with the requirements of 75-10-734, and shall provide a written completeness notice to the applicant within 30 days of receipt. The completeness notice must note all deficiencies identified in the information submitted.

(3) Once the department determines that the application for a voluntary cleanup plan is complete pursuant to subsections (1) and (2), the department shall provide formal written notification of approval or disapproval within 60 days unless the applicant and the department agree to an extension of the
review to a date certain. The review must be limited to a review of the materials submitted by the applicant, public comments, and documents or information readily available to the department. The department shall communicate with the applicant during the review period to ensure that the applicant has the opportunity to address the public comments.

(4) (a) If the department receives five applications for review of either component of a voluntary cleanup plan in a calendar month, including applications deferred from prior months, the department may notify any additional applicants in that month that their plans must be reviewed in the order received. The 60-day period for department completeness review of deferred applications must begin on the first day of the subsequent month that each plan is eligible for review.

(b) The department shall discontinue accepting either component of voluntary cleanup applications when 15 applications are pending and are being reviewed by the department. The department shall establish a waiting list for applications and shall consider the applications in order of submittal.

(c) If the department has received multiple applications for a voluntary cleanup at the same facility, the department shall notify all of the applicants and offer them the opportunity to submit a joint application.

(5) Consistent with the provisions of 75-10-707, the department may access the facility during review of either component of the application and implementation of the voluntary cleanup plan to confirm information provided by the applicant and verify that the cleanup is being conducted consistent with the approved plan.

(6) (a) The department shall approve a voluntary cleanup plan if the department concludes that the plan meets the requirements specified in 75-10-734 and will attain a degree of cleanup and control of hazardous or deleterious substances that complies with the requirements of 75-10-721.

(b) Except for the period necessary for the operation and maintenance of the approved remediation proposal, the department may not approve a voluntary remediation proposal that would:

(i) take longer than 60 months after department approval to complete achieve the cleanup levels proposed by the applicant under 75-10-734(3)(a)(i) and approved by the department; or

(ii) take longer than 120 months after department approval to achieve the cleanup levels for ground water proposed by the applicant under 75-10-734(3)(a)(i) and approved by the department, including ground water standards identified as applicable or relevant state or federal environmental requirements, criteria, or limitations pursuant to 75-10-721.

(7) If a voluntary cleanup plan is not approved by the department, the department shall promptly provide the applicant with a written statement of the reasons for denial. The denial may be appealed to the board of environmental review in accordance with the provisions of 75-10-732(4).

(8) The approval of a voluntary cleanup plan by the department applies only to conditions at the facility that are known to the department at the time of department approval. If a voluntary remediation proposal is not initiated within 12 months and, except for the period necessary for the operation and maintenance of the approved remediation proposal, is not completed within 60 months after approval by the department, the department’s approval lapses. However, the department may grant an extension of the time limit for completion of the voluntary cleanup plan.

(9) If conditions are discovered during implementation of a voluntary cleanup plan that were not identified in the environmental assessment component pursuant to subsection (1), affect the risk to public health, safety,
or welfare or the environment, and change the scope of the approved plan, the applicant shall notify the department within 10 days of discovery. The department may require the applicant to submit an amendment to the approved plan to address the conditions or may determine that a voluntary cleanup plan is no longer appropriate pursuant to 75-10-732(3).

(10) Departmental approval is void if the applicant or the applicant’s agents:
   (a) fail to materially comply with the voluntary cleanup plan;
   (b) submit materially misleading information in the application or during implementation of the voluntary cleanup plan; or
   (c) fail to report any newly discovered information to the department during the application process or implementation of the voluntary cleanup plan regarding releases or threatened releases of hazardous or deleterious substances within 10 days of discovery of that information.

(11) Within 60 days after completion of the approved remediation proposal described in the voluntary cleanup plan approved by the department, the applicant shall provide to the department a certification from a qualified environmental professional that the plan has been fully implemented, including all documentation necessary to demonstrate the successful implementation of the plan, such as confirmation sampling, if necessary.

(12) Except as provided in 75-10-738(2)(b), the department may not require financial assurance under this part for voluntary cleanup plans approved under this section.

(13) If a person who would otherwise not be a liable person under 75-10-715(1) elects to undertake an approved voluntary cleanup plan, the person may not become a liable person under 75-10-715(1) by undertaking a voluntary cleanup if the person materially complies with the voluntary cleanup plan approved by the department pursuant to this section.

(14) Immunity from liability under this section does not apply to a release that is caused by conduct that is negligent or grossly negligent or that constitutes intentional misconduct.”

Section 3. Effective date. [This act] is effective on passage and approval.

Section 4. Applicability. [This act] applies to voluntary cleanup plans submitted to the department on or after [the effective date of this act].

85-2-422. Definition.
Approved March 18, 2019

CHAPTER NO. 60

[HB 65]

Be it enacted by the Legislature of the State of Montana:

Section 1. Service of process — domestic insurer. (1) Service of process against a domestic insurer must be made pursuant to 35-7-113 or in any other manner permitted by law.

(2) Service of process against a domestic reciprocal insurer must be on the attorney-in-fact or in any other manner permitted by law.

Section 2. Service of process — foreign or alien insurer — appointment of registered agent. (1) A foreign or alien insurer that transacts any business in this state must have a registered agent upon whom any legal process, notice, or demand required or permitted by law to be served upon a company must be served. The agent must be a person who either resides or maintains a business address in this state.

(2) The written appointment of an agent must be provided to the commissioner in a form prescribed by the commissioner, and must, at minimum, include a consent to service of process and the official name and address of the agent and the insurer represented.

(3) The commissioner shall keep a record of the foreign and alien insurers transacting business in Montana and the name and address of their registered agents. This record must be made public in a readily accessible form prescribed by the commissioner.

(4) Service by certified mail to a registered agent listed for an insurer constitutes service of legal process upon that insurer.

(5) An insurer may revoke the appointment of an agent by filing with the commissioner a written appointment of another agent and a statement that the appointment of the former agent is revoked. The authority of the agent whose appointment has been revoked terminates 30 days after the notice is received by the commissioner.
(6) When a foreign or alien insurer ceases to do business in this state, the agent last designated by or acting for the insurer is deemed to continue as agent for it unless a new agent is appointed. Service by certified mail upon any such agent constitutes service of legal process upon the insurer.

(7) Each insurer shall include a fee of $10 with any initial appointment, change of agent appointment, or change of address. The fee is waived for an insurer filing an agent appointment with an original application for a certificate of authority or an annual renewal.

(8) This section does not limit or affect the right to serve any process, notice, or demand upon an insurer in any other manner permitted by law.

(9) When legal process is served pursuant to this section, the insurer must appear, answer, or plead within 30 days, exclusive of the date of mailing, after the date of the certified mailing or be subject to the laws of this state regarding default judgment.

(10) For the purposes of this section:
(a) “certified mail” means a method of sending by common carrier with tracking capability; and
(b) “legal process” means a summons and complaint.

Section 3. Service of process by commissioner. (1) If a registered agent cannot be found for a foreign or alien insurer doing business in this state, if the agent of record is no longer at the agent’s listed address, if the insurer has failed to maintain an agent as required by [section 2], or for other good cause shown for which a person’s rights may be adversely affected by inability to serve an insurer, a person desiring to serve legal process, notice, or demand may initiate service on the commissioner by providing to the commissioner all of the following:
(a) an affidavit stating that one of the conditions in subsection (1) exists and stating the most recent address of the insurer that the person, after diligent search, has been able to ascertain;
(b) two copies of the document to be served on the insurer; and
(c) a filing fee of $50.

(2) If the requirements of subsection (1) have been met, the commissioner shall promptly serve the legal process, notice, or demand by certified mail to the foreign or alien insurer at its principal office as shown in the commissioner’s records. Service by the commissioner upon the insurer by certified mail constitutes service of legal process on that insurer. The commissioner shall maintain a record of each process, notice, or demand the commissioner serves under this section.

(3) When legal process is served pursuant to this section, the insurer must appear, answer, or plead within 30 days, exclusive of the date of mailing, after the date of the certified mailing or be subject to the laws of this state regarding default judgment.

(4) For purposes of this section:
(a) “certified mail” means a method of sending by common carrier with tracking capability; and
(b) “legal process” means a summons and complaint.

Section 4. Section 33-1-613, MCA, is amended to read:
“33-1-613. Service of process -- criteria mandating designation of commissioner. (1) Service of process upon any insurer pursuant to 33-1-612 must be made by delivering to and leaving with the commissioner or some person in apparent charge of the commissioner’s office two copies of the process and the payment to the commissioner of fees that may be prescribed by law the same fee as provided in [section 3]. The commissioner shall mail by certified mail one of the copies of the process to the defendant at its principal place of
business last known to the commissioner and shall keep a record of any process served upon the commissioner. The service of process is sufficient if notice of the service and a copy of the process are sent within 10 days by certified mail by the plaintiff's attorney to the defendant at its last-known principal place of business and the defendant's receipt or receipt issued by the post office with which the letter is registered, showing the name of the sender of the letter and the name and address of the person to whom the letter is addressed, and the affidavit of the plaintiff's attorney showing a compliance with this section are filed with the clerk of the court in which the action is pending on or before the date the defendant is required to appear or within further time that the court may allow.

(2) Service of process in any action, suit, or proceeding must in addition to the manner provided in subsection (1) be valid if:
   (a) served upon any person within this state who in this state on behalf of the insurer is:
      (i) soliciting insurance;
      (ii) making any contract of insurance or issuing or delivering any policies or written contracts of insurance; or
      (iii) collecting or receiving any premium for insurance;
   (b) a copy of the process is sent within 10 days by certified mail by the plaintiff's attorney to the defendant at the last-known principal place of business of the defendant; and
   (c) the defendant's receipt or the receipt issued by the post office with which the letter is registered, showing the name of the sender of the letter and the name and address of the person to whom the letter is addressed, and the affidavit of the plaintiff's attorney showing a compliance with this section are filed with the clerk of the court in which the action is pending on or before the date the defendant is required to appear or within further time that the court may allow.

(3) A plaintiff or complainant may not be entitled to a judgment by default under this section until the expiration of 30 days from the date of the filing of the affidavit of compliance.

(4) This section does not limit or abridge the right to serve any process, notice, or demand upon any insurer in any other manner now or later permitted by law.”

Section 5. Section 33-2-115, MCA, is amended to read:

“33-2-115. Application for certificate of authority. (10) if a domestic insurer, specimen copies of policies proposed to be offered in this state, together with premiums or premium rates applicable, or a declaration that the rates as applicable will be those promulgated by designated rating organizations authorized to file the rates in this state on behalf of the insurer.”

Section 6. Section 33-2-315, MCA, is amended to read:

“33-2-315. Commissioner appointed process agent -- service Service of process. (1) Every surplus lines insurer before transacting surplus lines insurance under this part shall designate a registered agent with the commissioner as provided in [section 2] in writing appoint the commissioner as its true and lawful attorney upon whom legal process in any action or proceeding against it in this state shall be served and in such writing shall agree that any such process served upon such attorney shall be of the same legal force and validity as if served in this state upon such insurer and that such authority shall continue in force so long as any liability remains outstanding against it in this state. At the time of filing such appointment, the insurer shall also file designation of the name and address of the person to whom process against it served upon the commissioner is to be forwarded. The insurer may change such designation by a new filing.

(2) Service upon such an insurer must be made pursuant to [section 2] or [section 3] upon the commissioner and in accordance with the procedures, requirements, and results as provided under 33-1-603.”

Section 7. Section 33-2-1216, MCA, is amended to read:

“33-2-1216. Credit allowed domestic ceding insurer. (1) Credit for reinsurance is allowed to a domestic ceding insurer as either an asset or a reduction from liability on account of reinsurance ceded only when the reinsurer meets the requirements of subsection (2), (3), (4), (5), or (6). Credit must be allowed under subsection (2), (3), or (4) only in respect to cessions of those kinds or classes of business that the assuming insurer is licensed or otherwise permitted to write or assume in its state of domicile or, in the case of a U.S. branch of an alien assuming insurer, in the state through which the branch of the alien assuming insurer entered and is licensed to transact insurance or reinsurance. If the requirements of subsection (4) or (5) are met, the requirements of subsection (7) must also be met.

(2) Credit must be allowed when the reinsurance is ceded to an assuming insurer that is licensed to transact insurance or reinsurance in this state.

(3) Credit must be allowed when the reinsurance is ceded to an assuming insurer that is accredited by the commissioner as a reinsurer in this state.
Credit may not be allowed a domestic ceding insurer if the assuming insurer’s accreditation has been revoked by the commissioner after notice and hearing. An accredited reinsurer is one that:

(a) files with the commissioner evidence of its submission to this state’s jurisdiction;

(b) submits to this state’s authority to examine its books and records;

(c) is licensed to transact insurance or reinsurance in at least one state or, in the case of a United States branch of an alien assuming insurer, is entered through and licensed to transact insurance or reinsurance in at least one state;

(d) files annually with the commissioner a copy of its annual statement filed with the insurance department of its state of domicile and a copy of its most recent audited financial statement; and

(e) demonstrates to the satisfaction of the commissioner that the accredited reinsurer has adequate financial capacity to meet its reinsurance obligations and is otherwise qualified to assume reinsurance from domestic insurers. An assuming insurer meets this requirement as of the time of its application if:

(i) the assuming accredited reinsurer maintains a surplus as regards policyholders in an amount not less than $20 million; and

(ii) the commissioner approves its accreditation within 90 days after the date that the accredited reinsurer submits its application.

(4) (a) Subject to subsection (4)(b), credit must be allowed when:

(i) the reinsurance is ceded to an assuming insurer that is domiciled and licensed in or, in the case of a United States branch of an alien assuming insurer, is entered through a state that employs standards regarding credit for reinsurance substantially similar to those applicable under this statute; and

(ii) the assuming insurer or the United States branch of an alien assuming insurer:

(A) maintains a surplus with regard to policyholders in an amount not less than $20 million; and

(B) submits to the authority of this state to examine its books and records.

(b) The requirement of subsection (4)(a)(i) does not apply to reinsurance ceded and assumed pursuant to pooling arrangements among insurers in the same holding company system.

(5) (a) Credit must be allowed when the reinsurance is ceded to an assuming insurer that maintains a trust fund in a qualified United States financial institution for the payment of the valid claims of its United States policyholders and ceding insurers and their assigns and successors in interest. The assuming insurer shall report annually to the commissioner information substantially the same as that required to be reported on the NAIC annual statement form by licensed insurers to enable the commissioner to determine the sufficiency of the trust fund. The assuming insurer shall submit to examination of its books and records by the commissioner and shall bear the expense of examination.

(b) (i) In the case of a single assuming insurer, the trust must consist of a trusteed account representing the assuming insurer’s liabilities attributable to business written in the United States, and in addition, the assuming insurer shall maintain a surplus with the trustee of not less than $20 million, except as provided in subsection (5)(b)(ii).

(ii) At any time after the assuming insurer has permanently discontinued underwriting new business secured by the trust for at least 3 full years, the insurance regulator with principal regulatory oversight of the trust may authorize a reduction in the required trusteed surplus after a finding that the new required surplus level is adequate for the protection of United States ceding insurers, policyholders, and claimants in light of reasonably foreseeable adverse loss development. The risk assessment may involve an actuarial
review, including an independent analysis of reserves and cash flows. The risk assessment must consider all material risk factors, including, when applicable, the lines of business involved, the stability of the incurred loss estimates, and the effect of the surplus requirements on the assuming insurer’s liquidity or solvency. The minimum required trusted surplus may not be reduced to an amount less than 30% of the assuming insurer’s liabilities attributable to reinsurance ceded by United States ceding insurers covered by the trust.

(iii) In the case of a group, including incorporated and individual unincorporated underwriters, the trust must consist of a trusted account representing the respective underwriters’ liabilities attributable to business written in the United States to any underwriter of the group. Additionally, the group shall maintain a surplus with the trustee of which $100 million must be held jointly for the benefit of United States ceding insurers of any member of the group. The incorporated members of the group, as group members, may not be engaged in a business other than underwriting as members of the group and are subject to the same level of solvency regulation and control by the insurance regulator as the unincorporated members. The group shall make available to the commissioner an annual certification of the solvency of each underwriter by the insurance regulator and the independent public accountants in the jurisdiction where the underwriter is domiciled.

(iv) In the case of a group of incorporated insurers under common administration:

(A) the provisions of subsection (5)(b)(iv)(B) apply to the group that:
(I) complies with the reporting requirements contained in subsection (5)(a);
(II) has continuously transacted an insurance business outside the United States for at least 3 years immediately prior to making application for accreditation;
(III) submits to this state’s authority to examine its books and records and bears the expense of the examination; and
(IV) has aggregate policyholders’ surplus of $10 billion;

(B) (I) the trust must be in an amount equal to the group’s several liabilities attributable to business ceded by United States ceding insurers to any member of the group pursuant to reinsurance contracts issued in the name of the group;
(II) the group shall maintain a joint surplus with a trustee of which $100 million is held jointly for the benefit of United States ceding insurers of any member of the group as additional security for any liabilities; and
(III) each member of the group shall make available to the commissioner an annual certification of the member’s solvency by the insurance regulator and the independent public accountants in the jurisdiction where the underwriter is domiciled.

c) The trust must be established in a form approved by the commissioner. The trust instrument must provide that contested claims are valid and enforceable upon the final order of any court of competent jurisdiction in the United States. The trust must vest legal title to its assets in the trustees of the trust for its United States policyholders and ceding insurers and their assigns and successors in interest. The trust and the assuming insurer are subject to examination as determined by the commissioner. The trust described in this subsection (5)(c) must remain in effect for as long as the assuming insurer has outstanding obligations due under the reinsurance agreements subject to the trust.

d) No later than February 28 of each year, the trustees of the trust shall report to the commissioner in writing setting forth the balance of the trust and listing the trust’s investments at the end of the preceding year. The trustees
shall certify the date of termination of the trust, if planned, or certify that the trust may not expire prior to the following December 31.

(e) (i) The commissioner shall allow credit when the reinsurance is ceded to an assuming insurer that the commissioner has certified as a reinsurer in this state and secures its obligation in accordance with the requirements of this subsection (5)(e).

(ii) To be eligible for certification under this subsection (5)(e), an assuming insurer must be domiciled and licensed to transact insurance or reinsurance in a qualified jurisdiction as determined by the commissioner pursuant to subsection (5)(e)(iv) and shall:

(A) maintain minimum capital and surplus or its equivalent as promulgated by the commissioner by rule;

(B) maintain financial strength ratings from two or more rating agencies, as determined by the commissioner;

(C) agree to the jurisdiction of this state;

(D) appoint the commissioner as its a registered agent for service of process in this state as required by [section 2];

(E) agree to provide security for 100% of the assuming insurer’s liabilities attributable to reinsurance ceded by United States ceding insurers if the assuming insurer resists enforcement of a final judgment from within the United States;

(F) agree to meet applicable information filing requirements as determined by the commissioner; and

(G) satisfy any other requirements for certification considered relevant by the commissioner.

(iii) An association, including incorporated and individual unincorporated underwriters, may be a certified reinsurer. The incorporated members of the association may not engage in any business other than underwriting as a member of the association. The incorporated members are subject to the same level of regulation and solvency control by the association’s domiciliary regulator as are the unincorporated members. In order to be eligible for certification under this subsection (5)(e)(iii), the association shall satisfy the requirements of this subsection (5)(e) and shall:

(A) satisfy its minimum capital and surplus requirements through the capital and surplus equivalents as a net of liabilities of the association and its members. This provision must include use of a joint central fund that may be applied to any unsatisfied obligation of the association or any of its members in an amount that provides adequate protection as determined by the commissioner.

(B) provide to the commissioner, within 90 days of the date its financial statements are due to be filed with the association’s domiciliary regulator, an annual certification by the association’s domiciliary regulator of the solvency of each underwriter member. If a certification is unavailable, the association may provide a financial statement prepared by independent public accountants of each underwriter member.

(iv) The commissioner shall create, maintain, and publish a list of qualified jurisdictions under which an assuming insurer licensed and domiciled in a qualified jurisdiction is eligible to be considered for certification as a certified reinsurer. The commissioner shall certify all United States jurisdictions as long as those jurisdictions are accredited under the NAIC financial standards and accreditation program. For jurisdictions not in the United States, the commissioner may defer to a list of qualified jurisdictions published by the NAIC or, if the commissioner does not defer to the NAIC list, shall develop a list of qualified jurisdictions by considering:
(A) the reinsurance supervisory system of the jurisdiction;
(B) the rights, benefits, and extent of reciprocal recognition afforded by the jurisdiction to reinsurers licensed and domiciled within the United States;
(C) whether an NAIC-accredited jurisdiction has certified the reinsurer; and
(D) any additional factors the commissioner considers relevant.

