TITLE 75
ENVIRONMENTAL PROTECTION

CHAPTER 1
ENVIRONMENTAL POLICY
AND PROTECTION GENERALLY

Part 1 — General Provisions

75-1-101. Short title.
75-1-102. Intent — purpose.
75-1-103. Policy.
75-1-104. Specific statutory obligations unimpaired.
75-1-105. Policies and goals supplementary.
75-1-106. Private property protection — ongoing programs of state government.
75-1-107. Determination of constitutionality.
75-1-108. Venue.
75-1-109 reserved.
75-1-110. Environmental rehabilitation and response account.

Part 2 — Environmental Impact Statements

75-1-201. General directions — environmental impact statements.
75-1-202. Agency rules to prescribe fees.
75-1-203. Fee schedule — maximums.
75-1-204. Application of administrative procedure act.
75-1-205. Collection and use of fees and costs.
75-1-206. Multiple applications or combined facility.
75-1-207. Major facility siting applications excepted.
75-1-208. Environmental review procedure.
75-1-209 through 75-1-219 reserved.
75-1-220. Definitions.

Part 3 — Environmental Quality Council

75-1-301. Definition of council.
75-1-302. Meetings.
75-1-303 through 75-1-310 reserved.
75-1-311. Examination of records of government agencies.
75-1-312. Hearings — council subpoena power — contempt proceedings.
75-1-313. Consultation with other groups — utilization of services.
75-1-314. Reporting requirements.
75-1-315 through 75-1-320 reserved.
75-1-321. Repealed.
75-1-322. Repealed.
75-1-323. Staff for environmental quality council.
75-1-324. Duties of environmental quality council.

Chapter Cross-References

Duty to maintain clean and healthful environment, Art. IX, sec. 1, Mont. Const.
Agricultural chemical ground water protection, Title 80, ch. 15.
State policy of consistency and continuity in adoption and application of environmental rules, 90-1-101.

Part 1
General Provisions

Part Cross-References
Duty to notify weed management district when proposed project will disturb land, 7-22-2152.

75-1-101. Short title. Parts 1 through 3 may be cited as the “Montana Environmental Policy Act”.
History: En. Sec. 1, Ch. 238, L. 1971; R.C.M. 1947, 69-6501.
Cross-References
State policy of consistency and continuity in adoption and application of environmental rules, 90-1-101.

2015 MCA
75-1-102. Intent — purpose. (1) The legislature, mindful of its constitutional obligations under Article II, section 3, and Article IX of the Montana constitution, has enacted the Montana Environmental Policy Act. The Montana Environmental Policy Act is procedural, and it is the legislature's intent that the requirements of parts 1 through 3 of this chapter provide for the adequate review of state actions in order to ensure that:

(a) environmental attributes are fully considered by the legislature in enacting laws to fulfill constitutional obligations; and
(b) the public is informed of the anticipated impacts in Montana of potential state actions.
(2) The purpose of parts 1 through 3 of this chapter is to declare a state policy that will encourage productive and enjoyable harmony between humans and their environment, to protect the right to use and enjoy private property free of undue government regulation, to promote efforts that will prevent, mitigate, or eliminate damage to the environment and biosphere and stimulate the health and welfare of humans, to enrich the understanding of the ecological systems and natural resources important to the state, and to establish an environmental quality council.

(3) (a) The purpose of requiring an environmental assessment and an environmental impact statement under part 2 of this chapter is to assist the legislature in determining whether laws are adequate to address impacts to Montana's environment and to inform the public and public officials of potential impacts resulting from decisions made by state agencies.
(b) Except to the extent that an applicant agrees to the incorporation of measures in a permit pursuant to 75-1-201(4)(b), it is not the purpose of parts 1 through 3 of this chapter to provide for regulatory authority, beyond authority explicitly provided for in existing statute, to a state agency.

History: En. Sec. 2, Ch. 238, L. 1971; R.C.M. 1947, 69-6502; amd. Sec. 1, Ch. 352, L. 1995; amd. Sec. 5, Ch. 361, L. 2003; amd. Sec. 1, Ch. 396, L. 2011; amd. Sec. 35, Ch. 55, L. 2015.

Compiler's Comments
2015 Amendment: Chapter 55 in (3)(b) substituted “75-1-201(4)(b)” for “75-1-201(6)(b)”. Amendment effective October 1, 2015.

Cross-References
Duty to maintain clean and healthful environment, Art. IX, sec. 1, Mont. Const.
Department of Public Service Regulation, 2-15-2601.

75-1-103. Policy. (1) The legislature, recognizing the profound impact of human activity on the interrelations of all components of the natural environment, particularly the profound influences of population growth, high-density urbanization, industrial expansion, resource exploitation, and new and expanding technological advances, recognizing the critical importance of restoring and maintaining environmental quality to the overall welfare and human development, and further recognizing that governmental regulation may unnecessarily restrict the use and enjoyment of private property, declares that it is the continuing policy of the state of Montana, in cooperation with the federal government, local governments, and other concerned public and private organizations, to use all practicable means and measures, including financial and technical assistance, in a manner calculated to foster and promote the general welfare, to create and maintain conditions under which humans and nature can coexist in productive harmony, to recognize the right to use and enjoy private property free of undue government regulation, and to fulfill the social, economic, and other requirements of present and future generations of Montanans.
(2) In order to carry out the policy set forth in parts 1 through 3, it is the continuing responsibility of the state of Montana to use all practicable means consistent with other essential considerations of state policy to improve and coordinate state plans, functions, programs, and resources so that the state may:
(a) fulfill the responsibilities of each generation as trustee of the environment for succeeding generations;
(b) ensure for all Montanans safe, healthful, productive, and aesthetically and culturally pleasing surroundings;
(c) attain the widest range of beneficial uses of the environment without degradation, risk to health or safety, or other undesirable and unintended consequences;
(d) protect the right to use and enjoy private property free of undue government regulation.

History: En. Sec. 2, Ch. 238, L. 1971; R.C.M. 1947, 69-6502; amd. Sec. 1, Ch. 352, L. 1995; amd. Sec. 5, Ch. 361, L. 2003; amd. Sec. 1, Ch. 396, L. 2011; amd. Sec. 35, Ch. 55, L. 2015.

Compiler's Comments
2015 Amendment: Chapter 55 in (3)(b) substituted “75-1-201(4)(b)” for “75-1-201(6)(b)”. Amendment effective October 1, 2015.

Cross-References
Duty to maintain clean and healthful environment, Art. IX, sec. 1, Mont. Const.
Department of Public Service Regulation, 2-15-2601.
(e) preserve important historic, cultural, and natural aspects of our unique heritage and maintain, wherever possible, an environment that supports diversity and variety of individual choice;

(f) achieve a balance between population and resource use that will permit high standards of living and a wide sharing of life’s amenities; and

(g) enhance the quality of renewable resources and approach the maximum attainable recycling of depletable resources.

(3) The legislature recognizes that each person is entitled to a healthful environment, that each person is entitled to use and enjoy that person’s private property free of undue government regulation, that each person has the right to pursue life’s basic necessities, and that each person has a responsibility to contribute to the preservation and enhancement of the environment. The implementation of these rights requires the balancing of the competing interests associated with the rights by the legislature in order to protect the public health, safety, and welfare.

Cross-References
Duty to maintain clean and healthful environment, Art. IX, sec. 1, Mont. Const.
Private Property Assessment Act, Title 2, ch. 10, part 1.
Comments of historic preservation officer, 22-3-433.
Renewable resource development, Title 90, ch. 2.

75-1-104. Specific statutory obligations unimpaired. Sections 75-1-103 and 75-1-201 do not affect the specific statutory obligations of any agency of the state to:

1. comply with criteria or standards of environmental quality;
2. coordinate or consult with any local government, other state agency, or federal agency; or
3. act or refrain from acting contingent upon the recommendations or certification of any other state or federal agency.

History: En. Sec. 6, Ch. 238, L. 1971; R.C.M. 1947, 69-6506; amd. Sec. 1, Ch. 131, L. 2003.

75-1-105. Policies and goals supplementary. The policies and goals set forth in parts 1 through 3 are supplementary to those set forth in existing authorizations of all boards, commissions, and agencies of the state.

75-1-106. Private property protection — ongoing programs of state government. Nothing in 75-1-102, 75-1-103, or 75-1-201 expands or diminishes private property protection afforded in the U.S. or Montana constitutions. Nothing in 75-1-102, 75-1-103, or 75-1-201 may be construed to preclude ongoing programs of state government pending the completion of any statements that may be required by 75-1-102, 75-1-103, or 75-1-201.

History: En. Sec. 4, Ch. 352, L. 1995.

75-1-107. Determination of constitutionality. In any action filed in district court invoking the court’s original jurisdiction to challenge the constitutionality of a licensing or permitting decision made pursuant to Title 75 or Title 82 or activities taken pursuant to a license or permit issued under Title 75 or Title 82, the plaintiff shall first establish the unconstitutionality of the underlying statute.

History: En. Sec. 2, Ch. 361, L. 2003.

75-1-108. Venue. A proceeding to challenge an action taken pursuant to parts 1 through 3 must be brought in the county in which the activity that is the subject of the action is proposed to occur or will occur. If an activity is proposed to occur or will occur in more than one county, the proceeding may be brought in any of the counties in which the activity is proposed to occur or will occur.

History: En. Sec. 37, Ch. 361, L. 2003.

75-1-109 reserved.

75-1-110. Environmental rehabilitation and response account. (1) There is an environmental rehabilitation and response account in the state special revenue fund provided for in 17-2-102.
(2) There must be deposited in the account:
(a) fine and penalty money received pursuant to 75-10-1223, 82-4-311, and 82-4-424 and other funds or contributions designated for deposit to the account;
(b) reimbursements received pursuant to 75-10-1403;
(c) unclaimed or excess reclamation bond money received pursuant to 82-4-241, 82-4-311, and 82-4-424; and
(d) interest earned on the account.
(3) Money in the account is available to the department of environmental quality by appropriation and must be used to pay for:
(a) reclamation and revegetation of land affected by mining activities, research pertaining to the reclamation and revegetation of land, and the rehabilitation of water affected by mining activities;
(b) reclamation and revegetation of unreclaimed mine lands for which the department may not require reclamation by, or obtain costs of reclamation from, a legally responsible party;
(c) remediation of sites containing hazardous wastes as defined in 75-10-403, hazardous or deleterious substances as defined in 75-10-701, or solid waste as defined in 75-10-203; or
(d) response to an imminent threat of substantial harm to the environment, to public health, or to public safety for which no funding or insufficient funding is available pursuant to 75-1-1101.
(4) Any unspent or unencumbered money in the account at the end of a fiscal year must remain in the account until spent or appropriated by the legislature.

History: En. Sec. 1, Ch. 338, L. 2001; amd. Sec. 98, Ch. 2, L. 2009; amd. Sec. 1, Ch. 107, L. 2009; amd. Sec. 8, Ch. 200, L. 2009.

Part 2
Environmental Impact Statements

75-1-201. (Temporary) General directions — environmental impact statements. (1) The legislature authorizes and directs that, to the fullest extent possible:
(a) the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;
(b) under this part, all agencies of the state, except the legislature and except as provided in subsections (2) and (3), shall:
(i) use a systematic, interdisciplinary approach that will ensure:
(A) the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking for a state-sponsored project that may have an impact on the Montana human environment by projects in Montana; and
(B) that in any environmental review that is not subject to subsection (1)(b)(iv), when an agency considers alternatives, the alternative analysis will be in compliance with the provisions of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(II) and, if requested by the project sponsor or if determined by the agency to be necessary, subsection (1)(b)(iv)(C)(III);
(ii) identify and develop methods and procedures that will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking for state-sponsored projects, along with economic and technical considerations;
(iii) identify and develop methods and procedures that will ensure that state government actions that may impact the human environment in Montana are evaluated for regulatory restrictions on private property, as provided in subsection (1)(b)(iv)(D);
(iv) include in each recommendation or report on proposals for projects, programs, and other major actions of state government significantly affecting the quality of the human environment in Montana a detailed statement on:
(A) the environmental impact of the proposed action;
(B) any adverse effects on Montana’s environment that cannot be avoided if the proposal is implemented;
(C) alternatives to the proposed action. An analysis of any alternative included in the environmental review must comply with the following criteria:
(I) any alternative proposed must be reasonable, in that the alternative must be achievable under current technology and the alternative must be economically feasible as determined solely

2015 MCA
by the economic viability for similar projects having similar conditions and physical locations
and determined without regard to the economic strength of the specific project sponsor;

(II) the agency proposing the alternative shall consult with the project sponsor regarding
any proposed alternative, and the agency shall give due weight and consideration to the project
sponsor’s comments regarding the proposed alternative;

(III) the agency shall complete a meaningful no-action alternative analysis. The no-action
alternative analysis must include the projected beneficial and adverse environmental, social,
and economic impact of the project’s noncompletion.