(v) If the commissioner approves a jurisdiction as qualified that does not appear on the list of qualified jurisdictions published by the NAIC, the commissioner shall provide thoroughly documented justification in accordance with the criteria listed under subsection (5)(e)(iv).

(vi) Qualified jurisdictions under subsection (5)(e)(iv) shall agree to share information and cooperate with the commissioner with respect to all certified reinsurers domiciled within that jurisdiction.

(vii) The commissioner may not approve a jurisdiction not in the United States if the commissioner determines that the jurisdiction does not adequately and promptly enforce final United States judgments and arbitration awards.

(viii) If a certified reinsurer’s domiciliary jurisdiction ceases to be a qualified jurisdiction, the commissioner may either suspend the reinsurer’s certification indefinitely or revoke the certification entirely.

(ix) The commissioner shall assign a rating to each certified reinsurer. In assigning a rating, the commissioner shall consider the financial strength ratings assigned by agencies approved by the commissioner. The commissioner shall publish a list of all certified reinsurers and their ratings. The commissioner may defer to a rating assigned by a jurisdiction accredited by the NAIC.

(x) A certified reinsurer shall secure obligations assumed from United States ceding insurers under this subsection (5)(e)(x) at a level consistent with the certified reinsurer’s rating. A domestic ceding insurer qualifies for full financial statement credit for reinsurance ceded to a certified reinsurer if the certified reinsurer:

(A) maintains security in a form acceptable to the commissioner and in accord with the provisions of this section; or

(B) forms a multibeneficiary trust in accord with subsections (5)(a) through (5)(d), except that minimum trusteed surplus requirements as provided in subsection (5)(b) do not apply with respect to a multibeneficiary trust account maintained by a certified reinsurer for the purpose of securing obligations incurred under this subsection (5)(e)(x). A multibeneficiary trust under this subsection (5)(e)(x)(B) must be maintained with a minimum trusteed surplus of $10 million.

(xi) A certified reinsurer operating under subsection (5)(e)(x)(B) shall maintain separate trust accounts for its obligations incurred under reinsurance agreements issued or renewed as a certified reinsurer with reduced security as permitted by this subsection (5)(e) or comparable laws of other United States jurisdictions.

(xii) If obligations incurred by a certified reinsurer under this subsection (5)(e) lack sufficient security, the commissioner shall reduce the allowable credit by an amount proportionate to the deficiency. The commissioner may impose further reductions in allowable credit upon finding that there is a material risk that the certified reinsurer’s obligations will not be paid in full when due.

(xiii) For the purposes of this subsection (5)(e), a certified reinsurer whose certification has been terminated for any reason must be treated as a certified reinsurer required to secure 100% of its obligations. If the commissioner assigns a higher rating to a certified reinsurer on inactive status pursuant to this subsection (5)(e)(xiii), this subsection (5)(e)(xiii) does not apply. As used in
this subsection (5)(e)(xiii), “terminated” refers to a reinsurer whose certificate of authority has been revoked, suspended, voluntarily surrendered, or put on inactive status.

(xiv) A certified reinsurer that ceases to assume new business in this state may request to maintain its certification in inactive status in order to continue to qualify for a reduction in security for its in-force business. An inactive certified reinsurer shall continue to comply with all applicable requirements of this subsection (5)(e), and the commissioner shall assign a rating that takes into account, if relevant, the reasons the reinsurer is not assuming new business.

(6) Credit must be allowed when the reinsurance is ceded to an assuming insurer that does not meet the requirements of subsection (2), (3), (4), or (5), but only with respect to the insurance of risks located in a jurisdiction in which the reinsurance is required by applicable law or regulation of that jurisdiction.

(7) (a) If the assuming insurer is not licensed, accredited, or certified to transact insurance or reinsurance in this state, the credit permitted by subsections (4) and (5) may not be allowed unless the assuming insurer agrees in the reinsurance agreements to the following provisions:

(i) upon the failure of the assuming insurer to perform its obligations under the terms of the reinsurance agreement, the assuming insurer, at the request of the ceding insurer, shall:

(A) submit to the jurisdiction of any court of competent jurisdiction in any state of the United States;

(B) comply with all requirements necessary to give the court jurisdiction; and

(C) abide by the final decision of the court or of any appellate court in the event of an appeal; and

(ii) the assuming insurer shall designate the commissioner or a designated attorney as its attorney upon whom may be served any lawful process in any action, suit, or proceeding instituted by or on behalf of the ceding insurer.

(b) Subsection (7)(a)(i) is not intended to conflict with or override the obligation of the parties to a reinsurance agreement to arbitrate their disputes if an obligation is created in the agreement.

(8) (a) If the assuming insurer does not meet the requirements of subsection (1), (2), or (3), the credit permitted by subsection (4) or (5) may not be allowed unless the assuming insurer agrees in the trust agreements to the conditions under subsections (8)(b) through (8)(d).

(b) Regardless of any other provisions in the trust instrument, the trustee shall comply with an order of the commissioner or with an order of a court of competent jurisdiction directing the trustee to transfer to the commissioner all assets of the trust fund if:

(i) the trust fund is inadequate because the trust fund contains an amount less than the required amount; or

(ii) the grantor of the trust has been declared insolvent or placed into receivership, rehabilitation, liquidation, or similar proceedings.

(c) The assets transferred under subsection (8)(a) must be distributed by the commissioner. Claims must be filed with and valued by the commissioner in accordance with the laws of the state in which the trust is domiciled and that apply to the liquidation of domestic insurers.

(d) The commissioner may determine that the assets of the trust fund or any part of the trust fund assets are not necessary to satisfy the claims of the United States ceding insurers of the grantor of the trust. If the commissioner makes this determination, the commissioner shall return the assets or part
of the assets to the trustee for distribution in accordance with the trust agreement.

(9) (a) The commissioner may suspend or revoke a reinsurer’s accreditation or certification if the reinsurer ceases to meet the requirements of this section. The commissioner shall give the reinsurer notice and opportunity for a hearing. The suspension or revocation may not take effect until after the commissioner’s order on hearing unless:

(i) the reinsurer waives its right to a hearing;
(ii) the commissioner’s order is based on:
(A) regulatory action by the reinsurer’s domiciliary jurisdiction; or
(B) the voluntary surrender or termination of the reinsurer’s eligibility to transact insurance or reinsurance business in its domiciliary jurisdiction; or
(iii) the commissioner finds that an emergency requires immediate action.

(b) While a reinsurer’s accreditation or certification is suspended, no reinsurance contract issued or renewed after the effective date of the suspension qualifies for credit under this section except to the extent that the reinsurer’s obligations under the contract are secured in accordance with this section. If a reinsurer’s accreditation or certification is revoked, no credit for reinsurance may be granted after the effective date of the revocation except to the extent that the reinsurer’s obligations under the contract are secured in accordance with 33-2-1217 and subsection (5)(e)(x) of this section.

(10) (a) A ceding insurer shall take steps:

(i) to manage the reinsurance recoverables proportionate to the ceding insurer’s own book of business. A domestic ceding insurer shall provide notice to the commissioner within 30 days after:
(A) the reinsurance recoverables from any single assuming insurer or group of affiliated assuming insurers exceeds 50% of the domestic ceding insurer’s last reported surplus to policyholders; or
(B) a determination that the reinsurance recoverables from any single assuming insurer or group of affiliated assuming insurers is likely to exceed the limit in subsection (10)(a)(i)(A).

(ii) to diversify its reinsurance program. A domestic ceding insurer shall notify the commissioner within 30 days after ceding to any single assuming insurer or group of affiliated assuming insurers more than 20% of the ceding insurer’s gross written premium in the prior calendar year or after the domestic ceding insurer has determined that the reinsurance ceded to any single assuming insurer or group of affiliated assuming insurers is likely to exceed the 20% limit.

(b) The notifications made pursuant to this subsection (10) must demonstrate that the exposure is safely managed by the domestic ceding insurer.

(11) A reinsurance contract issued or renewed after the effective date of a suspension or revocation does not qualify for credit except to the extent that the reinsurer’s obligations under the contract are secured in accordance with this section.”

Section 8. Section 33-2-1701, MCA, is amended to read:

“33-2-1701. Licensure of reinsurance intermediaries. (1) A person, firm, association, or corporation may not act as a reinsurance intermediary-broker in this state if the reinsurance intermediary-broker maintains an office directly, as a member or employee of a firm or association, or as an officer, director, or employee of a corporation:

(a) in this state, unless the reinsurance intermediary-broker is a licensed producer in this state; or
(b) in another state, unless the reinsurance intermediary-broker is a licensed producer in this state or another state that has a law substantially
similar to this law or unless the reinsurance intermediary-broker is licensed in this state as a nonresident reinsurance intermediary.

(2) A person, firm, association, or corporation may not act as a reinsurance intermediary-manager:

(a) for a reinsurer domiciled in this state, unless the reinsurance intermediary-manager is a licensed producer in this state;

(b) in this state, if the reinsurance intermediary-manager maintains an office either directly or as a member or employee of a firm or association or as an officer, director, or employee of a corporation in this state, unless the reinsurance intermediary-manager is a licensed producer in this state; or

(c) in another state for a nondomestic insurer, unless the reinsurance intermediary-manager is a licensed producer in this state or another state that has a law substantially similar to this law or unless the person is licensed in this state as a nonresident insurance intermediary.

(3) Subject to subsection (2), the commissioner may require a reinsurance intermediary-manager to:

(a) file a bond in an amount from an insurer acceptable to the commissioner for the protection of the reinsurer; and

(b) maintain a policy on errors and omissions in an amount acceptable to the commissioner.

(4) (a) The commissioner may issue a reinsurance intermediary license to any person, firm, association, or corporation that has complied with the requirements of this part. A license issued to a firm or association authorizes all the members of the firm or association and any designated employees to act as reinsurance intermediaries under the license. All authorized persons must be named in the application and in any supplements to the application. A license issued to a corporation must authorize all of the officers and any designated employees and directors to act as reinsurance intermediaries on behalf of the corporation. All authorized persons must be named in the application and in any supplements to the application.

(b) If the applicant for a reinsurance intermediary license is a nonresident, the applicant, as a condition precedent to receiving or holding a license, shall designate the commissioner as the appoint an agent for service of process in the manner provided for by this title for designation of service of process upon unauthorized insurers [section 2]. The applicant shall also furnish the commissioner with the name and address of a resident of this state upon whom notices or orders of the commissioner or process affecting the nonresident reinsurance intermediary may be served. The licensee shall promptly notify the commissioner in writing of each change in its designated appointed agent for service of process, and the change may not become effective until acknowledged by the commissioner.

(5) (a) The commissioner may refuse to issue a reinsurance intermediary license if, in the commissioner’s judgment:

(i) the applicant, a person named on the application, or a member, principal, officer, or director of the applicant is not trustworthy;

(ii) a controlling person of the applicant is not trustworthy to act as a reinsurance intermediary; or

(iii) any of the persons listed in subsection (5)(a)(i) or (5)(a)(ii) has given cause for revocation or suspension of the license or has failed to comply with any prerequisite for the issuance of the license.

(b) Upon written request, the commissioner shall furnish a summary of the basis for refusal to issue a license.

(6) Licensed attorneys of this state, when acting in their professional capacity, are exempt from this section.”
Section 9. Section 33-6-101, MCA, is amended to read:

Section 6. Section 33-2-1113, MCA, is amended to read:

(c) Expenses incurred and payments received must be allocated to the insurer in conformity with customary insurance accounting practices consistently applied.
(d) The books, accounts, and records of each party must clearly and accurately disclose the precise nature and details of the transactions, including any accounting information necessary to support the reasonableness of the charges or fees to the respective parties.
(e) The insurer’s surplus as regards policyholders following any dividends or distributions to shareholder affiliates must be reasonable in relation to the insurer’s outstanding liabilities and adequate to its financial needs.
(2) (a) The following transactions involving a domestic insurer and a person in its holding company system, including amendments or modifications to affiliate agreements previously filed under this section, may not be entered into unless the insurer has notified the commissioner in writing of its intention to enter into a transaction within at least 30 days prior to the transaction, or a shorter period as the commissioner may permit, and the commissioner does not disapprove the transaction:
(i) sales, purchases, exchanges, loans or extensions of credit, guaranties, or investments if, as of the prior December 31, the transactions are equal to or exceed:

(A) with respect to insurers other than life insurers, the lesser of 3% of the insurer’s admitted assets or 25% of its surplus as regards policyholders; and

(B) with respect to life insurers, 3% of the insurer’s admitted assets;

(ii) loans or extensions of credit to a person who is not an affiliate if the insurer makes the loans or extensions of credit with the agreement or understanding that the proceeds of the transactions, in whole or in substantial part, are to be used to make loans or extensions of credit to, to purchase assets of, or to make investments in an affiliate of the insurer making the loans or extensions of credit if the transactions, as of the prior December 31, are equal to or exceed:

(A) with respect to insurers other than life insurers, the lesser of 3% of the insurer’s admitted assets or 25% of its surplus as regards policyholders;

(B) with respect to life insurers, 3% of the insurer’s admitted assets;

(iv) all management agreements, service contracts, tax allocation agreements, guarantees, and cost-sharing arrangements;

(v) direct or indirect acquisitions or investments in a person that controls the insurer or in an affiliate of the insurer in an amount that, together with its present holdings in such investments, exceeds 2.5% of the insurer’s surplus to policyholders; and

(b) Nothing in this subsection (2) is considered to authorize or permit a transaction that, in the case of an insurer that is not a member of the same holding company system, would otherwise be contrary to law.

(3) A domestic insurer may not enter into a transaction that is part of a plan or series of like transactions with a person within the holding company system if the purpose of those separate transactions is to avoid the statutory threshold amount review. If the commissioner determines that the separate transactions were entered into over a 12-month period for the purpose of evading review, the commissioner may exercise authority under 33-2-1120.

(4) The commissioner, in reviewing a transaction pursuant to subsection (2), shall consider whether the transaction complies with the standards set forth in subsection (1) and whether the transaction may adversely affect the interests of a policyholder.

(5) The commissioner must be notified within 30 days of an investment by a domestic insurer in a corporation if the total investment in the corporation by the insurance holding company system exceeds 10% of the corporation’s voting securities.

(6) For purposes of this section, in determining whether an insurer’s surplus as regards policyholders is reasonable in relation to the insurer’s outstanding
liabilities and adequate to the insurer’s financial needs, the following factors, among others, must be considered:

(a) the size of the insurer as measured by its assets, capital and surplus, reserves, premium writings, insurance in force, and other appropriate criteria;
(b) the extent to which the insurer’s business is diversified among the several lines of insurance;
(c) the number and size of risks insured in each line of business;
(d) the extent of the geographical dispersion of the insurer’s insured risks;

(i) the adequacy of the insurer’s reserves;
(j) the quality and liquidity of investments in affiliates made pursuant to 33-2-1104 and 33-2-1105 through 33-2-1106. The commissioner may treat any investment as a disallowed asset for purposes of determining the adequacy of surplus as regards policyholders whenever in the commissioner’s judgment the investment so warrants.”

“87-1-264. Expenditure of hunting access program funds on weed control. The legislature recognizes that the hunter management and hunting access enhancement programs authorized in 87-1-265 through 87-1-267 have successfully encouraged landowners to increase public access to private and public lands for purposes of hunting, but that increased public access may also contribute to an increase in the spread of noxious weeds on public and private lands. Therefore, in an effort to improve management and services related to those programs, the department may offer up to 5% in additional incentive payments above the maximum annual payment established in 87-1-265 to landowners who agree to use those additional payments for specific weed management activities on lands under their control.”

Section 4. Section 87-1-265, MCA, is amended to read:

“87-1-265. Hunter management and hunting Hunting access enhancement programs created – block management program – private landowner assistance to promote public hunting access – rules – restriction on landowner liability. (1) The department may establish within the There is established a block management program established by administrative rule pursuant to authority contained in 87-1-301 and 87-1-303 programs of administered by the department to provide landowner assistance that encourage public access to private and public lands for hunting purposes of hunting and may adopt rules to carry out program purposes. Rules may address but are not limited to incentives provided under:

(a) a hunter management program as set out in 87-1-266, consisting of a cooperative agreement between a landowner and the department and including other resource management agencies when appropriate, that allows public hunting with certain restrictions or use rules; and
(b) a hunting access enhancement program as set out in 87-1-267, consisting of incentives for private landowners who allow public hunting access on their lands.

(2) The department may also develop similar efforts and administer alternative programs to outside the scope of the block management program that are designed to promote public access to private and public lands for hunting purposes.

(3) Participation in a hunting access program established under this section is voluntary. A lease, acquisition, or other arrangement for public access to or across private property that is initiated through a program established under this part for hunting purposes must be negotiated on a cooperative basis and may only be initiated with the voluntary participation of private landowners through a cooperative agreement between the landowner and the department that will guarantee reasonable access for public hunting. Landowners may also form a voluntary association when development of a unified cooperative agreement is advantageous. A cooperative agreement must contain a detailed description of the conditions for use of the private property, including but not limited to:

(a) hunting access management;
(b) services to be provided to the public;
(c) ranch rules and other restrictions; and
(d) any other management information to be gathered, which must be made available to the public.

(4) Programs may not be structured in a manner that provides assistance to a private landowner who charges a fee for hunting access to private land that is enrolled in the program or who does not provide reasonable public hunting access to private land that is enrolled in the program. The commission shall develop criteria by which tangible benefits are allocated to participating landowners, and the department may distribute the benefits to participating landowners. The department may by rule limit the number of licenses that can be provided as incentives. Private land is not eligible for inclusion in a hunting access program if outfitting, commercial hunting, or fees charged for private hunting access unreasonably restrict public hunting opportunities.

(5) If the department determines that an agreement may adversely influence game management decisions or wildlife habitat on public lands, then other public land agencies, interested sportspersons, and affected landowners must be consulted. An affected landowner’s management goals and personal observations regarding game populations and habitat use must be considered in development of the agreement.

(6) The commission may adopt rules to implement the provisions of this section, including but not limited to rules that determine tangible benefits to be provided to a landowner who participates in a hunting access program. Benefits are intended to offset potential impacts associated with public hunting access, including but not limited to those associated with general ranch maintenance, conservation efforts, weed control, fire protection, liability insurance, roads, fences, and parking area maintenance. Factors used in determining benefits may include but are not limited to:

(a) the number of days of public hunting provided by a participating landowner;
(b) wildlife habitat provided;
(c) resident game populations;
(d) number, sex, and species of animals taken; and
(e) access provided to adjacent public lands.
(7) (a) Benefits earned by a landowner who participates in a hunting access program may include but are not limited to those applied in the manner described in subsections (7)(b) and (7)(c).

(b) A landowner may receive direct payments:

(i) for weed control or may direct payments to be made directly to the county weed control board;

(ii) for fire protection or may direct fire protection payments to be made to the local fire district or the county where the landowner resides; and

(iii) to offset insurance costs incurred for allowing public hunting access.

(c) The department may provide assistance in the construction and maintenance of roads, gates, and parking facilities and in the signing of property.

The license may be used for the full hunting or fishing season in any district where it is valid. The license may not be transferred by gift or sale. The grant of a license under this subsection also qualifies the licensee to apply for a permit through the normal drawing process. (e) The grant of a Class B-10 nonresident big game combination license to an immediate family member or employee pursuant to this subsection (4) (3) does not affect the limits established in 87-2-505.

5 Any landowner who is enrolled in the block management program may receive the benefits provided under the hunter management program, as outlined in this section, and the benefits provided under the hunting access enhancement program, as outlined in 87-1-267.

6 The restriction on liability of a landowner, agent, or tenant that is provided under 70-16-302(1) applies to a landowner who participates in the hunter management program.

4 The department may by rule limit the overall number of licenses that can be provided to landowners pursuant to this section.

5 For the purposes of this section, the term “necessary prerequisites” includes:

(a) the base hunting license established in 87-2-116;

(b) the aquatic invasive species prevention pass established in 87-2-130;

32-9-141, 32-9-149, 32-9-160, AND 32-9-170, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Mortgage servicer capital requirements. (1) The following definitions apply to this section:
   (a) “Liquidity” means unrestricted cash and cash equivalents, investment grade securities that are available for sale or held for trade, and unused and available portion of committed servicing advance lines.
   (b) “Operating reserves” are funds set aside in anticipation of future payments or obligations and are included in liquidity.
   (c) “Tangible net worth” means total equity minus receivables due from affiliated entities, minus goodwill and other intangible assets, and minus the carrying value of pledged assets net of the associated liabilities of the pledged assets. Tangible net worth does not include money held in borrower escrow accounts.

   (2) A mortgage servicer operating as an approved servicer by a government sponsored enterprise must maintain liquidity, operating reserves, and tangible net worth that meet the standards set by the government sponsored enterprise. If approved by more than one government sponsored enterprise, the mortgage servicer must meet the highest standard of the government sponsored enterprises for which it is approved. The department may define by rule the list of government sponsored enterprises.

   (3) (a) A mortgage servicer with a portfolio of only nongovernment sponsored enterprise loans must maintain a minimum tangible net worth of $1 million or maintain a $1 million surety bond.
   (b) A mortgage servicer with a portfolio of nongovernment sponsored enterprise loans must maintain liquidity, including operating reserves, of $0.00035 times the unpaid principal balance of the portfolio.

   (4) A mortgage servicer with 25 or fewer loans, a mortgage servicer that is wholly owned and controlled by one or more depository institutions regulated by a state or federal banking agency, or a mortgage servicer that is also licensed as an escrow business may apply to the department to waive or adjust one or more of the capital requirements in subsections (2) and (3). In considering such a request, the department will consider whether the mortgage servicer has a positive net worth and adequate operating reserves.

   (5) The continuous maintenance of the minimum liquidity, operating reserves, and tangible net worth required under this section is necessary for continued licensure under this part. Failure to meet or maintain these minimum standards may constitute grounds for denial of an application, issuance of a cease and desist order, license suspension, or license revocation.

Section 2. Mortgage lender net worth requirement. (1) A mortgage lender must continuously maintain the minimum net worth required by this section.

   (2) A mortgage lender must have a minimum net worth of $250,000 and submit evidence that establishes compliance with this section. Evidence of net worth must include submission of recent financial statements accompanied by a written statement by an independent certified public accountant attesting that the accountant has reviewed the financial statements in accordance with generally accepted accounting principles.

   (3) If the net worth of a mortgage lender falls below the minimum net worth set forth in subsection (2), the licensee shall provide a plan, subject to approval of the department, to increase the licensee’s net worth to an amount
in conformance with this section. Submission of a plan under this section must
be made within 30 business days of service of a notice from the department that
the licensee is not in compliance with subsection (2). A plan that is not timely
submitted or that is not approved by the department may result in denial of
the application, issuance of a cease and desist order, license suspension, or
license revocation.

(4) Maintenance of the minimum net worth specified under this section is a
requirement for continued licensure. Failure to meet or maintain the minimum
net worth standards under this part may constitute grounds for the denial
of an application, issuance of a cease and desist order, license suspension, or
license revocation.

“32-9-120. Denial of mortgage broker, mortgage lender, mortgage servicer, or mortgage loan originator license application or license renewal. (1) The department may not issue or renew any mortgage broker, mortgage lender, mortgage servicer, or mortgage loan originator license if any of the following facts are found during the application procedure:

(a) the applicant has ever had a mortgage loan originator license or an equivalent license revoked in any governmental jurisdiction. A subsequent formal vacation of a revocation means that the revocation may not be considered a revocation. The department may by order vacate a revocation of a license and enter an appropriate order.

(b) the applicant has been convicted of or pled guilty or nolo contendere to a felony in a domestic, foreign, or military court during the 7-year period preceding the date of the application for licensing or renewal or at any time preceding the date of application if the felony involved an act of fraud, dishonesty, a breach of trust, or money laundering. The pardon or expungement of a conviction is not a conviction for the purposes of this subsection (1)(b). When determining the eligibility of the applicant for licensure under subsection (1)(c) or this subsection (1)(b), the department may consider the underlying crime, facts, or circumstances of a pardoned or expunged felony conviction.

(c) the applicant has failed to demonstrate financial responsibility, character, and general fitness to command the confidence of the community and to warrant a determination that the mortgage broker, mortgage lender, mortgage servicer, or mortgage loan originator will operate honestly, fairly, and efficiently within the purposes of this section;

(ii) the nationwide multistate licensing system industry terms of use as they pertain to enrolling, scheduling, or taking the mortgage loan originator national or state test under the Secure and Fair Enforcement for Mortgage Licensing Act.

(2) The department may consider an application abandoned if an applicant fails to provide or respond to a request for additional information within the time period specified by the department by rule.

(3) For purposes of subsection (1)(b), a pardoned or expunged felony conviction does not necessitate denial of the license application. The department may consider the underlying crime, facts, or circumstances of a pardoned or expunged felony conviction when determining the eligibility of an applicant for licensure under subsection (1)(b) or (1)(c). Whether a particular crime is classified as a felony must be determined by the law of the jurisdiction in which
an individual is convicted. (See part compiler's comment regarding contingent suspension.)"

[HB 44]

AN ACT CLARIFYING THE USE OF ADVERSE EFFECTS ANALYSIS FOR A CHANGE IN WATER RIGHT; AND AMENDING SECTION 85-2-402, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 85-2-402, MCA, is amended to read:

“85-2-402. Changes in appropriation rights – definition. (1) (a) The right to make a change in appropriation right subject to the provisions of
this section in an existing water right, a permit, or a state water reservation is recognized and confirmed. In a change in appropriation right proceeding under this section, there is no presumption that an applicant for a change in appropriation right cannot establish lack of adverse effect prior to the adjudication of other rights in the source of supply pursuant to this chapter. Except as provided in 85-2-410 and subsections (15) and (16) of this section, an appropriator may not make a change in an appropriation right without the approval of the department or, if applicable, of the legislature. An applicant shall submit a correct and complete application.

(b) If an application involves a change in a point of diversion, conveyance, or place of use located on national forest system lands, the application is not correct and complete until the applicant has submitted proof to the department of any written special use authorization required by federal law for the proposed change in occupancy, use, or traverse of national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water.

[(c) The applicant is not required to prove a lack of adverse effect for any water right identified on a written consent to approval filed pursuant to subsection (19) in connection with an application.]

(2) Except as provided in subsections (4) through (6), (15), (16), and (18) and, if applicable, subject to subsection[s (1)(c) and] (17), the department shall approve a change in appropriation right if the appropriator proves by a preponderance of evidence that the following criteria are met:

(a) The proposed change in appropriation right will not adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under part 3. For purposes of this section, adverse effects analysis is specific to the proposed change in appropriation right and a determination that water is not legally available pursuant to 85-2-311 does not necessarily mean that an adverse effect will occur.

(b) The proposed means of diversion, construction, and operation of the appropriation works are adequate, except for:

(i) a change in appropriation right for instream flow pursuant to 85-2-320 or 85-2-436;
(ii) a temporary change in appropriation right for instream flow pursuant to 85-2-408; or
(iii) a change in appropriation right pursuant to 85-2-420 for mitigation or marketing for mitigation.

(c) The proposed use of water is a beneficial use.

(d) The applicant has a possessory interest, or the written consent of the person with the possessory interest, in the property where the water is to be put to beneficial use or, if the proposed change involves a point of diversion, conveyance, or place of use on national forest system lands, the applicant has any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of diversion, impoundment, storage, transportation, withdrawal, use, or distribution of water. This subsection (2)(d) does not apply to:

(i) a change in appropriation right for instream flow pursuant to 85-2-320 or 85-2-436;
(ii) a temporary change in appropriation right for instream flow pursuant to 85-2-408; or
(iii) a change in appropriation right pursuant to 85-2-420 for mitigation or marketing for mitigation.
(e) If the change in appropriation right involves salvaged water, the proposed water-saving methods will salvage at least the amount of water asserted by the applicant.

(f) The water quality of an appropriator will not be adversely affected.

(g) The ability of a discharge permit holder to satisfy effluent limitations of a permit issued in accordance with Title 75, chapter 5, part 4, will not be adversely affected.

(3) The applicant is required to prove that the criteria in subsections (2)(f) and (2)(g) have been met only if a valid objection is filed. A valid objection must contain substantial credible information establishing to the satisfaction of the department that the criteria in subsection (2)(f) or (2)(g), as applicable, may not be met.

(4) The department may not approve a change in purpose of use or place of use of an appropriation of 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water unless the appropriator proves by a preponderance of evidence that:

(a) the criteria in subsection (2) are met; and

(b) the proposed change in appropriation right is a reasonable use. A finding of reasonable use must be based on a consideration of:

(i) the existing demands on the state water supply, as well as projected demands for water for future beneficial purposes, including municipal water supplies, irrigation systems, and minimum streamflows for the protection of existing water rights and aquatic life;

(ii) the benefits to the applicant and the state;

(iii) the effects on the quantity and quality of water for existing uses in the source of supply;

(iv) the availability and feasibility of using low-quality water for the purpose for which application has been made;

(v) the effects on private property rights by any creation of or contribution to saline seep; and

(vi) the probable significant adverse environmental impacts of the proposed use of water as determined by the department pursuant to Title 75, chapter 1, or Title 75, chapter 20.

(5) The department may not approve a change in purpose of use or place of use for a diversion that results in 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water being consumed unless:

(a) the applicant proves by clear and convincing evidence and the department finds that the criteria in subsections (2) and (4) are met; and

(b) for the withdrawal and transportation of appropriated water for out-of-state use, the department then petitions the legislature and the legislature affirms the decision of the department after one or more public hearings.

(6) The state of Montana has long recognized the importance of conserving its public waters and the necessity to maintain adequate water supplies for the state’s water requirements, including requirements for federal non-Indian and Indian reserved water rights held by the United States for federal reserved lands and in trust for the various Indian tribes within the state’s boundaries. Although the state of Montana also recognizes that, under appropriate conditions, the out-of-state transportation and use of its public waters are not in conflict with the public welfare of its citizens or the conservation of its waters, the following criteria must be met before out-of-state use may occur:

(a) The department and, if applicable, the legislature may not approve a change in appropriation right for the withdrawal and transportation of appropriated water for use outside the state unless the appropriator proves by
clear and convincing evidence and, if applicable, the legislature approves after one or more public hearings that:

(i) depending on the volume of water diverted or consumed, the applicable criteria and procedures of subsection (2) or (4) are met;

(ii) the proposed out-of-state use of water is not contrary to water conservation in Montana; and

(iii) the proposed out-of-state use of water is not otherwise detrimental to the public welfare of the citizens of Montana.

(b) In determining whether the appropriator has proved by clear and convincing evidence that the requirements of subsections (6)(a)(ii) and (6)(a)(iii) will be met, the department and, if applicable, the legislature shall consider the following factors:

(i) whether there are present or projected water shortages within the state of Montana;

(ii) whether the water that is the subject of the proposed change in appropriation might feasibly be transported to alleviate water shortages within the state of Montana;

(iii) the supply and sources of water available to the applicant in the state where the applicant intends to use the water; and

(iv) the demands placed on the applicant’s supply in the state where the applicant intends to use the water.

(c) When applying for a change in appropriation right to withdraw and transport water for use outside the state, the applicant shall submit to and comply with the laws of the state of Montana governing the appropriation and use of water.

(7) For any application for a change in appropriation right involving 4,000 or more acre-feet of water a year and 5.5 or more cubic feet per second of water, the department shall give notice of the proposed change in appropriation right in accordance with 85-2-307 and shall hold one or more hearings in accordance with 85-2-309 prior to its approval or denial of the proposed change in appropriation right. The department shall provide notice and may hold one or more hearings upon any other proposed change in appropriation right if it determines that the proposed change in appropriation right might adversely affect the rights of other persons[, except for any right for which a written consent to approval has been filed pursuant to subsection (19) in connection with the application].

(8) The department or the legislature, if applicable, may approve a change in appropriation right subject to the terms, conditions, restrictions, and limitations that it considers necessary to satisfy the criteria of this section, including limitations on the time for completion of the change in appropriation right. The department may extend time limits specified in the change in appropriation right approval under the applicable criteria and procedures of 85-2-312.

(9) Upon actual application of water to the proposed beneficial use within the time allowed, the appropriator shall notify the department that the appropriation has been completed. The notification must contain a certified statement by a person with experience in the design, construction, or operation of appropriation works describing how the appropriation was completed.

(10) If a change in appropriation right is not completed as approved by the department or legislature or if the terms, conditions, restrictions, and limitations of the change in appropriation right approval are not complied with, the department may, after notice and opportunity for hearing, require the appropriator to show cause why the change in appropriation right approval should not be modified or revoked. If the appropriator fails to show sufficient
cause, the department may modify or revoke the change in appropriation right approval.

(11) The original of a change in appropriation right approval issued by the department must be sent to the applicant, and a duplicate must be kept in the office of the department in Helena.

(12) A person holding an issued permit or change in appropriation right approval that has not been perfected may change the place of diversion, place of use, purpose of use, or place of storage by filing an application for change in appropriation right pursuant to this section.

(13) A change in appropriation right contrary to the provisions of this section is invalid. An officer, agent, agency, or employee of the state may not knowingly permit, aid, or assist in any manner an unauthorized change in appropriation right. A person or corporation may not, directly or indirectly, personally or through an agent, officer, or employee, attempt to change an appropriation right except in accordance with this section.

(14) The department may adopt rules to implement the provisions of this section.

(15) (a) An appropriator may change an appropriation right for a replacement well without the prior approval of the department if:

(i) the appropriation right is for:

(A) ground water outside the boundaries of a controlled ground water area; or

(B) ground water inside the boundaries of a controlled ground water area and if the provisions of the rule establishing the controlled ground water area do not restrict a change in appropriation right;

(ii) the change in appropriation right is to replace an existing well and the existing well will no longer be used;

(iii) the rate and volume of the appropriation from the replacement well are equal to or less than that of the well being replaced and do not exceed:

(A) 450 gallons a minute for a municipal well; or

(B) 35 gallons a minute and 10 acre-feet a year for all other wells;

(iv) the water from the replacement well is appropriated from the same aquifer as the water appropriated from the well being replaced; and

(v) a timely, correct and complete notice of replacement well is submitted to the department as provided in subsection (15)(b).

(b) (i) After completion of a replacement well and appropriation of ground water for a beneficial use, the appropriator shall file a notice of replacement well with the department on a form provided by the department.

(ii) (A) The department shall review the notice of replacement well and shall issue an authorization of a change in appropriation right if all of the criteria in subsection (15)(a) have been met and the notice is correct and complete.

(B) If the replacement well is located on national forest system lands, the notice is not correct and complete under this subsection (15) until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the replacement well.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement well has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement well within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.
(iv) If a notice of replacement well is not completed within the time allowed, the appropriator shall:
   (A) cease appropriation of water from the replacement well pending approval by the department; and
   (B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).
(c) The provisions of this subsection (15) do not apply to an appropriation right abandoned under 85-2-404.
(d) For each well that is replaced under this subsection (15), the appropriator shall follow the well abandonment procedures, standards, and rules adopted by the board of water well contractors pursuant to 37-43-202.
(e) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (15)(a).
(16) (a) An appropriator may change an appropriation right without the prior approval of the department for the purpose of constructing a redundant water supply well in a public water supply system, as defined in 75-6-102, if the redundant water supply well:
   (i) withdraws water from the same ground water source as the original well; and
   (ii) is required by a state or federal agency.
(b) The priority date of the redundant water supply well is the same as the priority date of the original well. Only one well may be used at one time.
(c) Within 60 days of completion of a redundant water supply well, the appropriator shall file a notice of construction of the well with the department on a form provided by the department. The department may return a defective notice of construction to the appropriator for correction and completion. If the redundant water supply well is located on national forest system lands, the notice is not correct and complete under this subsection until the appropriator has submitted proof of any written special use authorization required by federal law to occupy, use, or traverse national forest system lands for the purpose of constructing the redundant water supply well.
(d) The provisions of subsections (9) and (10) do not apply to a change in appropriation right that meets the requirements of this subsection (16).
(17) The department shall accept and process an application for a change in appropriation right for instream flow to protect, maintain, or enhance streamflows pursuant to 85-2-320 and this section and to benefit the fishery resource pursuant to 85-2-436 and this section.
(18) (a) An appropriator may change an appropriation right for a replacement point of diversion without the prior approval of the department if:
   (i) the existing point of diversion is inoperable due to natural causes or deteriorated infrastructure;
   (ii) there are no other changes to the water right;
   (iii) the capacity of the diversion is not increased;
   (iv) there are no points of diversion or intervening water rights between the existing point of diversion and the replacement point of diversion or the appropriator obtains written waivers from all intervening water right holders;
   (v) the replacement point of diversion is on the same surface water source and is located as close as reasonably practicable to the existing point of diversion;
   (vi) the replacement point of diversion replaces an existing point of diversion and the existing point of diversion will no longer be used;
(vii) the appropriator can show that the existing point of diversion has been used in the 10 years prior to the notice for change of appropriation right for a replacement point of diversion;

(viii) the appropriator can show the change will not increase access to water availability, change the method of irrigation, if applicable, or increase the amount of water diverted, used, or consumed; and

(ix) a timely, correct and complete notice of replacement point of diversion is submitted to the department as provided in subsection (18)(b).

(b) (i) Within 60 days after completion of a replacement point of diversion, the appropriator shall file a notice of replacement point of diversion with the department on a form provided by the department.

(ii) The department shall review the notice of replacement point of diversion and shall issue an authorization of a change in an appropriation right if all of the criteria in subsection (18)(a) have been met and the notice is correct and complete. The department may inspect the diversion to confirm that the criteria under subsection (18)(a) have been met. If the department issues an authorization of a change in an appropriation right for a replacement point of diversion, the department shall prepare a notice of the authorization and provide notice of the authorization in the same manner as required in 85-2-307 for applications.

(iii) The department may not issue an authorization of a change in appropriation right until a correct and complete notice of replacement point of diversion has been filed with the department. The department shall return a defective notice to the appropriator, along with a description of defects in the notice. The appropriator shall refile a corrected and completed notice of replacement point of diversion within 30 days of notification of defects or within a further time as the department may allow, not to exceed 6 months.

(iv) If a notice of replacement point of diversion is not filed and completed within the time allowed or if the department determines the criteria under subsection (18)(a) have not been met, the appropriator shall:

(A) cease appropriation of water from the replacement point of diversion pending approval by the department; and

(B) submit an application for a change in appropriation right to the department pursuant to subsections (1) through (3).

(c) The provisions of this subsection (18) do not apply to an appropriation right abandoned under 85-2-404.

(d) The provisions of subsections (2), (3), (9), and (10) do not apply to a change in appropriation right that meets the requirements of subsection (18)(a).

(e) (i) An appropriator may file a correct and complete objection with the department alleging that the change in appropriation right for a replacement point of diversion will adversely affect the use of the existing water rights of other persons or other perfected or planned uses or developments for which a permit or certificate has been issued or for which a state water reservation has been issued under Title 85, chapter 2, part 3.

(ii) If the department determines after a contested case hearing between the appropriator and the objector that the rights of other appropriators have been or will be adversely affected, it may revoke the change or make the change subject to terms, conditions, restrictions, or limitations necessary to protect the rights of other appropriators.

(iii) The burden of proof to prove lack of adverse effect at the hearing is on the appropriator changing the point of diversion.

[(19) The department may not conduct an adverse effects analysis on a water right if the water right holder files a written consent to approval of]
an application for a change in appropriation right.] (Bracketed language in subsections (1)(c), (2), (7), and (19) terminates September 30, 2023--sec. 8, Ch. 243, L. 2017.)

[HB 55]
AN ACT GENERALLY REVISING LAWS RELATED TO SUBDIVISION SANITATION REVIEW; DEFINING TERMS; EXTENDING RULEMAKING AUTHORITY; ALLOWING LOCAL ENTITIES TO REVIEW SUBDIVISION CONNECTIONS TO WATER AND SEWER; REVISING TIMELINES FOR SUBDIVISION REVIEW; REVISING SUBDIVISION EXEMPTIONS; REVISING FILING REQUIREMENTS; AMENDING SECTIONS 75-1-208, 76-3-622, 76-4-102, 76-4-103, 76-4-104, 76-4-105, 76-4-107, 76-4-111, 76-4-113, 76-4-114, 76-4-115, 76-4-116, 76-4-121, 76-4-122, 76-4-125, 76-4-127, 76-4-130, 76-4-131, AND 76-4-133, MCA; REPEALING SECTION 13, CHAPTER 344, LAWS OF 2017; AND PROVIDING EFFECTIVE DATES.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-1-208, MCA, is amended to read:

“75-1-208. Environmental review procedure. (1) (a) Except as provided in 75-1-205(4) and subsection (1)(b) of this section, an agency shall comply with this section when completing any environmental review required under this part.