(D) any regulatory impacts on private property rights, including whether alternatives that
reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The
analysis in this subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not
involve the regulation of private property.

(E) the relationship between local short-term uses of the Montana human environment and
the maintenance and enhancement of long-term productivity;

(F) any irreversible and irrevocable commitments of resources that would be involved in
the proposed action if it is implemented;

(G) the customer fiscal impact analysis, if required by 69-2-216; and

(H) the details of the beneficial aspects of the proposed project, both short-term and
long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection (1)(b)(iv)(C), study, develop, and
describe appropriate alternatives to recommend courses of action in any proposal that involves
unresolved conflicts concerning alternative uses of available resources. If the alternatives
analysis is conducted for a project that is not a state-sponsored project and alternatives are
recommended, the project sponsor may volunteer to implement the alternative. Neither the
alternatives analysis nor the resulting recommendations bind the project sponsor to take a
recommended course of action, but the project sponsor may agree pursuant to subsection (4)(b) to
a specific course of action.

(vi) recognize the potential long-range character of environmental impacts in Montana and,
when consistent with the policies of the state, lend appropriate support to initiatives,
resolutions, and programs designed to maximize cooperation in anticipating and preventing a
decline in the quality of Montana’s environment;

(vii) make available to counties, municipalities, institutions, and individuals advice and
information useful in restoring, maintaining, and enhancing the quality of Montana’s
environment;

(viii) initiate and use ecological information in the planning and development of
resource-oriented projects; and

(ix) assist the legislature and the environmental quality council established by 5-16-101;

(c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the
responsible state official shall consult with and obtain the comments of any state agency that has
jurisdiction by law or special expertise with respect to any environmental impact involved in
Montana and with any Montana local government, as defined in 7-12-1103, that may be directly
impacted by the project. The responsible state official shall also consult with and obtain
comments from any state agency in Montana with respect to any regulation of private property
involved. Copies of the statement and the comments and views of the appropriate state, federal,
and local agencies that are authorized to develop and enforce environmental standards must be
made available to the governor, the environmental quality council, and the public and must
accompany the proposal through the existing agency review processes.

(d) a transfer of an ownership interest in a lease, permit, license, certificate, or other
entitlement for use or permission to act by an agency, either singly or in combination with other
state agencies, does not trigger review under subsection (1)(b)(iv) if there is not a material
change in terms or conditions of the entitlement or unless otherwise provided by law.

(2) (a) Except as provided in subsection (2)(b), an environmental review conducted
pursuant to subsection (1) may not include a review of actual or potential impacts beyond
Montana’s borders. It may not include actual or potential impacts that are regional, national, or
global in nature.
(b) An environmental review conducted pursuant to subsection (1) may include a review of actual or potential impacts beyond Montana’s borders if it is conducted by:

   (i) the department of fish, wildlife, and parks for the management of wildlife and fish;
   (ii) an agency reviewing an application for a project that is not a state-sponsored project to the extent that the review is required by law, rule, or regulation; or
   (iii) a state agency and a federal agency to the extent the review is required by the federal agency.

(3) The department of public service regulation, in the exercise of its regulatory authority over rates and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

(4) (a) The agency may not withhold, deny, or impose conditions on any permit or other authority to act based on parts 1 through 3 of this chapter.
   (b) Nothing in this subsection (4) prevents a project sponsor and an agency from mutually developing measures that may, at the request of a project sponsor, be incorporated into a permit or other authority to act.
   (c) Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor to modify a proposed project or action.

(5) (a) (i) A challenge to an agency action under this part may only be brought against a final agency action and may only be brought in district court or in federal court, whichever is appropriate.
   (ii) Any action or proceeding challenging a final agency action alleging failure to comply with or inadequate compliance with a requirement under this part must be brought within 60 days of the action that is the subject of the challenge.
   (iii) For an action taken by the board of land commissioners or the department of natural resources and conservation under Title 77, “final agency action” means the date that the board of land commissioners or the department of natural resources and conservation issues a final environmental review document under this part or the date that the board approves the action that is subject to this part, whichever is later.
   (b) Any action or proceeding under subsection (5)(a)(ii) must take precedence over other cases or matters in the district court unless otherwise provided by law.
   (c) Any judicial action or proceeding brought in district court under subsection (5)(a) involving an equine slaughter or processing facility must comply with 81-9-240 and 81-9-241.

(6) (a) (i) In an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency’s decision that an environmental review is not required or a claim that the environmental review is inadequate, the agency shall compile and submit to the court the certified record of its decision at issue, and except as provided in subsection (6)(b), the person challenging the decision has the burden of proving the claim by clear and convincing evidence contained in the record.
   (ii) Except as provided in subsection (6)(a)(i), in a challenge to the agency’s decision or the adequacy of the environmental review, a court may not consider any information, including but not limited to an issue, comment, argument, proposed alternative, analysis, or evidence, that was not first presented to the agency for the agency’s consideration prior to the agency’s decision or within the time allowed for comments to be submitted.
   (iii) Except as provided in subsection (6)(b), the court shall confine its review to the record certified by the agency. The court shall affirm the agency’s decision or the environmental review unless the court specifically finds that the agency’s decision was arbitrary and capricious or was otherwise not in accordance with law.
   (iv) A customer fiscal impact analysis pursuant to 69-2-216 or an allegation that the customer fiscal impact analysis is inadequate may not be used as the basis of an action challenging or seeking review of the agency’s decision.
   (b) (i) When a party challenging the decision or the adequacy of the environmental review or decision presents information not in the record certified by the agency, the challenging party shall certify under oath in an affidavit that the information is new, material, and significant evidence that was not publicly available before the agency’s decision and that is relevant to the decision or the adequacy of the agency’s environmental review.
(ii) If upon reviewing the affidavit the court finds that the proffered information is new, material, and significant evidence that was not publicly available before the agency's decision and that is relevant to the decision or to the adequacy of the agency's environmental review, the court shall remand the new evidence to the agency for the agency's consideration and an opportunity to modify its decision or environmental review before the court considers the evidence as a part of the administrative record under review.

(iii) If the court finds that the information in the affidavit does not meet the requirements of subsection (6)(b)(i), the court may not remand the matter to the agency or consider the proffered information in making its decision.

(c) The remedy in any action brought for failure to comply with or for inadequate compliance with a requirement of parts 1 through 3 of this chapter is limited to remand to the agency to correct deficiencies in the environmental review conducted pursuant to subsection (1).

(d) A permit, license, lease, or other authorization issued by an agency is valid and may not be enjoined, voided, nullified, revoked, modified, or suspended pending the completion of an environmental review that may be remanded by a court.

(e) An individual or entity seeking a lease, permit, license, certificate, or other entitlement or authority to act may intervene in a lawsuit in court challenging a decision or statement by a department or agency of the state as a matter of right if the individual or entity has not been named as a defendant.

(f) Attorney fees or costs may not be awarded to the prevailing party in an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3.

(7) For purposes of judicial review, to the extent that the requirements of this section are inconsistent with the provisions of the National Environmental Policy Act, the requirements of this section apply to an environmental review or any severable portion of an environmental review within the state's jurisdiction that is being prepared by a state agency pursuant to this part in conjunction with a federal agency proceeding pursuant to the National Environmental Policy Act.

(8) The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection (1)(b)(iv) or any recommendation that a determination of significance be made.

(9) A project sponsor may request a review of the significance determination or recommendation made under subsection (8) by the appropriate board, if any. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208. *(Terminates on occurrence of contingency—sec. 11, Ch. 396, L. 2011.)*

75-1-201. *(Effective on occurrence of contingency)* General directions—environmental impact statements. *(1)* The legislature authorizes and directs that, to the fullest extent possible:

(a) the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;

(b) under this part, all agencies of the state, except the legislature and except as provided in subsections (2) and (3), shall:

(i) use a systematic, interdisciplinary approach that will ensure:

(A) the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking for a state-sponsored project that may have an impact on the Montana human environment by projects in Montana; and

(B) that in any environmental review that is not subject to subsection (1)(b)(iv), when an agency considers alternatives, the alternative analysis will be in compliance with the provisions of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(II) and, if requested by the project sponsor or if determined by the agency to be necessary, subsection (1)(b)(iv)(C)(III);

(ii) identify and develop methods and procedures that will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking for state-sponsored projects, along with economic and technical considerations;
(iii) identify and develop methods and procedures that will ensure that state government actions that may impact the human environment in Montana are evaluated for regulatory restrictions on private property, as provided in subsection (1)(b)(iv)(D);

(iv) include in each recommendation or report on proposals for projects, programs, and other major actions of state government significantly affecting the quality of the human environment in Montana a detailed statement on:

(A) the environmental impact of the proposed action;

(B) any adverse effects on Montana’s environment that cannot be avoided if the proposal is implemented;

(C) alternatives to the proposed action. An analysis of any alternative included in the environmental review must comply with the following criteria:

(I) any alternative proposed must be reasonable, in that the alternative must be achievable under current technology and the alternative must be economically feasible as determined solely by the economic viability for similar projects having similar conditions and physical locations and determined without regard to the economic strength of the specific project sponsor;

(II) the agency proposing the alternative shall consult with the project sponsor regarding any proposed alternative, and the agency shall give due weight and consideration to the project sponsor’s comments regarding the proposed alternative;

(III) the agency shall complete a meaningful no-action alternative analysis. The no-action alternative analysis must include the projected beneficial and adverse environmental, social, and economic impact of the project’s noncompletion.

(D) any regulatory impacts on private property rights, including whether alternatives that reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not involve the regulation of private property.

(E) the relationship between local short-term uses of the Montana human environment and the maintenance and enhancement of long-term productivity;

(F) any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented;

(G) the customer fiscal impact analysis, if required by 69-2-216; and

(H) the details of the beneficial aspects of the proposed project, both short-term and long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection (1)(b)(iv)(C), study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources. If the alternatives analysis is conducted for a project that is not a state-sponsored project and alternatives are recommended, the project sponsor may volunteer to implement the alternative. Neither the alternatives analysis nor the resulting recommendations bind the project sponsor to take a recommended course of action, but the project sponsor may agree pursuant to subsection (4)(b) to a specific course of action.

(vi) recognize the potential long-range character of environmental impacts in Montana and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize cooperation in anticipating and preventing a decline in the quality of Montana’s environment;

(vii) make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of Montana’s environment;

(viii) initiate and use ecological information in the planning and development of resource-oriented projects; and

(ix) assist the legislature and the environmental quality council established by 5-16-101;

(c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the responsible state official shall consult with and obtain the comments of any state agency that has jurisdiction by law or special expertise with respect to any environmental impact involved in Montana and with any Montana local government, as defined in 7-12-1103, that may be directly impacted by the project. The responsible state official shall also consult with and obtain
comments from any state agency in Montana with respect to any regulation of private property involved. Copies of the statement and the comments and views of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

(d) a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use or permission to act by an agency, either singly or in combination with other state agencies, does not trigger review under subsection (1)(b)(iv) if there is not a material change in terms or conditions of the entitlement or unless otherwise provided by law.

(2) (a) Except as provided in subsection (2)(b), an environmental review conducted pursuant to subsection (1) may not include a review of actual or potential impacts beyond Montana’s borders. It may not include actual or potential impacts that are regional, national, or global in nature.

(b) An environmental review conducted pursuant to subsection (1) may include a review of actual or potential impacts beyond Montana’s borders if it is conducted by:
   (i) the department of fish, wildlife, and parks for the management of wildlife and fish;
   (ii) an agency reviewing an application for a project that is not a state-sponsored project to the extent that the review is required by law, rule, or regulation; or
   (iii) a state agency and a federal agency to the extent the review is required by the federal agency.

(3) The department of public service regulation, in the exercise of its regulatory authority over rates and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

(4) (a) The agency may not withhold, deny, or impose conditions on any permit or other authority to act based on parts 1 through 3 of this chapter.
   (b) Nothing in this subsection (4) prevents a project sponsor and an agency from mutually developing measures that may, at the request of a project sponsor, be incorporated into a permit or other authority to act.
   (c) Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor to modify a proposed project or action.

(5) (a) (i) A challenge to an agency action under this part may only be brought against a final agency action and may only be brought in district court or in federal court, whichever is appropriate.
   (ii) Any action or proceeding challenging a final agency action alleging failure to comply with or inadequate compliance with a requirement under this part must be brought within 60 days of the action that is the subject of the challenge.
   (iii) For an action taken by the board of land commissioners or the department of natural resources and conservation under Title 77, “final agency action” means the date that the board of land commissioners or the department of natural resources and conservation issues a final environmental review document under this part or the date that the board approves the action that is subject to this part, whichever is later.
   (b) Any action or proceeding under subsection (5)(a)(ii) must take precedence over other cases or matters in the district court unless otherwise provided by law.
   (c) Any judicial action or proceeding brought in district court under subsection (5)(a) involving an equine slaughter or processing facility must comply with 81-9-240 and 81-9-241.