(b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.

(2) (a) Except as provided in subsection (2)(b), a project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency’s environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.

(b) If the primary concern of the agency’s environmental review of a project is the quality or quantity of water, a project sponsor may, after providing a 30-day notice, appear before the water policy committee established in 5-5-231 at any regularly scheduled meeting to discuss issues regarding the agency’s environmental review of the project. The water policy committee shall ensure that the appropriate agency personnel are available to answer questions.

(3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. The written request must sufficiently state the issues to allow the agency to prepare for the meeting. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must sufficiently state the issues to allow the agency and the board to prepare for the meeting.
(4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

(i) 60 days to complete a public scoping process, if any;
(ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) or 75-1-205(4) is required; and
(iii) 180 days to complete a detailed statement pursuant to 75-1-201(1)(b)(iv).

(b) The period of time between the request for a review by a board and the completion of a review by a board under 75-1-201(9) or subsection (10) of this section may not be included for the purposes of determining compliance with the time limits established for conducting an environmental review under this subsection or the time limits established for permitting in 75-2-211, 75-2-218, 75-20-216, 75-20-231, 76-4-114, 82-4-122, 82-4-231, 82-4-337, and 82-4-432.

(5) An agency may extend the time limits in subsection (4) by notifying the project sponsor in writing that an extension is necessary and stating the basis for the extension. The agency may extend the time limit one time, and the extension may not exceed 50% of the original time period as listed in subsection (4). After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.

(6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency’s decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.

(b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

(8) Under this part, an agency may only request information from the project sponsor that is relevant to the environmental review required under this part.

(9) An agency shall ensure that the notification for any public scoping process associated with an environmental review conducted by the agency is presented in an objective and neutral manner and that the notification does not speculate on the potential impacts of the project.

(10) An agency may not require the project sponsor to provide engineering designs in greater detail than that necessary to fairly evaluate the proposed project. The project sponsor may request that the appropriate board, if any, review an agency’s request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(11) An agency shall, when appropriate, evaluate the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through preimpact statement studies, separate impact statement evaluations, or permit processing procedures. (Bracketed reference to 76-4-114 in subsection
Section 2. Section 76-3-622, MCA, is amended to read:

“76-3-622. Water and sanitation information to accompany preliminary plat. (1) Except as provided in subsection (2), the subdivider shall submit to the governing body or to the agent or agency designated by the governing body the information listed in this section for proposed subdivisions that will include new water supply or wastewater facilities. The information must include:

(a) a vicinity map or plan that shows:
   (i) the location, within 100 feet outside of the exterior property line of the subdivision and on the proposed lots, of:
   (A) flood plains;
   (B) surface water features;
   (C) springs;
   (D) irrigation ditches;
   (E) existing, previously approved, and, for parcels less than 20 acres, proposed water wells and wastewater treatment systems;
   (F) for parcels less than 20 acres, mixing zones identified as provided in subsection (1)(g); and
   (G) the representative drainfield site used for the soil profile description as required under subsection (1)(d); and
   (ii) the location, within 500 feet outside of the exterior property line of the subdivision, of public water and sewer facilities;

(b) a description of the proposed subdivision’s water supply systems, storm water systems, solid waste disposal systems, and wastewater treatment systems, including:
   (i) whether the water supply and wastewater treatment systems are individual, shared, multiple user, or public as those systems are defined in rules published by the department of environmental quality; and
   (ii) if the water supply and wastewater treatment systems are shared, multiple user, or public, a statement of whether the systems will be public utilities as defined in 69-3-101 and subject to the jurisdiction of the public service commission or exempt from public service commission jurisdiction and, if exempt, an explanation for the exemption;

(c) a drawing of the conceptual lot layout at a scale no smaller than 1 inch equal to 200 feet that shows all information required for a lot layout document in rules adopted by the department of environmental quality pursuant to 76-4-104;

(d) evidence of suitability for new onsite wastewater treatment systems that, at a minimum, includes:
   (i) a soil profile description from a representative drainfield site identified on the vicinity map, as provided in subsection (1)(a)(i)(G), that complies with standards published by the department of environmental quality;
   (ii) demonstration that the soil profile contains a minimum of 4 feet of vertical separation distance between the bottom of the permeable surface of the proposed wastewater treatment system and a limiting layer; and
   (iii) in cases in which the soil profile or other information indicates that ground water is within 7 feet of the natural ground surface, evidence that the ground water will not exceed the minimum vertical separation distance provided in subsection (1)(d)(ii);

(e) for new water supply systems, unless cisterns are proposed, evidence of adequate water availability:
   (i) obtained from well logs or testing of onsite or nearby wells;
(ii) obtained from information contained in published hydrogeological reports; or
(iii) as otherwise specified by rules adopted by the department of environmental quality pursuant to 76-4-104;
f) evidence of sufficient water quality in accordance with rules adopted by the department of environmental quality pursuant to 76-4-104;
g) a preliminary analysis of potential impacts to ground water quality from new wastewater treatment systems, using as guidance rules adopted by the board of environmental review pursuant to 75-5-301 and 75-5-303 related to standard mixing zones for ground water, source specific mixing zones, and nonsignificant changes in water quality. The preliminary analysis may be based on currently available information and must consider the effects of overlapping mixing zones from proposed and existing wastewater treatment systems within and directly adjacent to the subdivision. Instead of performing the preliminary analysis required under this subsection (1)(g), the subdivider may perform a complete nondegradation analysis in the same manner as is required for an application that is reviewed under Title 76, chapter 4.

(2) A subdivider whose land division is excluded from review under [76-4-125(1)] 76-4-125(1) is not required to submit the information required in this section.

(3) A governing body may not, through adoption of regulations, require water and sanitation information in addition to the information required under this section unless the governing body complies with the procedures provided in 76-3-511. (Bracketed reference to 76-4-125(1) in subsection (2) terminates September 30, 2019, and reverts to 76-4-125(2) effective October 1, 2019—sec. 13, Ch. 344, L. 2017.)

(2) The rules and standards must provide the basis for approving subdivisions for various types of public and private water supplies, sewage
disposal facilities, storm water drainage ways, and solid waste disposal. The rules and standards must be related to:

(a) size of lots;
(b) contour of land;
(c) porosity of soil;
(d) ground water level;
(e) distance from lakes, streams, and wells;
(f) type and construction of private water and sewage facilities; and
(g) other factors affecting public health and the quality of water for uses relating to agriculture, industry, recreation, and wildlife.

(3) (a) Except as provided in subsection (3)(b), the rules must provide for the review of subdivisions consistent with 76-4-114 by a local department or board of health, as described in Title 50, chapter 2, part 1, if the local department or board of health employs a registered sanitarian or a registered professional engineer and if the department certifies under subsection (4) that the local department or board is competent to conduct the review.

(b) (i) Except as provided in 75-6-121 and subsection (3)(b)(ii) of this section, a local department or board of health may not review public water supply systems, public sewage systems, or extensions of or connections to these systems.

(ii) A local department or board of health may be certified by the department to review subdivisions proposed to connect to existing municipal or county water and/or sewer district water and wastewater systems previously approved by the department if no extension of the systems is required.

(4) The department shall also adopt standards and procedures for certification and maintaining certification to ensure that a local department or board of health is competent to review the subdivisions as described in subsection (3).

(5) The department shall review those subdivisions described in subsection (3) if:

(a) a proposed subdivision lies within more than one jurisdictional area and the respective governing bodies are in disagreement concerning approval of or conditions to be imposed on the proposed subdivision; or

(b) the local department or board of health elects not to be certified.

(6) The rules must further provide for:

(a) providing the reviewing authority with a copy of the plat or certificate of survey subject to review under this part and other documentation showing the layout or plan of development, including:

(i) total development area; and

(ii) total number of proposed dwelling units and structures requiring facilities for water supply or sewage disposal;

(b) adequate evidence that a water supply that is sufficient in terms of quality, quantity, and dependability will be available to ensure an adequate supply of water for the type of subdivision proposed;

(c) evidence concerning the potability of the proposed water supply for the subdivision;

(d) adequate evidence that a sewage disposal facility is sufficient in terms of capacity and dependability;

(e) standards and technical procedures applicable to storm drainage plans and related designs, in order to ensure proper drainage ways;

(f) standards and technical procedures applicable to sanitary sewer plans and designs, including soil testing and site design standards for on-lot sewage disposal systems when applicable;

(g) standards and technical procedures applicable to water systems;
(h) standards and technical procedures applicable to solid waste disposal;

(i) adequate evidence that a proposed drainfield mixing zone and a proposed well isolation zone are located wholly within the boundaries of the proposed subdivision where the proposed drainfield or well is located or that an easement or, for public land, other authorization has been obtained from the landowner to place the proposed drainfield mixing zone or proposed well isolation zone outside the boundaries of the proposed subdivision where the proposed drainfield or proposed well is located. A proposed mixing zone or a proposed well isolation zone for an individual water system well that is a minimum of 50 feet inside the proposed subdivision boundary may extend outside the boundaries of the proposed subdivision onto adjoining land that is dedicated for use as a right-of-way for roads, railroads, or utilities. This subsection (6)(i) does not apply to the divisions provided for in 76-3-207 except those under 76-3-207(1)(b). Nothing in this section is intended to prohibit the extension, construction, or reconstruction of or other improvements to a public sewage system within a well isolation zone that extends onto land that is dedicated for use as a right-of-way for roads, railroads, or utilities.

(j) criteria for granting waivers and deviations from the standards and technical procedures adopted under subsections (6)(e) through (6)(i);

(k) evidence to establish that, if a public water supply system or a public sewage system is proposed, provision has been made for the system and, if other methods of water supply or sewage disposal are proposed, evidence that the systems will comply with state and local laws and regulations that are in effect at the time of submission of the preliminary or final plan or plat subdivision application under this chapter. Evidence that the systems will comply with local laws and regulations must be in the form of a certification from the local health department as provided by department rule.

(l) evidence to demonstrate that appropriate easements, covenants, agreements, and management entities have been established to ensure the protection of human health and state waters and to ensure the long-term operation and maintenance of water supply, storm water drainage, and sewage disposal facilities;

(m) eligibility requirements for municipalities and county water and/or sewer districts to qualify as a certifying authority under the provisions of 76-4-127.

(7) Review and certification or denial of certification that a division of land is not subject to sanitary restrictions under this part may occur only under those rules in effect when a complete application is submitted to the reviewing authority, except that in cases in which current rules would preclude the use for which the lot was originally intended, the applicable requirements in effect at the time the lot was recorded must be applied. In the absence of specific requirements, minimum standards necessary to protect public health and water quality apply.

(8) The reviewing authority may not deny or condition a certificate of subdivision approval under this part unless it provides a written statement to the applicant detailing the circumstances of the denial or condition imposition. The statement must include:

(a) the reason for the denial or condition imposition;

(b) the evidence that justifies the denial or condition imposition; and

(c) information regarding the appeal process for the denial or condition imposition.

(9) The department may adopt rules that provide technical details and clarification regarding the water and sanitation information required to be submitted under 76-3-622. (Terminates September 30, 2019—sec. 13, Ch. 344, L. 2017.)
76-4-104.  (Effective October 1, 2019) Rules for administration and enforcement.  (1) The department shall, subject to the provisions of 76-4-135, adopt reasonable rules, including adoption of sanitary standards, necessary for administration and enforcement of this part.

(b) contour of land;
(c) porosity of soil;
(d) ground water level;
(e) distance from lakes, streams, and wells;
(f) type and construction of private water and sewage facilities; and
(g) other factors affecting public health and the quality of water for uses relating to agriculture, industry, recreation, and wildlife.

(3)(a) Except as provided in subsection (3)(b), the rules must provide for the review of subdivisions by a local department or board of health, as described in Title 50, chapter 2, part 1, if the local department or board of health employs a registered sanitarian or a registered professional engineer and if the department certifies under subsection (4) that the local department or board is competent to conduct the review.

(b)(i) Except as provided in 75-6-121 and subsection (3)(b)(ii) of this section, a local department or board of health may not review public water supply systems, public sewage systems, or extensions of or connections to these systems.

(ii) A local department or board of health may be certified to review subdivisions proposed to connect to existing municipal water and wastewater systems previously approved by the department if no extension of the systems is required.

(4) The department shall also adopt standards and procedures for certification and maintaining certification to ensure that a local department or board of health is competent to review the subdivisions as described in subsection (3).

(5) The department shall review those subdivisions described in subsection (3) if:

(a) a proposed subdivision lies within more than one jurisdictional area and the respective governing bodies are in disagreement concerning approval of or conditions to be imposed on the proposed subdivision; or

(b) the local department or board of health elects not to be certified.

(c) evidence concerning the potability of the proposed water supply for the subdivision;

(d) adequate evidence that a sewage disposal facility is sufficient in terms of capacity and dependability;
(e) standards and technical procedures applicable to storm drainage plans and related designs, in order to ensure proper drainage ways;

(f) standards and technical procedures applicable to sanitary sewer plans and designs, including soil testing and site design standards for on-lot sewage disposal systems when applicable;

(g) standards and technical procedures applicable to water systems;

(h) standards and technical procedures applicable to solid waste disposal;

(i) adequate evidence that a proposed drainfield mixing zone and a proposed well isolation zone are located wholly within the boundaries of the proposed subdivision where the drainfield or well is located or that an easement or, for public land, other authorization has been obtained from the landowner to place the proposed drainfield mixing zone or well isolation zone outside the boundaries of the proposed subdivision where the drainfield or well is located. A mixing zone or a well isolation zone for an individual water system well that is a minimum of 50 feet inside the subdivision boundary may extend outside the boundaries of the proposed subdivision onto adjoining land that is dedicated for use as a right-of-way for roads, railroads, or utilities. This subsection (6)(i) does not apply to the divisions provided for in 76-3-207 except those under 76-3-207(1)(b). Nothing in this section is intended to prohibit the extension, construction, or reconstruction of, or other improvements to a public sewage system within a well isolation zone that extends onto land that is dedicated for use as a right-of-way for roads, railroads, or utilities;

(j) criteria for granting waivers and deviations from the standards and technical procedures adopted under subsections (6)(e) through (6)(i);

(k) evidence to establish that, if a public water supply system or a public sewage system is proposed, provision has been made for the system and, if other methods of water supply or sewage disposal are proposed, evidence that the systems will comply with state and local laws and regulations that are in effect at the time of submission of the preliminary or final plan or plat. (l) evidence to demonstrate that appropriate easements, covenants, agreements, and management entities have been established to ensure the protection of human health and state waters and to ensure the long-term operation and maintenance of water supply, storm water drainage, and sewage disposal facilities;

(7) If the reviewing authority is a local department or board of health, it shall notify the department of its recommendation for approval or disapproval of the subdivision not later than 45 days from its receipt of the subdivision application. The department shall make a final decision on the subdivision within 10 days after receiving the recommendation of the local reviewing authority, but not later than 55 days after the submission of a complete application, as provided in 76-4-125.

(6) Review and certification or denial of certification that a division of land is not subject to sanitary restrictions under this part may occur only under those rules in effect when a complete application is submitted to the reviewing authority, except that in cases in which current rules would preclude the use for which the lot was originally intended, the applicable requirements in effect at the time the lot was recorded must be applied. In the absence of specific requirements, minimum standards necessary to protect public health and water quality apply;

(9) The reviewing authority may not deny or condition a certificate of subdivision approval under this part unless it provides a written statement to
the applicant detailing the circumstances of the denial or condition imposition. The statement must include:

(a) the reason for the denial or condition imposition;
(b) the evidence that justifies the denial or condition imposition; and

The fees must be used for review of plats and subdivisions, conducting inspections pursuant to 76-4-107, and conducting enforcement activities pursuant to 76-4-108. The fees must be based on the complexity of the subdivision, including but not limited to:

(a) enter upon any public or private property, at reasonable times and after presentation of appropriate credentials by an authorized representative of the reviewing authority, to inspect such systems the system in order to assure ensure that the plans and specifications approved for the system have been adhered to and that the provisions of this part, rules, or orders are being satisfied;
(b) require as a condition of approval that records concerning the operation of a sewage disposal or water supply system be maintained or that monitoring equipment or wells be installed, used, and maintained for the collection of data related to water quality.

(2) The reviewing authority shall require certification from a registered professional engineer that a public water supply system or a public sewage disposal system required by rule to be designed by a registered professional engineer has been constructed according to approved plans and specifications.”

“76-4-111. Exemption for certain condominiums, townhomes, and townhouses. (1) Condominiums, townhomes, or townhouses, as those terms are defined in 70-23-102, constructed on land divided in compliance with the
Montana Subdivision and Platting Act and this part are exempt from the provisions of this part.

(2) Whenever a parcel of land has previously been reviewed under either department requirements or local health requirements and has received approval for a given number of living units, the construction of the same or a fewer number of condominium units, townhomes, or townhouses on that parcel is not subject to the provisions of this part, provided that no, if a new extension of a public water supply system or extension of a public sewage system is required to serve the development, the department reviews and approves plans for the extension."

Section 9. Section 76-4-113, MCA, is amended to read:

A written verification of notice that is signed by both the seller and the purchaser and is recorded with the county clerk and recorder constitutes conclusive evidence of compliance with this section for that transaction.”

Section 10. Section 76-4-114, MCA, is amended to read:

“76-4-114. (Temporary) Review of application. Except as provided in 76-4-125, the applicant shall submit an application for review of a subdivision pursuant to the following procedure:

(1) An applicant may request a preapplication meeting with the reviewing authority prior to submitting an application. The reviewing authority shall schedule the requested meeting between the applicant and the reviewing authority within 30 days of receiving the request from the applicant. The meeting may be conducted in person, via telephone, or via teleconference. For informational purposes only, the reviewing agent shall identify the state laws and rules that may apply to the subdivision review process.

(2) If the proposed development includes onsite sewage disposal facilities, the applicant shall notify the designated agent of the local board of health prior to presenting the subdivision application to the reviewing authority. The agent may conduct a preliminary site assessment to determine whether the site meets applicable state and local requirements.

(3) (a) After submitting an application if required under the Montana Subdivision and Platting Act, the applicant shall submit an application to the reviewing authority. A subdivision application is considered to be received on the date of delivery to the reviewing authority when accompanied by the review fee established pursuant to 76-4-105.

(b) Within 15 days of the receipt of an application, the reviewing authority shall determine whether the application contains the elements required by 76-4-115(1) to allow for review and shall notify the applicant of the reviewing authority’s determination. If the reviewing authority determines that elements are missing from the application, the reviewing agent or agency shall identify those elements in the notification. The applicant shall address the missing elements identified by the reviewing authority. A determination that an application contains the required elements for review as provided in this subsection (3)(b) does not ensure that the proposed subdivision will be approved and does not limit the ability of the reviewing authority to request additional information during the review process.
(c) (i) After the reviewing authority notifies the applicant that the application contains all of the required elements as provided by subsection (3)(b), the reviewing authority shall make a final decision or a recommendation on the application. Except as provided by subsection (4), the reviewing authority shall:

If the department receives a recommendation for approval of the subdivision from a local department or board of health, the department shall make a final decision on the application within 10 days of receiving the recommendation of the reviewing authority.

(ii) If the department approves the application, the department shall issue a certificate of subdivision approval indicating that it has approved the plans and specifications and that the subdivision is not subject to a sanitary restriction.

(iii) If the reviewing authority denies the application, the reviewing authority shall identify the deficiencies that result in the denial in a notification to the applicant.

(d) (i) If the reviewing authority denies an application and the applicant resubmits a corrected application within 30 days after the date of the denial letter, the reviewing authority shall complete review of the resubmitted application within 30 days after receipt of the resubmitted application.

(ii) If the reviewing authority denies an application and the applicant resubmits a corrected application after 30 days after the date of the denial letter, the reviewing authority shall complete review of the resubmitted application within:

(A) 55 days after receipt of the resubmitted application if the reviewing authority is the department; or

(B) 45 days after receipt of the resubmitted application if the reviewing authority is a local department or board of health.