(6) (a) (i) In an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency’s decision that an environmental review is not required or a claim that the environmental review is inadequate, the agency shall compile and submit to the court the certified record of its decision at issue, and except as provided in subsection (6)(b), the person challenging the decision has the burden of proving the claim by clear and convincing evidence contained in the record.
   (ii) Except as provided in subsection (6)(b), in a challenge to the agency’s decision or the adequacy of an environmental review, a court may not consider any information, including but not limited to an issue, comment, argument, proposed alternative, analysis, or evidence, that
was not first presented to the agency for the agency’s consideration prior to the agency’s decision or within the time allowed for comments to be submitted.

(iii) Except as provided in subsection (6)(b), the court shall confine its review to the record certified by the agency. The court shall affirm the agency’s decision or the environmental review unless the court specifically finds that the agency’s decision was arbitrary and capricious or was otherwise not in accordance with law.

(iv) A customer fiscal impact analysis pursuant to 69-2-216 or an allegation that the customer fiscal impact analysis is inadequate may not be used as the basis of an action challenging or seeking review of the agency’s decision.

(b) (i) When a party challenging the decision or the adequacy of the environmental review or decision presents information not in the record certified by the agency, the challenging party shall certify under oath in an affidavit that the information is new, material, and significant evidence that was not publicly available before the agency’s decision and that is relevant to the decision or the adequacy of the agency’s environmental review.

(ii) If upon reviewing the affidavit the court finds that the proffered information is new, material, and significant evidence that was not publicly available before the agency’s decision and that is relevant to the decision or to the adequacy of the agency’s environmental review, the court shall remand the new evidence to the agency for the agency’s consideration and an opportunity to modify its decision or environmental review before the court considers the evidence as a part of the administrative record under review.

(iii) If the court finds that the information in the affidavit does not meet the requirements of subsection (6)(b)(i), the court may not remand the matter to the agency or consider the proffered information in making its decision.

(c) (i) The remedies provided in this section for successful challenges to a decision of the agency or the adequacy of the statement are exclusive.

(ii) Notwithstanding the provisions of 27-19-201 and 27-19-314, a court having considered the pleadings of parties and intervenors opposing a request for a temporary restraining order, preliminary injunction, permanent injunction, or other equitable relief may not enjoin the issuance or effectiveness of a license or permit or a part of a license or permit issued pursuant to Title 75 or Title 82 unless the court specifically finds that the party requesting the relief is more likely than not to prevail on the merits of its complaint given the uncontroverted facts in the record and applicable law and, in the absence of a temporary restraining order, a preliminary injunction, a permanent injunction, or other equitable relief, that the:

(A) party requesting the relief will suffer irreparable harm in the absence of the relief;

(B) issuance of the relief is in the public interest. In determining whether the grant of the relief is in the public interest, a court:

(I) may not consider the legal nature or character of any party; and

(II) shall consider the implications of the relief on the local and state economy and make written findings with respect to both.

(C) relief is as narrowly tailored as the facts allow to address both the alleged noncompliance and the irreparable harm the party asking for the relief will suffer. In tailoring the relief, the court shall ensure, to the extent possible, that the project or as much of the project as possible can go forward while also providing the relief to which the applicant has been determined to be entitled.

(d) The court may issue a temporary restraining order, preliminary injunction, permanent injunction, or other injunctive relief only if the party seeking the relief provides a written undertaking to the court in an amount reasonably calculated by the court as adequate to pay the costs and damages sustained by any party that may be found to have been wrongfully enjoined or restrained by a court through a subsequent judicial decision in the case. If the party seeking an injunction or a temporary restraining order objects to the amount of the written undertaking for any reason, including but not limited to its asserted inability to pay, that party shall file an affidavit with the court that states the party’s income, assets, and liabilities in order to facilitate the court’s consideration of the amount of the written undertaking that is required. The affidavit must be served on the party enjoined.
(e) An individual or entity seeking a lease, permit, license, certificate, or other entitlement or authority to act may intervene in a lawsuit in court challenging a decision or statement by a department or agency of the state as a matter of right if the individual or entity has not been named as a defendant.

(f) Attorney fees or costs may not be awarded to the prevailing party in an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3.

(7) For purposes of judicial review, to the extent that the requirements of this section are inconsistent with the provisions of the National Environmental Policy Act, the requirements of this section apply to an environmental review or any severable portion of an environmental review within the state’s jurisdiction that is being prepared by a state agency pursuant to this part in conjunction with a federal agency proceeding pursuant to the National Environmental Policy Act.

(8) The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection (1)(b)(iv) or any recommendation that a determination of significance be made.

(9) A project sponsor may request a review of the significance determination or recommendation made under subsection (8) by the appropriate board, if any. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208.

75-1-202. Agency rules to prescribe fees. Each agency of state government charged with the responsibility of issuing a lease, permit, contract, license, or certificate under any provision of state law may adopt rules prescribing fees that must be paid by a person, corporation, partnership, firm, association, or other private entity when an application for a lease, permit, contract, license, or certificate will require an agency to compile an environmental impact statement as prescribed by 75-1-201 and the agency has not made the finding under 75-1-205(1)(a). An agency shall determine whether it will be necessary to compile an environmental impact statement and assess a fee as prescribed by this section within any statutory timeframe for issuance of the lease, permit, contract, license, or certificate or, if no statutory timeframe is provided, within 90 days. Except as provided in 85-2-124, the fee assessed under this section may be used only to gather data and information necessary to compile an environmental impact statement as defined in parts 1 through 3. A fee may not be assessed if an agency intends only to file a negative declaration stating that the proposed project will not have a significant impact on the human environment.

75-1-203. Fee schedule — maximums. (1) In prescribing fees to be assessed against applicants for a lease, permit, contract, license, or certificate as specified in 75-1-202, an agency may adopt a fee schedule that may be adjusted depending upon the size and complexity of the proposed project. A fee may not be assessed unless the application for a lease, permit, contract,
license, or certificate will result in the agency incurring expenses in excess of $2,501 to compile an environmental impact statement.

(2) The maximum fee that may be imposed by an agency may not exceed 2% of any estimated cost up to $1 million, plus 1% of any estimated cost over $1 million and up to $20 million, plus 1/2 of 1% of any estimated cost over $20 million and up to $100 million, plus 1/4 of 1% of any estimated cost over $100 million and up to $300 million, plus 1/8 of 1% of any estimated cost in excess of $300 million.

(3) If an application consists of two or more facilities, the filing fee must be based on the total estimated cost of the combined facilities. The estimated cost must be determined by the agency and the applicant at the time the application is filed.

(4) Each agency shall review and revise its rules imposing fees as authorized by this part at least every 2 years.

(5) In calculating fees under this section, the agency may not include in the estimated project cost the project sponsor’s property or other interests already owned by the project sponsor at the time the application is submitted. Any fee assessed may be based only on the projected cost of acquiring all of the information and data needed for the environmental impact statement.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(2), (7); amd. Sec. 47, Ch. 112, L. 1991; amd. Sec. 41, Ch. 349, L. 1993; amd. Sec. 1, Ch. 251, L. 2001; amd. Sec. 3, Ch. 396, L. 2011.

75-1-204. Application of administrative procedure act. In adopting rules prescribing fees as authorized by this part, an agency shall comply with the provisions of the Montana Administrative Procedure Act.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(4).

Cross-References
Montana Administrative Procedure Act — adoption and publication of rules, Title 2, ch. 4, part 3.

75-1-205. Collection and use of fees and costs. (1) A person who applies to a state agency for a permit, license, or other authorization that the agency determines requires preparation of an environmental impact statement is responsible for paying:

(a) the agency’s costs of preparing the environmental impact statement and conducting the environmental impact statement process if the agency makes a written determination, based on material evidence identified in the determination, that there will be a significant environmental impact or a potential for a significant environmental impact. If a customer fiscal impact analysis is required under 69-2-216, the applicant shall also pay the staff and consultant costs incurred by the office of consumer counsel in preparing the analysis.

(b) a fee as provided in 75-1-202 if the agency does not make the determination provided for in subsection (1)(a).

(2) Costs payable under subsection (1)(a) include:

(a) the costs of generating, gathering, and compiling data and information that is not available from the applicant to prepare the draft environmental impact statement, any supplemental draft environmental impact statement, and the final environmental impact statement;

(b) the costs of writing, reviewing, editing, printing, and distributing a reasonable number of copies of the draft environmental impact statement;

(c) the costs of attending meetings and hearings on the environmental impact statement, including meetings and hearings held to determine the scope of the environmental impact statement; and

(d) the costs of preparing, printing, and distributing a reasonable number of copies of any supplemental draft environmental impact statement and the final environmental impact statement, including the cost of reviewing and preparing responses to public comment.

(3) Costs payable under subsection (1)(a) include:

(a) payments to contractors hired to work on the environmental impact statement;

(b) salaries and expenses of an agency employee who is designated as the agency’s coordinator for preparation of the environmental impact statement for time spent performing the activities described in subsection (2) or for managing those activities; and

(c) travel and per diem expenses for other agency personnel for attendance at meetings and hearings on the environmental impact statement.
(4) (a) Whenever the agency makes the determination in subsection (1)(a), it shall notify the applicant of the cost of conducting the process to determine the scope of the environmental impact statement. The applicant shall pay that cost, and the agency shall then conduct the scoping process. The timeframe in 75-1-208(4)(a)(i) and any statutory timeframe for a decision on the application are tolled until the applicant pays the cost of the scoping process.

(b) If the agency decides to hire a third-party contractor to prepare the environmental impact statement, the agency shall prepare a list of no fewer than four contractors acceptable to the agency and shall provide the applicant with a copy of the list. If fewer than four acceptable contractors are available, the agency shall include all acceptable contractors on the list. The applicant shall provide the agency with a list of at least 50% of the contractors from the agency’s list. The agency shall select its contractor from the list provided by the applicant.

(c) Upon completion of the scoping process and subject to subsection (1)(d), the agency and the applicant shall negotiate an agreement for the preparation of the environmental impact statement. The agreement must provide that:

(i) the applicant shall pay the cost of the environmental impact statement as determined by the agency after consultation with the applicant. In determining the cost, the agency shall identify and consult with the applicant regarding the data and information that must be gathered and studies that must be conducted.

(ii) the agency shall prepare the environmental impact statement within a reasonable time determined by the agency after consultation with the applicant and set out in the agreement. This timeframe supersedes any timeframe in statute or rule. If the applicant and the agency cannot agree on a timeframe, the agency shall prepare the environmental impact statement within any timeframe provided by statute or rule.

(iii) the applicant shall make periodic advance payments to cover work to be performed;

(iv) the agency may order work on the environmental impact statement to stop if the applicant fails to make advance payment as required by the agreement. The timeframe for preparation of the environmental impact statement is tolled for any period during which a stop-work order is in effect for failure to make advance payment.

(v) (A) if the agency determines that the actual cost of preparing the environmental impact statement will exceed the cost set out in the agreement or that more time is necessary to prepare the environmental impact statement, the agency shall submit proposed modifications to the agreement to the applicant;

(B) if the applicant does not agree to an extension of the time for preparation of the environmental impact statement, the agency may initiate the informal review process under subsection (4)(d). Upon completion of the informal review process, the agreement may be amended only with the consent of the applicant.

(C) if the applicant does not agree with the increased costs proposed by the agency, the applicant may refuse to agree to the modification and may also provide the agency with a written statement providing the reason that payment of the increased cost is not justified or, if applicable, the reason that a portion of the increased cost is not justified. The applicant may also request an informal review as provided in subsection (4)(d). If the applicant provides a written statement pursuant to this subsection (4)(c)(v)(C), the agreement must be amended to require the applicant to pay all undisputed increased cost and 75% of the disputed increased cost and to provide that the agency is responsible for 25% of the disputed increased cost. If the applicant does not provide the statement, the agreement must be amended to require the applicant to pay all increased costs.

(d) If the applicant does not agree with costs determined under subsection (4)(c)(i) or proposed under subsection (4)(c)(v), the applicant may initiate the informal review process pursuant to 75-1-208(3). If the applicant does not agree to a time extension proposed by the agency under subsection (4)(c)(v), the agency may initiate an informal review by an appropriate board under 75-1-208(3). The period of time for completion of the environmental impact statement provided in the agreement is tolled from the date of submission of a request for a review by the appropriate board until the date of completion of the review by the appropriate board. However, the agency shall continue to work on preparation of the environmental impact statement during this period if the applicant has advanced money to pay for this work.
(5) All fees and costs collected under this part must be deposited in the state special revenue fund as provided in 17-2-102. All fees and costs paid pursuant to this part must be used as provided in this part. Upon completion of the necessary work, each agency shall make an accounting to the applicant of the funds expended and refund all unexpended funds without interest.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(5); amd. Sec. 1, Ch. 277, L. 1983; amd. Sec. 2, Ch. 337, L. 2005; amd. Sec. 4, Ch. 469, L. 2007.