(iii) If the review of the resubmitted application is conducted by a local department or board of health and the reviewing authority makes a recommendation to the department for approval of the application, the department shall make a final decision on the application within 10 days after the local reviewing authority completes its review under subsection (3)(d)(i) or (3)(d)(ii).

(4) If an environmental impact statement is required, the deadline to issue a final decision in (3)(c)(i) may be increased to 120 days.

(5) Except as provided in subsections (6) and (7), if the reviewing authority needs an extension of a deadline in this section to complete its review or if an applicant requests an extension of a deadline, then the reviewing authority shall notify the applicant of the extension prior to the end of the review deadline. An extension under this subsection may not exceed 30 days; however, the reviewing authority may issue more than one extension.

(5) The reviewing authority may extend a deadline in this section until the items required in 76-4-115(2) are submitted. The reviewing authority shall notify the applicant of the extension before the end of the review deadline. The reviewing authority shall make a final decision within 30 days of receipt of the items required in 76-4-115(2).
The department may extend a deadline under subsections (3)(c) and (3)(d) by 90 days if an environmental assessment is required.

The department may extend a deadline under subsections (3)(c) and (3)(d) by 120 days if an environmental impact statement is required. (Terminates September 30, 2019—sec. 13, Ch. 344, L. 2017.)

Section 11. Section 76-4-121, MCA, is amended to read:

“76-4-121. Restrictions on subdivision activities. A person may not dispose of any lot within a subdivision, erect any facility for the supply of water or disposal of sewage or solid waste, erect any building or shelter in a subdivision that requires facilities for the supply of water or disposal of sewage or solid waste, or occupy any permanent buildings in a subdivision until:

(1) a certificate of subdivision approval has been issued pursuant to 76-4-114 indicating that the reviewing authority has approved the subdivision application and that the subdivision is not subject to a sanitary restriction;

(3) the subdivision is otherwise exempt from review under 76-4-125.

(Bracketed reference to 76-4-114 in subsection (1) terminates September 30, 2019, and reverts to 76-4-125 effective October 1, 2019—sec. 13, Ch. 344, L. 2017.)

(2) A county clerk and recorder may not accept a subdivision plat, or certificate of survey, or townhome, townhouse, or condominium declaration subject to review under this part for filing until one of the following conditions has been met:

(a) the person wishing to file the plat, or certificate of survey, or townhome, townhouse, or condominium declaration has obtained approval of the local health officer having jurisdiction and has filed the approval with the reviewing authority and a certificate of subdivision approval has been issued pursuant to 76-4-114 indicating that the reviewing authority has approved the subdivision application and that the subdivision is not subject to a sanitary restriction;

(b) the person wishing to file the plat, or certificate of survey, or townhome, townhouse, or condominium declaration has obtained a certificate from the governing body certifying authority pursuant to 76-4-127 that the subdivision is within an area covered by a growth policy pursuant to chapter 1 of this title or within a first class or second class municipality, as described in 7-1-4111, and will be provided with adequate municipal or county water and/or sewer district facilities and adequate storm water drainage; or

(c) the person wishing to file the plat, or certificate of survey, or townhome, townhouse, or condominium declaration has placed on the plat, or certificate of survey, or townhome, townhouse, or condominium declaration an acknowledged certification that the subdivision is exempt from review under this part. The certification must quote in its entirety the wording of the applicable exemption.
Section 13. Section 76-4-125, MCA, is amended to read:

(c) divisions made for purposes other than the construction of water supply or sewage and solid waste disposal facilities as the department specifies by rule;

(d) divisions located within jurisdictional areas that have adopted growth policies pursuant to chapter 1 or within first-class or second-class municipalities for which the governing body certifies, pursuant to 76-4-127, that adequate storm water drainage and adequate municipal facilities will be provided, and as certified pursuant to 76-4-127:

(i) new divisions subject to review under the Montana Subdivision and Platting Act;

(ii) divisions or previously divided parcels recorded with sanitary restrictions; or

(iii) divisions or parcels of land that are exempt from the Montana Subdivision and Platting Act review under 76-3-203 or 76-3-207(1)(a), (1)(b), (1)(d), (1)(e), or (1)(f);

(e) subject to the provisions of subsection (3)(2), a remainder of an original tract created by segregating a parcel from the tract for purposes of transfer if:

Subdivision fees assessed by the reviewing authority must accompany the application. If the proposed development includes onsite sewage disposal facilities, the developer shall notify the designated agent of the local board of health prior to presenting the subdivision application to the reviewing authority. The agent may conduct a preliminary site assessment to determine whether the site meets applicable state and local requirements.

(b) Within 5 working days after receipt of an application that is not subject to review by a local reviewing authority under 76-4-104, the department shall provide a written notice for informational purposes to the applicant if the application does not include a copy of the certification from the local health department required by 76-4-104(6)(b) or, if applicable, contain an approval from the local governing body under Title 76, chapter 3, together with any public comments or summaries of public comments collected as provided in 76-3-604(7)(a).

If the review of the resubmitted application is conducted by a local department or board of health that is certified under 76-4-104, the department shall make a final decision on the application within 10 calendar days after the local reviewing authority completes its review.

The reviewing authority may not request additional information for the purpose of extending the time allowed for a review and final decision on the proposed subdivision. If the department approves the subdivision, the department shall issue a certificate of subdivision approval indicating that it has approved the plans and specifications and that the subdivision is not subject to a sanitary restriction.

(2) A subdivision excluded from the provisions of chapter 3 must be submitted for review according to the provisions of this part, except that the following divisions or parcels, unless the exclusions are used to evade the provisions of this part, are not subject to review:

[HB 58]

AN ACT REVISING THE DUTIES OF THE DROUGHT AND WATER SUPPLY ADVISORY COMMITTEE; REVISING THE COMMITTEE’S STATE PLAN REQUIREMENTS; REQUIRING COORDINATION AND COMMUNICATION WITH STATE, LOCAL, TRIBAL, AND FEDERAL ENTITIES; REVISING COMMITTEE REPORTING REQUIREMENTS; AND AMENDING SECTION 2-15-3308, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 2-15-3308, MCA, is amended to read:

(1) There is a drought and water supply advisory committee in the department of natural resources and conservation.

(2) The drought and water supply advisory committee is chaired by a representative of the governor and consists of representatives of the departments of natural resources and conservation; agriculture; commerce; fish, wildlife, and parks; military affairs; environmental quality; and livestock. The governor’s representative must be appointed by the governor, and the representative of each department must be appointed by the head of that department. Additional, nonvoting members who represent federal and local government agencies and public and private interests affected by drought, or flooding, or water supply may also be appointed by the governor.

(3) The drought and water supply advisory committee shall:

(a) with the approval of the governor, develop and implement a state plan that considers drought and flooding, mitigation, and response;

(b) review and report drought and water supply monitoring information to the public;

(c) coordinate timely drought and flooding impact assessments and maintain regular communication with the United States drought monitor, the national drought mitigation center, the division of disaster and emergency services, the national weather service, and other appropriate local, state, tribal, and federal partners;

(d) identify areas of the state with a high probability of drought or flooding and target reporting and assistance efforts to those areas in coordination with local, state, tribal, and federal agencies;

(e) upon request, assist in organizing local advisory committees for the areas identified under subsection (3)(d);

(f) request state agency staff to provide technical assistance to local advisory committees; and

(g) promote ideas and activities for groups and individuals to consider that may reduce drought or flooding vulnerability to drought or flooding and improve seasonal forecasting of water supply.

(4) The drought and water supply advisory committee shall meet, at a minimum, on or around October 15 and March 15 of each year to assess moisture conditions and forecasts and, as appropriate, begin preparations for drought or flood mitigation.

(5) By April 15 of each year, the drought and water supply advisory committee shall submit a report to the governor describing governor’s office that, to the extent possible, describes the potential for drought or flooding in the coming year, describes the current water supply conditions of the state, taking
into consideration winter precipitation, and provides an assessment of the cumulative water supply status. If the potential for drought or flooding merits additional activity by the drought and water supply advisory committee, the report must also describe:

(a) activities to be taken by the drought and water supply advisory committee for informing the public about the potential impacts of drought or flooding;

(b) a schedule for completing activities;

(c) geographic areas for which the creation of local drought and water supply advisory committees will be suggested to local governments and citizens; and

(d) requests for the use of any available state resources that may be necessary to prevent or minimize drought or flood impacts.

(6) By July 1 of each year, the drought and water supply advisory committee shall submit a report to the governor's office evaluating the potential for drought for the remainder of the calendar year. If the report identifies a potential for drought that is likely to cause adverse impacts to human health and safety, environmental quality, or both, the committee shall notify the division of disaster and emergency services and county commissioners, tribal governments, conservation districts, and local watershed groups in the geographic location potentially impacted by drought and the types of impacts likely to occur.

(6)(7) Nothing in this section is intended to remove or interfere with the duties and responsibilities of the governor or the division of disaster and emergency services for disaster coordination and emergency response, as provided in Title 10, chapter 3, part 1. The duties and responsibilities of the drought and water supply advisory committee supplement and are consistent with those of the division of disaster and emergency services for drought or flood planning, preparation, coordination, and mitigation.”

Section 2. Notification to tribal governments. The secretary of state shall send a copy of [this act] to each tribal government located on the seven Montana reservations and to the Little Shell Chippewa tribe.

(ii) The provisions of subsection (3)(b)(i) do not apply to situations when the only access is totally controlled by a potential purchaser of the timber, in which case the department shall seek to negotiate permanent, reciprocal access.

(c) In the situations described in subsections (3)(a) and (3)(b)(i), the department is not required to comply with the provisions of 75-1-201(1) to the extent that compliance is precluded by limited time available to take advantage of the sales opportunities described by this subsection (3)."

(5) Unless the timber proposed for sale is already sold or is part of another proposed sale being reviewed by the department, the department shall review completed permit applications within 30 days of the application's submittal. If the proposed sale complies with existing state and federal laws and regulations, the department shall perform an appraisal within 60 days of the application’s submittal.

(6) The department shall issue a permit within 5 working days of the date that the applicant agrees to the terms of the proposed sale, unless the parties mutually agree upon a time extension.

(7) Repeated permits of this kind may not be issued to avoid advertising and the consequent competition secured by advertising.
(8) Permit applications pursuant to subsection (1)(b) for timber sales in cases of emergency due to fire, insect, fungus, parasite, or blowdown, and no other, are categorical exclusions as defined by rule, and the department is not required to comply with the provisions of 75-1-201(1) in reviewing those applications.

(9) Proposed timber sales under subsection (1)(b)(8) do not take precedence over the timely sale and harvest of green timber pursuant to 77-5-207.

(10) Permit applications made pursuant to this section may be subject to further environmental review, and the number of permits may be limited if the department determines that sales may have a cumulative effect on geographic area."

(b) The approving authority, as defined in 17-7-102, may direct a state agency to suspend the employer contribution for state employee group benefits described in subsections (1) and (2)(a) for a period of up to 2 months.

(c) (i) Except as provided in subsection (2)(c)(ii), for the purposes of this subsection (2), “state agency” means a state entity that pays the employer contribution for state employee group benefits.

(ii) The term does not include the Montana university system.

(d) For employees defined in 2-18-701 and for members of the legislature, beginning January 2020 and for each succeeding month, the cost of group benefits, including both the employer and employee contributions for group benefits and health flexible spending accounts, may not exceed the monthly amount for self-only coverage and coverage other than self-only that will trigger the excise tax under 26 U.S.C. 4980I, including any cost-of-living adjustments under 26 U.S.C. 4980I. This section limits contributions for group benefits only to the extent needed to avoid triggering the excise tax under 26 U.S.C. 4980I.

(ii) If a political subdivision did not make contributions for group benefits on or before July 1, 1999, and subsequently does so, the base contribution is determined by multiplying the average annual contribution for each employee in the first year the political subdivision provides contributions for group benefits times the number of employees for whom the employer makes contributions for group benefits under 2-9-212 on July 1 of each fiscal year.

(iii) If a political subdivision has made contributions for group benefits but has not previously levied for contributions in excess of the base contribution, the political subdivision’s base is determined by multiplying the average annual contribution for each employee at the beginning of the fiscal year immediately preceding the year in which the levy will first be levied times the number of employees for whom the employer made contributions for group benefits under 2-9-212 in that fiscal year.

(5) Unused employer contributions for any state employee must be transferred to an account established for this purpose by the department of administration and upon transfer may be used to offset losses occurring to the group of which the employee is eligible to be a member.

(6) Except as provided in subsection (2)(b), unused employer contributions for any government employee may be transferred to an account established for this purpose by a self-insured government and upon transfer may be used to offset losses occurring to the group of which the employee is eligible to be a member or to increase the reserves of the group.

This section limits contributions for group benefits only to the extent needed to avoid triggering the excise tax under 26 U.S.C. 4980I.
(c) **For** Except as provided in subsection (2)(d) employees of the Montana university system, the employer contribution for group benefits is $1,054 a month from July 2016 through the earlier of:

1. June 2020; or
2. the month before the first month in which the excise tax under 26 U.S.C. 4980I applies.

(d) For employees of the Montana university system, beginning the earlier of July 2020 or the first month in 2020 in which the excise tax under 26 U.S.C. 4980I applies, and for each succeeding month, the cost of group benefits, including both the employer and employee contributions for group benefits and health flexible spending accounts, may not exceed the monthly amount for self-only coverage and coverage other than self-only that will trigger the excise tax under 26 U.S.C. 4980I, including any cost-of-living adjustments under 26 U.S.C. 4980I. This section limits contributions for group benefits only to the extent needed to avoid triggering the excise tax under 26 U.S.C. 4980I.

(e) If a state employee is terminated to achieve a reduction in force, the continuation of contributions for group benefits beyond the termination date is subject to negotiation under 39-31-305 and to the protections of 2-18-1205. Permanent part-time, seasonal part-time, and temporary part-time employees who are regularly scheduled to work less than 20 hours a week are not eligible for the group benefit contribution. An employee who elects not to be covered by a state-sponsored group benefit plan may not receive the state contribution. A portion of the employer contribution for group benefits may be applied to an employee’s costs for participation in Part B of medicare under Title XVIII of the Social Security Act, as amended, if the state group benefit plan is the secondary payer and medicare the primary payer.

(3) For employees of elementary and high school districts, the employer’s contributions may exceed but may not be less than $10 a month.

(4) (a) For employees of political subdivisions, as defined in 2-9-101, except school districts, the employer’s contributions may exceed but may not be less than $10 a month.

(b) Subject to the public hearing requirement provided in 2-9-212(2)(b), the amount in excess of the base contribution of a local government’s property tax levy for contributions for group benefits as determined in subsection (4)(c) is not subject to the mill levy calculation limitation provided for in 15-10-420.

(c)(i) Subject to subsections (4)(c)(ii) and (4)(c)(iii), the base contribution is determined by multiplying the average annual contribution for each employee on July 1, 1999, times the number of employees for whom the employer makes contributions for group benefits under 2-9-212 on July 1 of each fiscal year.

(ii) If a political subdivision did not make contributions for group benefits on or before July 1, 1999, and subsequently does so, the base contribution is determined by multiplying the average annual contribution for each employee in the first year the political subdivision provides contributions for group benefits times the number of employees for whom the employer makes contributions for group benefits under 2-9-212 on July 1 of each fiscal year.

(iii) If a political subdivision has made contributions for group benefits but has not previously levied for contributions in excess of the base contribution, the political subdivision’s base is determined by multiplying the average annual contribution for each employee at the beginning of the fiscal year immediately preceding the year in which the levy will first be levied times the number of employees for whom the employer made contributions for group benefits under 2-9-212 in that fiscal year.

(5) Unused employer contributions for any state employee must be transferred to an account established for this purpose by the department of
administration and upon transfer may be used to offset losses occurring to the group of which the employee is eligible to be a member.

(6) Unused employer contributions for any government employee may be transferred to an account established for this purpose by a self-insured government and upon transfer may be used to offset losses occurring to the group of which the employee is eligible to be a member or to increase the reserves of the group.

(7) The laws prohibiting discrimination on the basis of marital status in Title 49 do not prohibit bona fide group insurance plans from providing greater or additional contributions for insurance benefits to employees with dependents than to employees without dependents or with fewer dependents."

WHEREAS, federal law exempts from inspection meat and meat products from personal slaughtering and processing that is limited to non-paying household members, guests, and employee uses; and
WHEREAS, federal law also exempts from regulation the transportation of personally slaughtered meat and meat products; and  
WHEREAS, 81-2-102 allows the department of livestock to regulate personally slaughtered meat and meat products, which would be in violation of federal law.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 81-2-102, MCA, is amended to read:

“81-2-102. Powers of department. (1) The department may:

The department may quarantine a lot, yard, land, building, room, premises, enclosure, or other place or section in this state that is or may be used or occupied by livestock and that in the judgment of the department is infected or contaminated with an infectious, contagious, communicable, or dangerous disease or disease-carrying medium by which the disease may be communicated. The department may quarantine livestock in this state when the livestock is affected with or has been exposed to disease or disease-carrying medium. The department may prescribe treatments and enforce sanitary rules that are necessary and proper to circumscribe, extirpate, control, or prevent the disease.

(b) foster, promote, and protect the livestock industry in this state by the investigation of diseases and other subjects related to ways and means of prevention, extirpation, and control of diseases or to the care of livestock and its products and to this end may establish and maintain a laboratory, may make or cause to be made biologic products, curatives, and preventative agents, and may perform any other acts and things as may be necessary or proper in the fostering, promotion, or protection of the livestock industry in this state;

(c) impose and collect fees that the department considers appropriate for the tests and services performed by it at the laboratory or elsewhere and for biologic products, curatives, and preventative agents made or caused to be made by the department. In fixing these fees, the department shall take into consideration the costs, both direct and indirect, of the tests, services, products, curatives, and agents. (c) individuals who may have a special relationship to the individual referred to in subsection (2)(b) (2)(a)(ii), such as a relative of that individual or
a peace officer or other person within the criminal justice system who knows the individual; and

(d) other persons who the department determines would benefit from the notice.

(4) The department shall terminate the blue alert when it determines:

(b) the peace officer referred to in subsection (2)(b) is no longer missing or it determines that the blue alert will no longer assist in locating the peace officer; or

(c) the threat referred to in subsection (2)(c) no longer exists or it determines that the blue alert will no longer materially assist in alleviating the threat.

(5) The department shall adopt rules to implement this section.

(6) As used in this section, the following definitions apply:

CHAPTER NO. 96

[HB 247]

AN ACT REVISING SCHOOL FUNDING RELATED TO MAJOR MAINTENANCE PROJECTS; AUTHORIZING TRUSTEES TO ISSUE OBLIGATIONS FOR LIMITED PURPOSES TO CERTAIN FINANCIAL INSTITUTIONS IN ADDITION TO THE BOARD OF INVESTMENTS; REQUIRING TRUSTEES TO GIVE THE BOARD OF INVESTMENTS THE RIGHT OF FIRST REFUSAL; CLARIFYING THE AUTHORITY OF TRUSTEES TO UTILIZE REVENUES IN THE BUILDING RESERVE FUND TO REPAY THESE OBLIGATIONS; AMENDING SECTIONS 20-9-471 AND 20-9-525, MCA; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 20-9-471, MCA, is amended to read:

(1) The trustees of a school district may, without a vote of the electors of the district, secure loans from or issue and sell to the board of investments or, as provided in subsection (2), a bank, building and loan association, savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, obligations for the purpose of financing all or a portion of:

(a) the costs of vehicles and equipment and construction of buildings used primarily for the storage and maintenance of vehicles and equipment;

(b) the costs associated with renovating, rehabilitating, and remodeling facilities, including but not limited to roof repairs, heating, plumbing, electrical systems, and cost-saving measures as defined in 90-4-1102;

(c) the costs of nonpermanent modular classrooms necessary for student instruction when existing buildings of the district are determined to be inadequate by the trustees;

(d) any other expenditure that the district is otherwise authorized to make, subject to subsection (4)(5), including the payment of settlements of legal claims and judgments; and

(e) the costs associated with the issuance and sale of the obligations.
(2) (a) Before seeking to secure a loan or issue and sell obligations to a regulated lender specified in subsection (1), the trustees shall first offer the board of investments a written notice of the board’s right of first refusal.