75-1-206. Multiple applications or combined facility. In cases where a combined facility proposed by an applicant requires action by more than one agency or multiple applications for the same facility, the governor shall designate a lead agency to collect one fee pursuant to this part, to coordinate the preparation of information required for all environmental impact statements which may be required, and to allocate and disburse the necessary funds to the other agencies which require funds for the completion of the necessary work.

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(6).

75-1-207. Major facility siting applications excepted. (1) Except as provided in subsection (2), a fee as prescribed by this part may not be assessed against any person, corporation, partnership, firm, association, or other private entity filing an application for a certificate under the provisions of the Montana Major Facility Siting Act, Title 75, chapter 20.

(2) The department of environmental quality may require payment of costs under 75-1-205(1)(a) by a person who files a petition under 75-20-201(5).

History: En. 69-6518 by Sec. 1, Ch. 329, L. 1975; R.C.M. 1947, 69-6518(3); amd. Sec. 3, Ch. 337, L. 2005; amd. Sec. 37, Ch. 19, L. 2011.

75-1-208. Environmental review procedure. (1) (a) Except as provided in 75-1-205(4) and subsection (1)(b) of this section, an agency shall comply with this section when completing any environmental review required under this part.

(b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.

(2) (a) Except as provided in subsection (2)(b), a project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency’s environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.

(b) If the primary concern of the agency’s environmental review of a project is the quality or quantity of water, a project sponsor may, after providing a 30-day notice, appear before the water policy committee established in 5-5-231 at any regularly scheduled meeting to discuss issues regarding the agency’s environmental review of the project. The water policy committee shall ensure that the appropriate agency personnel are available to answer questions.

(3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. The written request must sufficiently state the issues to allow the agency to prepare for the meeting. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must sufficiently state the issues to allow the agency and the board to prepare for the meeting.

(4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

(i) 60 days to complete a public scoping process, if any;
(ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) or 75-1-205(4) is required; and
(iii) 180 days to complete a detailed statement pursuant to 75-1-201(1)(b)(iv).

(b) The period of time between the request for a review by a board and the completion of a review by a board under 75-1-201(9) or subsection (10) of this section may not be included for the purposes of determining compliance with the time limits established for conducting an environmental review under this subsection or the time limits established for permitting in 75-2-211, 75-2-218, 75-20-216, 75-20-231, 76-4-125, 82-4-122, 82-4-231, 82-4-337, and 82-4-432.

(5) An agency may extend the time limits in subsection (4) by notifying the project sponsor in writing that an extension is necessary and stating the basis for the extension. The agency may extend the time limit one time, and the extension may not exceed 50% of the original time period as listed in subsection (4). After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.

(6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency’s decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.

(b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

(8) Under this part, an agency may only request information from the project sponsor that is relevant to the environmental review required under this part.

(9) An agency shall ensure that the notification for any public scoping process associated with an environmental review conducted by the agency is presented in an objective and neutral manner and that the notification does not speculate on the potential impacts of the project.

(10) An agency may not require the project sponsor to provide engineering designs in greater detail than that necessary to fairly evaluate the proposed project. The project sponsor may request that the appropriate board, if any, review an agency’s request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(11) An agency shall, when appropriate, evaluate the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through preimpact statement studies, separate impact statement evaluations, or permit processing procedures.

History: En. Sec. 1, Ch. 299, L. 2001; amd. Sec. 4, Ch. 337, L. 2005; amd. Sec. 1, Ch. 366, L. 2009; amd. Sec. 4, Ch. 396, L. 2011; amd. Sec. 3, Ch. 122, L. 2015.

Compiler’s Comments

2015 Amendment: Chapter 122 in (2) at beginning inserted exception clause; inserted (2)(b) concerning the environmental review of a project involving issues of water quality or quantity; and made minor changes in style. Amendment effective March 25, 2015.

Cross-References

Public scoping process defined, 75-1-220.

75-1-209 through 75-1-219 reserved.

75-1-220. Definitions. For the purposes of this part, the following definitions apply:

(1) “Alternatives analysis” means an evaluation of different parameters, mitigation measures, or control measures that would accomplish the same objectives as those included in the proposed action by the applicant. For a project that is not a state-sponsored project, it does not include an alternative facility or an alternative to the proposed project itself. The term includes alternatives required pursuant to Title 75, chapter 20.

(2) “Appropriate board” means, for administrative actions taken under this part by the:
(a) department of environmental quality, the board of environmental review, as provided for in 2-15-3502;
(b) department of fish, wildlife, and parks, the fish and wildlife commission, as provided for in 2-15-3402, and the state parks and recreation board, as provided for in 2-15-3406;
(c) department of transportation, the transportation commission, as provided for in 2-15-2502;
(d) department of natural resources and conservation for state trust land issues, the board of land commissioners, as provided for in Article X, section 4, of the Montana constitution;
(e) department of natural resources and conservation for oil and gas issues, the board of oil and gas conservation, as provided for in 2-15-3303; and
(f) department of livestock, the board of livestock, as provided for in 2-15-3102.
(3) “Complete application” means, for the purpose of complying with this part, an application for a permit, license, or other authorization that contains all data, studies, plans, information, forms, fees, and signatures required to be included with the application sufficient for the agency to approve the application under the applicable statutes and rules.
(4) “Cumulative impacts” means the collective impacts on the human environment within the borders of Montana of the proposed action when considered in conjunction with other past, present, and future actions related to the proposed action by location or generic type.
(5) “Environmental review” means any environmental assessment, environmental impact statement, or other written analysis required under this part by a state agency of a proposed action to determine, examine, or document the effects and impacts of the proposed action on the quality of the human and physical environment within the borders of Montana as required under this part.
(6) “Project sponsor” means any applicant, owner, operator, agency, or other entity that is proposing an action that requires an environmental review. If the action involves state agency-initiated actions on state trust lands, the term also includes each institutional beneficiary of any trust as described in The Enabling Act of Congress, approved February 22, 1899, 25 Stat. 676, as amended, the Morrill Act of 1862, 7 U.S.C. 301 through 308, and the Morrill Act of 1890, 7 U.S.C. 321 through 329.
(7) “Public scoping process” means any process to determine the scope of an environmental review.
(8) (a) “State-sponsored project” means:
(i) a project, program, or activity initiated and directly undertaken by a state agency;
(ii) except as provided in subsection (8)(b)(i), a project or activity supported through a contract, grant, subsidy, loan, or other form of funding assistance from a state agency, either singly or in combination with one or more other state agencies; or
(iii) except as provided in subsection (8)(b)(i), a project or activity authorized by a state agency acting in a land management capacity for a lease, easement, license, or other authorization to act.
(b) The term does not include:
(i) a project or activity undertaken by a private entity that is made possible by the issuance of permits, licenses, leases, easements, grants, loans, or other authorizations to act by the:
(A) department of environmental quality pursuant to Titles 75, 76, or 82;
(B) department of fish, wildlife, and parks pursuant to Title 87, chapter 4, part 4;
(C) board of oil and gas conservation pursuant to Title 82, chapter 11; or
(D) department of natural resources and conservation or the board of land commissioners pursuant to Titles 76, 77, 82, and 85; or
(ii) a project or activity involving the issuance of a permit, license, certificate, or other entitlement for permission to act by another agency acting in a regulatory capacity, either singly or in combination with other state agencies.

75-1-301. Definition of council. In this part “council” means the environmental quality council provided for in 5-16-101.
Cross-References
Qualifications, 5-16-102.
Term of membership, 5-16-103.
Officers, 5-16-105.

75-1-302. Meetings. The council may determine the time and place of its meetings but shall meet at least once each quarter. Each member of the council is entitled to receive compensation and expenses as provided in 5-2-302. Members who are full-time salaried officers or employees of this state may not be compensated for their service as members but shall be reimbursed for their expenses.
History: En. Sec. 10, Ch. 238, L. 1971; amd. Sec. 6, Ch. 103, L. 1977; R.C.M. 1947, 69-6510.

75-1-303 through 75-1-310 reserved.

75-1-311. Examination of records of government agencies. The council shall have the authority to investigate, examine, and inspect all records, books, and files of any department, agency, commission, board, or institution of the state of Montana.
History: En. Sec. 15, Ch. 238, L. 1971; R.C.M. 1947, 69-6515.

75-1-312. Hearings — council subpoena power — contempt proceedings. In the discharge of its duties, the council may hold hearings, administer oaths, issue subpoenas, compel the attendance of witnesses and the production of any papers, books, accounts, documents, and testimony, and cause depositions of witnesses to be taken in the manner prescribed by law for taking depositions in civil actions in the district court. In case of disobedience on the part of a person to comply with a subpoena issued on behalf of the council or a committee of the council or of the refusal of a witness to testify on any matters regarding which the witness may be lawfully interrogated, it is the duty of the district court of any county or the judge of the district court, on application of the council, to compel obedience by proceedings for contempt as in the case of disobedience of the requirements of a subpoena issued from the court on a refusal to testify in the court.
History: En. Sec. 16, Ch. 238, L. 1971; R.C.M. 1947, 69-6516; amd. Sec. 2488, Ch. 56, L. 2009.

75-1-313. Consultation with other groups — utilization of services. In exercising its powers, functions, and duties under parts 1 through 3, the council shall:
(1) consult with such representatives of science, industry, agriculture, labor, conservation organizations, educational institutions, local governments, and other groups as it deems advisable; and
(2) utilize, to the fullest extent possible, the services, facilities, and information (including statistical information) of public and private agencies and organizations and individuals in order that duplication of effort and expense may be avoided, thus assuring that the council’s activities will not unnecessarily overlap or conflict with similar activities authorized by law and performed by established agencies.
History: En. Sec. 17, Ch. 238, L. 1971; R.C.M. 1947, 69-6517.

75-1-314. Reporting requirements. (1) The departments of environmental quality, agriculture, and natural resources and conservation shall biennially report to the council the following natural resource and environmental compliance and enforcement information:
(a) the activities and efforts taking place to promote compliance assistance and education;
(b) the size and description of the regulated community and the estimated proportion of that community that is in compliance;
(c) the number, description, method of discovery, and significance of noncompliances, including those noncompliances that are pending; and

2015 MCA
(d) a description of how the department has addressed the noncompliances identified in subsection (1)(c) and a list of the noncompliances left unresolved.

(2) When practical, reporting required in subsection (1) should include quantitative trend information.

75-1-323. Staff for environmental quality council. The legislative services division shall provide sufficient and appropriate support to the environmental quality council in order that it may carry out its statutory duties, within the limitations of legislative appropriations. The environmental quality council staff is a principal subdivision within the legislative services division. There is within the legislative services division a legislative environmental analyst. The legislative environmental analyst is the primary staff person for the environmental quality council and shall supervise staff assigned to the environmental quality council. The environmental quality council shall select the legislative environmental analyst with the concurrence of the legislative council.

History: En. Sec. 12, Ch. 238, L. 1971; R.C.M. 1947, 69-6512; amd. Sec. 68, Ch. 545, L. 1995.

75-1-324. Duties of environmental quality council. The environmental quality council shall:

(1) gather timely and authoritative information concerning the conditions and trends in the quality of the environment, both current and prospective, analyze and interpret the information for the purpose of determining whether the conditions and trends are interfering or are likely to interfere with the achievement of the policy set forth in 75-1-103, and compile and submit to the governor and the legislature studies relating to the conditions and trends;

(2) review and appraise the various programs and activities of the state agencies, in the light of the policy set forth in 75-1-103, for the purpose of determining the extent to which the programs and activities are contributing to the achievement of the policy and make recommendations to the governor and the legislature with respect to the policy;

(3) develop and recommend to the governor and the legislature state policies to foster and promote the improvement of environmental quality to meet the conservation, social, economic, health, and other requirements and goals of the state;

(4) conduct investigations, studies, surveys, research, and analyses relating to ecological systems and environmental quality;

(5) document and define changes in the natural environment, including the plant and animal systems, and accumulate necessary data and other information for a continuing analysis of these changes or trends and an interpretation of their underlying causes;

(6) make and furnish studies, reports on studies, and recommendations with respect to matters of policy and legislation as the legislature requests;

(7) analyze legislative proposals in clearly environmental areas and in other fields in which legislation might have environmental consequences and assist in preparation of reports for use by legislative committees, administrative agencies, and the public;

(8) consult with and assist legislators who are preparing environmental legislation to clarify any deficiencies or potential conflicts with an overall ecologic plan;

(9) review and evaluate operating programs in the environmental field in the several agencies to identify actual or potential conflicts, both among the activities and with a general ecologic perspective, and suggest legislation to remedy the situations; and

(10) except as provided in 5-5-231, perform the administrative rule review, draft legislation review, program evaluation, and monitoring functions of an interim committee for the following executive branch agencies and the entities attached to the agencies for administrative purposes:

(a) department of environmental quality;

(b) department of fish, wildlife, and parks; and
(c) department of natural resources and conservation.