(b) If the board of investments accepts the offer to issue a loan or purchase obligations, the board shall provide a written response to the trustees by the later of:

(i) 120 days following delivery of the trustees’ offer to the board; or
(ii) the day after the next meeting of the board of investments.

(c) If the trustees have not received a written acceptance by the deadline provided for in subsection (2)(b), the trustees may seek to secure a loan or issue and sell an obligation to a regulated lender specified in subsection (1).

(3) The term of the obligation, including an obligation for a qualified energy project, may not exceed 15 fiscal years. For the purposes of this subsection, a “qualified energy project” means a project designed to reduce energy use in a school facility and from which the resulting energy cost savings are projected to meet or exceed the debt service obligation for financing the project, as determined by the department of environmental quality.

(4) (a) At the time of issuing the obligation, there must exist an amount in the budget of an applicable budgeted fund of the district for the current fiscal year available and sufficient to make the debt service payment on the obligation coming due in the current year. The budget of an applicable budgeted fund of the district for each following year in which any portion of the principal of and interest on the obligation is due must provide for payment of that principal and interest.

(b) For an obligation sold under subsection (1)(d) for the purposes of paying a tax protest refund, a district may pledge revenue from a special tax protest refund levy for the repayment of the obligation, pursuant to 15-1-402(7).

(5) Except as provided in 20-9-502, 20-9-503, and subsections (1)(a) and (1)(c) of this section, the proceeds of the obligation may not be used to acquire real property or construct a facility unless:

(a) the acquisition or construction project does not constitute more than 20% of the square footage of the existing real property improvements made to a facility containing classrooms;

(b) the 20% square footage limitation may not be exceeded within any 5-year period; and

(c) the electors of the district approve a proposition authorizing the trustees to apply for funds through the board of investments or a bank, building and loan association, savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, for the construction project. The proposition must be approved at an election held in accordance with all of the requirements of 20-9-428, except that the proposition is considered to have passed if a majority of the qualified electors voting approve the proposition.

(6) The school district may not submit for a vote of the electors of the district a proposition to impose a levy to pay the principal or any interest on an obligation that is payable from the guaranteed cost savings under energy performance contracts as defined in 90-4-1102.

(7) Except as provided in subsection (3)(b) (4)(b), the obligation must state clearly on its face that the obligation is not secured by a pledge of the school district’s taxing power but is payable from amounts in its general fund or other legally available funds.

(8) An obligation issued is payable from any legally available fund of the district and constitutes a general obligation of the district.

(9) The obligation may bear interest at a fixed or variable rate and may be sold to the board of investments or a bank, building and loan association,
savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, at par, at a discount, or with a premium and on any other terms and conditions that the trustees determine to be in the best interests of the district.

(9)(10) The principal amount of the obligation, when added to the outstanding bonded indebtedness of the district, may not exceed the debt limitation established in 20-9-406.”

Section 2. Section 20-9-525, MCA, is amended to read:

“20-9-525. School major maintenance aid account — formula. (1) There is a school major maintenance aid account in the state special revenue fund provided for in 17-2-102.

(2) [Subject to legislative fund transfer.] the purpose of the account is to provide, contingent on appropriation from the legislature, funding for school major maintenance aid as provided in subsection (3) for school facility projects, including the payment of principal and interest on obligations issued pursuant to 20-9-471 for school facility projects, that support a basic system of free quality public elementary and secondary schools under 20-9-309; and

(b) after addressing the repairs in subsection (2)(a), any of the following:

(i) updating the facility condition inventory as recommended in the final report referenced in subsection (2)(a) with the scope and methods of the review to be determined by the trustees, employing experts as the trustees determine necessary. The first update must be completed by July 1, 2019, and each district shall certify the completion to the office of public instruction no later than October 31, 2019. Subsequent updates must be certified to the office of public instruction no less than once every 5 years following the first certification.

(ii) undertaking projects designed to produce operational efficiencies such as utility savings, reduced future maintenance costs, improved utilization of staff, and enhanced learning environments for students, including but not limited to projects addressing:

(A) roofing systems;
(B) heating, air conditioning, and ventilation systems;
(C) energy-efficient window and door systems and insulation;
(D) plumbing systems;
(E) electrical systems and lighting systems;
(F) information technology infrastructure, including internet connectivity both within and to the school facility; and

(G) other critical repairs to an existing school facility or facilities.

(3) (a) In any year in which the legislature has appropriated funds for distribution from the school major maintenance aid account, the superintendent of public instruction shall administer the distribution of school major maintenance aid from the school major maintenance aid account for deposit in the subfund of the building reserve fund provided for in 20-9-502(3)(e). Subject to proration under subsection (5) of this section, aid must be annually distributed no later than the last working day of May to a school district imposing a levy pursuant to 20-9-502(3) in the current school fiscal year, with the amount of state support per dollar of local effort of the applicable elementary and high school program of each district determined as follows:
(i) using the taxable valuation most recently certified by the department of revenue under 15-10-202:

(A) divide the total statewide taxable valuation by the statewide total of school major maintenance amounts and multiply the result by 171%;

(B) multiply the result determined under subsection (3)(a)(i)(A) by the district’s school major maintenance amount;

(C) subtract the district’s taxable valuation from the amount determined under subsection (3)(a)(i)(B); and

(D) divide the amount determined under subsection (3)(a)(i)(C) by 1,000;

(ii) determine the greater of the amount determined in subsection (3)(a)(i) or 18% of the district’s mill value; and

(iii) multiply the result determined under subsection (3)(a)(ii) by the district’s school major maintenance amount, then divide the product by the sum of the result determined under subsection (3)(a)(ii) and the district’s school major maintenance amount.

(b) For a district with an adopted general fund budget in the prior year greater than or equal to 97% of the district’s general fund maximum budget in the prior year, the amount determined in subsection (3)(a)(iii) rounded to the nearest cent is the amount of school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district’s school major maintenance amount.

(c) For a district with an adopted general fund budget in the prior year less than 97% of the district’s maximum budget in the prior year, multiply the amount determined in subsection (3)(a)(iii) by the ratio of the district’s adopted general fund budget in the prior year to the district’s maximum general fund budget in the prior year. The result, rounded to the nearest cent, is the amount of state school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district’s school major maintenance amount.

(4) Using the taxable valuation most recently certified by the department of revenue under 15-10-202, the superintendent shall provide school districts with a preliminary estimated amount of state school major maintenance aid per dollar of local effort for the ensuing school year no later than March 1 and a final amount for the current school year no later than July 31.

(5) If the appropriation from or the available funds in the school major maintenance aid account in any school fiscal year are less than the amount for which school districts would otherwise qualify, the superintendent of public instruction shall proportionally prorate the aid distributed to ensure that the distributions do not exceed the appropriated or available funds.

(6) If in any fiscal year the amount of revenue in the school major maintenance aid account is sufficient to fund school major maintenance aid without a proration reduction pursuant to subsection (5) and if in that same fiscal year the amount of revenue available in the school facility and technology account established in 20-9-516 will result in a proration reduction in debt service assistance pursuant to 20-9-346(2)(b) for that fiscal year, the state treasurer shall transfer any excess funds in the school major maintenance aid account to the school facility and technology account, not to exceed the amount required to avoid a proration reduction.

(7) For the purposes of this section, the following definitions apply:

(a) “Local effort” means an amount of money raised by levying no more than 10 mills pursuant to 20-9-502(3) and, provided that 10 mills have been levied, any additional amount of money deposited or transferred by trustees to the subfund pursuant to 20-9-502(3).
(b) “School major maintenance amount” means the sum of $15,000 and the product of $100 multiplied by the district’s budgeted ANB for the prior fiscal year. (Bracketed language in subsection (2) terminates June 30, 2019--sec. 28, Ch. 6, Sp. L. November 2017.)"

Section 3. Effective date. [This act] is effective July 1, 2019.

AN ACT REVISITING THE MONTANA ADMINISTRATIVE PROCEDURE ACT; DEFINING “SUPPLEMENTAL NOTICE”; REVISITING THE OBJECTION PROCESS FOR THE ADMINISTRATIVE RULE REVIEW COMMITTEE; AMENDING SECTIONS 2-4-102 AND 2-4-305, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 2-4-102, MCA, is amended to read:

“2-4-102. Definitions. For purposes of this chapter, the following definitions apply:

(1) “Administrative rule review committee” or “committee” means the appropriate committee assigned subject matter jurisdiction in Title 5, chapter 5, part 2.

(2) (a) “Agency” means an agency, as defined in 2-3-102, of state government, except that the provisions of this chapter do not apply to the following:

(i) the state board of pardons and parole, which is exempt from the contested case and judicial review of contested cases provisions contained in this chapter. However, the board is subject to the remainder of the provisions of this chapter.

(ii) the supervision and administration of a penal institution with regard to the institutional supervision, custody, control, care, or treatment of youth or prisoners;

(iii) the board of regents and the Montana university system;

(iv) the financing, construction, and maintenance of public works;

(b) The term does not include a school district, a unit of local government, or any other political subdivision of the state.

(3) “ARM” means the Administrative Rules of Montana.

(4) “Contested case” means a proceeding before an agency in which a determination of legal rights, duties, or privileges of a party is required by law to be made after an opportunity for hearing. The term includes but is not restricted to ratemaking, price fixing, and licensing.

(5) (a) “Interested person” means a person who has expressed to the agency an interest concerning agency actions under this chapter and has requested to be placed on the agency’s list of interested persons as to matters of which the person desires to be given notice.

(b) The term does not extend to contested cases.

(6) “License” includes the whole or part of an agency permit, certificate, approval, registration, charter, or other form of permission required by law but does not include a license required solely for revenue purposes.

(7) “Licensing” includes an agency process respecting the grant, denial, renewal, revocation, suspension, annulment, withdrawal, limitation, transfer, or amendment of a license.

(8) “Party” means a person named or admitted as a party or properly seeking and entitled as of right to be admitted as a party, but this chapter may not be construed to prevent an agency from admitting any person as a party for limited purposes.

(9) “Person” means an individual, partnership, corporation, association, governmental subdivision, agency, or public organization of any character.

(10) “Register” means the Montana Administrative Register.

(11) (a) “Rule” means each agency regulation, standard, or statement of general applicability that implements, interprets, or prescribes law or policy or describes the organization, procedures, or practice requirements of an agency. The term includes the amendment or repeal of a prior rule.

(b) The term does not include:

(12) (a) “Significant interest to the public” means agency actions under this chapter regarding matters that the agency knows to be of widespread citizen interest. These matters include issues involving a substantial fiscal impact to or controversy involving a particular class or group of individuals.
(b) The term does not extend to contested cases.

(13) “Small business” means a business entity, including its affiliates, that is independently owned and operated and that employs fewer than 50 full-time employees.

(14) “Substantive rules” are either:

(a) legislative rules, which if adopted in accordance with this chapter and under expressly delegated authority to promulgate rules to implement a statute have the force of law and when not so adopted are invalid; or

(b) adjective or interpretive rules, which may be adopted in accordance with this chapter and under express or implied authority to codify an interpretation of a statute. The interpretation lacks the force of law.

(15) “Supplemental notice” means a notice that amends the proposed rules or changes the timeline for public participation.”

Section 2. Section 2-4-305, MCA, is amended to read:

“2-4-305. Requisites for validity — authority and statement of reasons. (1) (a) The agency shall fully consider written and oral submissions respecting the proposed rule, including comments submitted by the primary sponsor of the legislation prior to the drafting of the substantive content and wording of a proposed rule that initially implements legislation.

(b) (i) Upon adoption of a rule, an agency shall issue a concise statement of the principal reasons for and against its adoption, incorporating in the statement the reasons for overruling the considerations urged against its adoption. If substantial differences exist between the rule as proposed and as adopted and the differences have not been described or set forth in the adopted rule as that rule is published in the register, the differences must be described in the statement of reasons for and against agency action. When written or oral submissions have not been received, an agency may omit the statement of reasons.

(ii) If an adopted rule that initially implements legislation does not reflect the comments submitted by the primary sponsor, the agency shall provide a statement explaining why the sponsor’s comments were not incorporated into the adopted rule.

(2) Rules may not unnecessarily repeat statutory language. Whenever it is necessary to refer to statutory language in order to convey the meaning of a rule interpreting the language, the reference must clearly indicate the portion of the language that is statutory and the portion that is an amplification of the language.

(3) Each proposed and adopted rule must include a citation to the specific grant of rulemaking authority pursuant to which the rule or any part of the rule is adopted. In addition, each proposed and adopted rule must include a citation to the specific section or sections in the Montana Code Annotated that the rule purports to implement. A substantive rule may not be proposed or adopted unless:

(a) a statute granting the agency authority to adopt rules clearly and specifically lists the subject matter of the rule as a subject upon which the agency shall or may adopt rules; or

(b) the rule implements and relates to a subject matter or an agency function that is clearly and specifically included in a statute to which the grant of rulemaking authority extends.

(4) Each rule that is proposed and adopted by an agency and that implements a policy of a governing board or commission must include a citation to and description of the policy implemented. Each agency rule implementing a policy and the policy itself must be based on legal authority and otherwise comply with the requisites for validity of rules established by this chapter.
To be effective, each substantive rule adopted must be within the scope of authority conferred and in accordance with standards prescribed by other provisions of law.

Whenever by the express or implied terms of any statute a state agency has authority to adopt rules to implement, interpret, make specific, or otherwise carry out the provisions of the statute, an adoption, amendment, or repeal of a rule is not valid or effective unless it is:

(a) consistent and not in conflict with the statute; and

(b) reasonably necessary to effectuate the purpose of the statute. A statute mandating that the agency adopt rules establishes the necessity for rules but does not, standing alone, constitute reasonable necessity for a rule. The agency shall also address the reasonableness component of the reasonable necessity requirement by, as indicated in 2-4-302(1) and subsection (1) of this section, stating the principal reasons and the rationale for its intended action and for the particular approach that it takes in complying with the mandate to adopt rules. Subject to the provisions of subsection (8), reasonable necessity must be clearly and thoroughly demonstrated for each adoption, amendment, or repeal of a rule in the agency’s notice of proposed rulemaking and in the written and oral data, views, comments, or testimony submitted by the public or the agency and considered by the agency. A statement that merely explains what the rule provides is not a statement of the reasonable necessity for the rule.

A rule is not valid unless notice of it is given and it is adopted in substantial compliance with 2-4-302, 2-4-303, or 2-4-306 and this section and unless notice of adoption of the rule is published within 6 months of the publishing of notice of the proposed rule. The measure of whether an agency has adopted a rule in substantial compliance with 2-4-302, 2-4-303, or 2-4-306 and this section is not whether the agency has provided notice of the proposed rule, standing alone, but rather must be based on an analysis of the agency’s substantial compliance with 2-4-302, 2-4-303, or 2-4-306 and this section. If an amended or supplemental notice of either proposed or final rulemaking, or both, is published concerning the same rule, the 6-month limit must be determined with reference to the latest notice in all cases.

An agency may use an amended proposal notice or the adoption notice to correct deficiencies in citations of authority for rules and in citations of sections implemented by rules.

An agency may use an amended proposal notice but, except for clerical corrections, may not use the adoption notice to correct deficiencies in a statement of reasonable necessity.

If an agency uses an amended proposal notice to amend a statement of reasonable necessity for reasons other than for corrections in citations of authority, in citations of sections being implemented, or of a clerical nature, the agency shall allow additional time for oral or written comments from the same interested persons who were notified of the original proposal notice, including from a primary sponsor, if primary sponsor notification was required under 2-4-302, and from any other person who offered comments or appeared at a hearing already held on the proposed rule.

If a majority of the members of the appropriate administrative rule review committee notify the committee presiding officer that those members object to all or a portion of a notice of proposed rulemaking, the committee shall notify the agency in writing that the committee objects to all or a portion of the proposal notice and will address the objections at the next committee meeting. Following notice by the committee to the agency, the all or a portion of the proposal notice that the committee objects to may not be adopted until publication of the last issue of the register that is published before expiration
of the 6-month period during which the adoption notice must be published, unless prior to that time, the committee meets and does not make the same objection. A copy of the committee’s notification to the agency must be included in the committee’s records.

(10) This section applies to the department of labor and industry adopting a rule relating to a commercial drug formulary as provided in 39-71-704. This section does not apply to the automatic updating of department of labor and industry rules relating to commercial drug formularies as provided in 39-71-704.”

CHAPTER NO. 104

[HB 90]

AN ACT GENERALLY REVISING SECURITIES REGULATORY LAWS; CLARIFYING EXEMPT TRANSACTIONS; REVISIGN THE DEFINITION OF “PYRAMID PROMOTIONAL SCHEME” TO INCLUDE PAYMENT OF ANYTHING OF VALUE; AMENDING SECTIONS 30-10-105 AND 30-10-324, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

WHEREAS, in Redding v. McCarter, 2012 MT 144, 365 Mont. 316, the Montana Supreme Court stated that the Securities Act of Montana was drafted broadly to be in harmony with federal securities law, which recognizes the virtually limitless scope of human ingenuity, especially in the creation of the countless and variable schemes devised by those who seek the use of money of others on the promise of profits; and

WHEREAS, recent enforcement actions by the Montana State Auditor have encountered securities schemes promising investors with profits through payment of items of no value but of purported value.

THEREFORE, this act seeks to definitively clarify that the Montana Securities Act applies to the virtually limitless scope of securities schemes, including those not involving strictly the payment of money.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 30-10-105, MCA, is amended to read:

“30-10-105. Exempt transactions -- rulemaking. Except as expressly provided in this section, 30-10-201 through 30-10-207 and 30-10-211 do not apply to the following transactions:

(1) a nonissuer isolated transaction, whether effected through a broker-dealer or not. A transaction is presumed to be isolated if it is one of not more than three transactions during the prior 12-month period.

(ii) the security has a fixed maturity or a fixed interest or dividend provision and there has not been a default during the current fiscal year or within the 3 preceding fiscal years or if the issuer and any predecessors have been in existence for less than 3 years and there has not been a default in the payment of principal, interest, or dividends on the security.

(b) The commissioner may by order deny or revoke the exemption specified in subsection (2)(a) with respect to a specific security. Upon the entry of an order, the commissioner shall promptly notify all registered broker-dealers that it has been entered and give the reasons for the order and shall notify them that within 15 days of the receipt of a written request, the matter will be set for hearing. If a hearing is not requested and is not ordered by the commissioner, the order remains in effect until it is modified or vacated by the commissioner. If a hearing is requested or ordered, the commissioner, after notice of and opportunity for hearing to all interested persons, may modify or vacate the order or extend it until final determination. An order under this subsection may not operate retroactively. A person may not be considered to have violated parts 1 through 3 of this chapter by reason of any offer or sale effected after the entry of an order under this subsection if the person sustains the burden of proof that the person did not know and in the exercise of reasonable care could not have known of the order.

(ii) a commission or other remuneration is not paid or given directly or indirectly for soliciting a prospective buyer. However, a commission may be paid to a registered broker-dealer if the securities involved are registered with the United States securities and exchange commission under the federal Securities Act of 1933, as amended.

“23-5-160. Shaking dice for a drink or music or in a shake-a-day game – cee-lo authorized. (1) It is legal for a customer in an establishment licensed for the sale of alcoholic beverages to be consumed on the premises to:
(a) shake or choose one or more dice, alone or with an owner or employee of the establishment, to determine whether the customer or the establishment shall pay for the customer’s drink or to determine whether the customer or the establishment shall immediately pay a predetermined amount of money, not to exceed $2, for music from a jukebox in the establishment; or
(b) play the dice game commonly known as shake-a-day, in which a customer may once each day pay an amount of money predetermined by the establishment, but not more than 50 cents, and shake a number of dice predetermined by the establishment in an attempt to roll certain combinations simulating poker hands predetermined by the establishment. If one of the combinations is rolled, the customer may win merchandise or a portion or all of the money paid to play the game since the last winning combination was rolled. The establishment may, before a game begins, limit the amount that will be won and use the remaining money played on that game to start the
pot for the next game, thus enhancing the incentive to play the next game in the early stages of the next game. All money paid to play games must be paid out as winnings. An establishment may offer to the public more than one shake-a-day game at any given time.

(c) (i) play a dice game commonly known as cee-lo in which customers may play with three six-sided dice, with or without a bank, in which the first player to roll a winning combination wins. The dice combination of 4-5-6 is treated as a winning combination. Customers shall agree on rules before playing cee-lo. Games of cee-lo may include dice rolls that establish a point and may include games in which two or more players will roll and compare their points to determine a winner. Cee-lo may also be known as “see-low”, “four-five-six”, “three dice game”, and “pair and a point”.

(ii) (A) In banking games, one customer serves as a banker on a rotating basis. The banker covers the individual bets of the other customers who are playing, each of whom competes directly with the bank. Customers bet against the banker, and dice rolls establish a point for the customer.

(B) In nonbanking games, each customer has equal status and rules must be agreed upon for the customers to pool their bets, bet amount, and attempt to win from a common pot. Each customer shall then roll all dice at once and shall continue until a recognized combination is rolled. Whichever customer rolls the best combination wins the entire pot and a new round may begin.

(iii) A person under 18 years of age may not play cee-lo.
(iv) An establishment in which cee-lo is played under this section may not:
(A) have a financial interest in the game, including but not limited to being the bank in the game;
(B) extend credit to any customer who wishes to participate in the game; or
(C) participate or otherwise be involved in the game.

(2) Nothing in this section authorizes the dice game of craps or any other dice game not specifically described in this section.”

If the insurance producer is determined to be ineligible for appointment, the insurance department commissioner shall notify the insurer of the determination.

(4) (a) Except as provided in 33-17-238, an appointment is effective on the earlier of the date of the executed agency contract or the date on which the insurer files the notice of appointment with the insurance department commissioner, unless the appointment is disapproved by the insurance department commissioner.

(b) A disapproved appointment is void on the date the department provides notification to the insurer.

[SB 9]

AN ACT REVISING LAWS RELATED TO OVERPAYMENTS OF SCHOOL DISTRICT BASE PROPERTY TAXES; ENSURING THAT OVERPAYMENTS OF SCHOOL DISTRICT BASE PROPERTY TAXES RESULTING FROM ANTICIPATED UNUSUAL ENROLLMENT INCREASES THAT ARE NOT REALIZED ARE FULLY RETURNED TO LOCAL TAXPAYERS AND THAT GENERAL FUND BUDGET LIMITS IN THE SUBSEQUENT YEAR ARE RECALCULATED TO REFLECT ACTUAL ANB; AMENDING SECTIONS 20-9-141, 20-9-308, AND 20-9-314, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 20-9-141, MCA, is amended to read:

“20-9-141. Computation of general fund net levy requirement by county superintendent. (1) The county superintendent shall compute the
levy requirement for each district’s general fund on the basis of the following procedure:

(a) Determine the funding required for the district’s final general fund budget less the sum of direct state aid and the special education allowable cost payment for the district by totaling:

(i) the district’s nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(b) Determine the money available for the reduction of the property tax on the district for the general fund by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(iii) anticipated oil and natural gas production taxes;

(iv) pursuant to subsection (4), anticipated revenue from coal gross proceeds under 15-23-703;

(v) if applicable, a coal-fired generating unit closure mitigation block grant as provided in 20-9-638; and

(vi) any portion of the increment remitted to a school district under 7-15-4291 used to reduce the BASE levy budget.

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4291 used to reduce the over-BASE budget levy; and

(iii) any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(e) Subtract the amount determined in subsection (1)(d) from any additional funding requirement to be met by an over-BASE budget amount, a district levy as provided in 20-9-303, and any additional financing as provided in 20-9-353 to determine any additional general fund levy requirements.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by:

(a) dividing the amount determined in subsection (1)(c) by the sum of:

   (i) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

   (ii) the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000; and
(b) if applicable, subtracting the result of dividing any overpayment of the BASE budget levy in the prior year calculated as provided in 20-9-314(6)(b)(ii) that is available for reduction of the district’s BASE budget levy by the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.”

Section 2. Section 20-9-308, MCA, is amended to read:
“20-9-308. BASE budgets and maximum general fund budgets

budget limits. (1) (a) The trustees of a district shall adopt a general fund budget that is at least equal to the BASE budget established for the district. The

Except as provided in subsection (1)(b), the trustees of a district may adopt a general fund budget up to the greater of:

(i) the current year maximum general fund budget; or

(ii) the previous year’s general fund budget, whichever is greater plus any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data-for-achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330.

(b) When anticipated enrollment increases under 20-9-314 are not realized in the previous year, the trustees may adopt a general fund budget up to the greater of:

(i) the current year maximum general fund budget; or

(ii) the previous year’s adopted general fund budget recalculated to reflect the previous year’s actual enrollment pursuant to 20-9-314(6)(b) plus any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data-for-achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330.

(b) For purposes of the budget limitation in subsection (1)(a), the trustees may add any increase in direct state aid for the basic and per-ANB entitlements and any increases in state funding of the data for achievement payment under 20-9-325 and in the general fund payments in 20-9-327 through 20-9-330 to the district’s previous year’s general fund budget.

(2) (a) Except as provided in subsection (2)(b), whenever the trustees of a district propose to adopt a general fund budget that exceeds the BASE budget for the district and propose to increase the over-BASE budget levy over the highest revenue previously authorized by the electors of the district or imposed by the district in any of the previous 5 years to support the general fund budget, the trustees shall submit a proposition to the electors of the district, as provided in 20-9-353.

(b) The intent of this section is to increase the flexibility and efficiency of elected school boards without increasing school district property taxes. In furtherance of this intent and provided that budget limitations otherwise specified in law are not exceeded, the trustees of a district may increase the district’s over-BASE budget levy without a vote if the board of trustees reduces nonvoted property tax levies authorized by law to be imposed by action of the trustees of the district by at least as much as the amount by which the over-BASE budget levy is increased. The ongoing authority for any nonvoted
increase in the over-BASE budget levy imposed under this subsection (2)(b) must be decreased in future years to the extent that the trustees of the district impose any increase in other nonvoted property tax levies.

(3) The BASE budget for the district must be financed by the following sources of revenue:

(a) state equalization aid, as provided in 20-9-343, including any guaranteed tax base aid for which the district may be eligible, as provided in 20-9-366 through 20-9-369;
(b) county equalization aid, as provided in 20-9-331 and 20-9-333;
(c) a district levy for support of a school not approved as an isolated school under the provisions of 20-9-302;
(d) payments in support of special education programs under the provisions of 20-9-321;
(e) nonlevy revenue, as provided in 20-9-141; and
(f) a BASE budget levy on the taxable value of all property within the district.

(4) The over-BASE budget amount of a district must be financed by a levy on the taxable value of all property within the district or other revenue available to the district, as provided in 20-9-141.”

Section 3. Section 20-9-314, MCA, is amended to read:

“20-9-314. Procedures for determining eligibility and amount of increased average number belonging due to unusual enrollment increase. A district that anticipates an unusual increase in enrollment in the ensuing school fiscal year, as provided for in 20-9-313(1)(d), may increase its basic entitlement and total per-ANB entitlement for the ensuing school fiscal year in accordance with the following provisions:

(1) Prior to June 1, the district shall estimate the elementary or high school enrollment to be realized during the ensuing school fiscal year, based on as much factual information as may be available to the district.

(2) No later than June 1, the district shall submit its application for an anticipated unusual enrollment increase by elementary or high school level to the superintendent of public instruction. The application must include:

(a) the enrollment for the current school fiscal year;
(b) the average number belonging used to calculate the basic entitlement and total per-ANB entitlement for the current school fiscal year;
(c) the average number belonging that will be used to calculate the basic entitlement and total per-ANB entitlement for the ensuing school fiscal year;
(d) the anticipated enrollment, including the factual information on which the estimate is based, as provided in subsection (1); and
(e) any other information or data that may be requested by the superintendent of public instruction.

(3) The superintendent of public instruction shall immediately review all the factors of the application and shall approve or disapprove the application or adjust the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year. After approving an estimate, with or without adjustment, the superintendent of public instruction shall:

(a) determine the percentage by which the adjusted enrollment exceeds the enrollment used for the budgeted average number belonging; and
(b) approve an increase of the average number belonging used to establish the ensuing year’s basic entitlement and total per-ANB entitlement in accordance with subsection (5) if the increase in subsection (3)(a) is at least 4% or 40 students, whichever is less.

(4) The superintendent of public instruction shall notify the district of the decision by the fourth Monday in June.
Whenever an unusual enrollment increase is approved by the superintendent of public instruction, the maximum allowable increase to the average number belonging is equal to the adjusted enrollment as determined by the superintendent of public instruction in subsection (3) minus the sum of:
(a) the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year; and
(b) the lesser of 40 students or 4% of the enrollment used to calculate the budgeted average number belonging for the ensuing school fiscal year.

(6) (a) Any entitlement increases resulting from provisions of this section must be reviewed at the end of the ensuing school fiscal year.
(b) If the actual enrollment is less than the enrollment used to determine the budgeted ANB, the superintendent of public instruction shall recalculate the district’s BASE budget and maximum budget limitations, adopted budget, and BASE aid using the actual enrollment in place of the adjusted enrollment and:
(i) any BASE aid received by the district in excess of the amount recalculated is an overpayment subject to the refund provisions of 20-9-344(4); and
(ii) any revenue received by the district from BASE budget and over-BASE budget levies increased by the difference between the adjusted enrollment and the actual enrollment is an overpayment and must be used for reducing BASE budget and over-BASE budget levies calculated as provided in 20-9-141 to the extent of any BASE budget levy revenue overpayment and to reduce the over-BASE budget levy to the extent of any over-BASE budget levy revenue overpayment in the ensuing school fiscal year. In order to return the full amount of the overpayment to local taxpayers, the amount of the reduction in the BASE budget mills levied as a result of any overpayment must be calculated as a final step in computing the district’s general fund net BASE budget levy requirement pursuant to the procedure set forth in 20-9-141(2) and the district’s guaranteed tax base aid must be calculated prior to the reduction in BASE mills.”

department for processing and distribution to the person or agency entitled to receive the payment whenever:

(a) the case is receiving IV-D services; or

(b) the support obligation is payable through non IV-D income withholding.

(2) A support order entered or modified in this state after October 1, 1998, that excludes the obligor from paying support through income withholding must provide that:

(a) if the case is or later becomes a IV-D case or if support becomes payable through IV-D or non IV-D income withholding, support payments must be paid through the department; and

(b) a payment that is not made to the department does not constitute payment of support or credit toward satisfaction of the support obligation unless the payment is verified by the department to its satisfaction.

(3) (a) If a support order does not include the provisions required by subsection (2) or directs payment of support to a payee other than the department, the department may give written notice to the obligor and obligee directing or redirecting payments to the department. After receipt of the notice, payment other than as directed does not constitute payment of support or credit toward satisfaction of the support obligation.

(b) An obligor who redirects payments to the department is not liable to the obligee or answerable to the court for not making payments as directed by the court.

(c) While support is required to be paid through the department, the notice directing or redirecting payments to the department may not be superseded by any subsequent order of a court or agency directing the obligor to make payments other than to the department.

(4) After the obligor has been ordered or directed to make payments to the department under this section, the obligor shall make the payments to the department and is not entitled to credit against a support obligation for payment made to a person or agency other than the department.

(5) (a) When the obligor is paying support through IV-D or non IV-D income withholding, the income-withholding order must direct the payor to make the payments through the department.

(b) If a payor is directed by the income-withholding order to make payments to a payee other than the department, the department may redirect the payments to the department by written order to the employer or payor. The order supersedes any prior, inconsistent court or agency order.

(c) For as long as income withholding is appropriate to the case, the directive to the payor to make payments to the department may not be superseded by any subsequent order of a court or agency directing payments to any other payee.

(6) (a) An employer who receives an income-withholding order issued in another state, as defined in 40-5-1002, may contact the department to determine whether the withholding order was issued by the appropriate authority.

(b) The employer may elect to forward the funds to the department for distribution.

(c) If the employer elects under this section to forward the funds to the department for distribution, the employer shall immediately provide a copy of the income-withholding order to the department.

(7) Income-withholding orders may be issued in this state pursuant only to 40-5-308 through 40-5-315 and 40-5-401 through 40-5-432.

(8) Payments of support that are received by the department in interstate cases or as the result of a writ of execution, warrant for distraint, state and
federal tax offset, or similar enforcement remedy must be processed through the case registry and payment processing unit.

(9)(8) (a) If, through a private collection action, an obligee obtains a payment of support that must be processed and distributed through the case registry and payment processing unit, the obligee shall forward the payment to the department within 5 working days of the receipt of the payment.

(b) If the department takes an enforcement action against the obligor because the obligee failed to timely forward a payment of support under subsection (9)(a) (8)(a), the obligee is liable in a civil action to the obligor for the amount that should have been forwarded to the department.

(10) (a) Payments made to the department under this section must be by cash, personal or business check, money order, automatic bank account withdrawal, certified funds, electronic funds transfer services, or any other means acceptable to the department.

(b) Payments may not be credited to the obligor’s child support obligation until actually received by the department.

(c) The withholding of income by a payor or employer under an order to withhold issued under Title 40, chapter 5, part 3 or 4, is not alone sufficient for credit against an obligor’s support obligation. Payments withheld from an obligor’s income that are not actually received by the department may not be credited to the obligor’s child support obligation. The payor or employer is liable to the obligor in a civil action initiated by the obligor for the amount withheld but not paid to the department.

(d) A check presented to the department as payment, whether by the obligor, the obligor’s employer, or another payor on the obligor’s behalf, that is dishonored by the issuing bank may not be credited to the obligor’s child support obligation.

(e) A payment made out to or delivered to any other person or agency other than to the department may not be credited to the obligor’s support obligation.

(11) An uncredited payment under this section is considered as still owed by the obligor and may be collected using any remedy available under law.

(12) If the department is providing IV-D services for the enforcement of a tribal court order that expressly permits satisfaction of a child support obligation with noncash resources, this section applies to the portion of the support obligation paid or payable with cash resources.”

(6) A public officer or public employee may not engage in any activity, including lobbying, as defined in 5-7-102, on behalf of an organization, other than an organization or association of local government officials, of which the public officer or public employee is a member while performing the public officer’s or public employee’s job duties. The provisions of this subsection do not prohibit a public officer or public employee from performing charitable fundraising activities if approved by the public officer’s or public employee’s supervisor or authorized by law.

(7) A listing by a public officer or a public employee in the electronic directory provided for in 30-17-101 of any product created outside of work in a public agency is not in violation of subsection (2)(a) of this section. The public officer or public employee may not make arrangements for the listing in the electronic directory during work hours.

(8) A department head or a member of a quasi-judicial or rulemaking board may perform an official act notwithstanding the provisions of subsection (2)(e) if participation is necessary to the administration of a statute and if the person complies with the disclosure procedures under 2-2-131.

(9) Subsection (2)(d) does not apply to a member of a board, commission, council, or committee unless the member is also a full-time public employee.

(10) Subsections (2)(b) and (2)(e) do not prevent a member of the governing body of a local government from performing an official act when the member’s participation is necessary to obtain a quorum or to otherwise enable the body
to act. The member shall disclose the interest creating the appearance of impropriety prior to performing the official act."

Section 4. Section 2-2-136, MCA, is amended to read:

“2-2-136. Enforcement for state officers, legislators, and state employees — referral of complaint involving county attorney. (1) (a) A person alleging a violation of this part by a state officer, legislator, or state employee may file a complaint with the commissioner of political practices. The commissioner does not have jurisdiction for a complaint concerning a legislator if a legislative act is involved in the complaint. The commissioner also has jurisdiction over complaints against a county attorney that are referred by a local government review panel pursuant to 2-2-144 or filed by a person directly with the commissioner pursuant to 2-2-144(6). If a complaint is filed against the commissioner or another individual employed in the office of the commissioner, the complaint must be resolved in the manner provided for in 13-37-111(5).

(b) The commissioner may request additional information from the complainant or the person who is the subject of the complaint to make an initial determination of whether the complaint states a potential violation of this part.

(b)(c) The commissioner may dismiss a complaint that is frivolous, does not state a potential violation of this part, or does not contain sufficient allegations to enable the commissioner to determine whether the complaint states a potential violation of this part. If the issues presented in a complaint have been addressed and decided in a prior decision and the commissioner determines that no additional factual development is necessary, the commissioner may issue a summary decision without holding an informal contested case hearing on the complaint.

(d) When a complaint is filed, the commissioner may issue statements or respond to inquiries to confirm that a complaint has been filed, to identify against whom it has been filed, and to describe the procedural aspects and status of the case.

(2) (a) Except as provided in subsection (1)(b), if the commissioner determines that the complaint states a potential violation of this part, the commissioner shall hold an informal contested case hearing on the complaint as provided in Title 2, chapter 4, part 6. The commissioner shall issue a decision based upon the record established before the commissioner. However, if the issues presented in a complaint have been addressed and decided in a prior decision and the commissioner determines that no additional factual development is necessary, the commissioner may issue a summary decision without holding an informal contested case hearing on the complaint.

(b) Except as provided in 2-3-203, an informal contested case proceeding must be open to the public. Except as provided in Title 2, chapter 6, part 10, documents submitted to the commissioner for the informal contested case proceeding are presumed to be public information.

(c) The commissioner shall issue a decision based on the record established before the commissioner. The decision issued after a hearing is public information open to inspection.

(3) (a) Except as provided in subsection (2)(b)(3)(b), if the commissioner determines that a violation of this part has occurred, the commissioner may impose an administrative penalty of not less than $50 or more than $1,000.

(b) If the commissioner determines that a violation of 2-2-121(4)(b) has occurred, the commissioner may impose an administrative penalty of not less than $500 or more than $10,000.

(c) If the violation was committed by a state employee, the commissioner may also recommend that the employing state agency discipline the employee.
The employing entity of a state employee may take disciplinary action against an employee for a violation of this part, regardless of whether the commissioner makes a recommendation for discipline.

(d) The commissioner may assess the costs of the proceeding against the person bringing the charges if the commissioner determines that a violation did not occur or against the officer or employee if the commissioner determines that a violation did occur.

(3)(4) A party may seek judicial review of the commissioner’s decision, as provided in Title 2, chapter 4, part 7, of this title, after a hearing, a dismissal, or a summary decision issued pursuant to subsection (1)(b) this section.

(4) Except for records made public in the course of a hearing held under subsection (1) and records that are open for public inspection pursuant to Montana law, a complaint and records obtained or prepared by the commissioner in connection with an investigation or complaint are confidential documents and are not open for public inspection. The complainant and the person who is the subject of the complaint shall maintain the confidentiality of the complaint and any related documents released to the parties by the commissioner until the commissioner issues a decision. However, the person who is the subject of a complaint may waive, in writing, the right of confidentiality provided in this subsection. If a waiver is filed with the commissioner, the complaint and any related documents must be open for public inspection. The commissioner’s decision issued after a hearing is a public record open to inspection.

(5) When a complaint is filed, the commissioner may issue statements or respond to inquiries to confirm that a complaint has been filed, to identify against whom it has been filed, and to describe the procedural aspects and status of the case.

(6)(5) The commissioner may adopt rules to carry out the responsibilities and duties assigned by this part.”

Section 5. Codification instruction. [Section 1] is intended to be codified as an integral part of Title 2, chapter 2, part 1, and the provisions of Title 2, chapter 2, part 1, apply to [section 1].

CHAPTER NO. 158

[SB 160]

AN ACT ESTABLISHING THE FIREFIGHTER PROTECTION ACT BY創建 PRESUMPTIVE COVERAGE UNDER WORKERS' COMPENSATION FOR CERTAIN DISEASES ASSOCIATED WITH FIREFIGHTING ACTIVITIES; PROVIDING CONDITIONS; PROVIDING A REBUTTAL OPTION FOR INSURERS; PROVIDING OPT-IN CHOICE FOR VOLUNTEER FIREFIGHTING ENTITIES; INCLUDING PRESUMPTIVE OCCUPATIONAL DISEASE WITHIN THE STATE'S PUBLIC POLICY PROVISIONS FOR WORKERS' COMPENSATION; PROVIDING DEFINITIONS; AMENDING SECTIONS 39-71-105, 39-71-124, AND 39-71-407, MCA; AND PROVIDING AN EFFECTIVE DATE AND AN APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Presumptive occupational disease for firefighters — rebuttal — applicability — definitions. (1) (a) A firefighter for whom coverage is required under the Workers' Compensation Act is presumed to have a claim for a presumptive occupational disease under the Workers' Compensation Act if the firefighter meets the requirements of [section 2] and is diagnosed with one or more of the diseases listed in subsection (2) within the period listed.

(b) Coverage under [section 2] and this section is optional for the employer of a firefighter for whom coverage under the Workers' Compensation Act is voluntary. An employer of a volunteer firefighter under 7-33-4109 or 7-33-4510 may elect as part of providing coverage under the Workers' Compensation Act to additionally obtain the presumptive occupational disease coverage, subject to the insurer agreeing to provide presumptive coverage.

(2) The following diseases are presumptive occupational diseases proximately caused by firefighting activities, provided that the evidence of the presumptive occupational disease becomes manifest after the number of years of the firefighter's employment as listed for each occupational disease and within 10 years of the last date on which the firefighter was engaged in firefighting activities for an employer:

(a) bladder cancer after 12 years;
(b) brain cancer of any type after 10 years;
(c) breast cancer after 5 years if the diagnosis occurs before the firefighter is 40 years old and is not known to be associated with a genetic predisposition to breast cancer;
(d) myocardial infarction after 10 years;
(e) colorectal cancer after 10 years;
(e) esophageal cancer after 10 years;
(f) kidney cancer after 15 years;
(g) leukemia after 5 years;
(h) mesothelioma or asbestosis after 10 years;
(i) multiple myeloma after 15 years;
(j) non-Hodgkin’s lymphoma after 15 years; and
(k) lung cancer after 4 years.

(3) For purposes of calculating the number of years of a firefighter’s employment history under subsection (2), a firefighter’s employment history after July 1, 2014, may be calculated.

(4) The beneficiaries of a firefighter who otherwise would be eligible for presumptive occupational disease benefits under this section but who dies prior to filing a claim, as provided in [section 2], are eligible for death benefits in the same manner as for a death from an injury, as provided in 39-71-407. The beneficiaries under this subsection (4) are similarly bound by the provisions of exclusive remedy as provided in 39-71-411 and subject to the filing requirements in 39-71-601.

(5) (a) Subject to the provisions of subsection (5)(c), an insurer is liable for the payment of compensation for presumptive occupational disease benefits under this chapter in the same manner as provided in 39-71-407, including objective medical findings of a disease listed in subsection (2) but excluding the requirement in 39-71-407(10) that the objective medical findings trace a relationship between the presumptive occupational disease and the claimant’s job history. For myocardial infarction or lung cancer under subsection (2), the diseases must be the type that can reasonably be caused by firefighting activities.

(b) (i) An insurer under plan 1, 2, or 3 that disputes a presumptive occupational disease claim has the burden of proof in establishing by a preponderance of the evidence that the firefighter is not suffering from a compensable presumptive occupational disease. An insurer that disputes the claim may pay benefits under 39-71-608 or 39-71-615 and may pursue dispute mechanisms established in Title 39, chapter 71, part 24.

(ii) An insurer is not liable for the payment of workers’ compensation benefits for presumptive occupational disease if the insurer establishes by a preponderance of the evidence that the firefighter was not exposed during the course and scope of the firefighter’s duties to smoke or particles in a quantity sufficient to have reasonably caused the disease claimed.

(c) A total claim payment by an insurer under this section is limited to $5 million for each claim.

(6) This section does not limit an insurer’s ability to assert that the occupational disease was not caused by the firefighter’s employment history as a firefighter.

(7) A firefighter or the firefighter’s beneficiaries may pursue the dispute remedies as provided in Title 39, chapter 71, part 24, if an insurer disputes a claim.

(9) [Section 2] and this section:
(a) apply only to presumptive occupational diseases for firefighters; and
(b) do not apply to any other issue relating to workers’ compensation and may not be used or cited as guidance in the administration of Title 33 or 37.
(10) For the purposes of [section 2] and this section, the following definitions apply:

(a) “Firefighter” means an individual whose primary duties involve extinguishing or investigating fires, with at least 1 year of firefighting operations in Montana beginning on or after July 1, 2019, as:

(i) a firefighter defined in 19-13-104;  
(ii) a volunteer firefighter defined in 7-33-4510, but only if the volunteer firefighter’s employer has elected coverage under Title 39, chapter 71, with an insurer that allows an election and the employer has opted separately to include presumptive occupational disease coverage under [section 2] and this section; or  
(iii) a volunteer described in 7-33-4109 for a firefighting entity that has elected coverage under Title 39, chapter 71, with an insurer that allows an election and that has opted separately to include presumptive occupational disease coverage.

(b) “Firefighting activities” means actions required of a firefighter that expose the firefighter to extreme heat or inhalation or physical exposure to chemical fumes, smoke, particles, or other toxic gases arising directly out of employment as a firefighter.

(c) “Presumptive occupational disease” means harm or damage from one or more of the diseases listed under subsection (2) that is established by objective medical findings and that is contracted in the course and scope of employment as a firefighter from either a single day or work shift or for more than a single day or work shift but that is not specific to an accident.

Section 2. Conditions for claiming presumptive occupational disease. (1) Except as provided in subsection (4), the following must be satisfied for the presumption in [section 1] to apply:

(a) the firefighter must timely file a claim for a presumptive occupational disease under Title 39, chapter 71, as soon as the firefighter knows or should have known that the firefighter’s condition resulted from a presumptive occupational disease; and

(b) (i) the firefighter must have undergone, within 90 days of hiring, a medical examination that did not reveal objective medical evidence or a family history of the presumptive occupational disease for which the presumption under [section 1] is sought; and

(ii) the firefighter must have undergone subsequent periodic medical examinations at least once every 2 years.

(2) (a) Subsection (1)(b) does not require the employer of a firefighter to provide or pay for a medical examination, either at the time of hiring or during the subsequent term of employment.

(b) If the employer of a firefighter does not provide or pay for a medical examination under subsection (1)(b), the firefighter may satisfy the requirements of subsection (1)(b) by obtaining the medical examination at the firefighter’s expense or at the expense of another party.

(3) To qualify for a presumptive occupational disease, a firefighter may not:

(a) be a regular user of tobacco products;

(b) have a history of regular tobacco use in the 10 years preceding the filing of the claim under subsection (1)(a); or

(c) have been exposed by a cohabitant who regularly and habitually used tobacco products within the home for a period of 10 or more years prior to the diagnosis.

(4) A firefighter who, prior to [the effective date of this act], did not receive a medical examination as frequently as the intervals set forth in subsection
(1)(b) is not ineligible on that basis for a presumptive occupational disease claim under [section 1] and this section.

Section 3. Section 39-71-105, MCA, is amended to read:

“39-71-105. Declaration of public policy. For the purposes of interpreting and applying this chapter, the following is the public policy of this state:

(1) An objective of the Montana workers’ compensation system is to provide, without regard to fault, wage-loss and medical benefits to a worker suffering from a work-related injury or disease. Wage-loss benefits are not intended to make an injured worker whole but are intended to provide assistance to a worker at a reasonable cost to the employer. Within that limitation, the wage-loss benefit should bear a reasonable relationship to actual wages lost as a result of a work-related injury or disease.

(2) It is the intent of the legislature to assert that a conclusive presumption exists that recognizes that a holder of a current, valid independent contractor exemption certificate issued by the department is an independent contractor if the person is working under the independent contractor exemption certificate. The holder of an independent contractor exemption certificate waives the rights, benefits, and obligations of this chapter unless the person has elected to be bound personally and individually by the provisions of compensation plan No. 1, 2, or 3.

(3) A worker’s removal from the workforce because of a work-related injury or disease has a negative impact on the worker, the worker’s family, the employer, and the general public. Therefore, an objective of the workers’ compensation system is to return a worker to work as soon as possible after the worker has suffered a work-related injury or disease.

(4) Montana’s workers’ compensation and occupational disease insurance systems are intended to be primarily self-administering. Claimants should be able to speedily obtain benefits, and employers should be able to provide coverage at reasonably constant rates. To meet these objectives, the system must be designed to minimize reliance upon lawyers and the courts to obtain benefits and interpret liabilities.

(5) This chapter must be construed according to its terms and not liberally in favor of any party.

(6) It is the intent of the legislature that:

(a) a stress claims claim, often referred to as a “mental-mental claims claim” and or a “mental-physical claims claim”, are is not compensable under Montana’s workers’ compensation and occupational disease laws. The legislature recognizes that these claims are difficult to objectively verify and that the claims have a potential to place an economic burden on the workers’ compensation and occupational disease system. The legislature also recognizes that there are other states that do not provide compensation for various categories of stress claims and that stress claims have presented economic problems for certain other jurisdictions. In addition, not all injuries are compensable under the present system, and it is within the legislature’s authority to define the limits of the workers’ compensation and occupational disease system. However, it is also within the legislature’s authority to recognize the public service provided by firefighters and to join with other states that have extended a presumptive occupational disease recognition to firefighters.

(b) for occupational disease or presumptive occupational disease claims, because of the nature of exposure, workers should not be required to provide notice to employers of the disease as required of injuries and that the requirements for filing of claims reflect consideration of when the worker knew or should have known that the worker’s condition resulted from an
occupational disease or a presumptive occupational disease. The legislature recognizes that occupational diseases in the workplace are caused by events occurring on more than a single day or work shift and that it is within the legislature’s authority to define an occupational disease or a presumptive occupational disease and establish the causal connection to the workplace.”

Section 4. Section 39-71-124, MCA, is amended to read:

Section 5. Section 39-71-407, MCA, is amended to read:

“39-71-407. Liability of insurers – limitations. (1) For workers’ compensation injuries, each insurer is liable for the payment of compensation, in the manner and to the extent provided in this section, to an employee of an employer covered under plan No. 1, plan No. 2, and the state fund under plan No. 3 that it insures who receives an injury arising out of and in the course of employment or, in the case of death from the injury, to the employee’s beneficiaries, if any.

(2) An injury does not arise out of and in the course of employment when the employee is:
   (a) on a paid or unpaid break, is not at a worksite of the employer, and is not performing any specific tasks for the employer during the break; or
   (b) engaged in a social or recreational activity, regardless of whether the employer pays for any portion of the activity. The exclusion from coverage of this subsection (2)(b) does not apply to an employee who, at the time of injury, is on paid time while participating in a social or recreational activity or whose presence at the activity is required or requested by the employer. For the purposes of this subsection (2)(b), “requested” means the employer asked the employee to assume duties for the activity so that the employee’s presence is not completely voluntary and optional and the injury occurred in the performance of those duties.

(3) (a) Subject to subsection (3)(c), an insurer is liable for an injury, as defined in 39-71-119, only if the injury is established by objective medical findings and if the claimant establishes that it is more probable than not that:
   (i) a claimed injury has occurred; or
   (ii) a claimed injury has occurred and aggravated a preexisting condition.
   (b) Proof that it was medically possible that a claimed injury occurred or that the claimed injury aggravated a preexisting condition is not sufficient to establish liability.

   (c) Objective medical findings are sufficient for a presumptive occupational disease as defined in [section 1] but may be overcome by a preponderance of the evidence.

(4) (a) An employee who suffers an injury or dies while traveling is not covered by this chapter unless:
   (i) the employer furnishes the transportation or the employee receives reimbursement from the employer for costs of travel, gas, oil, or lodging as a part of the employee’s benefits or employment agreement and the travel is necessitated by and on behalf of the employer as an integral part or condition of the employment; or
   (ii) the travel is required by the employer as part of the employee’s job duties.
   (b) A payment made to an employee under a collective bargaining agreement, personnel policy manual, or employee handbook or any other
document provided to the employee that is not wages but is designated as an incentive to work at a particular jobsite is not a reimbursement for the costs of travel, gas, oil, or lodging, and the employee is not covered under this chapter while traveling.

(5) Except as provided in subsection (6), an employee is not eligible for benefits otherwise payable under this chapter if the employee’s use of alcohol or drugs not prescribed by a physician is the major contributing cause of the accident.

(6) (a) An employee who has received written certification, as defined in 50-46-302, from a physician for the use of marijuana for a debilitating medical condition and who is otherwise eligible for benefits payable under this chapter is subject to the limitations of subsections (6)(b) through (6)(d).

(b) An employee is not eligible for benefits otherwise payable under this chapter if the employee’s use of marijuana for a debilitating medical condition, as defined in 50-46-302, is the major contributing cause of the injury or occupational disease.

(c) Nothing in this chapter may be construed to require an insurer to reimburse any person for costs associated with the use of marijuana for a debilitating medical condition, as defined in 50-46-302.

(d) In an accepted liability claim, the benefits payable under this chapter may not be increased or enhanced due to a worker’s use of marijuana for a debilitating medical condition, as defined in 50-46-302. An insurer remains liable for those benefits that the worker would qualify for absent the worker’s use of marijuana for a debilitating medical condition.

(7) The provisions of subsection (5) do not apply if the employer had knowledge of and failed to attempt to stop the employee’s use of alcohol or drugs not prescribed by a physician. This subsection (7) does not apply to the use of marijuana for a debilitating medical condition because marijuana is not a prescribed drug.

(8) If there is no dispute that an insurer is liable for an injury but there is a liability dispute between two or more insurers, the insurer for the most recently filed claim shall pay benefits until that insurer proves that another insurer is responsible for paying benefits or until another insurer agrees to pay benefits. If it is later proven that the insurer for the most recently filed claim is not responsible for paying benefits, that insurer must receive reimbursement for benefits paid to the claimant from the insurer proven to be responsible.

(9) If a claimant who has reached maximum healing suffers a subsequent nonwork-related injury to the same part of the body, the workers’ compensation insurer is not liable for any compensation or medical benefits caused by the subsequent nonwork-related injury.

(10) An Except for cases of presumptive occupational disease as provided in [sections 1 and 2], an employee is not eligible for benefits payable under this chapter unless the entitlement to benefits is established by objective medical findings that contain sufficient factual and historical information concerning the relationship of the worker’s condition to the original injury.

(11) (a) For occupational diseases, every employer enrolled under plan No. 1, every insurer under plan No. 2, or the state fund under plan No. 3 is liable for the payment of compensation, in the manner and to the extent provided in this chapter, to an employee of an employer covered under plan No. 1, plan No. 2, or the state fund under plan No. 3 if the employee is diagnosed with a compensable occupational disease.

(b) The provisions of subsection (11)(a) apply to presumptive occupational disease if the employee is diagnosed and meets the conditions of [sections 1 and 2].
(12) An insurer is liable for an occupational disease only if the occupational disease:
   (a) is established by objective medical findings; and
   (b) arises out of or is contracted in the course and scope of employment.
An occupational disease is considered to arise out of or be contracted in the course and scope of employment if the events occurring on more than a single day or work shift are the major contributing cause of the occupational disease in relation to other factors contributing to the occupational disease. For the purposes of this subsection (12), an occupational disease is not the same as a presumptive occupational disease.

(13) When compensation is payable for an occupational disease or a presumptive occupational disease, the only employer liable is the employer in whose employment the employee was last injuriously exposed to the hazard of the disease.

(14) When there is more than one insurer and only one employer at the time that the employee was injuriously exposed to the hazard of the disease, the liability rests with the insurer providing coverage at the earlier of:
   (a) the time that the occupational disease or presumptive occupational disease was first diagnosed by a health care provider; or
   (b) the time that the employee knew or should have known that the condition was the result of an occupational disease or a presumptive occupational disease.

(15) In the case of pneumoconiosis, any coal mine operator who has acquired a mine in the state or substantially all of the assets of a mine from a person who was an operator of the mine on or after December 30, 1969, is liable for and shall secure the payment of all benefits that would have been payable by that person with respect to miners previously employed in the mine if acquisition had not occurred and that person had continued to operate the mine, and the prior operator of the mine is not relieved of any liability under this section.

(16) As used in this section, “major contributing cause” means a cause that is the leading cause contributing to the result when compared to all other contributing causes.”

Section 6. Codification instruction. [Sections 1 and 2] are intended to be codified as an integral part of Title 39, chapter 71, and the provisions of Title 39, chapter 71, apply to [sections 1 and 2].

Section 7. Contingent voidness. If a court finds any part of [this act] to be in violation of any clause of the U.S. or Montana constitutions relating to workers' compensation claims or a court through any other action or doctrine in law or equity applies the presumption in [sections 1 and 2] to another class of occupation other than firefighters, then [this act] is void.

Section 8. Effective date -- applicability. [This act] is effective July 1, 2019, and applies to presumptive occupational diseases diagnosed on or after July 1, 2019.

CHAPTER NO. 163

[SB 226]

WHEREAS, the Legislature recognizes that transportation issues in Montana warrant the attention and focus of a separate interim committee; and
WHEREAS, the Legislature intends to form a Transportation Interim Committee to be composed of the traditional interim committee membership specified in section 5-5-211, MCA, and for the committee to hold six meetings during the 2019-2020 interim; and
WHEREAS, the Legislature intends that the creation of the Transportation Interim Committee will lessen the workload of the Revenue Interim Committee with respect to the Department of Transportation and the workload of the Law and Justice Interim Committee with respect to the Department of Justice’s Motor Vehicles Division, allowing the Transportation Interim Committee to have a minimal impact on the Legislative Branch’s interim committee budget; and
WHEREAS, the Legislature intends the Transportation Interim Committee to prepare a final report that includes a recommendation to the 2021 Legislature regarding whether to maintain a separate Transportation Interim Committee into the future.

Be it enacted by the Legislature of the State of Montana:

Section 1. Transportation interim committee. The transportation interim committee has administrative rule review, draft legislation review, program evaluation, and monitoring functions for the department of transportation, the motor vehicles division of the department of justice, and the entities attached to the department of transportation for administrative purposes.

“5-5-202. Interim committees. (1) During an interim when the legislature is not in session, the committees listed in subsection (2) are the interim committees of the legislature. They are empowered to sit as committees and may act in their respective areas of responsibility. The functions of the legislative council, legislative audit committee, legislative finance committee, environmental quality council, state-tribal relations committee, and local government committee are provided for in the statutes governing those committees.

(2) The following are the interim committees of the legislature:

(f) revenue and transportation committee;
(g) state administration and veterans’ affairs committee; and
(h) transportation committee; and
(i) water policy committee.

(3) An interim committee, the local government committee, or the environmental quality council may refer an issue to another committee that the referring committee determines to be more appropriate for the consideration of the issue. Upon the acceptance of the referred issue, the accepting committee shall consider the issue as if the issue were originally within its jurisdiction. If the committee that is referred an issue declines to accept the issue, the original committee retains jurisdiction.

(4) If there is a dispute between committees as to which committee has proper jurisdiction over a subject, the legislative council shall determine the most appropriate committee and assign the subject to that committee. If there is an entity that is attached to an agency for administrative purposes under the jurisdiction of an interim committee and another interim committee has a justification to seek jurisdiction and petitions the legislative council, the legislative council may assign that entity to the interim committee seeking jurisdiction unless otherwise provided by law.”

Section 3. Section 5-5-211, MCA, is amended to read:

“5-5-211. Appointment and composition of interim committees. (1) Senate interim committee members must be appointed by the committee on committees.

(2) House interim committee members must be appointed by the speaker of the house.

(3) Appointments to interim committees must be made by the time of adjournment of the legislative session.

(e) For fiscal years 2018 and 2019, the legislative council may request the appointment to the local government committee of no fewer than four members and up to eight members, with membership from the house and senate and majority and minority parties in equal numbers.

(6) The membership of the interim committees must be provided for by legislative rules. The rules must identify the committees from which members are selected, and the appointing authority shall attempt to select not less than 50% of the members from the standing committees that consider issues within the jurisdiction of the interim committee and at least one member from the joint subcommittee that considers the related agency budgets. In making the appointments, the appointing authority shall take into account term limits of members so that committee members will be available to follow through on committee activities and recommendations in the next legislative session.

(7) An interim committee or the environmental quality council may create subcommittees. Nonlegislative members may serve on a subcommittee. Unless the person is a full-time salaried officer or employee of the state or a political subdivision of the state, a nonlegislative member appointed to a subcommittee is entitled to salary and expenses to the same extent as a legislative member. (2) (a) The committee must have prepared by December 1 for introduction during each regular session of the legislature in which a revenue bill is under consideration an estimate of the amount of revenue projected to be available for legislative appropriation.

(b) The committee may prepare for introduction during a special session of the legislature in which a revenue bill or an appropriation bill is under consideration an estimate of the amount of projected revenue. The revenue estimate is considered a subject specified in the call of a special session under 5-3-101.

(3) The committee’s estimate, as introduced in the legislature, constitutes the legislature’s current revenue estimate until amended or until final adoption of the estimate by both houses. It is intended that the legislature’s estimates and the assumptions underlying the estimates will be used by all agencies with responsibilities for estimating revenue or costs, including the preparation of fiscal notes.
